ANNUAL TOWN MEETING

Monday Evening, March 7, 1960

Commonwealth of Massachusetts

Plymouth, ss.

Greeting:

To either of the Constables of East Bridgewater,
in the County of Plymouth:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of East Bridgewater qualified to vote in Elections and Town Affairs to meet in the Michael J. McCarthy Auditorium, East Bridgewater High School, in said Town, on Monday evening, March 7, 1960, at 7 p.m., and on Saturday, March 12, 1960, at the Intermediate School Auditorium, for the Election of Town Officers; the polls will be open from 8:00 a.m. to 6:00 p.m.

Then and there to act on the following articles, to wit:

Article 1. Voted: To accept the reports of the Town Officers and Committees as printed in the annual town report, also the verbal report of the East Bridgewater Community Centre Committee, read by the Chairman, Mr. Richard Leland, as follows:

REPORT OF THE COMMUNITY CENTRE COMMITTEE

This Committee was authorized by the voters at the Special Town Meeting held November 5, 1959; and, as voted, our principal function has been "to investigate the possibility of the Town of East Bridgewater operating a Community Centre in the so-called Town Hall building."

Our work has consisted of three major parts:

- (1) investigation of the safety of the Town Hall building,

- (2) estimation of the cost of repairing and reconditioning the Town Hall building,
- (3) determination of the desirability of the Town operating the Town Hall building as a Community Centre by having appropriate articles available for the voters consideration at the annual Town Meeting.

After receiving favorable reports from the State building inspector and Town wiring inspector, we were satisfied that the building was both structurally sound and safe for public use as a Community Centre; we then secured estimates of the cost to recondition and repair the building.

At a joint meeting of the Community Centre Committee, the Board of Selectmen and the Town Counsel, it was decided to insert the following two articles in the warrant for the Annual Town Meeting:

(1) "To see if the Town will vote to raise and appropriate the sum of \$7500.00 to convert the Town Hall property into and operate the same as a Community Centre; said funds to be spent under the jurisdiction of the Board of Selectmen."

(2) "To see if the Town will vote to have a Community Centre Committee of five members under the provisions of General Laws, Ter. Ed., Chapter 45, Section 14, to operate the present Town Hall building as a Community Centre; said Committee to be elected as follows: Two members to be elected for three years, two members for two years and one member for one year, at the Annual Town Meeting in 1961, and thereafter each member to be elected for a three year term."

By the publication of news items, the distribution of a fact sheet and by opening the Town Hall building for public inspection, we have endeavored to keep the citizens of East Bridgewater well informed of our progress and our findings.

It is the recommendation of this Committee that the citizens of East Bridgewater look to the future and accept this opportunity to provide for the continued improvement of our Town.

Respectfully submitted,

THE COMMUNITY CENTRE COMMITTEE

Mr. Richard Leland, Chairman Mrs. Frank Van Ummerson
 Mrs. Richard Alexander, Secy. Mr. Laurence Howard
 Dr. Herbert Butler, Cor. Secy. Mrs. Charles Matthews
 Mr. Robert Gissonna
 Mr. Clarence Anderson (assisting)

Article 2. Voted: To adopt the same method for the collection of taxes as used in the year 1959.

Article 3. Voted: To raise and appropriate the following sums of money for the purposes named, and that pay raises be from January 1, 1960.

Article 7. Voted: To raise and appropriate the sum of \$12,000.00 for the Reserve Fund to be administered during the fiscal year by the Finance Committee, and that to meet said appropriation, a transfer of \$12,000.00 from the Surplus Revenue Account be authorized.

Article 8. Voted: To authorize the Board of Selectmen to enter into a contract with the Department of Public Works and the County Commissioners for the construction and maintenance of public highways for the ensuing year.

Article 9. Voted: To raise and appropriate the sum of \$20,000.00 of which the sum of \$2,452.36 shall be raised in the tax levy of the current year, \$2,547.64 be transferred from the proceeds received from the State under the provisions of Chapter 718 of the Acts of 1956 to meet the Town's share of the cost of Chapter 90 Construction, and that in addition, the sum of \$15,000.00 be transferred from available funds in the Treasury to meet the State's and County's shares of the cost of the work, the reimbursements from the State and County to be restored, upon their receipt, to available funds in the Treasury.

Article 10. Voted: To raise and appropriate the sum of \$3,000.00 of which the sum of \$1,000.00 shall be raised in the tax levy of the current year, and authorize that the balance of \$2,000.00 be transferred from available funds in the Treasury to meet the State's and County's shares of the cost of the work; the reimbursements from the State and County to be restored, upon their receipt, to available funds in the Treasury.

Article 11. Voted: To establish a Stabilization Fund in the amount of \$105,000.00 under the provision of Chapter 40, Section 5B, of the General Laws, and authorize a transfer from Available Funds in this amount is authorized. An amendment voted in the negative to transfer \$105,000.00 from the Available Funds to lower the tax levy for 1960.

Article 12. Voted: To raise and appropriate the sum of \$1,500.00 to purchase a new ambulance type police cruiser, and authorize the Board of Selectmen to trade-in the present cruiser as part of the purchase price.

Article 13. Voted: To raise and appropriate the sum of \$1,500.00 to purchase and equip a boat, motor and trailer for

the use of the Fire Department; said purchase to be under the supervision of the Fire Chief and Board of Selectmen.

Article 14. Voted: To raise and appropriate the sum of \$1,000.00 for emergency mosquito spraying; work to be done under the direction of the Board of Selectmen.

Article 15. Voted: To raise and appropriate the sum of \$1,500.00 to purchase a pick-up truck for the Highway Department.

Article 16. Voted: To raise and appropriate the sum of \$1,500.00 to gravel, oil and seal coat Abbey Lane for a distance of 419.27 feet on the north side and 396.48 feet on the south side.

Article 17. Voted: To raise and appropriate the sum of \$1,000.00 to resurface Water Street by mixed-in-place method.

Article 18. Voted: To raise and appropriate the sum of \$2,300.00 to resurface Central Street from the residence of George Rathbun to the Hanson line by mixed-in-place method.

Article 19. Voted: To raise and appropriate the sum of \$1,100.00 to install a new culvert on Pine Street.

Article 20. Voted: To raise and appropriate the sum of \$600.00 to install two catch basins at the corner of Walnut and Union Streets, East Bridgewater.

Article 21. Voted: To raise and appropriate the sum of \$2,900.00 for drainage projects on Central and Chestnut Streets, viz: two catch basins and 250 ft. of 10-inch pipe installed near the residence of Richard Blackwell on Central Street; one catch basin and 250 ft. 10-inch pipe installed near the residence of Arthur Valliere on Central Street; and 500 ft. 12-inch pipe laid on Chestnut Street.

Article 22. Voted: To raise and appropriate the sum of \$500.00 to purchase and install 100 ft. of 12-inch pipe to

connect the two catch basins near the residence of John Curley on Oregon Street.

Article 23. Voted : To raise and appropriate the sum of \$500.00 to clear out the debris in the Matfield River at the junction of Summer and Pleasant Streets; said work to be done under the jurisdiction of the Board of Selectmen.

Article 24. Voted: To raise and appropriate the sum of \$3,750.00 to lay 750 ft. of 6-inch cement asbestos pipe from Matfield Street to Shawnee Avenue.

Article 25. Voted: To raise and appropriate the sum of \$221.00 to install the following street lights: two lights on Batti Avenue; one light at the corner of West Union Street and Thayer Avenue; one light on Union Street near the residence of Joseph Sprunk; one light on Strong Avenue near the residence of Mary Alden; one light on Washington Street near the residence of Stanley Cobbett; one light on Winter Street near the residence of Gildo Merolli; one light on Central Street near the residence of Joan K. Heede; two lights on Bedford Street, one near the residence of William Handy and one near the residence of Raul Gouvea; two lights on Oak Street, one near the residence of Arthur Graham and one near the residence of Howard McCarthy and one light on Hobart Street near the residence of Richard Reid.

Article 26. Voted: To choose a Town Director, Plymouth County Aid to Agriculture, as provided in Section 41 of Chapter 128, General Laws. Robert Leland was appointed Director, Plymouth County Aid to Agriculture, as per Section 41, Chapter 128, of the General Laws.

Article 27. Voted: To amend the Zoning By-Law Map by changing the following area from a Residence "B" area to an Industrial Area; that parcel of land on the Southerly side of Whitman Street, bounded as follows: Northerly by the Southerly line of Whitman Street 316.12 feet; Westerly by land formerly of Charlotte Newton 170 feet; Southerly by the

Satucket River 210 feet, and Easterly by land of the Murray Co. of Texas (now an Industrial Area) 228 feet.

Yes 298 No 0

Article 28. To see if the Town will vote to raise and appropriate the sum of \$7,500.00 to convert the Town Hall property into and operate the same as a Community Centre; said funds to be spent under the jurisdiction of the Board of Selectmen.

Voted in the negative.

Article 29. To see if the Town will vote to have a Community Centre Committee of five members under the provisions of General Laws, Ter. Edition, Chapter 45, Section 14, to operate the present Town Hall Building as a Community Centre; said Committee to be elected as follows: two members to be elected for three years; two members for two years and one member for one year, at the Annual Town Meeting in 1961, and thereafter each member to be elected for a three year term.

No action taken.

Article 30. To see if the Town will vote to authorize the Board of Selectmen to sell the Town Hall property at Public Auction.

Motion made to table this article.

Motion made and voted in the negative to sell the Town Hall building for \$10,000.00 and for the Town to retain the land.

Article 32. Voted: To transfer from Surplus Revenue the sum of \$25,000.00 to be applied against the current year's tax levy.

Article 33. Voted: To raise and appropriate the sum of \$1,100.00 to raise the top of the backstop at Strong's Field;

said work to be done under the supervision of the Park Commissioners.

Article 34. Voted: To raise and appropriate the sum of \$300,000.00 for the purpose of constructing and originally equipping and furnishing an addition to the Central Grade School Building, and that to meet said appropriation the sum of \$100,000.00 be transferred from the Stabilization Fund and that the Treasurer, with the approval of the Selectmen be and hereby is authorized to borrow the sum of \$200,000.00 under authority of Chapter 645 of the Acts of 1948, as amended, and to issue bonds or notes of the Town, therefor payable in accordance with the provisions of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than ten years from the date of issue of the first bond or note and that the School Building Committee appointed under Article 2 of the warrant for the Town Meeting held December 14, 1959, be empowered to enter into all contracts and agreements necessary to construct, equip and furnish the addition.

Yes 121 No 14

Amendment made and voted in the negative to see if the Town will instruct the School Planning and Building Committee, appointed Dec. 14, 1959, to obtain preliminary plans and estimates for the addition of six classrooms to the Central Grade School; said plans to receive at least tentative approval of the Massachusetts School Assistance Commission before being presented to the town for further action, and that said Committee be empowered to enter into all such contracts and agreements necessary for the procurement of such plans and estimates.

Meeting adjourned at 11:00 p.m.

The following tellers were appointed by the Moderator: Philip Carey, left; Robert Hall, left; Frank Hall, center; Ralph Keith, center; David Sullivan, right; Clyde Wilson, right.

A true record. Attest:

GEORGE J. FRAHAR,
Town Clerk.

ANNUAL TOWN ELECTION

March 12, 1960

A legal meeting of the Town of East Bridgewater was held at the Intermediate School Auditorium on Saturday, March 12, 1960, under a warrant issued by the Selectmen and dated February 23, 1960, to bring in their votes for the election of town officers.

Specimen ballots, penalty and instruction cards were posted, all requirements of the law were observed. The polls were declared open by the Moderator, Forest W. Cousins, at 8:00 a.m.

Two sealed cases said to contain the ballots were delivered to the ballot clerk. The following checkers, constable, and tellers were sworn to faithful performances of their duties by the Town Clerk, George J. Frahar.

Constable

Leonard Shepard

SPECIAL TOWN MEETING

Monday Evening, April 25, 1960

A legal meeting of the inhabitants of the Town of East Bridgewater, qualified to vote in election and town affairs, was held in the Michael J. McCarthy Auditorium at the East Bridgewater High School, April 25th, Monday evening, at 8 o'clock. Under warrant issued by the Selectmen and dated April 18th, 1960. The meeting was called to order by the Moderator, Forest W. Cousins.

The Warrant and Constable's Return was read by the Town Clerk, George J. Frahar. The following action was taken upon the articles in the warrant.

Article 1. Voted: To raise and appropriate the sum of \$1,650.00 to purchase the present Police Cruiser, and to meet said appropriation, the transfer of the sum of \$1,650.00 from available funds in the treasury be authorized; said purchase to be under the jurisdiction of the Board of Selectmen.

A unanimous vote.

Article 2. Voted: To raise and appropriate the sum of \$600.00 to purchase and install a new radio for the Police Ambulance Cruiser, and to meet said appropriation the transfer of the sum of \$600.00 from available funds in the treasury be authorized.

A unanimous vote.

Article 3. Voted: To raise and appropriate the sum of \$425.00 to change over the Police Radio system to comply with the new regulations of the Federal Communications Commission, and to meet said appropriation the transfer of the sum of \$425.00 from available funds in the treasury be authorized.

A unanimous vote.

Article 4. Voted: To authorize the "World War II and Korean Conflict Memorial Committee" to purchase an electric organ with a suitable plaque thereon to be installed in the East Bridgewater High School, Michael J. McCarthy Auditorium, as a memorial to the Veterans of World War II and the Korean Conflict, in place of a bronze plaque or plaques as previously authorized.

A unanimous vote.

Voted to adjourn at 8:07 P.M.

A true copy. Attest:

GEORGE J. FRAHAR,
Town Clerk.

Philip Carey was appointed in place of Robert Hall who resigned. Due to the death of Mrs. Ethel Chandler, Robert Eastman was appointed by the Moderator, Forest Cousins, to the "World War II and Korean Conflict Memorial Committee."

PRESIDENTIAL PRIMARY

April 26, 1960

The Presidential Primary was held in the East Bridgewater Intermediate School on Tuesday, April 26, 1960, under a warrant issued by the Selectmen, and dated April 18th, 1960, from 2:00 P.M. to 8:00 P.M. The following were sworn to the faithful performance of their duties by the Town Clerk.

Constable
Leonard Shepard

GEORGE J. FRAHAR,
Town Clerk.

STATE ELECTION

November 8, 1960

Proceeding:

A legal meeting of the inhabitants of the Town of East Bridgewater was held in the East Bridgewater High School Cafeteria, on Tuesday, Nov. 8, 1960, at 8 a.m. until 8 p.m., under a warrant issued by the Selectmen and dated Oct. 24, 1960, to bring in their votes on one ballot to the Election Officers for the election of candidates.

Penalty cards, instruction cards and specimen ballots were posted and all other requirements of the law observed.

Four cases said to contain 3,319 ballots for the election were delivered to the Ballot Clerk, Miss Margaret McCarthy, and a receipt thereof obtained.

Men's Ballot Box registered 1,377 which included 20 War Ballots and 37 Regular Absentee Ballots. The Women's Ballot Box registered 1,454, which included 7 War Ballots and 40 Regular Absentee Ballots, making a total of 2,831 ballots cast.

The Ballot Boxes were opened at 1:15 p.m. and 4 p.m. for the removal of ballots.

The following election workers were sworn to the faithful performance of their duties by the Town Clerk, George J. Frahar.

SPECIAL TOWN MEETING

A legal meeting of the inhabitants of the Town of East Bridgewater, qualified to vote in elections and town affairs, was held in the Selectmen's Office in the Town Office Building, Dec. 27th, 1960, Tuesday evening, at 7:30 p.m., under warrant issued by the Selectmen and dated Dec. 19, 1960. The meeting was called to order by the Moderator, Forest W. Cousins.

The warrant and constable's return were read by the Town Clerk, George J. Frahar. The following action was taken upon the articles in the warrant.

Article 1. Voted: To transfer the sum of \$500.00 from the Tree Department Account to the Snow Removal Account.

A unanimous vote.

Article 2. Voted: To transfer the sum of \$500.00 from Title Examination, Northville School Account, to the Snow Removal Account.

A unanimous vote.

Article 3. Voted: To transfer the sum of \$500.00 from Title Examination, Beaver School Account, to the Snow Removal Account.

A unanimous vote.

Article 4. Voted: To transfer the sum of \$1,054.09 from the Blanket Insurance Account, to the Snow Removal Account.

A unanimous vote.

Article 5. Voted: To raise and appropriate the sum of \$2,500.00 for the Snow Removal Account, and to meet said appropriation a transfer of \$2,500.00 from available funds in the treasury be authorized.

A unanimous vote.

Article 7. Voted: To raise and appropriate the sum of \$1,400.00 to pay Mr. Philip Nesseralla as a reimbursement for the sum paid to the Town of East Bridgewater as the purchase price for a parcel of land which was later discovered not to be the property of the Town, and to meet said appropriation a transfer of \$1,400.00 from available funds in the treasury be authorized.

A unanimous vote.

Article 7. Voted: To authorize the Board of Selectmen to grant to the Town of Bridgewater, the right to lay water

pipes in West Pond Street, from Plain Street, Bridgewater, in an easterly direction for a distance of 1500 feet.

A unanimous vote.

Voted: To adjourn at 7:45 p.m.

A true record. Attest:

GEORGE J. FRAHAR,
Town Clerk.

YOUR ATTENTION IS CALLED TO THE FOLLOWING

All persons are respectfully requested to examine the following reports of births, marriages and deaths and report to the Town Clerk any errors or omissions that may be discerned therein, so that the records may be corrected. An error in the record, other than a mistake in copying a certificate or return, can be corrected only in accordance with a deposition under oath made by one who is required by law to furnish the information for the original record or by one or more creditable persons having knowledge of the case. (See General Laws, Chapter 46, Section 13, as amended.)

Births occurring late in the year are sometimes returned without the Christian name. In such cases parents should return the name to the Town Clerk as soon as selected, as incompleteness of the record may occasion trouble in the future.

Attention is particularly called to the following extracts from the General Laws:

GENERAL LAWS, CHAPTER 46

Section 1. Each city and town clerk shall receive or obtain and record . . . facts relative to the births . . . in his city or town.

Section 3. Every physician or medical officer registered shall keep a record of the birth of every child in cases of which he was in charge and . . . shall, within fifteen days after such birth, mail or deliver to the clerk or registrar of the town where such birth occurred, a report . . . if the child is illegitimate, the name and other facts relating to the father shall not be stated except at the request in writing of both

father and mother filed . . . A physician or any such officer violating any provision of this section shall forfeit not more than twenty-five dollars.

Section 4. Any member or servant of a family in which a child is born, having knowledge of the facts required . . . shall furnish the same upon request of the clerk of the town . . . or of any person authorized by him. (Penalty for refusing, not more than ten dollars.)

Section 6. Parents within forty days after the birth of a child, and every householder within forty days after a birth in his house shall cause notice thereof to be given to the clerk of the town where such a child is born.

GENERAL LAWS, CHAPTER 207

Section 36. If a marriage is solemnized in another state between parties living in this Commonwealth, who return to dwell here, they shall within seven days after their return, file with the clerk or registrar of the town where either of them lived at the time of their marriage, a certificate or declaration of their marriage including the facts required in a notice of intention of marriage.

Section 55. Whoever violates Section 36 shall forfeit ten dollars.

The Town Clerk hereby gives notice that he is prepared to furnish parents, householders, physicians and registered hospital medical officers applying therefor, with blanks for return of birth as required by law.

GEORGE J. FRAHAR, Town Clerk.

OFFICE OF TOWN CLERK

The attention of owners and keepers of dogs is called to the following extracts from Chapter 140 of the General Laws as amended:

Definition: "Licensed period," the time between April first and the following March thirty-first, both dates inclusive.

Section 137. A person who at the commencement of a license period is, or who during any license period becomes the owner or keeper of a dog when it becomes three months old during a license period, shall cause it to be registered, numbered, described and licensed until the end of such license period, and the owner or keeper of a dog so registered, numbered, described and licensed during any license period, in order to own or keep such dog after the beginning of the succeeding license period, shall, before the beginning thereof, cause it to be registered, numbered, described and licensed for such period.

The license shall be in a form prescribed by the director, upon a blank to be furnished — by the county in which the town is located, and shall be subject to the conditions expressed therein that the dog which is the subject of the license shall be controlled and restrained from killing, chasing or harrassing live stock or fowls. The owner or keeper of a licensed dog shall cause it to wear around its neck or body a collar or harness of leather or other suitable material, to which shall be securely attached a tag in a form prescribed by the director, and upon which shall appear the license number, the name of the town issuing such license and the year of issue. Such tags shall be furnished in the same manner as the license blanks, and if such tag shall be lost the owner or keeper of such dog shall forthwith secure a substitute tag from the town clerk.

Section 139. Fees for licenses. The fee for every license shall, except as otherwise provided, be two dollars for a male

dog and five dollars for a female dog, unless a certificate of a registered veterinarian who performed the operation that said female dog has been spayed and has thereby been deprived of the power of propagation has been filed with the town clerk, in which case the fee shall be two dollars. A certified copy of such certificate on file in the office of any town clerk within the Commonwealth may be accepted as evidence that the said operation has been performed.

GEORGE J. FRAHAR,
Town Clerk.

MARRIAGES RECORDED IN EAST BRIDGE- WATER FOR 1960

- Jan. 10 — Raymond R. Kendall, Jr. of East Bridgewater and Virginia Fortier of Brockton.
- Jan. 10 — Walter Gourdin of East Bridgewater and Dorothy Wise of Brockton.
- Jan. 16 — George A. Hirtle of East Bridgewater and Joyce T. Clark of Rockland.
- Jan. 21 — Everett C. Davenport of East Bridgewater and Gwendolyn D. Copeland of East Bridgewater.
- Jan. 22 — George S. Hill of East Bridgewater and Claire Marble of Brookville.
- Jan. 23 — Galen Rodney Shafer of Idaville, Indiana, and Paula Christine Mathews of East Bridgewater.
- Jan. 30 — Jere T. Holloway of Trimble, Tenn., and Elizabeth C. Cavanagh of East Bridgewater.
- Feb. 20 — William Henry Olson of East Bridgewater and Christine Edith Degnan of Orleans.
- Feb. 20 — John F. Kenneally of East Bridgewater and Elizabeth Ann Oxner of Milton.
- Feb. 21 — Chester L. Vogler of Buzzards Bay and Elizabeth A. Conti of East Bridgewater.
- Feb. 27 — Alan J. Beardsley of East Bridgewater and Patricia A. Doiran of Rockland.
- Feb. 28 — Donald R. Heath of East Bridgewater and Louise I. Connell of Brockton.
- Feb. 28 — Royle Ober Austin of Mansfield and Nora M. Francis of East Bridgewater.
- March 19 — John W. Satkiewicz of East Bridgewater and Carol Ann Patten of Stoughton.
- April 2 — Richard Whitmarsh of East Bridgewater and Jean Sawyer of East Bridgewater.

- April 10 — Alan S. Wilbur of East Bridgewater and Pauline E. Murphy of Whitman.
- April 10 — Roy M. Keene of Hanson and Janet M. Veronesi Piper of East Bridgewater.
- April 17 — Willard A. Morse, Jr. of East Bridgewater and Dorothy A. Tingley of West Bridgewater.
- April 25 — Eligio J. Malaguti of East Bridgewater and Elizabeth M. Caffelle Olson of Brockton.
- May 9 — Francis C. Winnett of East Bridgewater and Patricia A. Stride of East Bridgewater.
- May 13 — Henry A. Newell of Avon and Ethel M. Kelley of East Bridgewater.
- May 15 — Alfred M. Pistoresi of Rockland and Lois S. Cicone of East Bridgewater.
- May 15 — James W. Johnson of Boston and Constance M. Dougherty of East Bridgewater.
- May 21 — James R. McGee of Philadelphia, Pa., and Gertrude L. Boutiette of East Bridgewater .
- June 18 — James A. Luce of East Bridgewater and Carol J. Riddell of West Bridgewater.
- June 18 — Robert Lawrence Prescott of Brockton and Hazel Eileen Perkins of East Bridgewater.
- June 19 — Walter N. Backstrom of Brockton and Helen D. Bogarcho of East Bridgewater.
- June 26 — Richard John Grabau of East Bridgewater and Diane Cecelia Langille of North Quincy.
- July 2 — Edward Rose of Bridgewater and Irene McLaughlin of East Bridgewater.
- July 3 — James W. Davey of Avon and Gloria P. Cormier of East Bridgewater.
- July 5 — Arthur C. Stinchfield of East Bridgewater and Catharine Marble of West Bridgewater.

July 22 — Gordon W. Mitchell of East Bridgewater and Susan Fisher of East Bridgewater.

July 28 — Richard P. Groom of East Bridgewater and Claire A. Miett of Brockton.

Aug. 6 — Robert Earle Dougherty of East Bridgewater and Martha Phyllis Flint of West Medford.

Aug. 6 — Robert Beldon Fitch of East Bridgewater and Joanne Jensen of Belmont.

Aug. 14 — Paul Francis Bukunt of Brockton and Janice Louise Walsh of East Bridgewater.

Aug. 14 — James W. Parmenter of Middleboro and Janet E. Bouchard of Bridgewater.

Aug. 20 — Robert M. Jarvis of East Bridgewater and Mary L. Moore of Bridgewater.

Aug. 21 — Bruce Peter Boni of East Bridgewater and Patricia Corey of East Bridgewater.

Aug. 26 — Gordon Mantell of East Bridgewater and Martha Gilman Tufts of Bridgewater.

Sept. 3 — John P. Yasonis, Jr. of East Bridgewater and Barbara Fratus of Easton.

Sept. 3 — Lester Norris Cloudman, Jr. of East Bridgewater and Nellie Josephine McLeod of Bridgewater.

Sept. 3 — Richard B. Blackwell of East Bridgewater and Arlene G. Leonard of East Bridgewater.

Sept. 4 — John H. Boelsma of East Bridgewater and Margaret Murphy of West Bridgewater.

Sept. 10 — Leslie Harlow Leland of East Bridgewater and Donna Richmond Whiting of East Bridgewater.

Sept. 10 — Philip E. Neely of East Bridgewater and Cynthia Ella Paskey of West Bridgewater.

Sept. 18 — William Edward Earle of East Bridgewater and Judith Agnes Cary of Brockton.

- Oct. 3 — Fred O. Fowler, III, of East Bridgewater and Virginia Delasignor of Brockton.
- Oct. 8 — Peter P. Zak, Jr., of East Bridgewater and Helen J. Perry of Bridgewater.
- Oct. 9 — Donald F. Cicone of East Bridgewater and Barbara L. Nash of Brockton.
- Oct. 16 — John F. Williams, Jr. of Brockton and Virginia Marie Ann Cormier of East Bridgewater.
- Oct. 22 — Gregory J. Luke of Westwood and Antoinette Anne Liszewski of East Bridgewater.
- Oct. 23 — George A. Connell of Brockton and Virginia Paiva of East Bridgewater.
- Oct. 27 — Carlos R. Morales of Taunton and Jenny Burgess of East Bridgewater.
-
- Nov. 5 — Richard E. Woodard of East Bridgewater and Evelyn Rose Leganowicz of East Bridgewater.
- Nov. 11 — William P. Atwood of East Bridgewater and Ellen A. Lively of Holbrook.
- Nov. 19 — William Thomas Luddy of East Bridgewater and Delia Anne Frabetti of East Bridgewater.
- Nov. 20 — Joseph Albert Brassard of Carver and Clara Marie Furia Howe of East Bridgewater.
- Nov. 26 — Ronald W. Thrasher of East Bridgewater and Joan M. Boyd of West Bridgewater.
- Nov. 26 — Stuart F. Bonney of Hermiston, Oregon, and Genevieve Janet Kelley of Danforth, Maine.
- Nov. 27 — Francis S. Hunnewell, Jr. of East Bridgewater and Elizabeth Ann Polmonari of Canton.
-
- Dec. 2 — Daniel M. Carroll of South Weymouth and Mary M. Frye Ahern of East Bridgewater.
- Dec. 2 — Edmund Leslie Monahan of Agawam and Sandra Lee Stewart of Springfield.

- Dec. 3 — Forrest H. Damon of East Bridgewater and Doris B. Smith of East Bridgewater.
- Dec. 9 — Charles Paulino of Canon City, Colorado, and Sally Beardsley of East Bridgewater.
- Dec. 16 — Gordon Harry Harmon of East Bridgewater and Hazel L. Eaton of East Bridgewater.
- Dec. 16 — Roger A. Turski of East Bridgewater and Barbara A Frazier of Middleboro.
- Dec. 29 — Charles Paul Marchetti of Medford and Sonja Helga Langwa of East Bridgewater.
- Dec. 30 — Richard L. Sylvester, Jr. of North Abington and Carol Morey of East Bridgewater.
- Dec. 31 — David Paul Bergquist of East Bridgewater and Jacqueline Joncas of Bridgewater.

Report of the Board of Selectmen

To the Citizens of the Town of East Bridgewater :

We are pleased to submit a report covering some of the major activities and improvements which have taken place during the year 1960.

After the Town Elections in March, the necessary appointments were made for the ensuing year. All complaints received were thoroughly investigated, and after negotiating with the Eastern States Steel Corporation in regard to the condition of their stockpile of scrap steel, they agreed to lower same and also put up a fence along the sidewalk as a safety measure. The Town is continuing to grow as evidenced by the fact that the Board issued 101 Building Permits during the past year.

The year 1960 also brought about several changes among Town Officials, viz: May 24, 1960, marked the passing of Mr. M. Clifton Edson, a Library Trustee since 1937; Mr. Charles W. Waterman who served as a member of the Board of Registrars for 53 years, passed away on July 8, 1960; Mr. Robert M. Jarvis, a member of the Finance Committee since 1949, resigned on Aug. 17, 1960, as he was no longer a resident of this Town; and Mr. James O'Brien who served as a member of the Board of Registrars for 56 years, passed away on Oct. 17, 1960. All of the above mentioned gave willingly of their time and performed their duties faithfully.

As voted by the townspeople at the Annual Town Meeting, a new ambulance type cruiser was purchased for use of the Police Department, and later the townspeople voted to retain the present police cruiser instead of trading it in. We believe all will agree that both cruisers have been put to good use during the past year, thereby giving the citizens adequate police protection at all times.

The project of renovating some of the offices at the Town Office Building was continued this year. Four offices were re-

decorated and also two hallways. We sincerely hope our maintenance funds will allow us to continue this work in the coming year as it is very badly needed.

As required by the Massachusetts statutes, the boundary lines of the town must be perambulated every five years for an examination of the lines and corner stones. This was done in 1960 with the Selectmen of the Towns of Bridgewater, Halifax, Hanson, West Bridgewater, Whitman and the City of Brockton.

The Chapter 90 Highway Construction work was again continued on Washington Street this year. As the Foxboro Company has started construction of their factory and expect to be in operation in early 1961, the Board petitioned the Plymouth County Commissioners to lay out Highland Street with the hope of rebuilding that street with Chapter 90 Funds in 1961. The distance to be covered will depend on the amount of allotment we receive as the State's and County's share.

The Board has received several complaints regarding missing or damaged street signs throughout the town. In order to correct this situation, we plan to replace the present wooden signs with new metal signs and posts. This project will be started in 1961 with funds allotted for this purpose, and hope to cover the entire town within the next two or three years.

On September 12, 1960, "Hurricane Donna" struck and left damage estimated at hundreds of thousands of dollars. Due to the high wind, telephones were out of order, windows blown in, trees felled and most of the town was without lights and electricity due to trees falling on the power lines. On behalf of all the townspeople, we wish to publicly express our appreciation of the splendid cooperation of all who helped in protecting life and property throughout the storm. We also wish to mention the following Town Departments, viz: Police Department, Highway Department, Tree Department, Civil Defense, Fire Department and Water Department, who worked day and night until the emergency was under control.

Summary of fees collected by the Selectmen's office during
1960:

3 Club License — all alcoholic @ \$300.00	\$900.00
3 Package Store Licenses — All alcoholic @ \$200.00	600.00
1 Package Store License — malt and wine @ \$200.00	200.00
3 Common Victular and all alcoholic license @ \$300.00	900.00
1 Class 1 — Seller's License @ \$25.00	25.00
6 Class 2 — Used Car Dealer's License @ \$10.00	60.00
1 Class 3 — Motor Vehicle Junk License @ \$10.00	10.00
10 Common Victular's License @ \$2.00	20.00
11 Sunday License @ \$5.00	55.00
2 Slaughter License @ \$1.00	2.00
2 Taxi License @ \$6.00	12.00
101 Building Permits @ \$1.00	101.00
Refund advertising fees paid for Public Hearings, etc.	100.75
Balance of purchase price of Beaver School property sold at Public Auction on Dec. 28, 1959	1,620.00
Received from sale of wood from George Washington Bicentennial Forest	175.95
Amount remitted to Town Treasurer	<hr/> \$4,781.70

The Board of Selectmen wish to extend a warm welcome to all the new citizens of the town. The Board meets every Monday evening from 7:30 p.m. to 10 p.m. and will schedule

special meetings to discuss specific problems with the townspeople upon request.

The Selectmen wish to express their sincere appreciation for the friendly cooperation which they have received from all Town officials, employees and townspeople during the past year.

Respectfully submitted,

GEORGE A. RIDDER,
CHARLES L. LELAND,
JAMES E. O'BRIEN,
Board of Selectmen.

Report of the Chief of Police

To the Honorable Board of Selectmen:

The following is the report of activities of the Police Department for the year ending December 31, 1960:

Crime Against Person:

Assault and Battery	3
---------------------	---

Crime Against Property:

Breaking and entering during the night-time	8
Breaking and entering during the day-time	2
Larceny (Money)	3
Larceny—Motor Vehicles (In Town)	1
Stolen cars recovered	3
Larceny by check	4
Malicious damage to property	12

Crime Against Public Order:

Disturbing the peace	18
Drunkenness	16

Violation of Motor Vehicle Laws:

Speeding	140
Operating to endanger	80
Operating under the influence of liquor	40
Operating not being licensed	12
Accidents investigated	48
Accidents not investigated—reports submitted	20

As voted by the townspeople at the Annual Town Meeting, we were able to purchase a new ambulance type cruiser for use of the Police Department, and I am pleased to report that it has become invaluable in cases of accidents and emergencies. There were 40 trips made to local hospitals in the new ambulance as a result of accidents or sickness, and with the ever increasing number of traffic accidents, it is imperative that immediate facilities be available to take care of the

injured. The time element, which is important in heart attacks and other illnesses, has been greatly reduced by procurement of this vehicle. I feel that this ambulance has greatly aided in the protection and welfare of the townspeople, and the overall efficiency of this department.

With the addition of a third patrolman to the Department, it was made possible to extend the night detail into the early morning hours, and has curtailed the crime rate from the previous year.

At 8:00 a.m. on September 12, 1960, after receiving confirmation that a hurricane would definitely hit this area, I made preparations to operate on an emergency basis. A portable generator was obtained and installed in the Police Station to enable us to operate the police radio and department lights in case of power failure. All members of the Police Department were notified to report for duty at 12 noon, and each man was assigned to a strategic position throughout the town. Mr. Goldman, School Superintendent, was called and the High School was set up as an emergency shelter. At 3 p.m. the height of the hurricane hit the town and from that time until 3 a.m. the next morning, police officers worked constantly cutting trees and clearing roads to make them passable for fire trucks and emergency equipment. Two of the officers had chain saws, while the remainder were equipped with axes; high tension wires, knocked down by falling branches and trees, were carefully guarded to prevent personal accidents. At 5 p.m. the Civil Defense moved into the police station and both police and civil defense communications were sent out from the police station by Patrolman Henry B. Belcher. At 3:30 a.m. on Sept. 13, 1960, after 24 hours of continuous duty, I discharged some of the men. All roads at that time were cleared for travel, and a portion of the town was still without electricity.

I would like to take this opportunity of thanking the townspeople, town employees, Civil Defense personnel, and the Board of Selectmen for the valuable cooperation and untiring

efforts during the time of this disaster. Without their help the efforts of this department would have been in vain.

The increase in population in 1960 was greater than in 1959, and if the increase continues at its present rate through 1961, I feel that the addition of another permanent patrolman to this department is essential for adequate protection of the townspeople. Due to the increase in crime among juveniles, I feel it would also be a means of greater protection for our youngsters.

I would like to take this opportunity to remind persons leaving their homes vacant for a vacation trip or other reasons, please notify the Police Department in order that we may watch same.

In closing, I wish to thank all members of my Department, Board of Selectmen, Town Officials and townspeople, for the courtesy and cooperation extended to me during the past year.

Respectfully submitted,

WALTER A. BENOIT,
Chief of Police.

Report of the Tree Warden

To the Residents of East Bridgewater:

In early September of 1960 the town encountered a damaging hurricane. This storm, though not as disastrous as the previous hurricane of 1954, was nevertheless distrustful. During the hurricane and the weeks following, the Tree Department was at its peak of activity working; first, to keep all streets in the town passable for traffic; second, in co-operation with local power companies to restore electric power and telephone service; and third, to completely remove fallen trees and restore damaged trees to as near normal as possible. As a result of the hurricane, 22 large town trees were partly or completely uprooted and were removed, including the stumps. Approximately 10 additional town trees were so badly affected by the storm that these also had to be removed because of the danger to life and/or property. Many other town trees, especially Maples, had broken and hanging limbs removed. In the coming year numerous trees along the town streets will be pruned, cabled, and braced because of damage from the hurricane.

During the year, 59 trees were removed, excluding hurricane damaged trees. The Dutch Elm Disease, though not as prevalent as previous years, but still evident, claimed 45 Elms, while 14 trees of other varieties were removed for various practical and important reasons. In order to replace the trees removed and also to enhance open areas along the streets, a total of 100 trees; Norway and Sugar Maples, three varieties of Red Maples, and Mountain Ash, were replanted along the various town streets and around two of the public schools. This was an increase of about 20% over last year's replanting program. One-third of these trees were obtained from the town nursery and the remainder were of quality stock purchased from a reputable outside nursery.

During the summer the town nursery was periodically cultivated, pruned, and fertilized. Approximately 200 trees,

of various sizes and varieties, were purchased and planted in the nursery bringing the total number of trees planted on this site to about 800. The type of trees now located on this plot include Norway and Sugar Maple, three varieties of Red Maples, Littleleaf Linden, Mountain Ash, Locust, Hawthorn, and Dogwood.

The early winter of 1960 found the Tree Department again at work in the Town Forest located on Bridge Street. Approximately four acres were systematically thinned of weed trees under the guidance of the State Forester. The timber that has been cut from this site over the past two years has been sold by the town and the money from these sales has been deposited in a separate fund for the further development of the Town Forest. A total of approximately eight acres, to date, has been cleaned and thinned on this plot and is ready for future use. Camping activities were carried on during the past summer by local Boy Scout and Girl Scout troops and the department hopes to be able to open this area, in the near future, to the townspeople for picnicing.

I wish to express my heartfelt thanks to the many people who have aided me in the past year, especially during the recent hurricane, and to express a special thanks to my workmen, other town departments, and the townspeople for their assistance, co-operation, and understanding.

Respectfully submitted,

AUGUST J. DUBE, JR.,

Tree Warden.

Report of the Moth Department

To the Board of Selectmen and the Residents
of East Bridgewater :

The Moth Department, during the year of 1960, performed its usual duties of tree spraying and poison ivy control with good results. Mosquito control, although handled capably by the Plymouth County Mosquito Control Project, was also done by this department in a few badly infested sections of the town in conjunction with tree spraying and in co-operation with the above project.

The Plymouth County Mosquito Control Project, operating for the third year, handled the mosquito problem in the town. This organization is constantly working to control this pest. In the fall many ditches and brooks are cleaned to permit the steady flow of water thereby eliminating breeding places. During the winter months the ice of the swamps is dusted to kill the mosquito larvae after the ice melts. The spring and summer months are spent aerial and truck spraying in swampy areas, along the streets, and in other heavily infested sections to kill the adult mosquito. This project has progressed in the past, as it will in the future, and the Moth Department will co-operate, to the fullest extent, in the coming year with this organization.

A general foliage spray was applied to the town trees during June and July in an effort to combat many tree insects. This spraying, hampered on many occasions in the past by unfavorable weather conditions, has still been of great benefit. The Dutch Elm Disease, although still prevalent, has been on the decrease for the past two years which, I feel, is due partly to these spraying operations which will continue, when possible, in the coming year.

Poison ivy spraying became a major part of our operations during the summer months. Spraying was done along the streets, and, in many cases, on private property which is

allowed by state law. The department asks that the public requests poison ivy spraying on private property only when absolutely necessary so that a greater effort may be used to rid the roadsides and sidewalks of this nuisance.

I wish to express my sincere appreciation to my capable workmen, other town departments, and the townspeople for their co-operation, assistance, and understanding in my work during the past year.

Respectfully submitted,

AUGUST J. DUBE, JR.,
Moth Superintendent.

Report of the Inspector of Animals

Honorable Board of Selectmen:

Gentlemen:

During the year 1960 I have inspected 576 head of interstate cattle. All cattle in this town have been tested by State and Federal agents for Tuberculosis with no reactors. They have also tested all cattle for Brucellosis with less than one per cent reacting.

On my annual barn inspection, I found them to be in satisfactory condition with one less herd than last year.

Respectfully submitted,

HARRY W. KINGMAN, D.V.M.,
Inspector of Animals.

Plymouth County Mosquito Control Project

In reporting on your project's activities in 1960, our third year of operation, we are happy that many of our preliminary efforts of the first two seasons are now producing good control in many breeding wetlands.

A number of factors have contributed to this season's control: 1. The increased efficiency of the field men as a result of two or more years of training and experience. 2. In all towns, one or more of the most prolific breeding areas adjacent to the population centers have been eliminated by a drainage program, effected by our power trencher. 3. While rainfall was normal during the past summer, we had lengthy periods between rains, thus giving insecticide adequate time to halt the development of mosquito larvae. 4. Little or no expenditures toward new equipment were necessary this year, this allowed additional monies toward the control work.

In the past season, we again suffered through a heavy population of the first spring brood of mosquitoes, this being a specie that produces but one brood per season. They start hatching in early May in fresh water swamps and persist as our number one pest until early June. Surveys indicate better than 50,000 acres of such swamps in this county and to effect adequate control, the cost of aerial spraying all such swamps would range up to \$50,000.00. As this is not a disease vector mosquito and as it does not produce repeat broods, I would never recommend or consider such an expenditure.

During the winter season of safe ice conditions, our men working with knapsack dusters, treat small breeding swamps on the fringe of residential communities and in some sections this treatment may be completed by a power duster on a truck. Where this limited work is accomplished, a sharp reduction of the spring brood is possible, this phase of control will be gradually expanded.

During the summer months, the crews discontinue all drainage projects and concentrate on such control of all mosquito specie as can be effected by various spray treatments, by use of aircraft, spray trucks and hand applications.

As areas are located or reported with an abundance of adult mosquitoes, residual type spraying is completed, this effort affords temporary relief in troublesome sections and the spot treatments are specific enough to eliminate the breeding entirely in contaminated waters where disease vector species are indicated.

Many breeding areas which require continuous alert control and pre-hatch treatment, each week during the summer, would come under some of the following, muinicipal sewer beds, dumps and disposal areas used by commercial cesspool pumping concerns and in residential developments where inefficient septic tanks are leaching into streams and ponds. Storm sewer catch basins in the streets are also a continuous breeding source all season.

As all of these specific places represent breeding of both the nuisance and vector type mosquitoes, it is the number one priority for each district foreman.

We have now had three summer with no case of Eastern Equine Encephalitis reported in horses or humans and while our present control policy is showing positive effect on this disease and overall progress on general control, it will continue to be my policy to produce the most effective control possible in that direction with the funds available.

Respectfully submitted,

WARREN G. HARDING,
Superintendent.

Plymouth County Aid to Agriculture

(Plymouth County Extension Service)

By Robert B. Ewing, County Agent-Manager

The Plymouth County Extension Service (legal name—County Aid to Agriculture) is located in the Court House, Brockton. Since 1915, when it was first established, the Extension Service, in cooperation with the University of Massachusetts and the United States Department of Agriculture, has been furnishing information in three categories — Agriculture, Home Economics and 4-H, to the citizens of Plymouth County.

The Extension Service is known as the educational arm of the United States Department of Agriculture. In other words, its job is to supply information to people who request it and who reside in Plymouth County. A staff of agents conduct programs (in Agriculture, Home Economics, and 4-H Club Work) by furnishing educational information through farm and home visits, letters, newspaper articles, radio talks, meetings, and office visits. Basically the job of the Extension Service has been the same since 1915, namely to supply information. The programs may vary from time to time and be of a tentative nature to meet an emergency. The basic objective of the Extension Service remains the same but people and times do change.

When the Extension Service was first organized, its job in Agriculture was to supply information to commercial farmers. However, with an increased population estimated at 30% for the past 10 years in this county the Extension Service is faced with the task of supplying information, not only to commercial farmers, but to part-time farmers, and the new home owners. The Extension Service furnishes the information, but it is up to the individual to make the decision as to how this information can be used to the best advantage.

This year, along with the normal requests for information, we had an exceedingly large number of requests pertain-

ing to lawns and the care of lawns. This includes seeding, fertilizing and control of insects, diseases and weeds. We also had more than the usual number of requests for information on Japanese beetles, squirrels, pigeons, ants, mosquitoes, etc. It is gratifying to know that many who followed the information obtained satisfactory results.

In general, it is quite difficult to find out how much money an individual farmer saves as a result of educational information that he obtains through the Extension Service. However, this past year we were able to do this in one particular instance. Poultrymen and dairymen in Plymouth County had asked for information pertaining to the home-mixing of grain. As a result of a series of meetings set up by the Extension agents, at which information on this particular subject was discussed, members of one cooperative in Plymouth County are now saving in the vicinity of \$5 per ton of grain. At this rate it means that the dairymen and poultrymen in this cooperative are saving over \$20,000 a year in their grain costs.

A new Home Department Advisory Board was established this year to assist the agents with some phases of the Home Department programs.

The young people in Plymouth County who are in 4-H Club Work participate in one of the finest "fair programs" that is conducted in Massachusetts. Plymouth County 4-H Fair, local community fairs, and other major fairs in southeastern Massachusetts provide an excellent opportunity for 4-H club members to exhibit the products they have grown, produced and made as a result of their project work. When five hundred or more 4-H club members participate in a program, it gives the public an excellent opportunity to see the results of their activities. We are particularly proud of the achievements of our Plymouth County 4-H club members.

Every citizen in Plymouth County should be aware of the fact that the Extension Service is supported by the county, state and federal governments, and that a large number of

Plymouth County citizens avail themselves of the opportunity to secure free help and information pertaining to the Home, Home Grounds, 4-H Club Work and Agriculture. Requests for such information should be directed to the Plymouth County Extension Service, Court House, Brockton, Mass.

Funds for the Plymouth County Extension Service are derived principally from the County. Some federal funds are also made available through the University of Massachusetts. Most towns in Plymouth County make an appropriation at the town meeting which is used for the general expenditures of the Plymouth County Extension Service. Town Directors are appointed in those towns where an appropriation is made. These Town Directors are unpaid volunteer leaders who serve as the Extension Service representatives in their respective towns.

A Board of Trustees, appointed by the Plymouth County Commissioners, administer the Extension Service program, and is composed of the following members:

Gilbert Blackledge, Whitman, Chairman
 Mrs. Harold D. Bent, Brockton
 Lewis Billings, Plympton
 Mrs. Mabel Chandler, Duxbury
 Robert Hammond, Wareham
 John A. Howe, West Bridgewater
 John W. Little, Marshfield
 John Prentice, Plymouth
 Mrs. Herbert Wydom, Brockton

Report of Highway Surveyor

To the Citizens of East Bridgewater:

I hereby submit my report for 1960.

The usual maintenance work consisting of street cleaning, repairing and painting guard rails and fences, cleaning catch basins, mowing bushes and putting up street signs has been done. Traffic islands were also trimmed and mowed.

Eight and one-half miles of roads were seal coated this year. Some of these streets required extensive patching before they were sealed. This was done by using mix-in-place material.

The funds allotted for Chapter 90 Maintenance work were spent resurfacing Central Street from Bedford Street to the junction of Central and Plymouth Streets, also the approach at Spring and Bedford Streets. This Dense Type I mix proved highly successful and I recommend more of this work to be done this coming year.

All of my proposed Articles were approved at the Annual Town Meeting in March 1960, and I have completed the following:

Article 15—A new Chevrolet pick-up truck was purchased for use of the Department.

Article 16—Abbey Lane was excavated, new gravel base, penetration and seal coat applied.

Article 17—Water Street was resurfaced by mix-in-place method.

Article 18—Central Street—due to weather conditions this fall, only a base course of mix-in-place was applied. The

finish course will be brought to final grade as soon as weather permits this coming spring.

Article 19—A new culvert was installed on Pine Street.

Article 20—Two catch basins were installed at the corner of Walnut and Union Streets.

Article 21—Central and Chestnut Streets drainage—two basins were built and 500 feet of 10-inch pipe and 500 feet of 12-inch pipe were installed; two more basins will be built this spring to complete the project.

Article 22—On Oregon Street, 100 feet of 12-inch pipe was installed to connect two basins.

A survey was made this year of all accepted roads in the Town, and there are 55 miles of roads including Bedford Street which is maintained by the State. All unaccepted roads have been scraped and graded, and in some areas graveled to keep them passable at all times.

I wish to express my thanks to all town departments for their fine co-operation during the past year.

Respectfully submitted,

RICHARD M. HENNESSEY,
Highway Surveyor.

Report of Water Commissioners

To the Honorable Board of Selectmen:

Dear Sirs:

The Water Department during the year 1960 has installed 53 new services and nine renewals. We now have a total of 1561 services in our Water System.

An article appropriating \$10,000.00 will be brought up at the Annual Town Meeting, for the purpose of investigating and locating a suitable supply of water for our present and future needs.

The Board of Water Commissioners hope that the voters will approve this article. Our contract with the City of Brockton expires before the final quarter of next year, and it is a certainty that the price we now pay for water will be substantially increased. Increasing demands by Brockton for more water for their own needs are becoming more evident and we know that eventually East Bridgewater will be forced to locate its own supply. We have learned through the efforts of Whitman & Howard, consulting engineers, that there are at least four likely sources of water within the limits of our community.

The Water Commissioners have been petitioned to introduce an Article for the extension of Water Mains from the corner of North Central and West Union Streets down Thayer Avenue to Waterman, Leland Streets and Shawnee Avenue. A sum of money was appropriated at the last Annual Meeting to supply Waterman, Leland and Shawnee Avenue residents from Matfield Street, but due to legal difficulties regard-

ing access for the laying of mains, we are unable to make this construction.

The Board of Water Commissioners would like to thank all Town Departments for their co-operation during the past year.

BOARD OF WATER COMMISSIONERS

Arthur W. Ash, Chairman

William F. Hennessey

John J. Clarity, Clerk

Report of Inspector of Plumbing

To the Board of Health
East Bridgewater, Mass.

Gentlemen :

I herewith submit my report on inspections of plumbing for the year of 1960 :

Number of inspections	105
Number of fixtures inspected	474
Hot water heaters—gas, electric, tankless	65
Number of replaced or relocated fixtures	79
Rough plg. in new homes and buildings	59
Permits not approved	2
Calls made to give information	40

Respectfully submitted,

FREDERICK D. CANDUCCI,
Inspector of Plumbing.

Report of Sealer of Weights and Measures

To the Honorable Board of Selectmen:

Gentlemen:

I hereby submit my report of the duties I have performed during the year of 1960:

Scales and Balances	A	S	NS	C
Over 10,000 lbs.	0	2	0	0
5,000 to 10,000 lbs.	0	5	0	0
100 to 5,000 lbs.	3	38	0	1
Under 100 lbs.	10	66	3	2
Weights	8	176	0	4

Capacity Measures (Liquid)

1 Gallon and under	0	7	0	0
Milk Tanks Checked	0	2	0	0

I thank you for your cooperation during the year 1960.

Respectfully submitted,

GEORGE BARNEY,
Sealer of Weights
and Measures.

Report of the Inspector of Wires

To the Honorable Board of Selectmen,
Town of East Bridgewater, Mass.

I hereby submit my report for the year ending 1960:

Inspections	283
Edison's permits	169
Services	116
Locked locations	6
Rough wires	41
Added wiring	41
Not accepted	5
Oil burners	17
Electric dryers	10
Water heaters	28
Electric ranges	19
Fire calls	3
Storm	15
Signs	2
Power	3
Trailers	7
Carnivals	2

All inspections were based on the 1956 and 1959 National Electric Code as adopted by the Commonwealth of Massachusetts, with no special rules.

I wish to express my appreciation to the Honorable Board of Selectmen and the Town Clerk's office for their assistance in issuing permits and aid to this department.

Respectfully submitted,

ALBERT M. GREINER,
Inspector of Wires,
East Bridgewater, Mass.

Report of Public Health Nurse

Miss L. Gladys Farren, R.N., Public Health Nurse

Mrs. Donald Oakley, R.N., Assistant

Office Hours: 9 - 9:30 A.M. and 4 - 5 P.M.

Office: Town Office Building, 175 Central Street

Telephone: DRake 8-2391

To the Board of Selectmen:

Total number of home visits	2,458
Total number of patients	358
Nursing Service visits	1,267
Health Education	1,144

Clinics held under sponsorship of Board of Health:

10 Well Baby Clinics — Total attendance 112

8 Immunization Clinics

6 Diphtheria-Antigen Clinics

4 Pre-School and 2 School Total Children 355

2 Polio Clinics:

Total persons receiving polio vaccine—1380

241 Pre-School Children

824 School Children

315 Adults

This year the East Bridgewater Public Health Nursing Association was asked to serve as a Training Center of Registered Nurse students working for their Bachelor or Science Degrees at Boston University. These students observe and practice for an eight week period. We had one very excep-

tional nurse in September and expect two more next year. It is an honor and a privilege to serve in this capacity.

Respectfully submitted,

L. GLADYS FARREN, R.N.,
Public Health Nurse.

The East Bridgewater Public Health Nursing Association
Board of Directors are as follows:

1962

Mrs. George Barney
Mrs. Edwin Whitmore
Mrs. George A. Ridder
Mrs. Elwood Siscoe
Mrs. Willard DeChambeau

1963

Mrs. Robert E. McCarthy
Mrs. Laurence Soule
Mrs. Edward Hurd
Mrs. Edmund W. Nutter
Mrs. Harwood Mosher
Mrs. John B. Thorndike

1964

Mrs. Leo Trudeau
Mrs. George Wadsworth
Mrs. Horace W. Collamore
Mrs. Henry A. Fraser
Mrs. Allan Fuller
Mrs. George McKenzie

Report of Park Department

To the Board of Selectmen and Citizens
of East Bridgewater:

We hereby submit our report for the year ending Dec.
31, 1960.

The Park Department had a sufficient amount of money available from the town, as well as the Strong Fund, to maintain Strong Field this year. The field was covered with a new fertilizer for grass and it worked out very well with plenty of new loam to fill the many holes that seem to arise each year.

The field was mowed each week and the diamond was kept up for good fast baseball. New ropes for the flag poles at Strong Field and the Park were installed, and the Park was taken care of with the usual Christmas Lights.

The Park Department has taken over the new Little League Field this year. We have taken care of the grounds and the grass and have put over a ton of lime to sweeten the grounds.

Under the supervision of the Park Department, we had Miss Janice Doherty take care of the playground activities which were held at the Central School playground with a large number of children attending for the months of July and August.

Respectfully submitted,

RALPH G. CONNORS,
THOMAS E. O'BRIEN,
MAXWELL J. PEARSON,
Commissioners of
Park Department.

Report of Town Collector

To the Honorable Board of Selectmen and the
Citizens of the Town of East Bridgewater, Mass.

Dear Sirs:

Rendered herewith for your attention is a condensed report of the Town Collector's Department for the calendar year of 1960.

Respectfully submitted,

H. W. COLLAMORE,
Town Collector.

REPORT OF THE TOWN COLLECTOR

For the year ending Dec. 31, 1960

RECAPITULATION	TOTAL RECEIPTS
Real Estate Taxes	\$605,432.38
Personal Property Taxes	91,147.50
Farm Animal Excise	692.71
Motor Vehicle Excise	85,566.37
Poll Taxes	2,930.00
Interest and Fees	1,460.95

Board of Health Fees	458.25
Aid to Dependent Children	2,808.02
Total Receipts	<hr/> \$885,227.04

Report of the Civil Defense Agency

Honorable Board of Selectmen
Town Offices, East Bridgewater, Mass.

Gentlemen :

Subject: Town Report

To the Honorable Board of Selectmen
and Citizens of East Bridgewater :

East Bridgewater Civil Defense has ended another successful year. We now have a very active Radio Communication Section under the direction of Chief Radio Operator, Merle J. Whittaker, Batti Avenue, under whose RACES call K1GKV all operations are carried out. We now have an added citizen band net equipped for East Bridgewater call 1W9126. Many new members have joined this branch and now has broader coverage.

The Auxiliary Police under the direction of Captain Arthur Cox and the cooperation of Chief Walter Benoit and all the members of his department, have been active as in the past with Fourth of July, Hallowe'en, football games, and other civic activities during the year.

This group of men have been well trained. This year an extensive course in firearms was conducted under the direction of Corp. Bowles and Lieut. Shurbon of the Massachusetts State Police. These men also attended the Plymouth County Police School during its regular session in Pembroke.

An extensive program is planned for the forthcoming year to better combat any natural disasters in the area. During the recent hurricane, Donna, Civil Defense units cooperated with police and fire departments with the use of their radios and directing of traffic away from the trouble areas.

The East Bridgewater Control Center is now located at the Elmwood Fire Station on the second floor. These quarters have been renovated and make an ideal location for Civil Defense activities. A phone (DRake 8-2989) is now located there in the event of an emergency.

We have acquired several pieces of equipment from the Surplus Property Agency which included a 10 KW generator which is capable of supplying emergency power to any area in town.

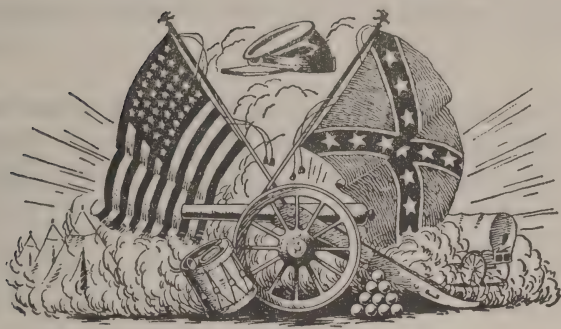

Plans are being formulated to start many other branches as there seems to be a great deal of public interest being activated in town. Many of the Social Civic organizations have contacted me in this past year for information and lectures on Civil Defense and I appreciate the opportunities to do all in my power to fulfill their desires for further Civil Defense information.

Without the cooperation of all the citizens of East Bridgewater, the Civil Defense Program would not be a reality.

Respectfully submitted,

ROBERT TITTERINGTON, Director,
Civil Defense, East Bridgewater.

Report of the Civil War Centennial Committee

To the Honorable Board of Selectmen :

Dear Sirs :

The following persons in answer to your request met at the town offices on May 12, 1860, to form a local committee for the Centennial Celebration of the Civil War. A national commission for the observance had been formed in Washington and each state was in the process of organizing. The Massachusetts Commission for the Observance of the Civil War Centennial was already formed.

The local committee at their first meeting organized with Mr. Frank M. Adams, Chairman; Mr. Philip E. Carey, Vice-Chairman; Mrs. Margaret Alexander, Secretary; Mrs. Grace Eastman, Custodian; Miss Margaret E. McCarthy, Mr. Stanley B. Goldman and Mr. James E. O'Brien.

At the second meeting on June 2, 1860, Mr. Vinson Blanchard, a member of the state commission, was present

and explained the four-year program and offered the aid of his commission in anything the local group wished to plan.

The third and fourth meetings were spent investigating and rejecting possible programs. Securing the cooperation of the school department, plans have been made for essay contests, poster contests, musical and dramatic programs from grade 1 - 12.

A letter was sent to the various town organizations on Dec. 1, 1960, asking for their cooperation in developing a significant program to be called Civil War Day in East Bridgewater. We now await the action of the town on an article in the warrant for the annual town meeting.

Respectfully submitted,

Frank M. Adams, Chairman
Philip E. Carey, Vice-Chairman
Margaret Alexander, Secretary
Grace Eastman, Custodian
Margaret E. McCarthy
Stanley B. Goldman
James E. O'Brien

Report of Board of Health

Board of Selectmen

East Bridgewater, Mass.

Gentlemen :

Usual business and duties of the Board have been attended to promptly. All written complaints of nuisances have been investigated at once and corrections made as quickly as possible under existing conditions of each case. Percolation tests, sewage disposal systems, lay-out and inspection before backfill were made at each new building as well as sight inspections and representative percolation tests and soil study of proposed sub-divisions. A charge of \$3.00 per test hole is made by the Board for proposed development with the final \$2.00 per lot payable at time permit is granted.

Three immunization clinics were held for Diphtheria, Whooping Cough and Tetanus.

Inspection of eating and drinking establishments as well as markets was made on quarterly basis and bacteria swab counts of eating and drinking utensils made, and rechecks of any unsatisfactory conditions as well as spot checks during the year.

Analysis of milk and cream sold in town was made on a quarterly basis and rechecks made when necessary after notice sent to dealer.

Bacteriological water analysis of town supply was made periodically during year from various locations and copy of reports sent to State Health Department. Swimming water

was analyzed at Robbins Pond at various locations during the season, a source of contamination was found and corrected.

State Health Department has recently formulated a sanitary code which includes all phases of environmental sanitation, and after hearings conducted on various subjects they are adopted and become law. The object is improved conditions and services for the public throughout the Commonwealth.

Respectfully submitted,

BOARD OF HEALTH

Donald B. Bannerman, M.D.,

Chairman

Putnam Steele, Clerk

Robert H. Hall, Member

Report of the Dog Officer

To the Honorable Board of Selectmen

Gentlemen :

I hereby submit my report as Dog Officer for the year ending Dec. 31, 1960.

Seventy-two dogs picked up and disposed of as follows :

Returned to owners — 35 dogs

Unlicensed or stray dogs destroyed — 6

Found homes for 12 dogs

Restrained for 10 days and disposed of 19 dogs

Dogs killed on highway — 22

Complaints of dogs destroying property — 43

Reports of people bitten by dogs — 14

I wish to express my appreciation to the Honorable Board of Selectmen, the Police Department, and to Anna Benoit for their support in this work.

Respectfully submitted,

EDWARD D. KENNEALLY,
Dog Officer.

Report of the Board of Appeals

To the Honorable Board of Selectmen :

Gentlemen :

We herewith submit the report of the Board of Appeals for the year 1960.

We have conducted hearings on 10 cases as follows :

7 petitions approved

3 petitions disapproved

and the decisions are on file at the Town Clerk's Office.

We wish to take this opportunity to thank all Town Departments for their cooperation during the past year.

We also wish to thank Mr. Karl S. Nordin and Mr. Robert Gisonna, associate members, who have so ably substituted when a regular member could not attend.

Respectfully submitted,

Edmund W. Nutter, Chairman

Edward S. Matthews, Clerk

Robert A. Leland

Board of Appeals

Report of Fire Department

To the Board of Selectmen

Gentlemen :

Herewith is my report for the year ending December 31, 1960. During the year the department responded to 114 calls, of which 25 were still alarms, 14 false alarms, five resuscitator and six aid calls.

Practice drills were held twice a month throughout the year. These drills consisted of instruction on operation and use of all fire fighting equipment, laying hose lines, different types of hydrant hook-ups and all phases of fighting fires.

At the Central Station there is:

1 — 1959 Combination Dodge Power Wagon capable of pumping 250 gallons a minute and water carrying capacity of 600 gallons.

1 — 1956 Maxim Triple Combination Truck capable of pumping 1000 gallons a minute and a water carrying capacity of 300 gallons.

1 — 1947 Dodge Forest Fire Truck capable of pumping 200 gallons a minute and a water carrying capacity of 300 gallons.

1 — 1937 Buffalo Triple Combination Ladder Truck carrying 200 feet of ladders and capable of pumping 250 gallons per minute with a water carrying capacity of 110 gallons.

On June 29, 1960, one 1960 Evinrude Sportwin, 10 hp, one 1960 Duratech Aluminum Boat, Model S-16, and one 1960 Cox Trailer, Model CT-165C, were purchased and delivered.

At the Elmwood Station there is a 1941 Seagraves Triple Combination Truck capable of pumping 500 gallons per minute and water carrying capacity of 110 gallons.

The Department has 6,100 feet of 2½-inch double jacket hose, 2,500 feet of 1½-inch double jacket hose, and 1,000 feet of 1-inch forestry hose.

The Elmwood Station has received renovations of asbestos sidewall and heavy tar paper.

I would like to thank and extend my gratitude to the Honorable Board of Selectmen and the Finance Committee for their co-operation in the past year.

Respectfully submitted,

MANUEL T. SILVA,
Chief of Fire Department.

Report of Planning Board

To the Board of Selectmen and the Citizens
of the Town of East Bridgewater:

Once again your Planning Board is very glad to render an annual report of its activities for the preceding year.

At the annual March election, two members were re-elected to the Board, namely: Alden F. Hanson and Thomas J. O'Brien.

In March our organization meeting was held with the following officers being elected: Robert B. Alexander, Chairman; Elmer S. McCarthy, Vice-Chairman; Elmer B. Hayes, Clerk.

Regular meetings have been held on the fourth Monday of each month with the exception of the months of July and August, and special meetings have been held whenever required.

In May a Region 5C meeting was held at the Black Smith Shop with the local Board acting as hosts.

Building permits for 101 constructions have been issued by the Board of Selectmen which were in the following classifications: 51 Dwellings, 12 Garages, 18 Additions to existing buildings, 17 Miscellaneous buildings, 1 Industrial building (Foxboro Co.), 1 Post Office building, 1 Canteen building.

Twenty-seven plans containing fifty-three lots have been signed under the "subdivision approval not required" clause.

Two subdivisions have been approved during the past year, one containing 14 lots and the second one containing 12 lots.

An application for permission to expand the town's present Trailer Court from 20 trailers to 220 trailers was denied.

This application was presented by developers from Dedham.

Several meetings have been held with the Board of Selectmen relative to zoning violations and other matters pertaining to town progress.

The Master Plan for the Town (which is a mandatory requirement for all planning boards) has been completed and is now on file, after many hours of untiring work on the part of the Planning Board and its consultant, Nord W. Davis. Mr. David's assistance has been invaluable in this work. This Master Plan, denoting a planned growth for the Town, through the year 1975, both physically and financially, is on file with each department in town and a copy is also on file in the East Bridgewater Public Library. The next step in this program is to present a Building Code for the approval of the town.

Our subdivision control law has been up dated to require tar surfaces on all roads in subdivisions by all developers.

In closing, may we extend our thanks to the Board of Selectmen, all other departments of the town and the townspeople for their co-operation in abiding by our decisions in order that Zoning may really help our town develop in appearance as well as financially.

Respectfully submitted,

Robert B. Alexander, Chairman
Elmer S. McCarthy, Vice Chairman
Elmer B. Hayes, Clerk
Alden F. Hanson
Thomas J. O'Brien
Jack Stengel
Edwin E. Whitmore

Report of Town Treasurer

To the Board of Selectmen and the Citizens
of the Town of East Bridgewater:

Rendered herewith for your attention is the Treasurer's
report for the calendar year of 1960:

RECEIPTS

Cash on hand January 1st, 1960		\$342,924.59
Receipts for January	\$30,082.29	
Receipts for February	78,790.67	
Receipts for March	194,927.96	
Receipts for April	29,095.74	
Receipts for May	109,594.28	
Receipts for June	93,914.90	
Receipts for July	69,146.32	
Receipts for August	166,757.44	
Receipts for September	89,845.34	
Receipts for October	268,250.16	
Receipts for November	393,385.67	
Receipts for December	62,171.07	
	<hr/>	
Total Receipts		1,585,961.84

Total Disbursements		1,705,310.82
		<hr/>
Cash on hand December 31st, 1960		\$223,575.61

During the year we borrowed \$250,000.00 in anticipation of revenue notes.

The detailed list of receipts and disbursements are itemized in the Auditor's Report.

Respectfully submitted,

MARJORIE L. EATON,
Treasurer.

Report of the World War II and Korean Conflict Memorial Committee

Following the vote of the Town to have a Memorial Plaque containing the names of those who served in World War II and the Korean Conflict, the Committee spent many hours over the past three years processing the names to be inscribed on the Plaque. It was very difficult to obtain accurate records, due to the fact that persons entered the service from so many different places, and the Committee wanted to make certain that all who were legal residents of East Bridgewater were included in the roll.

While the Committee was thus engaged, several citizens suggested that an organ be purchased and placed in the High School as a Memorial. The Committee, therefore, presented this suggestion to the Town at a Special Town Meeting, where it was adopted.

The Committee, in accordance with this vote, purchased a Baldwin organ which has been placed in the Michael J. McCarthy Auditorium as a Memorial to all those who served in World War II and the Korean Conflict. The Class of 1960 of the East Bridgewater High School gave a Leslie Speaker to be used with this organ.

During the year, Robert H. Hall, the Chairman of the Committee, after having given many hours of his time in the processing of the names of Veterans, resigned, and Philip E. Carey was appointed in his place.

The Committee wishes to express its thanks to Robert H. Eastman, Luther Churchill and James D. Goodwin for their aid in selecting and purchasing the organ.

EDMUND W. NUTTER, Chairman
DOROTHY C. HURLBURT
L. NORRIS LUDDY
PHILIP E. CAREY

Report of the Board of Public Welfare

We herewith submit the following report of the Board of Public Welfare and the Bureau of Old Age Assistance for the year 1960.

There were several changes in the Assistance Program during the year. These were due to new legislation at both Federal and State levels. In July assistance grants in all categories of assistance were increased by approximately 5% because of an increase in the cost of living. This change applied to all cases except those in boarding and nursing homes.

On October 1, 1960, the Disability allowances, under the Social Security Act, were increased and this enabled certain persons in borderline cases to receive assistance directly from the Federal government. Because of this change it was not necessary for these persons to be aided through this office.

On October 1, 1960, the new Medical Assistance for the Aged category went into effect. Although this program is administered through the Welfare office, it is not classified as welfare assistance. Medical Assistance is provided to certain persons of limited income who are 65 years of age or over.

These changes together with the increase that will be effective on January 1, 1961, will increase the expenditures of the Welfare Department considerably this next year.

Although no funds were provided in the Town budget, the Legislature passed a bill allowing the use of Old Age Assistance funds for the remainder of the year 1960. \$2,723.16 was expended for this Medical Assistance. The Federal will reimburse 50% and the State 25% of this expenditure.

OLD AGE ASSISTANCE

Grants of aid amounted to \$40,973.50 and supplementary payrolls for medical assistance were for \$21,642.89. Expen-

ditures to other towns were \$1,654.00. Reimbursements received from the Federal were \$29,758.22, and from the Commonwealth \$28,770.52. Received from other towns, \$3,251.13.

AID TO DEPENDENT CHILDREN

In this category of assistance, \$8,571.89 was granted as cash and \$1,460.00 under supplementary for all medical assistance rendered. \$5,193.00 was reimbursed by the Federal government and \$2,808.02 received by the Commonwealth.

DISABILITY ASSISTANCE

Cash payments were for \$1,438.50 and medical payments amounted to \$2,724.45. Receipts of \$1,560.00 was received from the Federal government and \$1,855.42 from the Commonwealth was received.

GENERAL RELIEF

The total expenditures under this program were as follows: Direct Aid, \$1,217.60; Medical Aid, \$955.89. Other cities and towns for East Bridgewater cases, \$1,551.08. The Commonwealth was billed for \$1,217.13 for aid rendered to unsettled cases and we were reimbursed from other cities and towns \$1,568.04.

Respectfully submitted,

HAROLD F. DOHERTY, Chairman
ROBERT B. LELAND, Clerk
HARRY W. WAITE

Report of the Department of Veterans' Services

To the Honorable Board of Selectmen and the
Citizens of East Bridgewater:

Due to the changes and the additional laws passed by the Congress of the United States that effect veterans and their dependents in 1960, your Department of Veterans' Services has been called upon to service the largest number of veterans and their dependents since the end of World War II.

The new pension law, P. L. No. 86-211, that became effective July 1, 1960, made veterans of World War II and the Korean Conflict and their widows and children eligible for V.A. pensions for the first time. The new law is based on non-service connected death and disabilities.

During 1960 we have processed over one hundred claims and income reports with the Veterans' Administration on behalf of our veterans and their dependents. Also, for the first time several claims under the Junior GI Bill for children of deceased veterans, whose death was caused by service during World War II and the Korean Conflict, were made. These children are receiving \$110.00 per month from the Veterans' Administration toward their college education and an additional \$750.00 per year from the Commonwealth of Massachusetts.

Request for hospitalization at Veterans' Administration Hospital has shown a marked increase during 1960. Hospitalization for World War I and World War II veterans, primarily due to age factors, illness and disabilities that occur with advancing age. We are happy to report that we have been 100% successful in placing these veterans in V.A. hospitals which represents a substantial savings to the Town. Many of these cases, if not cared for at a V.A. Hospital, would have been placed in local hospitals. The expenses paid for under Chapter 115 of the General Laws of Massachusetts, in which

the local Department of Veterans' Services assumes 50% of the cost.

Due to the slight lay-off of workers during the early months of 1960 and the strike at the Quincy Ship Yard that lasted six months, our claims for Veterans' Benefits for veterans and their families were on the increase. This accounted for the expenditures that exceeded our budget for 1960.

In comparison with 1959, when we were able to return over \$2,000.00 of our budget as an unexpended balance, the following expenditures were made:

Subsistence allowances, \$15,566.57; Nursing Homes and Nursing Care, \$3,658.87; Hospital Expenses, \$1,464.02; Burial Allowances, \$250.00; Ambulance expenses, \$90.00; Medications, \$1,792.11; Doctors' expenses, \$1,092.00; Dental expenses, \$53.00; Eye glasses, \$14.00; for a total expenditure of \$23,980.46.

I would like to take this opportunity to thank our Town Clerk, George J. Frahar, for his kind assistance whenever our Department was in need of vital statistics. Also, many thanks for help we received from all of our doctors when a request was made for detailed medical reports on many of our veterans.

To Chief of Police, Walter Benoit, go our heart felt thanks for the wonderful cooperation he and his men gave to your Veterans' Agent whenever the request was made for the use of the Police Ambulance to transport a veteran to the various Veterans' Administration Hospitals. We called on Chief Benoit more during 1960 than ever before, and I am happy to report that through his cooperation we were able to save the taxpayers of East Bridgewater a great deal of money.

Respectfully submitted,

PHILIP E. CAREY,
Director of Veterans' Services
and Veterans' Agent.

Report of School Planning and Building Committee

The School Planning and Building Committee appointed in pursuance of the Vote of the Town at a Special Town Meeting held on December 14, 1959, finds itself in the position of being unable to report any progress since the Annual Town Meeting of 1960. This has not been because of any lack of effort, or diligence, on the part of your Committee, but strangely enough from opposition to the building of an addition to the Central School emanating from some members of the School Committee.

The word strangely is used intentionally because the addition to the Central School was requested by the School Committee. You will recall that the then Chairman of the School Committee at the Annual Meeting in 1959 requested a Committee to investigate the need and cost of an addition to the Central School. This request was in keeping with the School Committee Report signed by all members in the Town Report of 1958, stating an addition of at least six rooms to the Central School was needed. The Town voted to name a Committee for this purpose. This Committee reported to the Special Town Meeting of December 14, 1959, that in their opinion there was need for an addition to the Central School and that it should consist of twelve rooms, rather than the six requested.

The Report of this Committee was accepted by the Town and without opposition your present Committee was authorized "for the purpose of planning and building a twelve room addition to the Central School".

Your Committee organized and proceeded to the point of interviewing various architects with a view of selecting one for the purpose of drawing the Plans and Specifications for the addition. No opposition to the addition was expressed to this Committee at any time by any member of the School Committee, or by any other citizen.

Prior to the Town Meeting in March of 1960 your Committee, through the efforts of the Town Auditor and the Committee Chairman, learned that if surplus money were put into a Stabilization Fund and monies transferred from that Fund to help defray the cost of the School Building during the first year of construction, the State, if contributing to the cost of said building, would contribute in the first year a sum equivalent to the amount transferred from the Town's Stabilization Fund. This, of course, would reduce the size of the bond issue financing the construction and result in a substantial saving of interest to the Town.

The Committee, therefore, caused two Articles to be inserted in the Town Warrant for the Annual Meeting of 1960; one calling for the creation of a Stabilization Fund; and the other to raise and appropriate the sum of \$300,000.00 for the building of the additional twelve rooms with \$100,000.00 being transferred from the Stabilization Fund. The purpose of these Articles being to enable the Town to take advantage of the interest saving as outlined above and to be in a position to start building in the calendar year 1960, if Plans to be submitted at a later date met with the approval of the Town.

The night of the Annual Town Meeting of 1960, your Committee first learned of the opposition to the addition, when one member of the School Committee along with three other citizens distributed statistics purporting to show a twelve room addition was not necessary. In spite of this, and their opposition from the floor, the Town saw fit to vote both Articles. Because your Committee had assumed the School Committee was in favor of the twelve room addition as evidenced by their original request and their statement in their Annual Report to the Town, your Committee requested the School Committee to state its position in regard to the addi-

tion . The School Committee reported their Vote to be four against the addition, one for the addition and one abstaining. Your Committee then requested the School Committee to hold a joint meeting.

At this joint meeting on May 13, 1960, approximately two months after the Annual Town Meeting, the School Committee Member who had opposed the twelve room addition at the Town Meeting expressed the opinion that his original proposal for a six room addition wasn't large enough, which was concurred in by all present. Other School Committee members thought a new building might be the answer, but were unable to offer any definite proposal because of stated lack of statistics, or time to study the problem. After the Building Committee re-stated their position as was reported to the Town by the Survey Committee, the School Committee then voted again and the result was Mr. Alexander, Mrs. Fisher and Mr. Snow for the twelve room addition and Mr. Rock, Mr. Fuller and Miss Guerin against.

To date your Committee has been unable to obtain an answer from the School Building Assistance Commission Administrator as to whether he will recommend, or disapprove, our request to the Commission for State Aid, and we feel this is due in no small measure to the opposition originating in the School Committee and apparently communicated to the Administrator.

We believe there is a misconception as to the powers and duties of the School Planning and Building Committee. The Committee's only authority and duty as voted by the Town at the meeting on December 14, 1959, is to plan and build a twelve room addition to the Central School. It is not an investigating Committee, nor does it have the power to plan and build a new school building.

In our effort to carry out this duty, your Committee, after fruitless interviews and conferences with the Administrator of the Commission, has requested a hearing before the full State Building Assistance Commission, and is awaiting a reply to this request.

Librarian's Report

To the Trustees of the Public Library:

The 76th annual report of the East Bridgewater Public Library for the year ending December 31, 1960, is herewith presented:

It has been a year heavy with the sense of obligation to perpetuate that which increasingly reveals itself to have been a monumental achievement, the establishment of a library of such excellent worth as the one established by the former librarian, Ethel B. Chandler. Only with the continued devotion of such a professionally oriented staff as the one she developed could it have been done in any measure.

In the first six months of the year, the library operated with one less than the regular staff number, and it was impossible to accomplish more than the daily routine. In the last six months normal progress in the work of the library is discernible.

The weeding of the collection of the children's room has been completed. Weeding is necessary if the space allocated to any collection of books is to be utilized to fit the current needs of its users. Using the Children's Catalogue, the physical condition of the book and its circulation record as guides, the books were evaluated and slated for discard, rebinding, or replacement by the children's librarian, Miss Joan Sawyer. She also conducted the summer reading program for the children. This highly successful activity saw 47 children enrolled.

Continuing the policy of the previous year, Mrs. Margaret Mason, acting librarian, purchased a film and thus entitled the East Bridgewater Public Library to become a member of the Massachusetts' Libraries Film Cooperative and enjoy its services from September 1960 to May 1961. Films are booked to the East Bridgewater Public Library at mailing cost. A calendar of films as they are due in East Bridgewater is on

file at the library, and any organization that can use the films is welcome to do so. The purchase of a sound projector for the library would greatly increase the use that could be made of these films.

On August 1, Mrs. Anne Hynes joined the library staff as high school librarian. Mrs. Hynes, who has her degree in education, also studied library science at the State College at Bridgewater and at Simmons College and is eminently qualified for her position.

In professional study the librarian and Miss Leia Canelli have completed the state sponsored in-service training program in reference work at Fairhaven, and both Mrs. Hynes and Miss Sawyer are studying at the graduate level.

Lack of space, most particularly shelving space, continues to be a serious problem. It could foreseeably become necessary to change the nature of the service offered by the library if there should come a time when there would be no place to put current books unless older and valuable reference volumes were removed from the collection. Already there are too many books stored in boxes which with proper space could be used profitably by the patrons of the library. To utilize the room finished above the main floor but entirely inaccessible except by ladder, a balcony around three sides of the present stack room would seem to offer a reasonable solution to the problem. Such a balcony could be named the Ethel B. Chandler Memorial as an expression of appreciation for years (1930-1959) of dedicated service to the library and people of East Bridgewater.

During the year new chairs were purchased for the main reading room, and the tables in that room were refinished to match the circulation desk. Four new fire extinguishers were purchased on the recommendation of the fire chief at the time of his annual inspection of the building.

As in the past the building has been used by various town groups, among them the Girl Scouts, the P.T.A., the Woman's

Club, and the Garden Club. The Great Book Discussion Group, now in its fourth year, meets bi-weekly. In more than the fields of thought and study can the library serve its community.

The library is grateful to those people who by gifts of flowers, books, money, pictures, and periodicals have made its work more purposeful. There have been many such tokens of good will. In August we were privileged to present an outstanding exhibit of photographic prints through the kindness of the photographer, Mr. Bruce E. Harding. Among other well received exhibits were the oil paintings of Mrs. Edith Shores Bishop, the gourds of Miss Sibylla Young, the Easter eggs and Christmas dolls of Miss Eileen Curley, and the tropical fish of Mrs. Theodore Wainor. Such exhibits do much to bring books and people together, which is indeed a basic reason for the existence of a library. School departments and club groups also found an eager willingness on the part of the library to accept their exhibits.

Our school library program continues to function to the best interests of the town. In the elementary school the facilities are adequate to house the collection for Grades 3 and 4. Grades 1 and 2 are served according to standard library procedure by class deposits and by the availability of the school librarian to tell stories, give book talks, and teach simple lessons about the care of books. A happy transfer of good library habits is noticeable from the children of these grades when they come to the public library. The problem of overcrowding in the Intermediate School has seriously hampered even minimum library service. Each year the curtailment of space becomes more drastic. In an effort to alleviate this handicap to the children in Grades 7 and 8, the children's room in the main library has been opened to them for the school library period every morning since the opening of school in September. Because the room now in use as a library is still insufficient to house and to conduct a satisfactory program for Grades 5 and 6, beginning in January 1961 they too will have their school library period at the main library. At best, this

is a makeshift arrangement and consideration must be given to its permanent solution. The necessity of a curriculum supporting library within each school building is self evident if East Bridgewater is to maintain its enviable leadership in this field. The high school branch functions extremely well. Drawing constantly on the resources of the main library collection, it serves faculty and student well and is a working salute to the cooperation between town departments of mutual interest.

To the staff, words can little convey the help your loyalty to the library has been to me. Mrs. Margaret Mason's fine work as acting librarian made the period of transition so much easier to accomplish; Miss Leia Canelli's completely accurate knowledge of every department's function in the system is invaluable; Miss Joan Sawyer's administration of her three-fold position is competence itself; Mrs. Anne Hynes brings to her first months as a member of the staff new enthusiasm and seasoned ability; and Mrs. Elaine Broman in book maintenance, which includes mending and processing of books, records, and periodicals, is to be recognized on her methods and the results of her work. Our custodian, Richard Viola, furnishes us with cooperation in every way and an attractive and clean building in which to work.

I wish to thank the trustees for their understanding and support and to congratulate them on their assumption of responsibility in pursuing sound library policies. The appointment of Dr. Soli Morris by the combined boards of selectmen and library trustees to fill the unexpired term of Mr. Clifton Edson was a confirmation of this policy.

Respectfully submitted,

GRACE EASTMAN,
Librarian.

IN MEMORIAM

In the death of Mr. M. Clifton Edson in May of this year the library lost the services of a gentleman whose interest and experience will long remain a part of the library. Mr. Edson gave nearly a quarter of a century of devotion to his duties as library trustee. In service of such length the traditions and growth of our institutions become established.

SCHOOL CALENDAR 1960-1961

Fall Term	September 7 — December 23
Winter Term	January 3 — February 17
Spring Term	February 27 — April 14
Summer Term	April 24 — June 23
Fall Term (1961-62)	September 6 — December 22

NO SCHOOL SIGNAL

- (1) 7:00 A.M. Whistle at Edison Plant. No school, all schools, all day.
- (2) Notices regarding "no school" will also be given over Brockton Radio Station WBET, Boston Radio Station WBZ and TV Channel 4.

SCHOOL ADMISSION AGE

Any child who becomes six years of age on or before September 1 will be eligible to enter the first grade without any test. Those children who will become six years of age between September 1 and January 1 of that year may take a readiness test which will be given the first week in June. Parents will be given ample notice regarding the time and place of this test.

MEETINGS OF THE SCHOOL COMMITTEE

Regular meetings of the School Committee are held in the High School Building the second and fourth Wednesdays of each month at 7:45 P.M.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of East Bridgewater:

Your School Committee during the year 1960 has had many special meetings caused by an extra heavy load of general school business, planning for school problems, and future expansion of our school system to accommodate the growth of the school population. Many long evenings have been spent working out policies for better schools and education for our students.

We have made many improvements to the physical part of our system, including redecoration of several Intermediate School classrooms as well as hallways and offices. Floors were tiled and new furniture installed by our own custodians during the summer vacation period, at a great savings to the Town.

Many new book adoptions, replacements and supplementary classroom materials were purchased for all grades.

At the High School building the machine and sheet metal shop were fully equipped with money provided mostly from funds set up by the High School Building Committee, with other funds provided by the School Committee, and we are very proud of our new shop which is considered one of the finest in the area.

At a Regular Meeting of the School Committee held on May 11, 1960 discussion of the anticipated needs of an addition to the Central School of 12 classrooms was held. One Committee member voted for it—Mr. Alexander—as recommended by the Central School Building Committee. The other four members—Miss Guerin, Mr. Rock, Mr. Fuller, and Mr. Snow—wished to be recorded as against this proposal, and Mrs. Fisher abstained. On Friday, May 13, 1960 a joint meeting of the School Committee and Central School Building Com-

mittee was held. Plans and enrollment figures were discussed, with recommendations and suggestions made by both Committees. At the May 25, 1960, meeting of the School Committee a second vote was taken to determine what members were in favor of a 12 room addition to the Central School. Mr. Alexander, Mrs. Fisher and Mr. Snow voted in favor. Mr. Fuller, Mr. Rock and Miss Guerin voted in opposition. As a result the following letter was sent to Chairman Karl Nordin of the Central School Building Committee by Miss Frances Guerin, Mr. Brewster Fuller and Mr. Albin Rock.

June 13, 1960

Mr. Karl Nordin, Chairman
Central School Building Committee
East Bridgewater, Massachusetts

Dear Mr. Nordin:

Having been asked to voice our approval or disapproval of the twelve room addition to the Central School proposed by the School Building Committee, we voted against the proposed addition at a regular School Committee meeting on May 11, 1960. Although we verbally expressed our reasons at the joint meeting of the School Building Committee and the School Committee on Friday, May 13, 1960, we wish to submit these reasons in writing.

Our major objection to a twelve room addition to the Central School is that it would be filled in 1961 with an average of 28.8 pupils per classroom according to the enrollment projection furnished to us by Superintendent Goldman and which is purportedly being used by your own Committee. We feel that this is economically unsound planning since the figures submitted to us by the planning board indicate a growth in school enrollment of twenty-four percent in six years. Within that time, it is obvious that additional school housing facilities for grades 1-6 will be necessary.

In view of the fact that the School Building Assistance Commission has not approved the proposed addition, the economy of the town could be jeopardized by continuing with the proposed plan which could result in a loss of state financial aid.

As members of the School Committee we feel that the recommendation of the State Department of Education and the School Building Assistance Commission relative to the educational disadvantages of a thirty room building should be seriously considered.

Respectfully yours,

ALBIN S. ROCK
M. FRANCES GUERIN
BREWSTER W. FULLER

The School Committee recognizes the growth and development of the entire school system. Our staff has worked diligently to maintain the high level our schools hold in the field of education.

Situations involving the improper use of automobiles on school grounds have come to the attention of the School Committee several times during the course of the year, but at the moment all seems to be functioning well.

The transportation of school pupils is always a problem, as we have many requests during the year for additional or special transportation. Your School Committee is more liberal than the state requirements regarding minimum distance and has established rules and regulations covering this completely.

This is the fortieth year that we have had efficient and courteous bus transportation by the William H. Luddy & Sons Company, and the second and third generation of this family are carrying on in a fine way. For this we are thankful, as Mr. William Luddy personally attends to our transportation

problems. Several times during Clinics and other occasions in our school year we are given extra service without cost to the Town, for which we are all grateful.

Your School Committee has met with the Teachers Salary Committee and discussed at some length a new Salary Schedule. Following much deliberation and revision a new one was adopted, which will go into effect September 1, 1961.

Salary increases were made to the Superintendent of Schools, all Principals, Supervisors, secretarial staff, cafeteria workers, school nurse, dental hygienist, school dentist, and custodians in our system.

Our Physical Education program is an ever expanding one. Every pupil in the High School and Intermediate School has an opportunity to take part in one or more of the activities.

The Music Department is well on the way to a successful year. Our instrumental and vocal music programs are all showing improvement.

The Parent-Teacher Association has been functioning in high gear this year, and at the present time has the largest membership ever attained in its entire history. They have sponsored many worthwhile activities for the good of our schools. This is one of the finer ways of bringing together both parent and teacher to a greater understanding of the many problems of our schools. Fine programs have been arranged for the entire school year and are open to all parents of East Bridgewater. To this organization may we again say that we deeply appreciate your interest shown.

This year as in the past we, as members of the School Committee, appreciate the help and generous donations so freely given by the Commercial Club, Boosters Club, Kiwanis Club, Senior Woman's Club, Junior Woman's Club, The American Legion Post No. 91 and Auxiliary, Parent-Teacher Association and other civic-minded Clubs and Societies in Town

who have in any way given to the worthy causes of your public schools during the year.

Respectfully submitted,

THE SCHOOL COMMITTEE

A. J. Bradford Alexander, Chairman
Marla E. Fisher, Secretary
Brewster W. Fuller
Albin S. Rock
M. Frances Guerin
Paul B. Snow

To the citizens of East Bridgewater:

The following statement is a brief explanation of our affirmative vote on the twelve room addition to the Central School.

After attending the joint meeting of the Central School Building Committee and the School Committee on May 13, 1960, and participating in the discussion we feel that it is for the best interest of the town to support your Building Committee. We submit the following reasons for this decision:

1. The Superintendent publicly supported the proposed addition.
2. The town can economically assume this added expense.
3. We cannot support needless delay which would deprive our children of housing for an adequate educational system.

As members of the School Committee we feel that it is our duty to inform you of our position.

Respectfully yours,

PAUL B. SNOW
MARLA E. FISHER
A. J. BRADFORD ALEXANDER

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the members of the School Committee and
Citizens of East Bridgewater:

I am pleased to present my fourth annual report as the Superintendent of the East Bridgewater Public Schools.

1960 has been a year of continued searching appraisal of education. Dr. Conant's recent reports on the American high school and the junior high school remind us of our educational tradition, spotlight our strengths and weaknesses, and chart a way by which a school can acquire the mark of quality. I firmly believe that East Bridgewater's Public Schools have been and are meeting the mark of quality and that the community can well be proud of its efforts to date. Our curriculum and techniques of teaching are being continually modified to keep pace with a changing world. The alumni of the East Bridgewater Public Schools give ample evidence of the fine work accomplished in our schools and represent a worthy tribute to the school staff, parents and the community.

At the present time I am sure everyone in our community is acutely aware of the increases in pupil enrollments we have had. One fourth grade and two fifth grades were assigned to classrooms in the high school building beginning in September, 1960. This arrangement is more desirable since I believe it is better to keep junior high school grades separate from the senior high school. The problem is a serious one at present writing in that the State School Building Assistance Commission is not in agreement with our proposal for an addition to the Central School.

For effective individual progress in school it is necessary for the parents to provide good study conditions at home. Another important and effective way to help is for parents to

encourage their children to do their homework thoroughly. Interest and encouragement on the part of parents build understanding, morale, and security in their children. There should be homework in grades 6 through 12. Those pupils in grades 9 through 12 who are preparing for college should average a minimum of 180 minutes in daily home study.

A few words of explanation on the policy of "no school" on stormy days are in order for parents and citizens. The Superintendent is authorized by the School Committee to cancel school sessions when he thinks conditions are bad enough to warrant such closing. Several factors are taken into consideration including the safety and health of the children, travel conditions and the state requirements for the minimum 180 days of school during the year. The decision must be made by 6:30 A.M. During stormy weather when schools are in session it is the responsibility of the parents whether or not to send their children. Pupils will not be penalized for absence on such days.

Upon my recommendation the budget for 1960 did not provide funds for East Bridgewater to subscribe to the Channel 2 educational programs sponsored by the Eastern Massachusetts Council for School Television. Because an outlay of thousands of dollars would be involved it is important that we assess correctly T.V.'s educational worth. It is understood that educational T.V. is not intended or planned as a replacement of teachers, but only as an aid to them, another device to help them to be more efficient. Time and practice are needed in learning how to use any new device properly and then efficiently.

Secretarial assistance is of paramount importance due to the expanded requirements under the National Defense Education Act (Public Law 85-864). It is necessary to relieve the Guidance Counselor of routine clerical duties if the guidance program is to be more than a program in name only. The high school general office and superintendent's office also need some additional clerical assistance.

Due to increased pupil enrollment the teaching staff was enlarged during the year. Teachers not retained and resignations were also responsible for changes in personnel as may be seen in the School Department Directory.

I wish also to call your attention to the reports of all principals and supervisors.

We continue to receive excellent cooperation from the Library staff in providing library service to all three of our schools.

In closing this report may I express my gratitude to the townspeople of East Bridgewater for their concern for the problems of the school system, to the elected and appointed officials for their cooperation, to the school staff for their loyalty and professional support, to the children for their continuous inspiration, and to the School Committee members for their sincere and devoted service.

Respectfully submitted,

STANLEY B. GOLDMAN,
Superintendent of Schools.

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL

To the Superintendent of Schools:

May I submit my report as Principal of the East Bridgewater High School.

Our current educational program serving the youth of East Bridgewater provides three basic courses of study with certain required subjects and many others elective. These three courses are provided for (a) the training of those students planning to further their education in college or technical school (b) the training of those students planning to enter business fields (c) a broad selection of courses of a general nature to train those who will go into the Armed Services, industry or homemaking upon graduation.

Our offerings to our college bound group provide courses to meet the basic requirements of any accredited college or technical school. This year we have added to this program a new course "CULTURAL HISTORY OF CIVILIZATION" in order to broaden our offerings in the humanities since this area is meeting ever increasing emphasis in our colleges and universities.

Our Commercial course has had recent additions. An "Introduction to General Business" course at the tenth grade level provides orientation for the business subjects. There has also been added a course in Economic Geography in order to round out offerings in the commercial area.

In our General Course area we have procured a machine shop instructor, and in September, in the newly equipped Machine Shop, we offered a course in the general areas of machine shop practice and sheet metal work. We have expanded our offerings in Mechanical Drawing so that that is now taught three days a week. Both Machine Shop and Mechanical Draw-

ing are also being offered to those college bound seniors who are planning to enter the engineering field.

Our entire program of studies is based on an elective system which, under the supervision of our Guidance Director, adjusts the program of each individual pupil to best meet his or her basic needs. This Guidance program is supplemented by an outstanding program of library service. The resources of our own high school library are supplemented by any or all of the resources of the public library. We have also been fortunate this year in having available a magnificent travelling science library provided to selected schools by the American Association for the Advancement of Science.

In addition to these academic, commercial and industrial type courses, we have made available special training in reading both through summer school and special remedial reading classes. Added to this we have excellent offerings in the fields of music, art and for those sixteen years and over, classroom and behind the wheel training in Driver Education.

The health of our students is also a major concern. A professional program of physical education for all physically fit is supplemented by medical and dental examinations of all students. Hearing and vision are also carefully checked. Any deficiencies noted are reported to parents by the school nurse who, in turn, keeps a record of corrective action taken.

To supplement our academic offerings there is made available an extensive program of extracurricular activities. An athletic program for both boys and girls is available for every season. The boys have football and cross country, basketball and winter track, and baseball and track in the fall, winter and spring respectively. For the girls field hockey, basketball and softball are offered in season.

In the non-athletic field are found such activities as the Torch, Junior Classical League, French Choral and Art Group, Student Council, Traffic Squad, Photography Club, Science Club, Senior Class Play, Dramatic Reading and Speaking Con-

test and numerous class activities. We have participated in the Tri-Town Oratorical Contest, sent students to the Boys' and Girls' State programs under the sponsorship of the American Legion. There is currently being organized a group to represent East Bridgewater at the East Coast Model United Nations Conference, a debating team, and a school literary paper. Special training is offered to students who serve as aids in the library, in the school office and in the clinic.

The operation of a school such as the one briefly delineated above is only made possible by the devoted efforts of its staff who provide the academic training, the extracurricular supervision and the administrative assistance so necessary to its successful functioning. We are also grateful to the citizens of our community who, through their many local organizations have rendered valuable assistance and encouragement. Especially are we grateful to the parents without whose co-operation the school cannot function at its best.

The 1960 Athletic Association account follows:

Balance on hand January 1, 1960		\$842.59
RECEIPTS:		
Basketball	\$779.51	
Football	1,257.81

REPORT OF THE PRINCIPAL OF THE INTERMEDIATE SCHOOL

Dear Mr. Goldman:

It is a pleasure to submit my report as principal of the Intermediate School.

The Intermediate School opened in September with the largest enrollment in its history. An increase of forty-four pupils from the previous year brought the total to 558 pupils. With every available classroom in use, two additional rooms were required at the high school to house two fifth grade classes.

The enrollment as of October 1, 1960 is as follows:

Grade 5	153
Grade 6	122
Grade 7	140
Grade 8	146
	<hr/>
Total	561

The Intermediate School has two educational programs. It has an upper elementary program for grades five and six and a junior high program for grades seven and eight. The elementary grades are located on the lower floors and the junior high is concentrated on the second floor. The elementary rooms are self-contained and little moving is practiced. The junior high pupils follow a classroom schedule and they move each period to utilize rooms best suited to the program.

Both programs have separate time schedules which allow for a longer day and for additional time to use the facilities available; such as the auditorium, the playground before school and recess, the music and art room, and the lunchroom. It also minimizes the social contact between elementary and junior high pupils.

The playground area has been enlarged and improved to meet the needs of the school. The lower playground area has been cleared and seeded. In addition to the recess periods this area is used for physical education classes. The upper play area has been hardtopped and the basketball court has been sealed. A fence was installed and trees have been planted to provide shade.

All pupils underwent a series of standardized achievement tests and the results show that the class averages compare favorably with the national norms. These tests are used for pupil placement and in tracing individual and class growth.

The junior high science course of study has been revised and was introduced in September. It is designed to help pupils understand their environment and introduce them to fundamental scientific learnings and the process of scientific thinking.

The science laboratory was remodeled and new equipment was purchased. Through the Federal Law, Public Law 85-864, which provides matching funds, the laboratory received the equipment essential to the program. New textbooks were purchased and subscriptions to scientific periodicals were made.

The first junior high science club was organized this year by Mrs. Loretta Ring. The name of the club is "Scientists of Tomorrow" and it has a large and active membership. Its members perform special projects, listen to speakers, view films, and go on field trips. The club meets weekly after school and its elected officers conduct the meetings.

Remedial reading classes have been formed to help pupils who are experiencing difficulty in reading. The classes meet

three times a week and they are under the direction of Miss Sandra Lewis. The class sizes average six pupils which allows for individual tutoring.

During the past year the pupils of grade six and grade eight enjoyed educational trips to Boston. Grade six visited Logan Airport and attended the movie "Cinerama." Grade eight toured the historical landmarks in and around Boston. The grade six trip was sponsored by the Commercial Club of East Bridgewater and the grade eight trip by the local P.T.A.

The Intermediate School was once again honored by the performance of two of its pupils in the annual essay contest sponsored by the Brockton Edison Company. It was the third contest held and it was the second time a pupil of our school earned first prize. The contest included seventeen towns and the city of Brockton and about a thousand essays were entered. Our first prize winner was Jane Alexander and fifth prize went to Kathleen Ring. Both winners were pupils of Miss Isabelle R. Odabashian.

The first junior high choral group was formed with sixty pupils participating. The group was organized by Mr. James Goodwin, who was assisted by Miss Sandra Lewis. The choral group meets weekly and they have performed at the Thanksgiving and Christmas assemblies.

In addition to the Science Club and the choral group, our pupils have had the opportunity this past year to participate in other extracurricular activities, such as elementary and junior high bands, essay contests, science and art contests, assemblies, dances, and intramural basketball and baseball.

The following special events took place this year: Education Week, Visiting Day, Parent Conference Day, Thanksgiv-

ing Assembly, Christmas Assembly, and Eighth Grade Graduation.

I am most grateful to the teaching staff, to the other administrators, to the School Committee, to the parents, and to the local civic and social groups for their cooperation and help in providing our pupils with a well-rounded educational program.

Respectfully submitted,

JOHN A. GEOVANIS,
Principal, Intermediate School.

REPORT OF THE PRINCIPAL OF THE CENTRAL SCHOOL

Dear Mr. Goldman:

I am pleased to submit the following report of activities of the Central School for the year 1960.

Enrollment figures show no marked change in the total enrollment since September, 1959. There have been normal fluctuations in membership at each grade level. In spite of this steadiness, however, we are forced to utilize the Teachers' Room for a classroom as well as to maintain a fourth grade class at the High School under the capable direction of Mrs. Forbush. State building inspectors have rejected our Teachers' Room as an acceptable classroom. The following enrollment table will show how our population has fluctuated:

1959	Grade 1	Grade 2	Grade 3	Grade 4	Total
January	142	132	150	113	537
June	142	131	146	111	530
September	128	141	132	147	548

Our teachers have availed themselves of the professional courses offered in neighboring communities by universities and colleges. Although the courses are helpful, they require afternoons during the week which could be used for conferences and workshops.

The Art Room continues to be used by Mr. Stevens and the teachers for art lessons. The room has been useful, also,

as a room where teachers may take their classes for audio-visual teaching.

Again, there have been numerous conferences with parents, social agents, educators, etc. that have proved valuable in helping with pupil problems and other educational problems. Many conferences have been held with teachers to assist them in better understanding each child as well as conferences in relation to the instructional problems facing each teacher in her daily teaching.

Readiness tests were administered to eligible pre-school children on May 31 and June 1.

Registration Day for children entering Grade One was held on June 8. Teachers of Grade One assisted in registering children. Medical and dental examinations were given by Dr. Bannerman and Dr. Fraser.

Mr. Murray examined a number of pupils with Binet Tests during the year. The results proved extremely worthwhile in discussing pupil needs with individual teachers.

In addition to the general achievement tests and group mental maturity tests that are a part of our testing program, we have administered many unit tests in the content subjects of reading, arithmetic, and social studies. These testing tools and test interpretations have been an essential part of our good teaching techniques.

Assemblies planned by committees of teachers made up of one teacher from each grade level have been continued throughout the year. Outstanding programs have been presented to the pupils relative to the various patriotic and noteworthy months during the year. Such assembly committees allow total participation by pupils in all the grades.

Home-school co-operation has been encouraged whenever possible. Mid-term letters to parents of pupils doing failing work in their classrooms have been written to stimulate pupils

to greater achievement. To further develop a closer contact with parents, a Conference Day was held on November 14. Teachers were busy the entire day with closely scheduled meetings with parents. These conferences were highly regarded by both parents and teachers as an excellent approach to a clearer understanding of the tasks of parents and teachers in guiding the pupil. An opportunity to have working parents discuss problems with teachers was given on the evening of November 15 when teachers scheduled conferences with these parents on that Conference Night.

We were sorry to have Mrs. Scudder leave us on June 1. Mrs. Scudder had been the secretary in the school office for nine years and had become a valuable member of our school family.

The appointment of Miss Lewis to teach music in the elementary grades has helped to give a more suitable program in music for the elementary grades than we have been able to present in the past. It is hoped that Miss Lewis will be available to teach music at the Central School more often than the two mornings a week that is now given. Additional time in Grades 1-4 is needed to properly develop a satisfactory music program at that level.

A change was made in our teaching staff by the resignation of Mrs. Murphy who had taught a second grade for two years after having been a student-teacher at the Central School from the Bridgewater Teachers College. Miss Halpine was elected to fill the vacancy.

Mrs. Ellis and her kitchen staff have been very diligent in serving lunches to the pupils during the year. Co-operation from Mrs. Ellis and her workers has been most gratifying.

In September, Mrs. Houde resigned after several years of helpful service in the handling of lunch money and tickets.

The Parent Teachers Association generously presented to the Central School ten aquariums, a neck microphone, and

a table for the Auditorium. We are grateful to the P.T.A. for these useful gifts and we thank the members and leaders of the P.T.A. for giving them to us.

Parents are always welcome to visit school to observe pupils at work and may meet for conferences with teachers after school hours on specific pupil problems. These conference times can be easily arranged through the school office if parents telephone the school or send a note requesting a time to talk to the teacher.

To our teachers for their splendid co-operation and to all school personnel, parents, and other persons and organizations who have helped in many ways to develop a good educational program, I am grateful.

Respectfully submitted,

RALPH V. MURRAY,

Principal Central School.

REPORT OF THE MUSIC SUPERVISOR

Dear Mr. Goldman:

I submit herewith the annual Music Department report for the year 1960.

INSTRUMENTAL PROGRAM

This program includes the following four departments:

1. Class lessons for the beginning musicians
2. The Elementary Band
3. The Junior High Band
4. The Senior High Band

CLASS LESSONS

The beginning class lessons are held on Saturday mornings at the Intermediate School and, for those unable to meet then, at an arranged time after school hours. The enrollment number is 50, and covers grades four through seven. When these pupils reach a certain level of advancement, they will be admitted to the elementary band.

ELEMENTARY BAND

The Elementary Band has 38 members and rehearses every Thursday, from 2:00 to 2:50 at the Intermediate School.

JUNIOR BAND

The Junior Band has 30 members and rehearses every Tuesday, from 11:35 to 12:20 at the Intermediate School. They have played at school assemblies, Thanksgiving and Christmas observances.

SENIOR HIGH BAND

The Senior High Band has 55 members and rehearses three periods each week. We had members represent us in the S.E.M.S.B.A. Band; South Eastern District Festival; Solo

Festival; All State and All New England Festivals; Greater Boston Youth Symphony; and Whitman Orchestral Society.

ELEMENTARY SCHOOL BAND

A part time music teacher has been made available at this level, and meets classes twice each week. Classes are taught in a rotating schedule. The emphasis is directed at music reading and enjoyment of music.

JUNIOR HIGH MUSIC

Grades seven and eight take part in this general music program. Classes are held once each week and cover three subjects—music reading, music appreciation, and singing.

SENIOR HIGH MUSIC

There are 56 members in the Choraleers, which is our Senior Chorus. We rehearse twice each week. We have been represented in the South Eastern District Festival and S.E.M.S.B.A. choruses. This is made up of pupils from grades ten through twelve. The Freshman Chorus is made up of ninth grade pupils and serves as excellent experience for the future Choraleer members.

The musical situation in East Bridgewater is a good one, but I feel that a school as active in music as we are should have two full-time teachers on the music staff so as to keep abreast with other communities equal in size and population.

I would like to thank Mr. Goldman, Mr. Loud, Mr. Murray, and Mr. Geovanis for their help and support.

Respectfully submitted,

DONALD E. HILLIARD,
Supervisor of Music.

REPORT OF THE ART SUPERVISOR

Dear Mr. Goldman:

It is with pleasure that I submit the following report for 1960.

Classes for Elementary Children (grades one to six) are held on a weekly basis. An Art Room in the Central School (also doubling as an Audio-Visual Aid Room) augments classroom teaching by the individual teacher and the supervisor. For classes in grades five and six at the Intermediate School the same type program is possible with comparable facilities.

Junior High classes are conducted in the Art Room at the Intermediate School. Grade seven meets on a weekly basis, while Grade Eight enrolls in art on an elective basis—meeting once a week in the Art Room. Here a more accelerated program is possible.

High School Art is on an elective basis and is held twice a week in the Art Room. Our fine facilities in this school make possible as extensive a program as can be carried forward on a two day a week basis. Included in the Art Department's program this year has been the introduction of a new course, The Cultural History of Western Civilization. This course offers the student a closer understanding of the historical background for contemporary life in terms of the major cultural achievements of the past. It contains a summary of the basic contributions made by the major civilizations of the past, and is presented in chronological order. Emphasis is on aesthetic achievements as an expression of philosophical and social ideas. The class meets in the Art Room once a day

and is open to Junior and Senior grade levels. Field trips to museums, slides, and other audio-visual aids are included as a part of the curriculum of the course.

May I express my thanks to you, Mr. Goldman, the School Committee, the Principals, the Teachers, and all our personnel for their fine cooperation and help in aiding the Art Program throughout the year.

Respectfully submitted,

ALBERT H. STEVENS,
Art Supervisor.

REPORT OF THE DIRECTOR OF GUIDANCE—1960

To the Superintendent of Schools:

The beginning of the decade of the '60's, bringing with it a general awareness of the problems involved in interpersonal relations on an international and national level, has pointed up sharply the need for individual action and appraisal of each person's role in social adjustment. Advances in the area of "Guided Missiles" have not overshadowed, but rather have brought to universal attention the paradox of man's attempt to "reach for the moon" before he has "reached", in harmonious relations, his fellow man. The guided missile has as its human counterpart "misguided man." For those engaged in guiding our youth, this does not produce a feeling of "doom and gloom," but the great expectation that the challenging work of assisting our young people to cope with, adjust to, and/or master the problems of living in a dynamic society can be undertaken with enthusiasm and popular support.

Education has reached a new frontier, for the general public now recognizes the fact that the imparting of knowledge and the teaching of technical skills by the school is not enough to prepare for the rich, full life that every American has as his heritage. "Educating the whole child" has led to the misconception that the school can and should provide a child's total education. Duties and privileges of parents which should have been jealously guarded, have been, in some cases, gladly delegated to the schools. Thus, school curricula have become heavy with non-academic functions which detract from their effectiveness, and the child has suffered from the lack of closeness, sense of security, and enthusiasm they need from parents.

The academic training of youth is a full time job for the school and the child. The child cannot be academically successful if one area of effort (i. e. athletics, part time job, family responsibilities, or social activities) usurps time that should be devoted to study. Neither the school nor its faculty can be successful if non-academic jobs are foisted upon them.

Next to the child, the parent and then society stand to lose in the case of the poorly adjusted or half-trained youngster. Citizens must realize that the payment of taxes (i.e. providing a building and faculty) is not enough. Parents must realize that the successful student's parents are aware of the little triumphs and failures in their children's day-to-day work. They are those who give of themselves: their time, interest, labor, and enthusiasm. With this constant concern, the relationship becomes bi-lateral and the child responds by giving of himself: in time, interest, labor and enthusiasm—with the resultant successful school and home experience.

N.D.E.A. AND TESTING

Our guidance program continues to receive funds disbursed under the terms of the National Defense Education Act in order to increase its effectiveness. We were fortunate to be among the 54 selected to attend the N.D.E.A. Institute held at Boston University from August 1 to September 2, 1960.

This five week program consisted of two areas of study: Case Studies and Advanced Counseling.

Objective information through our Testing Program is an important part of our evaluation of pupil needs. Together with teachers' records and observation, every effort is made to place a pupil in a program which will serve those needs. As more comprehensive tests are developed we are changing this phase of our work in order to bring the benefits of advanced research to our system.

NEEDS OF YOUTH

Higher education is demanding better, more complete and at the same time more diversified training for candidates for admission. Nearly all degree granting colleges require, in addition to 16 units of superior achievement, higher-than-ever scores in College Board Entrance Exams. Although a score of 500 remains the standard "average" score, colleges are able to select sufficient candidates whose scores are near or above the 600 level. The more selective colleges are turning down some candidates who score well above this level.

As better facilities are made available for our young people, so are demands being made that we turn out a better "product." Personnel directors are requiring, and can afford to require, thoroughly trained, alert, neat, personable employees. Since employment in a satisfying job is a definite need of youth, students, parents and educators must coordinate the activities of the student to the end that he will meet the more selective standards of the 60's.

COUNSELING

The one area of our service that has increased in volume and complexity beyond the increases in other services is counseling. The full import of a shifting of values and the weakening of our basic institutions is manifested in the severe adjustment problems being dealt with daily. The personal nature of the problems of our students precludes any meaningful "report". However, we would be remiss not to call the atten-

tion of our Committee to the need for professionally trained persons to work with our elementary and intermediate principals and teachers within our own system. State funds available for such services could be used to great advantage.

VOCATIONAL INFORMATION SERVICES

During the past and current year we have collaborated with the guidance departments of 14 surrounding towns, WBET and Northeastern University in setting up a Career Center for Teen Agers to bring vocational information to the young people in this area. We have continued to use the services of the Brockton Area Mental Health Clinic, Rehabilitation Division, Boston Child Guidance Center and the Massachusetts General Hospital Clinic among others to provide more specialized help for our pupils.

We have made contacts for our students not only with college admissions officers but also with personnel directors of many industries in the interests of our students and alumni. We feel our membership in such organizations as the Greater Boston Personnel and Guidance Association, Massachusetts Deans of Women, the Massachusetts School Psychologist's Association and a South Shore Guidance Association has been an asset to the pupils we serve.

Numerous group meetings have been held within the school and periodical bulletins have been prepared to bring information to the attention of the student body.

FOLLOW-UP: CLASS OF 1960

Continuing Education:	Girls	Boys	Total
4-year Degree College	3	13	16
Junior College	1	0	1
Preparatory Schools	0	5	5
Nurses Training School	4	0	4
Business Schools	7	0	7
Technical Schools	1	0	1
Post Graduate: E. B. H. S.	0	1	1
Total continuing education			35

Entered Labor Market	16	17	33
Entered Armed Services	0	4	4
Entered Homemaking	4	0	4
			—
Total Graduates			76

RECOMMENDATIONS

1. More professionally trained personnel to provide guidance services on all levels are needed.

2. Home rooms should be set up alphabetically to allow pupils to mix with others in their class at least in the home room.

3. Classes should continue to be homogeneous. However, we recommend that number designations replace the letters now used. Letters are traditionally connected with ability groups.

4. We urge the Committee to consider the value of a "scholastic index" as a part of the graduation requirement. We feel such an indicator would tend to encourage a more continued effort for better grades.

5. If certain teachers of demonstrated ability were freed of routine study hall assignments, their services as academic counselors would be invaluable to both pupils and beginning teachers. We recommend such a program for your consideration.

6. The so-called activities period should be at the end of the day. This would provide greater flexibility for activities and eliminate the difficult 7th period class room atmosphere.

We extend to all our colleagues-in-education our appreciation for their help in assisting us and for their growing acceptance of their important role in providing guidance services.

Respectfully submitted,

ANNE R. McNALLY,
Director of Guidance.

REPORT OF THE DIRECTOR OF ATHLETICS AND PHYSICAL EDUCATION

Dear Mr. Goldman:

In the elementary and secondary schools we have tried this past year to make the activities in physical education a vital part in the life of the student, an enrichment to the school curriculum and to the community. It has been made a practical and pleasurable experience for every pupil. We have correlated other subjects and activities which helped offer the opportunity for individual self-expression.

During the year, besides teaching a complete program at the High School, a visit is made one day of the week to the Intermediate school.

As the pupil moves on into secondary education in our high school he finds the opportunity for more specialized and technical instruction in physical education according to individual interests, talents, and skills.

The big drawback to the entire program continues to be that time when the weather conditions allow to shift the program from the best indoor facilities in the district to inadequate outdoor facilities. These facilities are no worse than before, but they seem so because in traveling throughout the district there are new athletic fields practically everywhere.

In closing, I would like to especially thank you and the school committee for electing Mrs. Lovering as my assistant.

ATHLETICS

This program is designed for the more highly skilled, more gifted players as far as athletic ability is concerned. Taking part in this program does not excuse a student from his physical education classes.

Seven major sports are offered: Football, Field Hockey, Cross-Country, Basketball, Baseball, Softball, Track and Field Events.

Each year the enthusiasm for girls' sports is increasing, not only on the part of the participants but also on the part of the spectators.

Mr. Demo Agganis as the Cross-Country and Freshman basketball coach is very well liked by the youngsters, and the time and effort that he puts into his work will do much to make him an asset to our athletic department.

I would like to recommend that consideration be given to an intra-mural program for all the 7th and 8th grade boys and girls. I firmly believe that a good intra-mural program for both the boys and girls at this level would have a greater impact upon the total athletic program. In such a program each individual would have an opportunity to reach his immediate desire of personal achievement. Actually, a varsity program should be a direct outgrowth from a sound, wholesome intra-mural program.

It is with sincere gratefulness that I thank those who have cooperated with me in my earnest efforts to develop a better knowledge of physical education and athletics, to provide opportunities for physical expression, to discover and encourage the development of talent and to educate for leisure time enjoyment recreational activities for our students when such a program is so much needed for our youth in the world of today.

Very truly yours,

VINCENT J. MALEWICZ,
Director of Athletics and
Physical Education.

REPORT OF THE SCHOOL NURSE

Dear Mr. Goldman:

I submit herewith a brief summary of work accomplished by the school nurse for the year ending December 31, 1960:

School visits	489
Special attention to	1,636
First aid care to	1,427
School injuries requiring immediate surgical attention	4
Pupils recommended for exclusion	246
Ill pupils transported	64
Pupils referred to the school physician	12
Pupils referred to their family physician	36
Interviews with parents	525
Massachusetts Vision Test (School year 1959-1960)	
Pupils tested	1,420
Pupils retested	108
Old defects 44 New defects 46	
Pupils wearing glasses	182
Notices sent to parents	48
Pure-Tone Audiometer Test (School year 1959-1960)	
Pupils given the group test	1,430
Pupils given an individual test	140
Old defects 22 New defects 14	
Notices sent to parents	16
Immunization Program—Diphtheria, whooping cough, tetanus	
Pupils given complete series	8
Elementary grade pupils given boosters	93
High School pupils given adult type boosters	154
Special polio clinic	
High school pupils	130

Physical Examinations

Pupils examined by school physician	587
Pupils examined by family physician	62
Pupils referred by school physician for further diagnosis and treatment	24
Pupils who completed referral by visiting family physician or clinic	12

Registration for Entering First Grade

Registration list	145
Social histories returned	137
Medical forms returned	138
Family physician	120
School physician	18
Vaccination certificates	145
Birth Certificates	145

Communicable Diseases

Chicken pox	16
Measles	13
Mumps	89
Scarlet fever	9
Contagious skin diseases	11

Special Activities

- Classroom inspections made.
- Elementary grade pupils weighed and measured.
- Interviews with principals, teachers, and others regarding
physical defects.
- Pupils transported for surgical care.
- Assistance given Miss Farren at the public polio clinic.
- A sixteen week course in Public Health Nursing attended
at Simmons College.
- A one-week Workshop attended June 27—July 1 in
Boston.

Respectfully submitted,

BARBARA A. LIGHTFOOT, R.N.,
School Nurse.

REPORT OF DENTAL HYGIENIST

Dear Mr. Goldman:

I herewith submit the annual report of the School Dental Department.

The pre-school clinic examinations conducted in June by the Dental Hygienist showed the following:

Thirty-six dental examinations were made.

Nine children showed no defects.

Twenty-seven needed dental work.

Ten of the above twenty-seven were having dental care.

Ten needing dental care would go to their family dentist.

Seven needing dental care intended to wait until September and the school clinic.

In September dental examinations of 1509 pupils in grades 1—12 were conducted by Dr. Fraser and the School Dental Hygienist, using type four examining method (dental mirror, explorer and adequate illumination). These reports were sent home to parents and returned for dental department records. The results of these examinations were as follows:

Mouths in good condition, grades 1-6—302.

Mouths in good condition, grades 7-12—218.

Pupils in the first, sixth, and eighth grades were offered dental prophylaxis in the school dental office; 815 accepted and this work was completed.

Pupils in grades two, five, and eight were offered sodium fluoride treatments; 336 accepted and 1348 treatments were given.

Following the prophylaxis and examination of the first grade in September, a marked increase of dental work had

been done following the pre-school examinations in June over other years.

Classes to promote dental health have been conducted in the elementary grades and dental materials distributed to pupils and teachers. A special program of "Building a Good Breakfast" was carried out in the second grade.

Following the prophylaxis in the dental office, reports of existing cavities found were sent home to be signed and returned for verification. Follow-up work with parents has been most encouraging and satisfactory.

The Thursday morning clinic conducted under the new policy has been able to care for requests made in the first and second grades.

Four pupils in this group unable to pay the fee were cared for at the school dental clinic. One pupil in the eighth grade received dental work outside the school clinic. The approved estimate was paid for with the help of an organization outside the school department.

The Dental Convention in May offered new and interesting methods and materials; also lectures by prominent dentists.

The two-day "In Training Course" held at Forsyth Dental School was attended in June and I received a state certificate for participation.

South Shore Dental Hygienists Association sponsored a series of evening lectures in October and November which I attended and found instructive.

May I again thank Dr. Fraser and all school personnel for their help and co-operation with the School Dental Program.

Respectfully submitted,

BLANCHE H. FLINT, R.N., R.D.H.

REPORT OF THE SUPERVISOR OF CAFETERIAS

To the Superintendent of Schools:

The School Lunch Program is continuing to progress and function in the same manner in which it did a year ago. Our program has increased along with the enrollment of the school body. We sell an average of 940 "A" plates a day and use an average of 1310 half-pints of milk a day. In addition to this we sell ice cream a la carte in all three schools and sell a la carte items of sandwiches, salads, soups and cookies at the High School Cafeteria to High School students only.

The Central School Cafeteria is ably managed by Mrs. Eleanor Ellis and her staff of two full time workers and two part-time workers. The enrollment and participation in this school is approximately the same as a year ago.

The Intermediate School Cafeteria is managed by Mrs. Grace S. Carl since the opening of school in September. Mrs. Carl was previously a worker in the High School Cafeteria and has been well informed regarding the requirements of our contract with the State Lunch Program Office. Mrs. Carl has two full time workers and two part-time workers on her staff. Mrs. Audrey Viola who has been managing this cafeteria resigned in August to work for the Foxboro Company.

The High School Cafeteria is ably managed by Mrs. Mildred Siscoe with the assistance of three full time workers. This group has an extra burden this year of having three recess periods instead of two. This third recess period is given over to the two fifth grades which are being housed in this building. We have managed to take care of this situation without hiring additional help, but this staff is working its limit to do it.

Our School Lunch Program runs on a non-profit basis as required in our contract with the State Office. We closed our books in June for the summer and had enough profit to restock our store rooms for fall, replace silverware and dishes where needed and to take care of emergencies which might arise. We are one of the only 2 or 3 towns in the State which has a 20c "A" plate and one of the very few which still charges 25c. The cooperation, management and planning on the part of the managers along without being wasteful has made this possible.

Mrs. Carl, Mrs. Siscoe and Mrs. Matthews attended the Eleventh Annual School Lunch Section Meeting on October 21 at the Manomet Elementary School this year. Miss Louise Frederick, the Field Representative from the State Lunch Program Office, brought us up to date on the School Lunch Program requirements.

I would like to express my appreciation to the cafeteria staffs for their fine cooperation.

Respectfully submitted,

BARBARA M. MATTHEWS,
Supervisor of Cafeteria.

AGE-GRADE TABLE—OCTOBER 1, 1960

ANNUAL TOWN MEETING

Monday Evening March 6, 1961

A legal meeting of the inhabitants of the Town of East Bridgewater, qualified to vote in elections and town affairs, was held in the Michael J. McCarthy Auditorium at the East Bridgewater High School, March 6, 1961, Monday evening, at 7 p.m. o'clock, under a warrant issued by the Selectmen and dated February 20th, 1961.

The meeting was called to order by the moderator, Forest W. Cousins. The warrant, with the exception of the articles contained therein, and the constable's return were read by the town clerk, George J. Frahar.

The Moderator was requested by Atty. Edmund Nutter, Chairman of the World War II and Korean Conflict Committee, to allow the dedication exercises for the Memorial Organ purchased by the Committee as a Memorial to World War II and Korean Conflict Veterans. Prayers were offered by Rev. Dean Putnam, Assistant at St. John's Church, and the presentation of the organ was made by Mr. Edmund Nutter. The Star-Spangled Banner was played by Mr. Luther Churchill. Commander Arthur Goldman of Fred Bates Morse Post No. 91 was in charge of the rifleman squad which was comprised of Jack Males, Sergeant; A. David Swartz, Douglas McLaughlin, Philip Carey, Angelo Mattie, Richard Cox and Richard Mansfield. The Color Guard was comprised of Aldo Negri, Paul Garabedian, Clarence Bolinder and Rockford Hardman, all members of the American Legion. A Citation and Plaque was given to Mr. Robert Eastman in recognition of his work in setting up the organ.

The following action was taken upon the articles in the Warrant:

Article 1. Amendment made by Albin S. Rock and voted in the negative that all reports be accepted with the exception of the report of the School Planning and Building Committee.

Article 1. Voted to accept the reports of the Town Officers and Committees as printed in the Annual Town Report.

Article 2. Voted to adopt the same method for the collection of taxes as used in the year 1960.

Article 3. Voted to raise and appropriate the following sums of money for the purposes named, and that pay raises be from January 1, 1961:

Article 6. Voted to raise and appropriate the sum of \$15,000.00 for the Reserve Fund to be administered during the fiscal year by the Finance Committee, and that to meet said appropriation, a transfer of \$10,000.00 from the Overlay Surplus Revenue Account and \$5,000.00 from E. & D. Account is authorized.

Article 7. Voted to authorize the Board of Selectmen to enter into a contract with the Department of Public Works and the County Commissioners for the construction and maintenance of public highways for the ensuing year.

Article 8. Voted to raise and appropriate the sum of \$22,000.00 of which the sum of \$5,500.00 shall be raised in the tax levy of the current year, and authorize that the balance of \$16,500.00 be transferred from available funds in the Treasury, to be spent under the provisions of Chapter 90 Highway Construction in conjunction with funds provided by the State and County, and upon receipt of reimbursement, to be returned to the Treasury.

Article 9. Voted to raise and appropriate the sum of \$6,000.00, of which the sum of \$2,000.00 shall be raised in the tax levy of the current year, and authorize that the balance of \$4,000.00 be transferred from available funds in the Treasury, to be spent under the provisions of Chapter 90 Highway Maintenance in conjunction with funds provided by the State and County, and upon receipt of reimbursement, to be returned to the Treasury.

Article 10. Voted to transfer from Surplus Revenue the sum of \$25,000.00 to be applied against the current year's tax levy.

Article 11. Voted to transfer the sum of \$5,000.00 from Surplus Revenue Account to the Stabilization Fund.

Article 12. Voted to raise and appropriate the sum of \$2,350.00 to purchase a new ambulance type police cruiser, and authorize the Board of Selectmen to trade in the 1950 cruiser as part of the purchase price.

Article 13. Voted to raise and appropriate the sum of \$1,500.00 to purchase helmets and coats, numbering and lettering for the same, for use of the Fire Department.

Article 14. Voted to raise and appropriate the sum of \$2,200.00 to purchase a five cubic yard sand spreader for the Highway Department, and trade in an obsolete plow and dump body as part of the purchase price.

Article 15. Voted to raise and appropriate the sum of \$6,000.00 to resurface Cedar Street by mix-in-place method.

Article 16. Voted to raise and appropriate the sum of \$3,100.00 to resurface Pine Street by mix-in-place method.

Article 17. Voted to raise and appropriate the sum of \$1,700.00 to resurface Union Street from Bedford Street to Central Street, and West Union Street from Central Street to the Railroad tracks, with Type I—Dense Type Mix.

Article 18. Voted to raise and appropriate the sum of \$2,000.00 to resurface Belmont Street from the Beaver Cemetery, a distance of 1800 feet by mix-in-place method.

Article 19. Voted to raise and appropriate the sum of \$2,500.00 to build a sidewalk and widen the road on North Central Street from Union Street to the new post office.

Article 20. Voted to raise and appropriate the sum of \$1,800.00 to extend the drainage system on Central Street.

Article 21. To see if the Town will vote to raise and appropriate the sum of \$10,000.00 for Test Well Investigation, for the purpose of locating a ground water source of supply.

Motion made to take up Article 21 was Defeated.

Motion made to rescind Article 21 was also Defeated.

Article 22. Voted to raise and appropriate the sum of \$34,274.77 for the laying of 6,030 feet of 8-inch cement asbestos pipe, from the intersection of West Union and North Central Streets to Thayer Avenue, Leland Street, Waterman Street and Shawnee Avenue; and authorize the Treasurer, with the approval of the Selectmen, to borrow the sum of \$34,274.77; and to issue note or notes, said note or notes to be payable in accordance with the provisions of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than five years from

the date of issue of the first note, or at such earlier time as the Treasurer and the Board of Selectmen may determine; said work to be done by contract.

Yes, 288; No 13.

Article 22. Vote taken by show of hands by Tellers, William Kingman, Richard Leland, Clarence Anderson, Ralph Keith, Richard Alexander and Emery Loud.

Article 23. Voted to raise and appropriate the sum of \$6,975.00 to lay 1,550 feet of 6-inch cement asbestos water pipe, from the corner of Harvard Street and Pine Street to the Whitman line; said work to be done by contract.

Article 24. Voted to take part in the observance of the Civil War Centennial, and to raise and appropriate the sum of \$2,500.00; said funds to be expended under the jurisdiction of the Board of Selectmen.

Article 25. Voted to raise and appropriate the sum of \$500.00 for Christmas Decorations in the center of the Town; said funds to be spent under the jurisdiction of the Board of Selectmen.

Article 26. Voted to choose Mr. Robert A. Leland, Town Director, Plymouth County Aid to Agriculture, as provided in Section 41, Chapter 128, General Laws.

Article 27. Voted to raise and appropriate the sum of \$221.00 to install the following street lights: three lights on Highland Street, one light at corner of Hubbard Road and Bixby Drive, two lights on Elm Street, one light on Abbey Lane, one light on Winter Street near the residence of Francis Sanborn, one light on Cook Street near the residence of Joseph F. Morey, one light on North Bedford Street near the residence of Alfred Ortenzi, one light at corner of South Street and West Pond Street, one light on Sherwood Circle near the residence of Clayton Rollins, and one light on West Union Street near the residence of Ernest C. Philbrick.

Article 28. Voted to raise and appropriate the sum of \$1,200.00 to enlarge the vault in the Town Office Building; said funds to be spent under the jurisdiction of the Board of Selectmen.

Article 29. To see if the Town will vote to accept a Building Code, and raise and appropriate the sum of \$200.00 for code enforcement.

Motion to take up article 29 was defeated.

Article 30. Voted to accept Sherwood Circle from the end of the 1957 Selectmen's Layout, a distance of 482.21 feet, for highway purposes.

Article 31. Voted to authorize the Board of Selectmen to sell the Town Hall building at Public Auction.

Article 32. Voted to authorize the Board of Selectmen to grant the Town of Hanson the right to lay water pipes in Franklin Street for a distance of 790 feet.

Article 33. Voted to amend the Zoning By-Law and Zoning By-Law Map as follows: To amend Section 6 by adding the following: Each trailer shall be regarded as a dwelling, under a temporary permit, to locate outside of a trailer court or park and the parcel of land upon which the same is placed shall conform to all minimum lot area and minimum lot frontage requirements for principal buildings as contained in Section 6 a.

To amend Section 5 a (11) by adding the following: Each trailer shall be regarded as a dwelling and the parcel of land upon which the same is placed shall conform to all minimum requirements for principal buildings as contained in Section 6 a.

To change the following area from an Industrial District to a Residence B. District: That area of land northerly from Keith Place, bounded as follows: Easterly by the Easterly line of Dean Place projected to Forge Pond; Northerly by Forge Pond; Northwesterly by the Westerly line of Willow Avenue projected Northerly to Forge Pond, and Southwesterly by a line parallel to and 150 feet distant from Keith Place.

Yes, 245; No 0.

Article 33. Vote taken by show of hands by Tellers, William Kingman, Richard Leland, Clarence Anderson, Ralph Keith, Richard Alexander, Emery Loud.

Article 34. To see if the Town will vote to authorize the Selectmen to appoint a School Building Needs and Site Selection Committee of seven persons, including two members of the School Committee, for the purpose of determining present and future school housing needs of the town, and to report their findings and proposed solution at a special town meeting, to be held within six months, and if said solution should necessitate the selection of a school site, this committee is to include this recommendation in its report.

Motion to take up article defeated.

Article 35. To see if the Town will vote to raise and appropriate the sum of \$8,000.00 to repair the Town Hall building so that it may be used by the School Department as an additional gymnasium.

Motion to take up article defeated.

Voted to adjourn at 11 p.m.

SPECIAL TOWN MEETING

Monday Evening, September 18, 1961

A legal meeting of the inhabitants of the Town of East Bridgewater, qualified to vote in election and town affairs, was held in the Michael J. McCarthy Auditorium at the East Bridgewater High School, September 18, 1961, at 8 p.m., under a warrant issued by the Selectmen and dated September 11, 1961. The meeting was called to order by the Moderator, Forest W. Cousins.

The warrant and constable's return were read by the Town Clerk, George J. Frahar.

The following action was taken upon the articles in the warrant:

Article 1. Voted to hear a report of the School Planning and Building Committee. The report was made and a discussion pro and con to the report was held.

Article 2. To see if the Town will vote to raise and appropriate the sum of \$23,000.00 to cover the cost of Chapter 90 Highway Construction, \$11,500.00 to be the State's share, \$5,750.00 to be the County's share, \$5,750.00 to be the Town's Share, and the sum of \$23,000.00 be transferred from available funds in the Treasury.

No action. Only 138 voters present.

Article 3. Voted to authorize the Selectmen to purchase a parcel of land designated as Plot 8 on Plan 11 of the Assessors' plans, together with a strip of land on the Southerly side thereof for access purposes for a disposal area, and that the sum of \$1,200.00 be appropriated for said purchase and survey of said lot; and that said sum be transferred from available funds in the Treasury is authorized.

Article 4. Voted to amend the By-Laws of the Town of East Bridgewater by adding a new section as follows: Article XIV, Section 1, — The Board of Selectmen shall annually appoint an Inspector of Gas Piping and Gas Appliances in buildings, for a term of one year from April 1st of each year.

Yes, 71; No, 11.

Article 5. Voted to raise and appropriate the sum of \$150.00 to cover the cost of Gas Inspection; said sum to be transferred from available funds in the Treasury.

Article 6. Voted to authorize the Highway Surveyor to sell the Steam Roller, and the proceeds from the sale to be transferred to the Machinery Rental Account.

Article 7. Voted to authorize the Selectmen to purchase from Harold Hoyt, a strip of land forty feet wide between the end of Waterman Street and a private way leading from Matfield Street for Water Department purposes for the sum of \$300.00; said sum to be transferred from available funds in the Treasury.

The following tellers were appointed by the Moderator: Edwin Whitmore, Richard Leland, Ralph Keith, William Hennessey, August Dube, Jr., Joseph Rochette, Robert Alexander.

Voted to adjourn, 9:10 p.m.

A true copy of record. Attest:

GEORGE J. FRAHAR, Town Clerk.

SPECIAL TOWN MEETING

Monday Evening, November 27, 1961

A legal meeting of the inhabitants of the Town of East Bridgewater, qualified to vote in elections and town affairs, was held in the Michael J. McCarthy Auditorium at the East Bridgewater High School, November 27, 1961, at 8 p.m. Under warrant issued by the Selectmen and dated November 13, 1961. The meeting was called to order by the Moderator, Forest W. Cousins.

The Warrant and constables return was read by the Town Clerk, George J. Frahar. The following action was taken upon the articles in the Warrant:

Article 1. Voted to raise and appropriate the sum of \$23,000.00 to cover the cost of Chapter 90 Highway Construction, \$11,500.00 to be the State's share, \$5,750.00 to be the County's share, \$5,750.00 to be the Town's share, and the sum of \$23,000.00 be transferred from available funds in the Treasury to meet the above, reimbursement from the State and County to be restored upon their receipt, to available funds in the Treasury.

Article 2. Voted to raise and appropriate the sum of \$463.98 for Highway Construction, Chapter 718 of the Acts of 1956; said funds to be transferred from available funds of Chapter 718 in the Treasury.

Article 3. To see if the Town will vote to raise and appropriate the sum of \$5,000.00 to purchase and install two-way radios for use of the Highway Department, and to meet said appropriation, a transfer of \$5,000.00 from available funds in the Treasury is authorized.

No action.

Article 4. A motion was made to take up Article 4 by Mr. Richard Leland which was seconded and voted to act upon. Moved that the Town will amend the vote passed under Article 34 at the 1960 Annual Town Meeting in the following respects: (1) by reducing the appropriation from the Stabilization Fund for such purpose to \$97,500.00, (2) by transferring \$2,500.00 for such purpose from Available Funds in the Treasury, and (3) by authorizing the issue of \$200,000.00 bonds under authority of Chapter 645 of the Acts of 1948, as amended, and to issue bonds or notes of the town therefor payable in accordance with the provisions of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than ten years from the date of issue of the first bond or note. Vote taken by a show of hands. Tellers were appointed by the Moderator and sworn to the faithful performance of their duty by the Town Clerk.

Yes, 48; No 194.

Motion made by Mr. Karl Nordin, Chairman of the School Planning and Building Committee, to take up Article 4 as contained in the Warrant which was seconded.

Article 4. To see if the Town will amend the vote passed under Article 34 at the 1960 Annual Town Meeting in the following respects: (1) by reducing the appropriation from the Stabilization Fund for such purpose to \$97,500.00, (2) by transferring \$2,500.00 for such purpose from available funds in the Treasury, and (3) by authorizing the issue of \$200,000.00 bonds for such purpose under Chapter 645 of the Acts of 1948 or under Chapter 44 of the General Laws, or to take any other action with respect to the aforesaid project or the financing thereof.

Action.

Article 4. Voted to amend the vote passed under Article 34 at the 1960 Annual Town Meeting to read as follows: that the sum of \$2,500.00 be transferred from available funds, the sum of \$97,500.00 be transferred from the Stabilization Fund, and that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow the sum of \$200,000.00, under authority of Chapter 645 of the Acts of 1948, as amended, or Chapter 44 of the General Laws, and to issue bonds or notes of the Town, therefor payable in accordance with the provisions of Chapter 44 of the General Laws, within ten years from their dates and that the School Building Committee appointed under Article 2 of the Warrant for the Town Meeting held December 14, 1959, be empowered to enter into all contracts and agreements necessary to construct, equip and furnish the addition and that the Selectmen be instructed to request the Senator and Representative from our district to file a bill with the Legislature to provide State Aid for said project. Vote taken by show of hands.

Yes, 179; No, 66.

Tellers appointed as follows: Robert Hall, Philip Carey, Frank Hall, Bradford Alexander, Wilfred Calland and Joseph Rochette.

Voted to adjourn at 10:05 p.m.

A true copy of record. Attest:

GEORGE J. FRAHAR, Town Clerk.

YOUR ATTENTION IS CALLED TO THE FOLLOWING

All persons are respectfully requested to examine the following reports of births, marriages and deaths and report to the Town Clerk any errors or omissions that may be discerned therein, so that the records may be corrected. An error in the record, other than a mistake in copying a certificate or return, can be corrected only in accordance with a deposition under oath made by one who is required by law to furnish the information for the original record or by one or more creditable persons having knowledge of the case. (See General Laws, Chapter 46, Section 13, as amended.)

Births occurring late in the year are sometimes returned without the Christian name. In such cases parents should return the name to the Town Clerk as soon as selected, as incompleteness of the record may occasion trouble in the future.

Attention is particularly called to the following extracts from the General Laws:

GENERAL LAWS, CHAPTER 46

Section 1. Each city and town clerk shall receive or obtain and record . . . facts relative to the births . . . in his city or town.

Section 3. Every physician or medical officer registered shall keep a record of the birth of every child in cases of which he was in charge and . . . shall, within fifteen days after such birth, mail or deliver to the clerk or registrar of the town where such birth occurred, a report . . . if the child is illegitimate, the name and other facts relating to the father shall not be stated except at the request in writing of both father and mother filed . . . A physician or any such officer violating any provision of this section shall forfeit not more than twenty-five dollars.

Section 4. Any member or servant of a family in which a child is born, having knowledge of the facts required . . . shall furnish the same upon request of the clerk of the town . . . or of any person authorized by him. (Penalty for refusing, not more than ten dollars.)

Section 6. Parents within forty days after the birth of a child, and every householder within forty days after a birth in his house shall cause notice thereof to be given to the clerk of the town where such a child is born.

GENERAL LAWS, CHAPTER 207

Section 36. If a marriage is solemnized in another state between parties living in this Commonwealth, who return to dwell here, they shall within seven days after their return, file with the clerk or registrar of the town where either of them lived at the time of their marriage, a certificate or declaration of their marriage including the facts required in a notice of intention of marriage.

Section 55. Whoever violates Section 36 shall forfeit ten dollars.

The Town Clerk hereby gives notice that he is prepared to furnish parents, householders, physicians and registered hospital medical officers applying therefor, with blanks for return of birth as required by law.

GEORGE J. FRAHAR, Town Clerk.

OFFICE OF TOWN CLERK

The attention of owners and keepers of dogs is called to the following extracts from Chapter 140 of the General Laws as amended:

Definition: "Licensed period," the time between April first and the following March thirty-first, both dates inclusive.

Section 137. A person who at the commencement of a license period is, or who during any license period becomes the owner or keeper of a dog when it becomes three months old during a license period, shall cause it to be registered, numbered, described and licensed until the end of such license period, and the owner or keeper of a dog so registered, numbered, described and licensed during any license period, in order to own or keep such dog after the beginning of the succeeding license period, shall, before the beginning thereof, cause it to be registered, numbered, described and licensed for such period.

The license shall be in a form prescribed by the director, upon a blank to be furnished — by the county in which the town is located, and shall be subject to the conditions expressed therein that the dog which is the subject of the license shall be controlled and restrained from killing, chasing or harrassing live stock or fowls. The owner or keeper of a licensed dog shall cause it to wear around its neck or body a collar or harness of leather or other suitable material, to which shall be securely attached a tag in a form prescribed by the director, and upon which shall appear the license number, the name of the town issuing

such license and the year of issue. Such tags shall be furnished in the same manner as the license blanks, and if such tag shall be lost the owner or keeper of such dog shall forthwith secure a substitute tag from the town clerk.

Section 139. Fees for licenses. The fee for every license shall, except as otherwise provided, be two dollars for a male dog and five dollars for a female dog, unless a certificate of a registered veterinarian who performed the operation that said female dog has been spayed and has thereby been deprived of the power of propagation has been filed with the town clerk, in which case the fee shall be two dollars. A certified copy of such certificate on file in the office of any town clerk within the Commonwealth may be accepted as evidence that the said operation has been performed.

GEORGE J. FRAHAR, Town Clerk.

Report of the Board of Selectmen

To the Citizens of the Town of East Bridgewater:

We submit herewith our report for the year 1961. Meetings were held every Monday evening at 7:30 p.m. at the Town Office Building and the townspeople are always welcome to come and discuss any problem which might arise.

As voted at the Annual Town Meeting in March, a new ambulance type police cruiser was purchased for use of the Police Department; new street lights were installed throughout the town where it was felt necessary; and as part of a yearly project, twenty-two metal street signs were purchased and put in place.

On recommendation of the Department of Public Works in Middleboro, it was decided to hold up on our Chapter 90 Highway Construction project on Highland Street this year, and spend the combined allotment for both years in 1962; therefore, we hope that work will soon be started for a new road on Highland Street beginning at North Bedford Street and continuing past the entrance to the Foxboro Company.

The year 1961 marked the beginning of a four-year observance of the Civil War Centennial throughout our nation. Money was appropriated for this project and the following citizens have agreed to serve on our local Committee, viz: Mr. Frank M. Adams, Chairman; Mr. Philip E. Carey, Vice-Chairman; Mrs. Margaret Alexander, Secretary; Mrs. Grace Eastman, Custodian; Miss Margaret E. McCarthy, Mr. Stanley B. Goldman, Mr. James E. O'Brien, and Mr. Allan B. Howland. Several projects were carried out during the year, and on October 12, 1961, a large parade was held, ending with a ceremony at the Civil War Monument. May we take this opportunity to express our appreciation, on behalf of the townspeople, to this Committee for their untiring efforts during the past year.

In accordance with vote at the Annual Town Meeting in March, 1961, a Public Auction was held on April 8, 1961, to sell the Town Hall Building. Mr. Howard C. Hogue was the successful bidder, at a price of \$125.00. After all the debris was removed, Mr. Richard M. Hennessey, Highway Surveyor, supervised the drainage and grading, so that now it can be used as a parking lot. Many of us were sorry to see the building being demolished as it brought back memories of movies, graduations, proms, dances, plays, etc., which were held there over the years.

The year 1961 has been a year of growth for our town, which is evidenced by the 67 permits issued for new dwellings, and 61 other permits were issued for garages, additions, etc. The new constructions referred to above represent an approximate valuation of \$1,500,000.00.

In conjunction with funds contributed by the merchants, the Kiwanis Club and the \$500.00 appropriated for Christmas Decorations by the townspeople, we were able to make a marked improvement in our Christmas display this year. We feel they were fully as attractive, if not more so, than our surrounding towns and hope to continue with this project next year.

Under the Commonwealth of Massachusetts Code for Installation of Gas Appliances and Gas Piping established under Chapter 737, Acts of 1960, effective February 1, 1961, it states under Section 30: "Each City and Town shall provide by ordinance or by-law for the appointment of an inspector of gas piping and gas appliances in buildings, whose duties shall be the enforcement of the rules and regulations adopted by the Board established under Section 12H of Chapter 25". At a Special Town Meeting held on September 18, 1961, the townspeople accepted this in the form of a By-Law, and Mr. Francis E. Hall was appointed Gas Inspector for the Town of East Bridgewater. Permits may be obtained at the Selectmen's Office, fee \$2.00 each.

Summary of fees collected by the Selectmen's office during 1961:

3 Club License — All alcoholic @ \$300.00	\$900.00
3 Package Store Licenses — All alcoholic @ \$200.00	600.00
1 Package Store License — malt and wine @ \$200.00	200.00
3 Common Victualer and all alcoholic license @ \$300.00	900.00

7 Class 2 — Used Car Dealer's License @ \$10.00	70.00
4 Class 3 — Motor Vehicle Junk License @ \$10.00	40.00
9 Common Victualer's License @ \$2.00	18.00
11 Sunday License @ \$5.00	55.00
2 Slaughter License @ \$1.00	2.00
128 Building Permits @ 1.00	128.00
13 Gas Permits @ \$2.00	26.00
3 Special Licenses @ \$2.00	6.00
33 Sunday Entertainment License @ \$2.00	66.00
Refund advertising fees paid for Public Hearings, etc.	94.19
Received from sale of wood from George Washington Bicentennial Forest	55.20
Received from Howard C. Hogue, purchase price of Town Hall Building sold at Public Auction, April 8, 1961	125.00
Amount received from Insurance Companies covering fire loss of Sept. 27, 1960	91.47
Amount remitted to Town Treasurer	\$3,401.86

The Board of Selectmen wish to extend a warm welcome to all the new citizens of the Town. The Board meets every Monday evening from

7:30 p.m. to 10 p.m. and will schedule special meetings to discuss specific problems with the townspeople upon request.

The Selectmen wish to express their sincere appreciation for the friendly cooperation which they have received from all Town officials, employees and townspeople during the past year.

Respectfully submitted,

GEORGE A. RIDDER,
CHARLES L. LELAND,
JAMES E. O'BRIEN,
Board of Selectmen.

Report of the Board of Health

Board of Selectmen
East Bridgewater, Mass.

Gentlemen:

Board of Health had busy year in all its duties and responsibilities and the year's end finds no slow down in current problems. There were considerable number of new homes built and in all starts the sewage disposal supervision program is of help to insure proper installation. The fee for this service is now \$10.00 per Lot for permit which is the usual fee in many towns and will make the program nearly if not fully self-supporting as is the Plumbing Inspection Code and Slaughtering Inspection.

Quarterly inspections of eating and drinking establishments were made, and bacteria swab counts of utensils used in serving the public. Re-check tests were made of any unsatisfactory conditions found, and correction made. Laboratory analysis of milk and cream sold in town was made on quarterly basis and re-check samples tested, if any found to be unsatisfactory. Quality has been found to be very good; samples are taken at the milk plant in several cases which allows inspection of plant as to sanitary conditions.

The town water supply has been tested by the Board at intervals as found necessary to maintain satisfactory quality based on past experience. Bacteriological water analysis of various points in Robins Pond were made during swimming season as well as brooks, seepage, etc., in various parts of town to check for sewage contamination. Testing effluent from Foxboro sewage disposal system is also done to check condition of Meadow Brook. Complaints were promptly investigated and necessary action taken to insure correction.

School clinics and immunization clinics were held during year. Your Board attended Public Health meetings and hearings as considered important for the town, and investigation has been started for municipal sewage disposal system to serve down-town area where not enough land is available for proper sewage disposal by regular sub-surface disposal systems which are very satisfactory when properly installed and Lots of sufficient size.

Constant effort is being made by your Board to improve existing conditions and insure correct methods to prevent future troubles.

Respectfully submitted,

BOARD OF HEALTH

Donald B. Bannerman, M.D., Chrm.

Putnam Steele, Clerk

Robert H. Hall

REPORT OF THE TOWN COLLECTOR

To the Honorable Board of Selectmen and the
Citizens of the Town of East Bridgewater, Mass.

Dear Sirs:

Rendered herewith for your attention is a condensed report of the
Town Collector's Department for the calendar year of 1961.

Respectfully submitted,

H. W. COLLAMORE, Town Collector.

REPORT OF THE TOWN COLLECTOR

For the Year Ending December 31, 1961

RECAPITULATION	TOTAL RECEIPTS
Real Estate Taxes	\$672,757.00
Personal Property Taxes	96,093.13
Farm Animal Excise Taxes	690.62
Motor Vehicle Excise Taxes	116,187.92
Poll Taxes	2,976.00
Interest, Fees and Advertising	1,874.87
Water Rates	47,777.76
Water Services	2,227.87
Water Rates Added to Taxes	5,236.03
Lien Certificates	102.00
Old Age Assistance	19,661.30

Disability Assistance	1,912.67
Trailer Court Rentals	696.00
Veterans' Services	15,345.63
Rent of Hobart Property	520.00
Board of Health Fees	334.90
Aid to Dependent Children	3,816.33
Recovery Accounts	19,861.62
Medical Aid to Aged	7,164.29
Administration	2,090.62
Totals	<hr/> \$1,017,326.56

Report of the Civil War Centennial Committee

To the Honorable Board of Selectmen

Dear Sirs:

The second annual report of the East Bridgewater Civil War Centennial Committee is herewith presented.

The local committee has acted for the second year under the following organization: Mr. Frank M. Adams, Chairman; Mr. Philip E. Carey, Vice-Chairman; Mrs. Margaret Alexander, Secretary; Mrs. Grace Eastman, Miss Margaret E. McCarthy, Mr. Stanley B. Goldman, Mr. James O'Brien, and Mr. Allan Howland.

At the annual town meeting the voters endorsed the request of the committee for funds to fittingly commemorate the centennial of the Civil War as requested by the federal government. Subsequently the amount of money a community could appropriate for this use was regulated by vote of the state legislature. Therefore, much of the early planning of the committee was nullified.

However, the programs which developed were highly significant and in the spirit of commemoration rather than celebration as seemed most fitting.

In the spring the school department presented a program in which the combined English, History, and Music departments cooperated. An excellent program saw the reading of essays on some facet of Civil War history by winners of the contests and the singing of Civil War music by the Junior High chorus under the direction of James Goodwin.

In the summer the town was enriched by the presentation of a portrait of Abraham Lincoln painted on glass. This portrait was given to the High School from the Lincoln collection of the late Michael J. Mc-

Carthy by his sister, Miss Margaret E. McCarthy, in honor of their brother, Robert. The presentation was made by Robert E. McCarthy and accepted by Stanley B. Goldman at a simple ceremony in the High School auditorium.

On October 12 the major event of the year, a parade, was held. Among the highlights of the parade was the appearance of the re-activated 9th Massachusetts Regiment, the American Legion Drill Team, floats, service units and the appearance of a large number of school children carrying flags furnished by local merchants. The parade concluded with speeches at the Civil War monument at the Common by civic leaders.

Respectfully submitted,

FRANK M. ADAMS, Chairman.

Report of Inspector of Plumbing

To the Board of Health
East Bridgewater, Mass.

Gentlemen:

I herewith submit my report on plumbing inspections for the year of 1961:

Number of inspections	196
A minimum of two inspections has been made for each permit issued.	
Number of fixtures and appurtenances inspected	504
Personal calls made to give information	41
Permits not approved	1

I wish to take this opportunity to thank you gentlemen for the cooperation and assistance given to me.

Respectfully submitted,

FREDERICK D. CANDUCCI,
Inspector of Plumbing.

Report of the Tree Warden

To the Residents of East Bridgewater:

The steady growth of the town, in population and progress, during the past few years has required an increase in services by the Tree Department to the townspeople. Over a period of the past five years the Tree Department also feels that it has progressed and accomplished several aims to cope with this ever increasing need for its services. New and modern tree equipment and methods have been and are being used by the department to make its work safer, faster, easier, and more economical. In the fall of 1957 the Town Nursery was started and at the present time this nursery is producing 30% to 50% of the trees being planted along the town streets. During the winter of 1959 the Tree Department started the task of reclaiming the Town Forest which for the past two summers has been used for camping by Boy Scouts and Girl Scouts, and is now growing saleable timber for the town and being readied for recreational purposes. A vigorous tree planting program was started so that at the present time the number of trees being planted along the town streets far exceeds those being removed. The above mentioned are the major achievements of the Tree Department during the past few years with the co-operation and understanding of many people.

During the year 1961 the town, although threatened, did not encounter a damaging hurricane as it did in the previous year, leaving the Tree Department to carry out its normal duties. The Dutch Elm disease, which is still prevalent, claimed 62 of our town Elms. There were 13 trees of other varieties removed because of danger to life and property. A total of 100 Maples were planted, in desirable places, along the town streets. The varieties of Maples planted were: Norway, a green Maple, and Fassen's Black, a species of red Maple. Approximately 30% of those trees planted along the streets were from the Town Nursery and the remainder were purchased from a large reputable nursery.

The Town Nursery, now operating in its fifth year, was maintained during the summer months as usual. About 175 trees of various sizes and varieties were planted in the nursery to systematically replenish those which were removed to be planted along the town streets.

The heavy snow during the winter of 1961 hindered work in the Town Forest; however, the department was able to clear out all the hurricane damaged trees and restore the acreage, formally cleared out, to its original state. In the coming year more progressive work will be done in the town forest toward the goal of opening this plot for recreational purposes.

The purchase of a brush chipper by the department has been another step forward and has proven to be a great asset in our work, in the

saving of time and labor on tree removal, cutting brush along the roadsides, etc.

I wish to express my thanks, as I have in the past and will in the future, especially to my workmen, to other town departments, and to the townspeople for their assistance and understanding. It is with their co-operation that the Tree Department has progressed; and, I certainly hope, will continue to progress with the town in the future.

Respectfully submitted,

AUGUST J. DUBE, JR., Tree Warden

Report of the Moth Department

To the Board of Selectmen and the Residents of East Bridgewater:

The Moth Department is a functional part of the Tree Department and operates chiefly during the spring and summer months. The advances over the past several years in new spraying equipment, methods, and materials for tree, brush, and poison ivy spraying have greatly assisted the Moth Department and a constant effort is made to use the latest methods and materials whenever they have been proven safe, practical, and economical. The department is hampered many times in its work by inclement weather during the spring and early summer and, therefore, at times cannot perform its duties thoroughly.

The usual application of dormant spray to all town Elms in the spring was made impossible because of the unseasonable wet weather. A foliage spray was applied in June to many town trees in certain sections of town when the weather became more favorable. In the coming year the department, hoping to have favorable weather conditions during the tree spraying season, plans to apply a completely new tree spray material already tested and proven safe and effective against a general line of tree insects.

The Plymouth County Mosquito Control Project, operating in its fifth year, performed its usual duties of cleaning ditches and brooks, dusting swamps, and aerial and truck spraying. This organization also undertook the undesirable task of unblocking the Matfield River at a point near the corners of Summer and Pleasant Streets. The results of this work were excellent and the situation was greatly relieved. This project has made many advances in mosquito control and has assisted the town in numerous ways during the past several years.

The Massachusetts Department of Natural Resources supplied the town with 21 gypsy moth traps which were set out in various parts of town, on a voluntary basis by the Moth Department, and patrolled peri-

odically during the summer months. There were no gypsy moths caught, but this may have been due to a defect in the new artificial bait used in these traps. The department feels that the gypsy moth is still present in this area, although not to an alarming or dangerous degree.

Poison ivy spraying was done as usual during the summer months. The spraying was done along the streets and on private property and this nuisance was eliminated from those areas sprayed. In the coming year the department hopes to systematically spray along many of the streets in an effort to control this public nuisance.

I again wish to express my sincere thanks to my capable workmen, other town departments, and the townspeople for their understanding, co-operation, and assistance in the past year.

Respectfully submitted,

AUGUST J. DUBE, JR., Moth Supt.

Plymouth County Aid to Agriculture

(PLYMOUTH COUNTY EXTENSION SERVICE)

By Robert B. Ewing, County Agent-Manager

The Cooperative Agricultural Extension Service was established in 1914, when Congress passed the Smith-Lever Act. The question heard so many times since then is "What is the Extension Service, and what does it do?"

The answer to that question is clearly defined in the Act passed by Congress which states, in part, that the Extension Service shall — "aid in diffusing among the people of the United States useful and practical information on subjects relating to Agriculture and Home Economics, and to encourage the application of the same."

Each year agreements are written between the United States Department of Agriculture, University of Massachusetts and Plymouth County. The Federal, State and County governments cooperate in furnishing this service to the citizens of Plymouth County. Thus the name "Cooperative" Extension Service. Since the Plymouth County Extension Service was organized and established in 1915, information pertaining to Agriculture, Home Economics education, 4-H Club Work, has been given free to all citizens of Plymouth County. The Extension Service has always been known as the "educational arm" of the United States Department of Agriculture.

The Extension Service office is located in the Court House, Brockton, and is staffed by agents who conduct programs in Agriculture, Home Economics and 4-H Club Work by furnishing educational information through farm and home visits, letters, newspaper articles, radio talks, meetings, office visits. The basic job of the Extension Service has always been the same and that is "to aid in diffusing among the people of Plymouth County, useful and practical information on subjects relating to Agriculture and Home Economics".

Funds for conducting the Plymouth County Extension Service are derived from three sources: Federal, State and County Governments. Along with these funds, most towns in Plymouth County make an annual appropriation which is used for the general expenditures of the Plymouth County Extension Service. Town Directors are appointed in those towns where an appropriation is made. These Town Directors are unpaid volunteer leaders who serve as the Extension Service representative in their respective towns.

For the commercial and part-time farmers, information is available in the following: agronomy, farm management, insect and disease control, marketing, production, rodent control and weed control.

For the home owners information is available in the following: Growing Vegetables, Flowers and Shrubs: insect and disease control: also information on lawns and household insects.

For the housewife and homemaker information and programs are available in the following subjects: Consumer education, home management, homemaking skills, and leadership development.

4-H Club Work is a youth program and is available to any boy or girl between the ages of 10 and 21. These young people are organized in agricultural and home economics clubs of all kinds.

Requests for information in agriculture, home economics or 4-H Club Work should be directed to the Plymouth County Extension Service, Court House, Brockton.

While the Extension Service furnishes information, it is up to the individual who receives this information to make the decision as to how it can be used to the best advantage.

Many Plymouth County citizens avail themselves of the opportunity each year to secure this free help and information pertaining to the home, home grounds, 4-H Club Work and agriculture. As the Extension Service is supported by the Federal, State and County governments, all citizens should make full use of their Extension Service.

The Board of Trustees, appointed by the Plymouth County Commissioners, administer the Plymouth County Extension Service programs. It is composed of the following members:

GILBERT BLACKLEDGE, Whitman, Chairman
 MRS. HAROLD D. BENT, Brockton
 LOUIS BILLINGS, Plympton
 MRS. MABEL CHANDLER, Duxbury
 MRS. GLADYS GIBBS, Hanover
 ROBERT HAMMOND, Wareham
 JOHN HOWE, West Bridgewater
 JOHN W. LITTLE, Marshfield
 JOHN PRENTICE, Plymouth

Report of the Town Planning Board

To the Board of Selectmen and the Citizens
 of the Town of East Bridgewater:

Once again your Planning Board is very glad to render an annual report of its activities for the preceding year.

At the annual March election, two members were elected to the Board, namely: Ernest Philbrick and Jack Stengel.

In March our organizational meeting was held with the following officers being elected: Robert B. Alexander, Chairman; Elmer B. Hayes, Vice-Chairman, and Thomas J. O'Brien, Clerk.

Regular meetings have been held on the fourth Monday of each month with the exception of the months of July and August, and one special meeting was held in December.

The Planning Board approved the second section of Sherwood Circle, a distance of 482.21 feet from the previously accepted section, and recommended that the Town accept this portion at the annual Town Meeting, in March, 1961. This action was taken in the affirmative.

The Planning Board proposed, and the following changes were voted by the Town, both in the Zoning By-Law and Zoning Map:

ZONING BY-LAW:

To amend Section 6b by adding the following: Each trailer shall be regarded as a dwelling, under a temporary permit to locate outside of a trailer court or park and the parcel of land upon which the same is placed shall conform to all minimum lot area and minimum lot frontage requirements for principal buildings as contained in Section 6a.

To amend Section 5a (11) by adding the following: Each trailer shall be regarded as a dwelling and the parcel of land upon which the same is placed shall conform to all minimum requirements for principal buildings as contained in Section 6a.

ZONING MAP:

To change the following area from an Industrial District to a Residence B District: That area of land on the westerly side of the railroad North of North Central Street, bounded as follows: "Easterly by the railroad approximately 1,000 ft; Southerly by North Central Street 150 ft.; Westerly by a line 150 ft. and parallel to the railroad approximately 550 ft.; Southwesterly by a line parallel to and 150 ft. northeasterly of Keith Place 400 ft.; Northwesterly by a line which coincides with the westerly side of Willow Avenue projected in a northeasterly direction approximately 400 ft. to Forge Pond; Northerly by a line through Forge Pond to the end of the railroad approximately 450 feet."

The Board wishes to have noted its continuing action on bills that have been submitted to the local Planning Board by Representative Edward A. Kirby, asking for our opinions as to their effectiveness and usefulness to our town's Planning and Zoning Board, as these have been proposed for passage in the State Legislature in the current session.

During the months of April and May, members of the Board attended a Seminar conducted by the Bureau of Government Research, University of Massachusetts, in Middleboro, to keep us continually informed as to recent developments and actions that concern zoning, subdivisions, master plans, and economic growth of municipalities in Massachusetts.

A subdivision which would consist of 51 lots off Winter Street near the East Bridgewater - Whitman town line was submitted to the Planning Board by Leslie W. and Louise G. Holbrook for action. After preliminary review by the Board, the decision of the Board of Health was rendered, stating that this subdivision as it now exists, is not fit for development due to surface and subsurface drainage and sewage conditions. This decision terminated action on this plan at that time. It may, however, be reactivated if and when the subdividers meet state and local Board of Health specifications alleviating these conditions.

In May the Planning Board instituted a combined meeting with the Board of Selectmen and the Industrial Committee in a continuing attempt to attract industry to our industrially zoned areas; and positive action was taken from this meeting toward attempting to locate another national electronics company in our limited industrial area.

In June the Planning Board released the final four lots on Batti Circle (Kingman Circle) because all conditions of municipal services and ways had been met in order that building could proceed on this section

of the subdivision. The Hillside Acres subdivision submitted by Donald McCordick was given final release due to installation of municipal services and ways.

In September we were presented a four-lot subdivision to be known as the Margot Subdivision by Claude O. and Mary C. Dean. After the usual procedures of subdivisions, approval by both the Planning Board and the Board of Health, this subdivision has been approved with the stipulation that municipal services and ways must be installed before any lots can be sold or any buildings erected thereupon.

The Planning Board has continued this year in its followup of the Malbrick Heights subdivision situated on Summit Drive, the Foley subdivision on Ashley Drive, and the Donald McCordick subdivision on Hillside Avenue to protect the Town by checking to see that municipal ways are constructed according to Planning Board recommendations as to services and grades. Upon checking the Joseph Collins subdivision on Pleasant Avenue Extension, it was found that installation of municipal ways had been completed; consequently the bond was released in November of this year.

The Planning Board has recommended to the Board of Selectmen and thereby to the citizens of East Bridgewater for acceptance at the March, 1962, annual meeting, a street known as Oakwood Terrace, in a northwesterly direction from Winter Street, a distance of 379.57 feet on the northerly side and 418.04 feet on the southerly side. The Board has also recommended the acceptance of Robins Street (formerly known as Main Street) for a distance of 1,281.57 feet.

Thirty-four plans containing 77 lots have been signed under the "subdivision approval not required" clause.

Building permits for 128 constructions, received as issued by the Board of Selectmen, are in the following classifications:

Dwellings	67
Garages	17
Additions to existing buildings	29
Miscellaneous buildings	12
Buildings moved	3

In view of the aforementioned building activity, in order to keep the citizens of East Bridgewater ahead of this expansion and to continue the same, the Planning Board is proposing the addition of a Building By-Law to be voted on at the March, 1962, Annual Town Meeting. This By-Law has been discussed with the building trades at a public hearing held on December by the Planning Board. We feel that in order to successfully operate our subdivision control law, zoning laws, and make possible the addition of an urban renewal program, this By-Law is a mandatory step, as has been recommended by the Planning Board in its

Master Plan studies prepared in cooperation with the Massachusetts Department of Commerce and Title 7, Section 701, of the Federal Housing and Home Finance Department of the U. S. Government.

In closing, may we extend our thanks to the Board of Selectmen, all other departments of the town and the townspeople for their cooperation, so that our Planning Board may assist our town to grow, financially, economically, and in beauty.

Respectfully submitted,

ROBERT B. ALEXANDER, Chairman
ELMER B. HAYES, Vice-Chairman
THOMAS J. O'BRIEN, Clerk
ALDEN F. HANSON
ERNEST C. PHILBRICK
JACK STENGEL
EDWIN E. WHITMORE

Report of the Inspector of Wires

To the Honorable Board of Selectmen
Town of East Bridgewater, Mass.

I hereby submit my report for the year ending 1961:

Inspections	296
Edison Permits	192
Services	126
Locked Locations	15
Rough Wiring	46
Added Wiring	29
Not Accepted	6
Oil Burners	15
Electric Dryers	14
Electric Water Heaters	42
Electric Ranges	31
Fires	4
Storm Damages	3
Signs	3
Power	3
Trailers	4
Carnivals	2

All inspections were based on the 1959 National Electric Code as adopted by the Commonwealth of Massachusetts. With no special rules.

I wish to express my appreciation to the Honorable Board of Selectmen and the Town Clerk's Office for their assistance in issuing permits and aid to this department.

Respectfully submitted,

ALBERT M. GREINER, Inspector of Wires.

Report of the Dog Officer

To the Honorable Board of Selectmen

Gentlemen:

I hereby submit my report as Dog Officer for the year ending Dec. 31, 1961:

Reports of people bitten by dogs	15
Complaints investigated	46
Lost dogs returned to owners	10
Stray dogs given to people requesting them	11
Dogs killed on highway and buried	29

One person was injured while walking on the sidewalk, being thrown by a "pack" of three dogs. More damage to livestock, gardens, shrubs and lawns was caused by dogs being allowed to run wild than in the past years. Only four dogs of those killed on the highway were licensed. It is hoped the owners of dogs will see that proper care is given to their pets and help avoid so much trouble.

I wish to express my appreciation to the Honorable Board of Selectmen, the Police Department, and to Anna Benoit for their support in this work.

Respectfully submitted,

EDWARD D. KENNEALLY,
Dog Officer.

Report of the Sealer of Weights and Measures

To the Honorable Board of Selectmen

Gentlemen:

I hereby submit my report of the duties I have performed during the year of 1961:

Scales and Balances	A	S	NS	C
Over 10,000 lbs.	0	1	0	0
5,000 to 10,000 lbs.	0	6	0	0

A—Adjusted. S—Sealed. NS—Not Sealed.
C—Condemned.

I thank you for your cooperation during the year of 1961.

Respectfully submitted,

GEORGE BARNEY, Sealer of Weights
and Measures.

Plymouth County Mosquito Control Project

In reporting the project's activities for 1961, we have been able to continue our primary objective in each town. Namely, the reduction of the mosquito population at source of breeding. This was accomplished either by drainage of wetland areas or the periodic treatment with insecticide of such water areas where mosquito larvae were found in the samples taken.

One or more major drainage projects were completed in each of our towns by our power ditching unit and many other small breeding wetlands were corrected by use of hand tools.

As indicated and emphasized in previous reports, our major control problem continues to be the early spring brood which originates from the vast woodland swamp areas of the county. This nuisance species persists from early May until June and as the cost of an aerial spray over such swamps would range up to \$50,000.00 I would never recommend such an expenditure for control of a specie that is not a disease vector.

Our county program is divided into five work districts with a district foreman in charge of the control work in three or more towns. Each of these foremen have now completed four seasons in their respective districts, their experience and knowledge of breeding wetlands in their respective districts has enabled us to maintain very good control after mid-June.

In addition to the winter use of insecticide dust on isolated wet areas when frozen over, we have increased our use of insecticide dust in the summer season to reduce the hazard of foliage burning by repeated oil sprays.

As areas are located or reported with an abundance of adult mosquitoes, residual type spraying is completed, this effort affords temporary relief in troublesome sections and the spot treatments are specific enough to eliminate the breeding entirely in contaminated waters where disease vector species are indicated.

Many breeding areas which require continuous alert control and pre-hatch treatment each week during the summer would come under some of the following: municipal sewer beds, dumps and disposal areas used by commercial cesspool pumping concerns and in residential developments where inefficient septic tanks are leaching into streams and ponds. Storm sewer catch basins in the streets are also a continuous breeding source all season.

As all of these specific places represent breeding of both the nuisance and vector type of mosquitoes, it is the number one priority for each district foreman.

Since the start of the project in 1957, we have not had a single case of Eastern Equine Encephalitis in horses or humans, yet the Federal and State research units produce evidence each summer of this virus in bird life. We sincerely hope that our emphasis on this type of control has had a part in preventing a new outbreak of this disease, such as this area suffered in 1955 and 1956 when 35 deaths resulted from 50 cases.

Respectfully submitted,

WARREN G. HARDING, Superintendent

Report of the Librarian

The 77th annual report of the East Bridgewater Public Library for the year ending December 31, 1961, is herewith presented.

No annual report in limited scope can do more than cite the most significant happenings of the year and attempt to evaluate them as a basis for future growth. As an institution for adult education and an adjunct to the formal educational system of the town, the library has felt increasingly the pressure from a qualitative as well as a quantitative number of borrowers. The total number of people served is far larger than is generally realized, for our circulation statistics tell only a part of the story. Nor does our library registration file, the file of people who have applied for the privilege of borrowing books, include in its roll all whom we serve. Our reference service, both through direct request and by telephone, is large and we feel it is a major factor in the success of our library work.

The ARCHITECTURAL RECORD in a recent article says, "In spite of its size and importance not even the public school system works with as many people over a twelve month period as the public library." In East Bridgewater, where the public library does the school library work, the above quotation is doubly true. The children's department, which encompasses the school library work in grades one through eight, supplies about twelve hundred school children and forty teachers with a program of sustained and meaningful library activity. From September through June the morning hours of this department are devoted to school work. Seven hours a week are spent at the Central School and eleven hours are given to the Intermediate School library work at the main library building. Seven hours weekly remain for such various activities as pre-school story hour, filling of teachers requests, compiling of bibliographies, doing reader's guidance, selecting books for purchase, and supervising forty assistants from grades seven and eight. Twenty-nine hours a week are public library service hours in the children's room. This heavy schedule makes substitution in the children's room a necessity and indicates a need

for a regularly scheduled assistant. Mrs. Elaine Broman, who sometimes substitutes, does so at the expense of her processing and mending assignments.

The summer reading program enrolled one hundred sixty readers and was responsible for an average daily circulation of one hundred and forty books. New innovations enriching an already full program in this department were the pre-school story hour on a bi-weekly basis under the direction of Mrs. Robert Cooper and children's librarian, Miss Joan Sawyer, and the series of instruction in library procedure given by Miss Sawyer at the beginning of the school year in grades three through eight.

The high school branch is opened for thirty-five hours a week with a certified librarian in charge. Twenty-seven high school students serve as library assistants and not only provide valuable help to their school but also secure basic in-service training which is programmed to be useful to the students as an educational tool or as an introduction to a vocation. During the summer months Mrs. Anne Hynes, high school librarian, and Mrs. Margaret Mason, cataloger, worked to complete the card catalog at the school.

Crossing other new frontiers in library work, the library received state aid for the first time. The legislature in 1960 established state aid to public libraries to help improve library work in those libraries of the commonwealth meeting the minimum standards adopted by the Massachusetts Board of Library Commissioners on Dec. 7, 1960. The amount of money allocated for this purpose is determined by law and is divided among those libraries applying for it. Since this fund derives from the income tax, a town library failing to meet the standards or failing to apply for it forfeits that town's share to other applicants. As the library in East Bridgewater was well qualified, an application was made and the money received. For this year, it seemed wise to further the cause of much needed library expansion by studying and investigating the utilization of the area above the present stack room. After exploratory studies, Mr. Allan Rydholm was selected to draft plans for a balcony addition as indicated by the original architect of the building on his plans. Library consultants from Remington Rand and Estey Corporation evaluated his studies. The resultant plans increase the capacity of the stacks by two-thirds the present size; they allow future expansion of the building and they make available a room already framed at that level. With this amount of planning paid for by state aid, the realities of present service and the potentialities of enlarged services must be translated into a town appropriation for its accomplishment if the library is to continue to perform at its present efficiency and to be able to assume its natural place in the expanding educational program of the town. The painting of the fine arts room, the refinishing of the woodwork at the main entrance, and the installing of adjustable shelves in the children's room completed the work done under state aid.

The adoption by the trustees of the Library Bill of Rights concretely endorses those policies as a basic foundation for library work in East Bridgewater and is an action in accord with progressive library thinking. The main points of the bill which is sponsored by the American Library Association cover book selection and use of library facilities. The trustees were proud to discover that over the years library practices in East Bridgewater have coincided in actuality with all the provisions listed in the bill.

Sufficient appreciation for the many expressions of interest in the library and for gifts of money, materials, and time by the townspeople is difficult to express. However, each gesture of goodwill strengthens the fabric of library morale and is appreciated beyond the power of words.

In return, the staff has endeavored to respond by assisting in arrangements for many community projects. During National Library Week a bookmobile initiated by Miss Leia Canelli of the staff, covered four sections of the town on a two-day tour. An assembly program followed by a tea was sponsored by the high school branch; the children's department entertained parents and friends with a coffee hour on two nights of the week; and the Woman's Club served tea on the occasion of the presentation to the library of a portrait of former Librarian Ethel B. Chandler. Staff members have served as judges of oratorical and essay contests and have given book reviews and special talks to school and club groups. We have been pleased that so many groups have found the library available for their meetings and have enriched our work with some outstanding displays. A major project for which the library building was used was the two-week long exhibit arranged by the Civil War Centennial Committee.

To strengthen professional thinking and attitudes, all staff members continue to be members of the American Library Association, the Massachusetts Library Association, and the Old Colony Library Club. The vitality of library work is evidenced by the numbers which attend these professional meetings. It was a privilege for East Bridgewater to be host to the all-day meeting of the Old Colony Library Club in October at which time one hundred and thirty members were present.

The librarian pays tribute to the board's wisdom, zeal and ability to look ahead in town service and recognizes her good fortune in working with such a loyal and efficient staff.

Respectfully submitted,

GRACE EASTMAN, Librarian.

Report of the Board of Appeals

To the Honorable Board of Selectmen:

Gentlemen:

We herewith submit the report of the Board of Appeals for the year 1961.

We have conducted hearings on nine cases as follows:

7 petitions approved.

2 petitions disapproved

and the decisions are on file at the Town Clerk's Office.

We wish to take this opportunity to thank all Town Departments for their cooperation during the past year.

We also wish to thank Mr. Karl S. Nordin and Mr. Robert Gissonna, associate members, who have so ably substituted when a regular member could not attend.

Respectfully submitted,

EDMUND W. NUTTER, Chairman
EDWARD S. MATTHEWS, Clerk
ROBERT A. LELAND

Board of Appeals

Report of the Inspector of Animals

Honorable Board of Selectmen:

Gentlemen:

During the year 1961 I have inspected 637 head of interstate cattle. All cattle in this town have been tested by State and Federal agents for Tuberculosis with no reactors. They have also tested all cattle for Brucellosis with less than one per cent reacting.

On my annual barn inspection, I found them to be in satisfactory condition with one less herd than last year.

Respectfully submitted,

HARRY W. KINGMAN, D.V.M.,
Inspector of Animals.

Report of Building Code Committee

We have compiled a Proposed Building Code which we recommend to the Town of East Bridgewater, and an Article for its adoption will be inserted in the Warrant for the Annual Town Meeting on March 5, 1962.

ELMER HAYES, Chairman
ALDEN E. HANSON
ERNEST C. PHILBRICK
JACK STENGEL

TOWN OF EAST BRIDGEWATER

Proposed

Building Code

ARTICLE I—GENERAL PROVISIONS

Section 1. Title. These regulations shall be known and cited as the Building Code of the Town of East Bridgewater, Commonwealth of Massachusetts, and shall be construed to insure safety and the protection of property from accident or fire insofar as they are dependent upon building construction.

Section 2. Conformity Required. No building, structure or part thereof shall hereafter be erected, repaired, moved, added to, demolished, or changed in type of use or occupancy except in conformity with the provisions of this code.

Section 3. Demolition or Removal of Building. Whenever a building or structure is removed or demolished, the lot shall, without delay, be leveled to grade by proper sanitary fill, to cover any cellar or foundation hole and any rubble not removed.

Section 4. Grades. The finished grade line of all dwellings and customary accessory buildings shall not be less than six (6) inches above the highest point in the established grade of adjacent way or ways, nor less than three (3) inches above the established sidewalk line. On Town ways the Selectmen shall furnish such lines and grades, without charge, upon application. In such cases as it may appear impractical to the Building Inspector to require compliance, he may, with the approval of the Board of Selectmen, grant a variance and establish necessary alternate requirements to safeguard proposed structures from damage by waters from adjacent ways.

Section 5. Height of Buildings. No building of frame construction shall exceed forty (40) feet or three (3) stories in height.

Section 6. Light and Ventilation. Every building or structure hereinafter erected or altered to be used for residential purposes shall comply with section 115 of the rules and regulations of the Board of Standards, Department of Public Safety, Commonwealth of Massachusetts.

Section 7. Temporary Toilets. During all alterations or building construction such temporary toilet facilities shall be provided and maintained in such forms and at such times as may be required by the Building Inspector.

Section 8. Alternate Construction. This Code shall be deemed to present minimum requirements for frame type construction. In the case of other types of construction, the Building Inspector shall make such requirements, in addition to these regulations, as may be deemed necessary to the public safety.

Section 9. Laws of Commonwealth. The laws of the Commonwealth of Massachusetts affecting buildings or structures shall be as fully complied with as if herein written. Except as herein otherwise specified, the minimum requirements under this Code shall not be less than the Basic Standards of Building Construction promulgated by the Board of Standards, Department of Public Safety, Commonwealth of Massachusetts.

Section 10. Zoning Laws and other By-Laws. No provision of the zoning law or other legal statute pertaining to the location, use or construction of buildings shall be nullified by the provisions of this code.

Section 11. Definitions. In the interpretation of this code, all words, other than the terms specifically defined under Section 101.0 of the rules and regulations promulgated by the Board of Standards, Department of Public Safety, shall have their ordinarily accepted meanings as implied by the context, or as customarily used in the construction industry.

ARTICLE 2 — EXCEPTIONS

The following shall be excepted from the provisions of this Code:

Section 1. Buildings owned or occupied by the United States, the Commonwealth of Massachusetts, or any County therein.

Section 2. Bridges.

Section 3. Buildings less than ten (10) feet in length or breadth and nine (9) feet in height, measured to the extremes in all diameters, provided that the location of such building conform with the zoning By-Law.

Section 4. Temporary structures erected for storage or offices during construction operations, provided, however, such structures shall be removed at completion of such operations.

Section 5. ORDINARY REPAIRS, replacements, shingling of roofs and such alterations as do not include or require changes in structural members or supports, means of egress, chimney, pier or foundation that would tend to weaken the structure, providing, however, that such repairs, replacements or alterations do not violate any provision of this Code or of the general laws of the Commonwealth.

Section 6. Farm Buildings. The application of this Code to Farm buildings and other non-residential buildings located more than fifty (50) feet from a dwelling, except garages permitted under the Zoning By-law in residential areas, shall be left to the discretion of the Building Inspector.

ARTICLE 3 — INSPECTOR OF BUILDINGS

Section 1. The Board of Selectmen shall annually, following their organizational meeting, appoint a Building Inspector who shall hold office for one year, or until his successor shall take office. His salary or compensation shall be determined by the Board of Selectmen.

Section 2. Qualifications. He shall be a man qualified by thorough training and experience in the supervision or execution of building operations, and shall not be interested, either directly or indirectly, in any building contract in the town, or have any interest in the furnishing of materials, labor or plans for the construction or alteration of any building other than his own; provided, however, that he may, with the written approval of the Board of Selectmen, have such an interest if he wholly refrain from acting as Inspector in the given case. In each such case, the Board of Selectmen shall appoint a disinterested substitute to act therein with all the powers and duties of the regular Inspector; and the compensation paid to such substitute shall be deducted from the salary or compensation that would otherwise be paid to the regular Building Inspector. He may be removed from office by the Board of Selectmen, for proper cause, after a public hearing of which at least five (5) days written notice has been given to all interested parties.

Section 3. Assistant Inspectors. When necessary, the Board of Selectmen may appoint such Assistant Inspectors as they and the Building Inspector may deem necessary. No person shall be employed who is not qualified by experience or training to fulfill the duties required by the work involved. The compensation of Assistant Inspectors shall be regulated by the Board of Selectmen.

ARTICLE 4 — DUTIES OF THE BUILDING INSPECTOR

Section 1. The Building Inspector shall be charged with the survey and inspection of all buildings and the enforcement of all ordinances relating to the erection, alteration, repair, removal, demolition, or the safety of buildings within the limits of East Bridgewater. He shall pass on questions relating to the strength of structures and materials. He shall examine all plans and applications for permits, inspect all buildings or structures under application to be removed, razed, enlarged, altered or built upon; making his recommendations regarding same, in writing, to the Board of Selectmen, who shall constitute the Issuing Authority. The records of the Building Inspector and the Issuing Authority shall be available to and open to public inspection.

Section 2. Inspection. He shall inspect all buildings in the course of erection, alteration or repair as often as necessary and for this purpose shall have the right of entry at reasonable hours. He shall require that

all workmanship and all building materials be of good quality, and that the types and methods of construction shall be in accordance with generally accepted standards of engineering practise and not inconsistent with law.

Section 3. Violations. He shall keep a record of any violation of this Code, and shall give immediate written notice of such violation to the party responsible for the proper execution of the work. He shall order and compel the suspension of any work being done in violation of the provisions of this Code and no person shall continue the work, or use any forbidden material in or about any building after the Building Inspector has forbidden in writing the continuance of such work, or the use of said material. Any material used in the erection of the building in violation of the Code must be taken down and replaced with material as called for by this Code. Such removal and replacement must be approved by the Building Inspector before any additional work may be started.

Section 4. Dangerous Structures. He shall report to the Department of Public Safety any violation of the regulations of the Commonwealth of Massachusetts in relation to the construction of buildings, and perform such other duties as may be incumbent upon him under the laws of the State. He shall examine all buildings reported dangerous or damaged by fire or accident, and if it appears to him that such structures would be unsafe or dangerous to life or limb in the case of fire, or otherwise, it shall be deemed dangerous within the meaning thereof, and the Building Inspector shall affix in a conspicuous place upon its exterior walls a notice of its dangerous condition, which shall not be removed without authority from him. (G.L. Chap. 143, Section 6, et seq.). He shall promptly notify the owner, owners or agent of said building or structure to put such unsafe building, or structure, or portion thereof, in a safe condition or cause same to be razed. The Building Inspector, with the approval of the Board of Selectmen, may order any building, which is in his opinion unsafe, or not provided with sufficient means of egress in case of fire, to be vacated forthwith.

Section 5. No oversight or neglect of duty on the part of the Building Inspector shall legalize the erection, construction, alteration or repair of any building in a manner not in conformity with the provisions of this Code, or any State law or regulation.

Section 6. Relief from Personal Responsibility. The building official, officer or employee charged with the enforcement of this Code shall not be personally liable while acting for the municipality, and he is hereby relieved from all personal liability for any damage that may accrue to persons or property as a result of any act required or permitted in the discharge of his official duties.

Section 7. Records and Reports. The Building Inspector shall keep careful records of his department, making such reports to the Board of Selectmen as they require, and shall make an annual report of his department, to be published in the Annual Town Report.

ARTICLE 5 — REQUIREMENTS FOR PERMITS

Section 1. Before erecting, altering, moving, demolishing, adding to or making any changes in use or type of occupancy of any building or structure, or any work incidental thereto, including excavation for a cellar, basement or foundation, the owner, lessee or representative of either, except for ordinary repairs as heretofore defined shall file with the Building Inspector, on application blanks to be furnished by him, a detailed description of the location, purpose and construction of the proposed work and the costs thereof, with full and complete copies of plans of such work, together with such structural detail and plot plan as the Building Inspector may require. Such plans and detailed drawings shall be furnished in duplicate, and if such plans are approved and endorsed by the Issuing Authority, one set shall be kept at the building during the progress of the work and open to the inspection of the Building Inspector. The other shall be kept on file in the office of the Issuing Authority.

Section 2. Permits for Portion. Nothing in this section shall be construed to prevent the Issuing Authority from granting approval of the erection of any part of a building or structure, where the general plans and detailed descriptions have been filed for same, before the entire detailed plans have been submitted and/or approved. Such approval in part shall not be construed to guarantee final approval, and the holder of such permit in part shall proceed at his own risk.

Section 3. Permit to Enclose. No building shall be lathed, plastered or sheathed, nor shall any wiring, plumbing, heating pipes or ducts, chimneys, fireplaces or fire stops be enclosed until the Building, Wiring or Plumbing Inspector, as the work may require, has been notified by the builder in charge of construction, or the owner of the premise, that the building is ready for inspection. The Inspector, upon receipt of such notice, shall, within 48 hours, inspect the premise, but shall not give final approval of any building until all requirements of this Code have been fully complied with. No building shall be occupied until accepted by the Building Inspector. The Building Inspector shall also require that all permanent piers or columns needed under girders, trimmers, etc., shall be in place before the building is lathed and plastered or otherwise enclosed.

Section 4. Time for Approval. It shall be the duty of the Issuing Authority to grant or refuse any requested permit within fifteen (15) days of presentation. If the Issuing Authority fails to grant or refuse said permit within fifteen days after presentation, the person making such application therefor may appeal to the Board of Appeals, as hereinafter provided, as if said permit had been expressly refused.

Section 5. Time Limit of Permits. Permits shall become void one year after date of issue unless construction thereunder shall have commenced and continued with reasonable diligence.

Section 6. Perjury. This application shall be made under the penalty of perjury, and must conform with all Zoning, Building and Board of Health By-Laws.

Section 7. Fees. For each permit issued, there shall be collected by the Issuing Authority, to be paid into the Town Treasury, a fee (as established by the Board of Selectmen).

ARTICLE 6 — GENERAL BUILDING REQUIREMENTS

Section 1. It is not the intent of this Code to prohibit new or unconventional methods of construction which are not detrimental to the public safety, and in keeping with the general appearance of other buildings in a locality. Such alternate construction shall comply with all provisions of Section 105 of the "Basic Principles of Building Construction" promulgated by the Board of Standards, Department of Public Safety, Commonwealth of Massachusetts. All dwellings shall have at least two (2) outside doors or egresses located as far apart as practicable.

Section 2. Excavation. All excavations for buildings shall be properly guarded and protected so as to prevent same from becoming dangerous to life or limb and shall be sheath-piled, by the person or persons causing the excavations to be made, when necessary to prevent the adjoining earth from caving in. In cases where an excavation is being made which affects adjoining structures, the owner shall, at his expense, preserve such structures in as safe a condition as they were before the excavation was commenced and shall, when necessary, underpin and support the same by proper foundations.

Section 3. Foundations.

A. No dwelling and its customary accessory buildings shall hereafter be erected, moved or placed upon any lot within the Town without continuous foundation walls on all sides.

B. All foundations shall extend at least three feet and six inches (3 ft. 6 in.) below any adjoining surfaces exposed to frost unless they rest on solid ledge. They shall extend in all cases to solid soil.

C. No foundation or footing shall be constructed on frozen ground, or shall be laid when the temperature is below twenty-nine degrees (29 deg. f), except that precaution satisfactory to the Building Inspector to prevent settlement or failure are taken.

D. With the exception of footings, no concrete foundation shall be poured without the use of forms for all sides. Excavations for foundation shall be made at least six to eight inches (6 in. to 8 in.) beyond the outside face of the walls and no backfilling shall be done until approved by the Building Inspector. All foundation walls other than poured concrete shall rest on footings not less than eight inches (8 in.) thick and be at least eight inches (8 in.) wider than said foundation wall. Poured concrete wall less than ten inches (10 in.) thick shall require footings.

E. Supports for girders in basement of any building shall be lally columns, brick, masonry, or concrete piers approved by the Building Inspector, and shall rest on footings not less than twenty inches (20 in.) square and twelve inches (12 in.) thick. (Wood posts shall not be allowed.)

Section 4. A. Soil Tests. If the Building Inspector is in doubt as to the safe sustaining power of the soil upon which a building or structure

is to be erected, or it is desired to exceed the presumptive capacity, the Building Inspector may direct that borings or tests be made, by and at the expense of the owner of the proposed building or structure, to determine the sustaining power of the soil. Whenever such a test is made the Building Inspector shall be notified so that he may be present in person or by representative. A complete record of the test shall be filed with the Building Inspector.

B. Filled Ground. No foundation of a building or structure shall be placed on filled ground until the Building Inspector has fixed, by test or inspection, the safe sustaining power that may be assumed.

C. Bearing Value. When no tests are required the area of footings shall be proportioned so that the load per square foot on the respective soils shall not exceed those given in the following table:

Presumptive Surface Bearing Values in Tons per Sq. Ft.	
Hard Sound Rock	60
Medium Hard Rock	40
Soft or Broken Bed Rock	8
Compacted Sand and Gravel	6
Compacted Course Sand and Hard Dry Clay	4
Loose Course Sand (Confined)	3
Loose Medium Sand (Confined)	2
Firm or Stiff Clay	1.5
Soft Broken Shale or Soft Clay	1

D. Wherever the safe sustaining power of the soil upon which a building is to be erected does not conform to the requirements of this Code, the Building Inspector shall require the proper foundation, of a type satisfactory to him and sufficient to support the proposed building.

Section 5. A. Foundation walls of detached garages, or similar accessory buildings or structures, of six hundred fifty (650) square feet or less in area and not over one story high need not be carried more than one (1) foot below an adjoining surface exposed to freezing if the underlying soil to a depth of at least four (4) feet beneath the surface is solid soil.

B. Foundation and underpinning walls for one and one and one-half story dwellings shall be at least eight (8) inches thick if of poured concrete or brick, concrete or cinder blocks when not over six and one-half (6½) feet below finished grade. When stone masonry is used the thickness shall be twenty (20) inches up to finished grades, and not less than twelve (12) inches from finished grade to the sill. The top of all foundation walls shall extend at least eight (8) inches above the finished grade.

C. Concrete Block Construction. Where concrete or cinder blocks are used, all joints must be thoroughly filled and joined outside as well as inside. Mortar for all masonry shall not be poorer than one part Portland cement, one part lime putty and three (3) parts sand; for footings and poured concrete no poorer than one part Portland cement, three (3) parts sand and five (5) parts coarse aggregate not exceeding one and one-half (1½) inches. All material shall meet the Building Inspector's approval. It shall be thoroughly mixed and properly placed and tamped.

Section 6. Lally columns or piers supporting building shall not be more than eight (8) feet apart on centers where a 6 in. x 8 in. girder is used; seven (7) feet where a 6 in. x 6 in. girder is used and six (6) feet apart where a 4 in. x 6 in. girder is used.

Section 7. A. Crawl Spaces. All loam under dwellings must be removed and at least twenty (20) inches of space left between the remaining earth and the under side of the first floor timbers. Under all buildings with continuous foundations there must be at least two (2) screened openings for ventilation of not less than two hundred and forty (240) square inches per opening.

B. Porch Foundations. All piazzas, porches and bay windows supported from the ground shall have suitable foundations of stone, brick or concrete, or be supported by iron columns or masonry piers built upon a solid bottom not less than three feet six inches (3 ft. 6 in.) below the grade. If columns are used they shall rest on a footing of stone or concrete not less than twelve (12) inches square and eight (8) inches thick.

Section 8. A. Chimneys, Flues and Fireplaces. Every chimney shall rest on a proper footing of approved masonry. Concrete footings shall be at least six (6) inches wider than the chimney on all sides, and shall be at least twelve (12) inches thick. All chimneys shall be built up of brick or other incombustible material, laid up with the best lime or cement mortar.

B. All brick chimneys, except chimneys eight (8) inches or more thick, shall have terra-cotta flue linings starting not less than eight (8) inches below the inlet of the smokepipe or the throat of a fireplace, except as provided in Section 113.34 of the Basic Principles of Building Construction as promulgated by the Board of Standards, Dept. of Public Safety, Commonwealth of Massachusetts, and shall extend to the top of the chimney. The ends of such lining pipes shall be made to fit close together, the joints shall be filled with cement mortar and the lining shall be built in as the flue or flues are carried up.

Every chimney shall have a clean-out door at the base of the chimney.

C. The sectional area of each chimney must be at least equal to the combined area of all smoke flues entering it. Every chimney shall be topped out or capped with brick, terra-cotta, stone, iron or cement. Every chimney shall extend at least two (2) feet above the highest point at which it comes in contact with a roof of the building and at least two feet higher than any roof surface within ten (10) feet in a horizontal line.

If any chimney, flue or heating apparatus shall, in the opinion of the Building Inspector, be unsafe, he shall at once notify in writing the owner, who, upon receiving said notice, shall make same safe to the satisfaction of the Building Inspector.

D. The jambs and backs of all fireplaces shall be of masonry, not less than eight (8) inches thick (including both the rough and the finished work, the latter being of firebrick) if of brick, and not less than twelve (12) inches if wholly or partly of stone.

Brickwork or stonework over fireplace or similar openings shall be supported by proper iron bars or by brick or stone arches. All portions of chimneys or fireplaces so constructed as to receive a lateral thrust, not taken care of by iron members thoroughly anchored to the masonry, shall be at least eight (8) inches thick.

E. No fireplace flue shall be less than eight inches by twelve inches (8 in. x 12 in.), and in all cases the area of the flue shall be at least $1/10$ the area of the fireplace opening. All fireplaces shall have proper dampers.

The interior of all fireplace throats shall be thoroughly covered with a coat of cement mortar, carried up to a solid connection with the flue lining, and every rake in the chimney shall be plastered with a good thick coat of cement mortar on both the outside and the inside.

All hearths shall be laid on masonry trimmer arches, or on bars of iron supporting a proper bed of masonry.

Section 9. Heating and Ventilating.

All heating, ventilating, air conditioning and blower and exhaust systems, hereinafter installed, or altered, shall conform to the rules and regulations of the Board of Standards, Dept. of Public Safety, governing same, and of the National Board of Fire Underwriters.

Section 10. Oil and Gas Burning Equipment.

No one shall install or materially alter oil or gas burning equipment without first making application for and obtaining a permit. No one shall store fuel oil or liquid petroleum gas without first obtaining a permit.

The installation of all oil and gas burning equipment must conform with the requirements of the Board of Standards, Dept. of Public Safety, and be approved by the Chief of the Fire Dept. and/or the Building Inspector.

ARTICLE 7

Section 1. Wood Frame Construction.

Exterior walls and interior partitions of wood frame structures which are constructed of either balloon, braced or platform types shall consist of sills, posts, girts and ribbon strips to develop the required strength and rigidity in compliance with the requirements of this section and as specified in Tables 12 and 13 of the regulations of the Board of Standards, Department of Public Safety, Commonwealth of Massachusetts. The frame shall be braced at all angles or adequately sheathed, and the floor, attic and roof framing of wood joists, beams and rafters shall be secured by nailing, or by any other approved connecting devices of equal strength. The exterior walls shall be designed and constructed to resist a longitudinal, horizontal force of one hundred (100) pounds per lineal foot acting along the upper edge with a maximum horizontal displacement of one-eighth ($1/8$ th) inches.

Section 2. Grades and Sizes.

All lumber and timber used in load bearing members shall be sound, free from rot and large or loose knots, and damaging diagonal or spiral grain; and shall be at least equal in quality to the following commercial grades: studs, posts, planks, beams, joists and rafters, construction and standard grades; and girders and timbers construction grade. All lumber sizes herein specified are nominal sizes. Second hand structural materials shall not be used without the approval of the Building Inspector.

Section 3. Floor Joists and Rafters.

For ordinary conditions of use and live loads, the spans of joist and beams shall be limited by Tables 1 and 2, section 39 of this code.

Section 4. Bridging.

In all floor, attic, and flat roof joist framing, there shall be not less than one line of bridging for each eight (8) feet span, and the bridging shall be of not less than one by three (1 x 3) inch lumber, double-nailed at each end, or of equivalent metal lateral bracing of equal rigidity secured at the intersection. A line of bridging shall also be required to support where adequate lateral stiffness is not otherwise provided.

Section 5. Cutting and Notching.

In girders, beams or joists, cuts and bore holes shall not be deeper than one-fifth ($1/5$ th) the beam or girder depth or more than two (2) inches in diameter; and shall not be located nearer to the end of the span than three (3) times the beam depth not within the center third of the span, unless reinforced to meet stress calculations. In studs of bearing walls or partitions, notches made to receive piping or duct work or for other fabrication purposes shall be cut not more than one-third ($1/3$ rd) the depth of the stud or the required studs shall be doubled or otherwise reinforced.

Section 6. Connections and Fastenings.

All structural members shall be connected and fastened at their junction with connectors, bolts, lag screws, spikes, straps or other approved devices.

Section 7. Plates and Ribbon or Ledger Boards.

Plates which are used in exterior walls to support joists or rafters shall be double, of the same width as the supporting studs and each not less than two (2) inches thick. In non-bearing partitions, at least one (1) top and bottom plate shall be provided of the same width as the studs, and the partitions shall be firestopped as required in section 35 of this code. Ribbon or ledger-boards which support floor or roof joists shall be not less than one by six (1 x 6) inches in size and shall be cut into the studs and nailed. Joists or rafters supported on ribbon boards shall frame in adjacent to the studs and shall be nailed thereto as required by the nailing schedule.

Section 8. Roof Rafters.

Roof rafters shall be vertically supported at the ridge or shall be adequately trussed or tied together with not less than one by six (1 x 6)

inch collar beams spaced not less than five (5) feet on centers, and each rafter shall be fastened to the wall plate or wall studs.

Section 9. Multiple Joists and Rafters.

Floor joists under bearing partitions shall be doubled or formed of built-up sections or may be replaced by a solid section of adequate strength to support the load. Dormer windows and other openings in roofs shall be framed with double rafters and headers. Valley rafters on spans over twelve (12) feet measured horizontally shall be doubled, or increased to size required by the Building Inspector.

Section 10. Bearing and Anchorage on Girders.

Floor beams framing into girders shall be anchored, tied or nailed to secure continuity. The ends of all beams or joists resting on girders shall bear not less than four (4) inches or shall be supported in approved metal stirrups or on wood clips or wooden strips not less than two by three (2 x 3) inches in size. Beams or joists framing from opposite sides shall either lap not less than three (3) inches and shall be securely bolted or spiked together or, when framing end to end, all joists, beams and girders shall be secured together by approved ties, straps or dogs.

Section 11. Joints in Girders.

The joints of solid or built-up beams or girders shall be made over column or pier supports when constructed as simple spans. When constructed of multiple joists as continuous girders, the joints shall be broken in adjoining joists over pier or column supports, and shall be securely nailed or otherwise bolted together in an approved manner.

Section 12. A. Spacing of Vertical Studs. Studding for exterior walls and bearing partitions shall not be less than two by four (2 x 4) inches spaced not over sixteen (16) inches on centers with double plates at the top, each at least two (2) inches thick and of the same width as the stud. The studs shall either rest on a sole plate or run down between the floor timbers and rest on the top plate or girder below. Studs for non-bearing partitions shall not be less than two by three (2 x 3) inches, spaced not over sixteen (16) inches on centers and shall have at least one two (2) inch plate on top and one two (2) inch sole plate on the bottom of the same width as the stud.

B. Floor joists shall not be less than two (2) inches in thickness nor spaced over twenty-four (24) inches on centers.

C. Rafters shall not be less than two (2) inches in thickness nor spaced over twenty-four (24) inches on centers.

D. Deflection shall be limited to 1/360 of the span.

E. Sills shall not be less than four by six (4 x 6) inches.

F. Ceiling joist shall not be less than two by six (2 x 6) inches.

Section 14. Headers and Trimmers.

All headers more than four (4) feet in length and their trimmers shall be doubled. Headers with four (4) or more tail beams or six (6) feet or more in length shall be supported on approved metal joist hangers.

When nailing is permitted, the tail and header beams shall be securely nailed. All tail beams or joists which are twelve (12) feet or more in length shall be hung in approved joist or beam hangers. All trimmer beams supported on walls or partitions of frame construction shall be spiked together.

Section 16. Walls, Partitions and Posts.

The load-bearing value of isolated posts or struts shall be limited by Table 12 and framed walls and partitions by Table 13 of the regulations of the Board of Standards, Dept. of Public Safety, Commonwealth of Massachusetts.

Section 17. Multiple Stories.

When the frame is more than one story in height and studs or posts are not continuous from sill to roof, the members shall be secured together with approved clips, splices or other connections to insure continuity and a well-integrated structure. Sheet metal clamps, ties, or clips shall be formed of galvanized steel or other corrosion-resistive materials equivalent to No. 20 U. S. gage for two (2) inch framing members and not less than No. 18 U. S. gage in thickness for three (3) inch members. For four (4) inch and larger members, column splices and beam and girder supports shall be effected with approved post caps of metal for reinforced concrete or with through-bolted corbel blocks or side bolsters.

Section 18. Bracing.

All corner posts shall be the equivalent of not less than three (3) two by four (2 x 4) inch studs braced by not less than one (1) one by four (1 x 4) inch diagonal braces cut into the studs or by equivalent construction. The diagonal bracing may be omitted when approved diagonal sheathing or plywood is provided in accordance with Section 20 of this code.

Section 19. Framing Over Opening.

Lintels over openings in bearing walls or partitions of one and two family dwellings shall consist of double joists not less than herein specified or trussed construction bearing on jack studs, or other approved construction affording adequate strength:

Spans less than four (4) feet	Two 2 x 4
Spans four (4) feet to six (6) feet	Two 2 x 6
Spans six (6) feet to eight (8) feet	Two 2 x 8
Spans eight (8) feet to ten (10) feet	Two 2 x 10

Section 20. Wall Sheathing and Roof Decking.

Exterior walls shall be sheathed with plywood or diagonal wood sheathing, or shall be otherwise braced with approved equivalent construction to furnish rigidity as required in Section 1 and Section 18 of this code.

Section 21. Types of Sheathing.

Except when approved stucco construction is used with a wrapping of No. 18 gage wire attached horizontally on the studs at six (6) inch intervals, the sheathing of all exterior frame walls shall consist of one of

the following materials or any other approved material of equal strength and durability approved by the Building Inspector.

- 1-inch reinforced cement mortar
- 1-inch wood sheathing
- $\frac{1}{2}$ -inch gypsum boards
- $\frac{1}{2}$ -inch plywood
- $\frac{1}{2}$ -inch fibre boards
- No. 26 gage non-corrosive metal siding.

Section 22. Nailing.

Wood sheathing boards shall be securely nailed to each stud and to the top and bottom plates and sills.

Section 23. Types of Roof Decking.

Roof deck sheathing shall consist of not less than one (1) inch boards or approved plywood of the thickness specified herein or other approved materials of equivalent strength and rigidity. If open deck sheathing is used on pitched roofs, it shall consist of not less than one by four (1 x 4) roofers spaced not more than six (6) inches on centers.

Section 24. Roof Covering.

The roofs of all buildings located less than fifty (50) feet apart shall be covered with fire resistant material. In repairing the roof of any building now covered with non-fire resistant material, if more than twenty-five percent is recovered in any one year it shall be done with fire resistant material as specified for new construction.

Section 25. Framing of Openings.

All window and door openings shall have double studs for the full height of the opening at jambs, with double headers or trussed construction over the opening as provided in Section 19 of this code.

Section 26. Exterior Weatherboarding and Veneers.

All exterior wall coverings shall be of approved moisture and weather-resisting materials of sufficient stiffness and properly attached to resist rain and wind.

Section 27. Types of Weather Wall Coverings.

The following materials shall be accepted as approved weather coverings of the nominal thickness specified:

Stucco or Exterior Plaster	$\frac{3}{4}$ inches
Wood Siding	$\frac{1}{2}$ inches
Protected Combustible Siding	$\frac{1}{2}$ inches
Wood Shingles	$\frac{3}{8}$ inches
Exterior Plywood	$\frac{7}{8}$ inches
Asbestos Shingles	$\frac{5}{8}$ inches
Asbestos Cement Boards	$\frac{1}{8}$ inches
Brick Masonry Veneers	4 inches
Stone Veneers	2 inches
Vitreous Tile	2 inches

Aluminum Clapboard Siding	0.025 inches
Preformed Metal Siding	26 gage

Section 28. Nailing Weather Boarding, Wall and Roof Coverings.

All weather boarding and wall and roof coverings shall be securely nailed with aluminum, copper, zinc, zinc coated or other approved corrosion-resistive nails into the supporting structure in accordance with the recommended nailing schedule or the manufacturer's standards. Shingles and other weather coverings attached directly to sheathing not less than one (1) inch thick shall be secured with barbed or other mechanically bonding nails of an approved type; or by common nails on furring strips attached to the studs.

Section 29. Exterior Stucco.

When applied over sheathing, an approved covering of fifteen (15) pound waterproof felt or paper shall first be attached to the sheathing. Reinforcement shall consist of expanded metal fabric weighing not less than one and eight tenths (1.8) pounds per square yard or wire fabric of not less than No. 16 U. S. gage with openings not more than two (2) inches in largest dimension nor less than No. 18 gage with openings not more than one (1) inch in greatest dimension. When applied without solid sheathing, expanded metal fabric shall weigh not less than 3.4 (three and four tenths) pounds per square yard and wire fabric shall be not less than No. 16 U. S. gage with openings not more than two (2) inches in largest dimension. All reinforcement shall be zinc coated or shall be manufactured of approved corrosion-resistive metals. In back-plastered stucco with the stucco extending not less than five-eighths ($\frac{5}{8}$ ths) inches back between the studs, the waterproof paper backing may be omitted. All metal reinforcement shall be furred away from sheathing or building paper not less than one-fourth ($\frac{1}{4}$ th) inches with self-furring lathe, metal strips or approved furring nails. Approved paper-backed wire fabric may be used consisting of welded fabric of not less than No. 16 gage galvanized wire with a two by two (2 x 2) inch mesh and stiffening ribs not more than five (5) inches on centers, to which is attached a double layer of approved fibrous, waterproof backing.

Section 30. Masonry Veneers.

Veneers of unit masonry on wood framing shall not be less than four (4) inches in thickness securely attached to the wood frame with corrosive-resistive anchors at vertical intervals of not more than sixteen (16) inches and horizontal intervals of not more than twenty (20) inches, except when bonded to a one (1) inch reinforced cement mortar base. Veneers of natural or artificial stone shall not be less than two (2) inches in thickness. Fifteen (15) pound waterproof felt or paper shall be attached securely to the frame back of the veneer, and flashing as required in Section 33 of this code shall be provided where necessary to prevent moisture penetration behind the veneers. The average height of four-inch brick veneer construction shall be not more than twenty-five (25) feet above its supports on the foundation wall or on corbels of masonry or steel and two (2) inch stone veneers shall not exceed a height of eighteen (18) feet. The corbel shall project not more than two (2) inches from the face of the foundation wall as specified in Section 110.6 of the Basic

Principles of Building Construction as promulgated by the Board of Standards, Dept. of Public Safety, Commonwealth of Massachusetts.

Section 31. Metal Veneers.

Veneers of metal shall be fabricated from approved corrosion-resistive materials or shall be protected front and back with porcelain enamel or shall be enamelled or otherwise treated to render the metal resistant to corrosion. Such veneers shall not be less than No. 26 U. S. gage in thickness mounted on wood or metal furring strips or approved sheathing on the frame construction.

Section 32. Plywood Construction.

All plywood shall be identified as to veneer-grade and glue-type by the manufacturer's identification marks. Plywood for exterior use shall be of the exterior waterproof type.

Section 33. Flashing.

All exterior openings shall be constructed with approved corrosion-resistive flashings at top and sides or by other approved method to be leakproof. Similar flashings shall be installed at the intersection of chimneys or other masonry construction with frame or stucco walls. Such flashing shall be provided with projecting lips on both sides under stucco copings; under and at the ends of masonry, wood or metal copings and sills; at wall and roof intersections; under built-in gutters; at junction of chimneys and roofs and around all roof openings.

Section 34. Moisture Condensation and Water Leakage.

To secure weather-tightness and moisture resistance in framed walls and other hollow unoccupied spaces, the exterior wall shall be faced with approved weather-resisting covering as specified in Section 27 of this code, and when required by the Building Inspector interior non-corrodible vapor-tight barriers shall be installed at or near the veneer faces of walls; or other means shall be provided to avoid water leakage and moisture condensation.

Interior Surfaces.

In all habitable spaces, interior exposed wall and partition surfaces shall consist of materials which are not more combustible than wood and which are capable of resisting a horizontal force of not less than five (5) pounds per square foot.

Section 35. Fire Stopping.

Fire stoppings shall be designed and installed to close all concealed draft openings and to form effective fire barriers against the spread of fire in all sub-divisions of any one story and between all stories of the building; and all open spaces in the structural frame, including among others the location herein specified, and all other openings that would permit the free travel of flame shall be effectively fire stopped.

In wooden buildings, the spaces between the studs of bearing partitions in the first story; between the studs at each exterior wall in the first story; and between the studs of such exterior walls above the first

story as carry the ends of floor joists, shall severally be stopped by solid filling brought up to at least the level of the finished floor; also all spaces between floor joists directly above a bearing partition, in whatever story constructed, shall be stopped with such filling—in all cases so as to check effectively any draught from one story to another, or from the horizontal spaces between floor joists to the vertical spaces in walls and partitions.

When such spaces are required to be ventilated as prescribed in Sections 111.8 and 115.3 of the regulations of the Board of Standards, Dept. of Public Safety, Commonwealth of Massachusetts, the details of firestopping shall be approved by the Building Inspector.

Furred Spaces: All furred spaces or frame walls and studded-off pieces of masonry walls shall be firestopped at maximum intervals of eight (8) feet both horizontally and vertically.

Sliding Doors: Where sliding doors are pocketed in partitions, such pockets shall be completely fire stopped on all sides.

Chimneys: The spaces around chimneys, inside of studding, or furring making air ducts are to be thoroughly fire-stopped with suitable incombustible materials.

No insulation or insulating material shall be installed before firestopping has been approved by the inspector.

Section 36. Protection of Woodwork.

No smoke pipe shall be projected through any external wall, window or roof.

No smoke pipe shall pass through any wooden partition without a safety thimble of fireproof materials of the thickness of the partition.

No metal pipe used to convey heated air shall be placed within one inch of any woodwork unless it is enclosed in a metal pipe with air space between, or otherwise shielded with metal or asbestos, in a manner satisfactory to the inspector.

Ducts for warm air shall be constructed entirely of metal and no cold air ducts shall be carried from a garage to a dwelling.

Section 37. Attic Access.

When not provided with stairways, all attic spaces shall be provided with means of access by scuttle. Access trapdoors shall not be less than two (2) feet by two (2) feet in area.

Section 38. New Materials and Methods.

All new materials, methods of construction, devices and equipment, may be approved by the building official for use in buildings, when they are proved to be the equal of those specifically required by this code, or he shall adopt the recommendations promulgated by the Board of Standards in the Massachusetts Department of Public Safety.

Section 39, Table 1

MAXIMUM SPANS FOR FLOOR JOISTS

Assumed live load, 40 pounds per square foot; dead load,
10 pounds per square foot

LUMBER SIZE			MAXIMUM CLEAR SPAN Construction or Standard Grade			
Nominal	Actual		Douglas Fir (Coast Region and Inland Empire), Southern Yellow Pine, Western Larch	West Coast Hemlock, Cypress, Redwood, Tamarack	All other softwoods

2 by 8	1 $\frac{5}{8}$ by 7 $\frac{1}{2}$	12	21	2	20	6	14	3

Section 40 Right of Appeal.

A. If the owner of any building or structure, or an applicant for a permit to erect or alter a building or structure whose application has been refused, or a person dissatisfied with the decision of the building inspector, or matter left to his approval or discretion may, within ten (10) days from date of such refusal, order, or decision, file an application for a hearing with the Town Clerk and the matter shall be referred to the Board of Appeals, who shall hold a Public Hearing of which, due notice shall be given, whereupon all parties shall be heard.

B. The decision of the Board of Appeals shall be in writing and shall require the assent of a majority of the members of the Board and shall be filed in the office of the Town Clerk.

C. All appeals to the Board of Appeals shall be accompanied by a deposit of \$10.00 to cover cost of advertising such hearing.

D. The Board of Appeals under this By-Law shall be the existing Board of Appeals, heretofore established and appointed by the Board of Selectmen.

Section 41 Penalty for Violation.

Whosoever violates or causes the violation of any provisions of this Code shall be subject to a fine, for each violation, of not less than twenty dollars (\$20.00) nor more than one hundred dollars (\$100.00).

Section 42 Effective Date.

This Code shall take effect upon adoption by the town, the approval of the Attorney-General of the Commonwealth of Massachusetts and publication as provided by law.

Report of Public Health Nurse

MISS L. GLADYS FARREN, R.N., Public Health Nurse

MRS. GEORGE MAHER, R.N., Assistant Nurse

Office Hours: 9 - 9:30 A.M. and 4 - 5 P.M. daily

Office: Town Office Building, 175 Central Street

Telephone: DRake 8-2391

To the Board of Selectmen:

Total number of visits for year	2,317
Total number of patients	390
Nursing service visits	1,213
Health Education	1,104

Clinics held under sponsorship of Board of Health:

9 Well Baby Clinics Total attendance 138

4 Immunization Clinics:

D.P.T. antigen was given 61 infants and pre-school children, and 93 elementary school children.

February 1, 1961, marks the end of 40 years that a trained public health nurse has been serving the Town of East Bridgewater. These nurses have been providing home nursing service and health education to fit the needs of the town over the changing years. They are directed by a 17 person Board of Directors who make every effort to see that the town gets the best service by the best trained personnel available. Some of these services are furnished with the cooperation of the Board of Health.

This service is financially supported by a generous appropriation from the Town and from fees (\$1.50 per visit) paid by the persons receiving nursing care. Some fees are received from the American Cancer Society and a few from medical insurance policies. This year 724 visits were paid to the Association and 1,397 credited to the Town appropriation.

The following women have served on the 1961 Board of Directors of the East Bridgewater Nursing Association:

Mrs. Robert E. McCarthy — President
 Mrs. Harwood Mosher — Vice-President
 Mrs. Lawrence Soule — Secretary
 Mrs. Leo Trudeau — Treasurer

Mrs. George Barney	Mrs. George McKenzie
Mrs. Horace W. Collamore	Mrs. Edmund W. Nutter
Mrs. Willard DeChambeau	Mrs. George A. Ridder
Mrs. Henry Fraser	Mrs. Elwood Siscoe
Mrs. Allan Fuller	Mrs. John Thorndike
Mrs. Edward Hurd	Mrs. George Wadsworth
Mrs. Edwin Whitmore	

Respectfully submitted,

L. GLADYS FARREN, R.N.,
 Public Health Nurse.

Report of Highway Surveyor

To the Citizens of East Bridgewater:

I hereby submit my report for 1961.

Along with the regular General Maintenance work this year, the Department removed 2,700 cubic yards of sand and gravel at the junction of Routes No. 106 and No. 104. The trees and bushes in this area, which were of no value, were also removed, and I feel this has eliminated a bad traffic hazard.

Litter baskets purchased by the Department were placed in the center of the Town and have been used to great advantage. Guard rails have been painted and repaired; new street signs purchased by the Selectmen were put up and all traffic islands were trimmed, mowed and cleaned; all surface drains and basins were cleaned; we now have 223 basins to maintain.

On West Union Street both railroad crossings were rebuilt. The New Haven Railroad Co. aided the Department in this work by installing new sleepers and rails, and raised the tracks to the grade of the road. This expense was shared by the New Haven Railroad Co., and the District Manager of this Company has assured me a new crossing will be built on North Central Street this coming year.

Chapter 90 Maintenance work this year included resurfacing Central Street thru the center to the Railroad Crossing, and from the residence of Edmund D. Kenneally to residence of Frank Hunnewell. A section of Washington Street between Crescent Street and Central Street was honed and the section between Central Street and Walnut Street was sealed. The entire length of Oak Street was sealed and one catch basin and eighty feet of drain pipe was installed on Plymouth Street.

Over eight miles of roads requiring a seal coat were first patched and regraded. Shoulders were cut back where necessary. The roads sealed were: Elm Street, Summer Street from Belmont to Winter Streets, Oregon Street, Cook Street, Morse Avenue, Stevens Court, Abbey Lane, Washington Street, West Pond Street, Folsom Avenue, Springer Avenue, Highland Street, Sherwood Circle, Batti Avenue and North Water Street.

Work has been completed on all the Articles voted at the Annual Town Meeting in March 1961 as follows:

Article 14 — A new 6 cubic yard sand spreader has been purchased and has already proven an asset to the Department. It is used in the summer for seal coating and in the winter for sanding icy roads; operated by the truck driver from the cab, it eliminates the danger of anyone being injured working in the rear.

Article 15 — Cedar Street.

Article 16 — Pine Street.

Article 18 — Belmont Street.

These streets were resurfaced by mixed in place method and are a part of the Department's long range program of eventually resurfacing all gravel and oil penetration roads.

Article 17 — Part of Union and West Union Streets were resurfaced with Dense Type Mix in conjunction with Chapter 90 Primary Roads. This work was done by contract subject to bids.

Article 19 — North Central Street was widened by eight feet and a new curbed sidewalk was built, affording ample parking and traffic travel past the new Post Office.

Article 20 — By extending the drainage on Central Street, it is now in condition to be resurfaced with Type I, Dense Type Mix.

I wish to extend my thanks to the members of my Department and to all Town Departments for their cooperation this past year.

Respectfully submitted,

RICHARD M. HENNESSEY,
Highway Surveyor.

Report of the Chief of Police

To the Honorable Board of Selectmen:

The following is the report of the activities of the Police Department for the year ending December 31, 1961:

Crime Against Person:

Assault and Battery	5
Rape	2
Lewdness	1

Crime Against Property:

Breaking and Entering during the Night-Time	14
Breaking and Entering during the Day-Time	7
Larceny (Money)	5
Larceny — Motor Vehicles (In Town)	1
Stolen cars recovered	5
Larceny by Check	3
Malicious damage to property	15

Crime Against Public Order:

Disturbing the Peace	26
Drunkenness	18

Violation of Motor Vehicle Law:

Speeding	189
Operating to Endanger	85
Operating under the Influence of Liquor	46
Operating not being licensed	8
Accidents Investigated	71
Accidents Not Investigated (reports submitted)	17

Miscellaneous:

Summons Served	101
Complaints Investigated	396
Dog Complaints Received and Investigated	87
Ambulance calls received for the following:	
Boston Hospitals	14
Foxboro Hospital	4
Brockton Hospital	46

64

I have asked the Board of Selectmen to insert an Article in the Warrant for the Annual Town Meeting to trade in the two-year-old police cruiser for a new one. By trading in a police cruiser each year, we will have a new car plus one that is a year old. I feel now that we have two police cruisers, the townspeople have received far better and more protection at all times — when one cruiser is out of town on an emergency call, the other cruiser is standing by; therefore, we are available for twenty-four hour coverage.

I am happy to report that we were very fortunate to have an additional Police Officer over the past nine months, as our calls and complaints have increased tremendously over last year, and it required two police officers at all times to handle the situation efficiently.

As you will note from the activities outlined in the first part of my report, the department has been extremely busy during the past year. The complaints have increased along with crime, and all members of the Police Department have worked long hours to make a complete investigation of all matters.

We appreciate the townspeople notifying the Police Department when leaving for vacations, or at any time a situation arises in which they feel the Police Department should be notified. The Department answers all fire alarms so we may assist with traffic problems if necessary, also we carry another resuscitator in case one is needed.

When the hurricane was predicted in September 1961, the full Department was alerted and all men were on duty day and night at the Police Station. The Civil Defense personnel set up their Headquarters at the High School with radio connection to the Police Department. In that way, the Police Department was in direct contact with Area II Headquarters of Civil Defense in Bridgewater at all times, and we remained alerted until we received notification from the State Police Headquarters that the storm had passed.

In closing, I wish to thank all members of my Department, Board of Selectmen, Town Officials and townspeople, for the courtesy and cooperation extended to me during the past year.

Respectfully submitted,

WALTER A. BENOIT,
Chief of Police.

Report of Fire Department

To the Board of Selectmen

Gentlemen:

Herewith is my report for the year ending December 31, 1961. During the year the department responded to 129 calls, of which 24 were still alarms, four false alarms, two resuscitator, three rescue and three aid calls.

Practice drills were held twice a month throughout the year. These drills consisted of instruction on operation and use of all fire fighting equipment, laying hose lines, different types of hydrant hook-ups and all phases of fighting fires.

At the Central Station there is:

1 — 1959 Combination Dodge Power Wagon capable of pumping 250 gallons a minute and water carrying capacity of 600 gallons.

1 — 1956 Maxim Triple Combination Truck capable of pumping 1000 gallons a minute and a water carrying capacity of 300 gallons.

1 — 1937 Buffalo Triple Combination Ladder Truck carrying 200 feet of ladders and capable of pumping 250 gallons per minute with a water carrying capacity of 110 gallons.

1 — 1947 Dodge Forest Fire Truck capable of pumping 200 gallons a minute and a water carrying capacity of 300 gallons.

1 — 1960 Evinrude Sportwin, 10 HP, one Duratech Aluminum Boat, Model S-16, and one 1960 Cox Trailer, Model CT-165C.

At the Elmwood Station there is a 1941 Seagraves Triple Combination Truck, capable of pumping 500 gallons per minute and water carrying capacity of 110 gallons.

The Department has 5,000 feet of 2½-inch double jacket hose, 2,000 feet of 1½-inch double jacket hose and 1,400 feet of 1-inch forestry hose.

The trim and doors of the Central and Elmwood Station have been painted and new glass set. The Central Station has received a new roof of tar and gravel.

We have purchased 32 new Firemen's coats and helmets, one resuscitator, one hydraulic rescue kit, and one Sawzall.

I would like to extend my gratitude to the Honorable Board of Selectmen and the Finance Committee for their co-operation in the past year.

Respectfully submitted,

MANUEL T. SILVA,
Chief of Fire Department.

Report of Civil Defense Agency

Honorable Board of Selectmen
Town Office, East Bridgewater

Gentlemen:

To the Honorable Board of Selectmen and Citizens
of East Bridgewater:

Submitted herewith is a report of the Civil Defense Agency for the year 1961:

Radio Communications, under the direction of Merle J. Whittaker, have been active weekly and have been called out for hurricane and other needed activities. The increase in the 1962 Budget is for the purchase of three new radio units for this group. At the present time all mobile units are 6-volt and are very old. The cost to maintain this equipment has been excessive and new radios are very necessary to keep this group on an efficient and ready status.

The Auxiliary Police Unit under the direction of Captain Owen DeLorenzo has had a very active and successful year. Numerous emergencies, such as the hurricanes and the fire in the center of town found this group at full strength and aiding the police department in handling traffic and reporting damages. Chief Walter A. Benoit has guided this group through many training phases and used them, with success, in times of emergency. There are many additional openings in this phase of civilian defense and the knowledge and police training received through this unit are essential to this town in emergencies or disaster.

The cooperation of Mr. Stanley Goldman, Superintendent of Schools, has been wonderful and his interest and efforts toward civil defense readiness are very appreciated. The new high school has been used as a Control Center during these disasters and has been very successful. The location and construction of this building are ideally suited for the control center. My sincere thanks to the School Committee and Mr. Goldman for their valuable assistance.

Surplus equipment has been purchased by various departments of the town with a saving of hundreds of dollars. This equipment made available by the federal government, will greatly help East Bridgewater in getting necessary and much needed equipment.

The East Bridgewater Master Plan is nearly completed and by the time of this reading will have been put into effect. This plan will cover the duties and activities of our town in case of enemy attack or natural

disaster. Due to the expense involved it will be impossible to supply all citizens with a copy, but enough will be made to supply each citizen with the necessary information needed.

During the past year many Social Civic Organizations have contacted me concerning the role East Bridgewater will play in Civil Defense. I am very happy to have had the opportunity to meet with these people and discuss this important question of our role in survival.

My sincere thanks to the Board of Selectmen, Chief Walter Benoit and Fire Chief Manuel Silva for their cooperation and assistance in furthering civil defense readiness and capability in East Bridgewater and also to the townspeople, without whose help nothing could have been accomplished.

Respectfully submitted,

HENRY B. BELCHER, Director,
Civil Defense, East Bridgewater.

Report of Park Department

To the Board of Selectmen and the Citizens
of East Bridgewater:

We hereby submit our report for the year ending December 31, 1961.

The Park Department had a sufficient amount of money this year available from the Town as well as the Joseph Strong Fund to maintain Strong's Field this year.

Strong's Field was regraded in the spring, mowed each week, and the diamond kept up for good fast baseball.

The Memorial Park was suitably prepared for the holidays and kept up the entire season.

The Little League Field has been under our care for the second year. We have taken care of the grounds, and grass, and have put over a ton of lime on the field.

Under the supervision of the Park Department, we had Miss Janice Doherty take care of the playground activities which were held at the Central School playground with a large number of children attending for the months of July and August.

Respectfully submitted,

RALPH G. CONNORS,
THOMAS E. O'BRIEN,
MAXWELL J. PEARSON,
Commissioners of Park Dept.

Report of Water Commissioners

To the Honorable Board of Selectmen:

Gentlemen:

Forty-six new services were added in 1961 on Thayer Avenue, Leland Street, and Harvard Street. Forty-nine new services were installed by the Water Department and 22 service renewals made. Our total number of services as of this date is 1677.

Twenty new hydrants have been installed bringing our total to 235.

Under contract 6030 feet of 8-inch pipe and 1800 feet of 6-inch pipe has been laid on Thayer Avenue, Waterman, Leland and Harvard Street.

The Board of Water Commissioners are again sponsoring an article calling for the appropriation of \$10,000.00 for test well investigation in an effort to locate a suitable supply of water to meet our ever increasing needs. We feel that any future extensions of our feeder mains will depend to a great extent on whether or not we want someday to have our own supply wells.

The Board of Water Commissioners at this time wish to thank all other Town Departments for their cooperation during the past year.

Sincerely,

BOARD OF WATER COMMISSIONERS
Arthur Ash, Chairman
William F. Hennessey
John J. Clarity, Clerk

Report of the Department of Veterans' Services

To the Honorable Board of Selectmen and the
Citizens of East Bridgewater:

During 1961 a large number of Veterans and their dependents filed claims under the new Federal Pension law. P.L. No. 86-211 became effective July 1, 1960. In some cases it provided increased pension benefits over the old law to veterans and their dependents based on income factors. All veterans and their dependents filing pension claims after July 1, 1960, had to file under the new law. This is not to be confused with Service Connected Disabilities for veterans injured while in the Service. They receive compensation.

The pension claims for veterans and their widows successfully processed from our office amounted to over \$8000.00 in monetary value this year. This amount represents a substantial savings to East Bridgewater tax payers.

During 1961 over 549 contacts were received from veterans and their dependents for various services from our Department. Over 870 photocopies of valuable discharge papers and other vital statistics were made. This service alone proves to be one of the most important available to veterans and their dependents. Also many of the other Town Departments have called on us for the use of this service.

I am happy to report that with an increase of requests for hospitalization for veterans this year, we were again 100% successful in placing these veterans in a Veterans' Hospital. If these cases alone were processed under Chapter 115 of the General Laws in Massachusetts and placed in local hospitals, it would have been a tremendous cost to the taxpayers of East Bridgewater.

The following expenditures were made during 1961: medical expenses including doctors, medications and hospitals, \$7,452.40. This is over \$500.00 less than expended in 1960 in spite of an increase of applications processed under Chapter 115. Subsistence allowance, \$22,095.99, which represents over \$900.00 less expenditures than 1960. This was due in part to diligent effort in transferring settlement cases in other towns and cities after they had resided there for five successive years.

There are many persons who do not know their rights and benefits under the various Federal and State Laws. Our office is willing at all times to submit this information to them if they will get in touch with us.

Respectfully submitted,

PHILIP E. CAREY,
Veterans' Agent.

Report of the Board of Public Welfare

We herewith submit the following report of the Board of Public Welfare and the Bureau of Old Age Assistance for the year 1961.

MEDICAL ASSISTANCE FOR THE AGED

The purpose of this program is to provide assistance to those persons over sixty-five years of age who are in need of medical care only and who meet the eligibility requirements of the State Department. This new category of assistance became effective October 1, 1960, and at that time all persons in nursing homes under the Old Age Assistance program were transferred to this new category. During this year, we received twenty-one applications for Medical Assistance. Ten of these applications did not meet the eligibility requirements. Eleven qualified for assistance, so that during the year nineteen persons were aided under this category of assistance. Five cases were closed by death or transfer, so that at the end of the year there were fourteen persons on our rolls. \$24,149.00 was paid out in behalf of these persons. The Federal government will reimburse us 50%, which is \$12,074.00, and the State, 25%, or \$6,037.00, so that the net cost to the town was \$6,037.00.

OLD AGE ASSISTANCE

Seventy-four persons received Old Age Assistance during the year. Fifty-one cases as of January 1, 1961. We received twelve applications, eleven of which were approved and added to the rolls. Twelve cases were closed during the year leaving a total of fifty cases as of December 31, 1961. \$54,010.00 was expended in behalf of these seventy-four cases. This sum included cash grants and vendor medical payments. Of this amount \$20,838.00 was received from the Federal government and \$18,021.00 from the State, making a net cost to the town of \$6,150.00.

AID TO DEPENDENT CHILDREN

January 1, 1961, we were aiding eight cases under this category. During the year, we had six applications. Four of these cases did not come on our rolls, because support for these families was obtained through the co-operation of probation officers and district courts. Two of the six were approved. Six cases were closed during the year, one because of relative support and five because these cases moved from town. This was a total of ten families aided. At the end of the year there were four active cases on the rolls. Aid in two of these cases is supplementing court orders and there are warrants outstanding on the other two cases. These cases received \$8,666.00; the Federal share was \$3,936.00; the State's share \$2,935.00. The town share was \$1,795.00.

DISABILITY ASSISTANCE

Five cases were aided under Disability Assistance during the year, two cases carried over from the previous year and three cases were added. Two cases were closed so at the end of 1961 we had three active cases. These cases received \$5,107.00; 75% of which will be reimbursed by the Federal government and 25% by the State Department.

WELFARE

Under the Temporary Aid program thirteen cases were aided. Six were individuals and seven were family groups. During the year eight were closed. Six were family and two were individuals. \$4,410.00 was expended under this category of assistance and all but \$50.00 of this amount is reimbursable by individuals, the State and other towns.

During the year the department has collected, as recoveries from individuals and under the lien law, and paid to the town collector, \$19,861.62. This amount was for assistance rendered various persons and was received for Medical Assistance for the Aged; Old Age Assistance; Disability Assistance and Temporary Aid. All of this money, with the exception of the amount allocated to the Federal government was returned to surplus Revenue.

HAROLD F. DOHERTY, Chairman
RICHARD B. LELAND, Clerk
HARRY W. WAITE, 3rd Member

Report of Town Treasurer

To the Board of Selectmen and the Citizens of the
Town of East Bridgewater:

Rendered herewith for your attention is the Treasurer's report for the calendar year of 1961:

LESTER R. FISHER, Auditor.

Report of School Planning and Building Committee

The Central School Planning and Building Committee has continued throughout 1961 its efforts to secure State aid for the twelve-room addition to the Central School.

On January 10, 1961 the secretary wrote a letter to Chairman Arthur Eldridge requesting a meeting with the entire School Building Assistance Commission to review the case. Chairman Eldridge replied that the meeting would be arranged through the Administrator, Mr. Simeon Domas.

On May 2, 1961, after a delay of almost four months, the meeting with the full commission was granted. Attorney Edmund Nutter had prepared a comprehensive brief and Mr. Ralph Keith a financial report, which were submitted at this hearing. The committee presented the case and awaited a reply. On August 21, 1961, the reply was finally received:

"This is to inform you that the School Building Assistance Commission, at its August meeting, voted to concur with and support the opinion of its staff that the proposed addition of 12 classrooms to the Central School would not be a wise expenditure of public funds."

The committee had received a vote of confidence at the annual Town Meeting in March, 1961. On September 18, at a special Town Meeting, it reported to the Town that it had been denied State aid. The committee then proposed to build without State aid and file a bill for reimbursement with the State Legislature. The voters again backed the committee overwhelmingly.

On November 27, at another special Town Meeting, an article was presented requesting the permission of the Town to go ahead and build the addition without State aid. This was favorably voted 179 - 66.

On the petition of the Board of Selectmen, Representative Edward Kirby then filed a bill in the State Legislature providing for State reimbursement to the Town of East Bridgewater of part of the cost of constructing an addition to the Central School. This procedure has been followed successfully by two other towns.

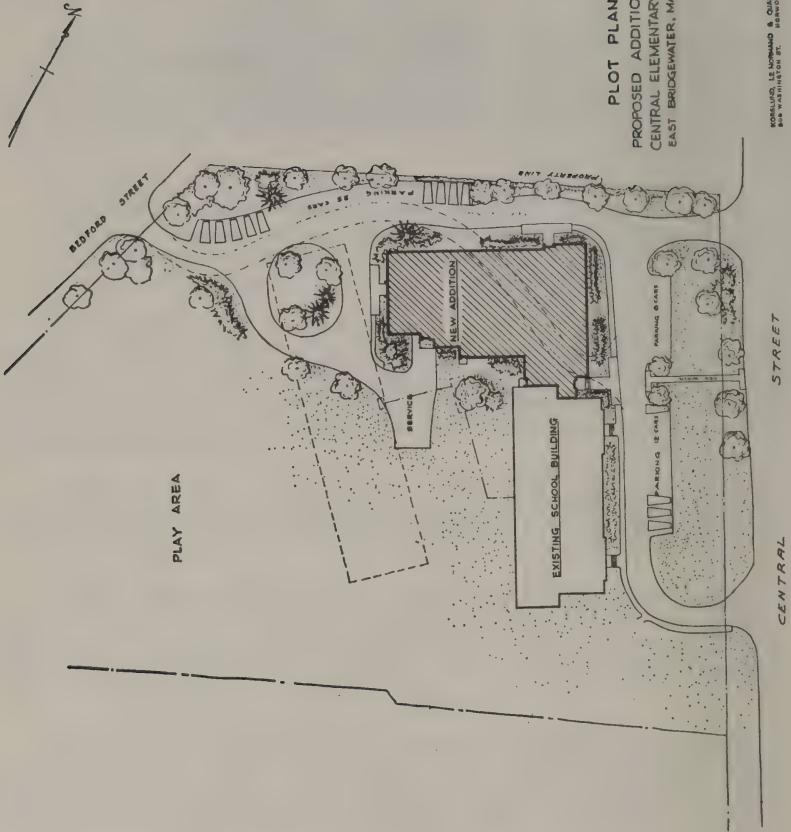

In addition to the attempts at reaching an understanding with the State Building Assistance Commission, the committee interviewed architects, visited new schools, and studied educational specifications, plans and projected enrollments with Principal Ralph V. Murray, acting as an educational consultant to the committee.

With the vote of the Town on November 27, authorizing them to spend the money without the promise of financial aid from the School Building Assistance Commission, the committee now is able to spend the funds to engage an architect to prepare preliminary drawings to present to the Town at the annual Town Meeting to be held in March 1962. A

copy of the perspective and floor plans are submitted herewith as part of this report.

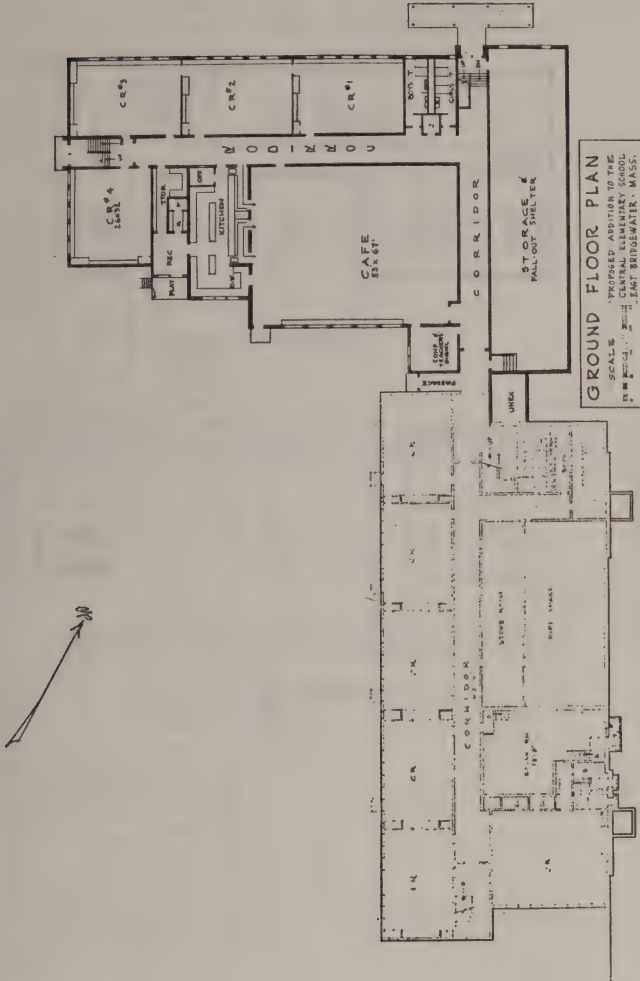

The committee wishes to thank the townspeople for their loyal support and expresses the earnest hope that it can proceed with the erection of the addition without further delay.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of East Bridgewater:

The year 1961 has been one of progress and accomplishment for the East Bridgewater School System.

In order to increase the overall effectiveness of the public schools your Committee, through visits, frequent contacts with school personnel, and monthly reports from each building principal has tried to maintain close contact with the personnel in the school system and their problems. The Committee has worked long and diligently to provide a sound and well rounded educational system for the Town. The goals and aims of our educational system can not be attained without the loyal support and co-operation of the teaching personnel. The Committee appreciates this and wishes to thank all personnel for dedicated services and cooperation.

The physical properties of all the buildings are being maintained in good condition. This year, at the Central School, several classrooms, wash rooms, and a corridor were redecorated; the yard and parking lots were resurfaced. During the summer, many desks were refinished by the building custodians; venetian blinds were installed in five additional rooms. A backstop, with an overhang, was purchased for the playground. At the Intermediate School, the oldest of our three school buildings, a floor and wall separated in a second floor classroom. A consulting engineer was called in to determine the cause and give reassurance about the safety of the building. Because of water seepage, replacing of timbers and water-proofing of the north wall will be necessary. The engineering firm has

presented the documents for obtaining bids in order that the necessary work relative to the waterproofing can be done as soon as possible. During the summer two rooms were painted and their floors tiled by the custodians of the building. Forty desk and chair units were purchased due to the increased enrollment.

Additional funds were voted from Public Law 874 to complete the installation of the Memorial Organ in the Michael J. McCarthy Auditorium at the High School.

After meeting with the Teachers Salary Committee it was decided to adjust the salary schedule to a minimum and maximum relative to towns of comparable size. East Bridgewater wishes to attract and retain its outstanding teachers and also to sustain the teacher turnover to a minimum to insure the best possible education for its pupils. Principals', supervisors' and other school employees' salaries were adjusted accordingly.

The transportation of school pupils continues to present problems and hardly a meeting passes without a request for special or additional transportation. After carefully studying the problem the Committee Members strive to reach an impartial and equitable solution which often exceeds requirements defined by the Commonwealth.

School Committee meetings are open to the public. Members of the School Committee express their appreciation for the aid, suggestions and donations so generously given by the American Legion Post No. 91 and Auxiliary, Boosters Club, Commercial Club, Junior Woman's Club, Kiwanis Club, Parent-Teacher Association, Senior Woman's Club and other civic organizations and citizens of the Town.

The School Committee:

Marla E. Fisher, Chairman
Paul B. Snow, Vice Chairman
Robert B. Alexander, Secretary
Brewster W. Fuller
Leslie H. Gould
M. Frances Guerin

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the members of the School Committee and Citizens of East Bridgewater:

It is with pleasure that I submit my fifth annual report as your Superintendent of Schools.

The year 1961 has been a busy and challenging one.

The amount of turnover in the teaching staff is always a concern. However, by careful recruitment of new teachers and by the provision of

as much aid as possible to new teachers through special help from the administrators we have been able to avoid many of the disadvantages involved in bringing new teachers into the system. I believe that our schools are staffed with competent and dedicated personnel. Professional improvement of the East Bridgewater teachers remains at a very high level.

Your Superintendent of Schools has been meeting regularly with the building principals and supervisors. This gives all of us an opportunity to discuss mutual problems, suggest new plans and coordinate the total school program.

Bus transportation continues to be a constant problem with the numerous requests for extended coverage beyond the state requirements and the adopted School Committee policy.

Despite tightening of college admissions requirements East Bridge-water graduates have sought and gained admission to the leading universities and colleges in the country.

For the pupils enrolled in a non-college curriculum our schools maintain a comprehensive program which seeks to serve both common and individual needs of students preparing for a variety of objectives. A comparison of the structure of our program with the programs of studies and activities of other schools in the Commonwealth will indicate that ours is as comprehensive as any system our size.

For the fifth successive year the teaching staff was enlarged due to increased pupil enrollment. Teachers not retained and resignations were also responsible for changes in personnel, as may be seen in the School Department Directory.

I wish to pay tribute to Miss Marlene L. Andrews, teacher of English and U. S. History, who retired after 40 years of faithful service. Her understanding of the needs of boys and girls and her interest in pupil development made her an outstanding teacher. Miss Andrews carries with her in her retirement the best wishes of all who have been privileged to know her.

Special commendation should be given to the members of the School Committee. This unpaid group gives freely of time, talent and energy for the success and welfare of our schools and the students.

The East Bridgewater public schools continue to receive excellent cooperation from the public library staff in providing service to all three schools.

I believe that to help you is a vital part of my job as Superintendent of Schools. To that end I welcome questions, conferences and talks. If you think something is wrong I wish to know about it so that I can investigate or explain. Do not hesitate to make an appointment to talk over whatever school problem concerns you.

Before closing may I call your attention to the reports of our principals and supervisors.

Also, I wish to thank the members of the School Committee, the principals, teachers, custodians, lunch room workers, secretarial staff and other employees, the various town departments and committees, the many civic organizations and the public in general for their continued co-operation and interest in our schools.

Respectfully submitted,

STANLEY B. GOLDMAN,
Superintendent of Schools.

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL

To the Superintendent of Schools:

The annual report of your high school principal is as follows:

Recent years have shown continuous growth in both school population and staff. The following table shows the enrollment by grades in the high school during the past five years.

Grade	5 Year Growth*					1962 (est.)
	1957	1958	1959	1960	1961	
9	103	103	105	114	151	145
10	89	91	100	105	104	145
11	68	85	83	92	94	98
12	52	64	80	70	84	88
Total	312	343	368	381	433	476

*as of December 31

The overall increase in the 5-year period is 38.78%. Barring any extensive home building this figure should show some tendency to level off as the Intermediate school shows in its 4-grade enrollment an increase of only two pupils from December 1960 (543) to December 1961 (545). Numerical growth alone will produce changes in any system. However it is incumbent upon a school to grow academically. We have made some changes in our educational program as indicated in last year's report. I feel the following changes are advisable and should be considered. First, Spanish should be offered as a third language. Hemispheric solidarity is a must and knowledge of the language spoken by all but one of the Latin-American countries is needed to enable us to communicate better with our southern neighbors. Second, the graphic arts constitute a powerful media of communication among our own people. Our art program should be expanded in the high school to offer a full time art class for those gifted in that area while continuing the twice weekly elective classes for the rest of the student body.

The physical education program has come to the fore as a result of studies showing American youth is lacking in physical strength and

stamina. Statistics show that a weak and flabby physique and a weak and flabby mind go together. The physical education department in the high school has inaugurated an extensive series of tests to determine the physical fitness of our youth. The testing program serves as a guide to the program planned to correct existing deficiencies and promote the overall physical strength and stamina of our young people.

Coupled with the physical education activity we have a health program involving careful check of visual, auditory, dental and postural deficiencies. Our school lunch program provides an inexpensive, nutritional and attractive menu to meet the dietary requirements of the students.

A broad program of sports includes football, cross-country, basketball, baseball and track for the boys and field hockey, basketball and softball for the girls. Other extra curricular activities include the yearbook, school magazine, dramatics, science club, Junior Classical League, French Choral and Art Group, East Coast Model United Nations Group, Student Council as well as numerous class activities.

Our musical and art programs have expanded. This year the combined Choraleers and ninth grade chorus presented a special Christmas cantata under the direction of Mr. James D. Goodwin of the high school faculty.

We continue to conduct an extensive guidance and testing program for all students. A large library of college catalogs, career monographs and other publications are available for all students. Miss Anne R. McNally, who had headed the guidance program since 1944, left us in June. We were fortunate to secure the services of Mrs. Phyllis R. Briggs as guidance director. Mrs. Briggs comes to us from New Ipswich, New Hampshire.

The report of the High School Athletic Association for the year 1961 is as follows:

Balance on hand January 1, 1961	\$835.62
---------------------------------	----------

RECEIPTS:

Basketball	\$476.75
Football	1,625.78
Refund	10.00

REPORT OF THE PRINCIPAL OF THE INTERMEDIATE SCHOOL

Dear Mr. Goldman:

It is with pleasure that I submit this report as principal of the Intermediate School.

For the second successive year, the Intermediate School has an extremely large enrollment. It was believed that the large graduating eighth grade class would lessen the number of pupils; however, the increase of transfer pupils offset the expected decrease. Again it was necessary to house two fifth grade classes at the high school. It appears that the steady and gradual growth of our school enrollment will continue and unless some form of building takes place in the immediate future the situation will reach the critical stage.

Through the concerted efforts of all the personnel connected with the Intermediate School, our pupils continue to receive the services essential to their education. Although the school is overcrowded, the educational program continues to be improved upon so as to offer every pupil an opportunity to develop his intellectual and physical potential. Achievement test scores indicate that the average score in reading, arithmetic and language compares favorably with the national averages in each area. The physical fitness tests were not as satisfactory and adjustments in our physical education program are being made. To enhance our entire program our teachers are attending classes at neighboring colleges.

Parents are reminded that the teachers are available afternoons to provide pupils opportunity for additional help and for parent conferences. Pupils who are deficient in a subject are required to attend at least one after school session each week for extra help. Bus pupils are provided with elementary bus permission slips whenever a pupil remains after school for scholastic purposes.

Maintenance projects have been completed to improve the physical appearance and comfort of the building. Two classroom floors were tiled and one junior high room was provided with the latest type of school desks and chairs. Shades were purchased for two rooms and they will also serve as blackout shades for our audio-visual program. Both teachers' rooms were redecorated and the refinished furniture was contributed by our teachers. The former guidance office was restored and this room serves as a small conference room. New doors for the entrances are in the process of being purchased. Much of the maintenance work was performed by our custodians and they were assisted by the custodians from the other buildings.

For the second year science instructional projects were prepared and submitted for approval to entitle our school to receive Federal Aid under Public Law 85-864. The government provided matching funds toward the purchase of science equipment required to carry on the projects.

A large number of science minded pupils joined the Junior High Science Club and it was necessary for Mrs. Loretta Ring, the faculty ad-

visor, to separate the club into two divisions. The club meets after school once each week and its activities include guest speakers, pupil demonstrations and field trips. The highlight of the club's activities was a science fair which featured ninety pupil-made projects submitted for judgement.

The junior high pupils published their first school newspaper this year. The newspaper, "The Opinion," is pupil motivated and it is edited by eighth graders under the supervision of Mrs. Miriam Leach. The paper features current events, school news, articles by teachers and other points of interest.

Mrs. Dorothy Arsenault, who teaches music for grades five and six, is also the director of the junior high chorus. The music program for the elementary grades has been strengthened, since Mrs. Arsenault is able to meet with each class weekly. Our junior high chorus has seventy-five members and they meet for rehearsals twice each week. Our junior high band and elementary band are under the direction of Mr. Donald Leach. The bands and chorus have played at school assemblies and also at the Spring Music Concert.

The annual class trips were conducted and the pupils found them to be educational as well as entertaining. The sixth grade pupils traveled to Boston where they were taken on a tour of Logan Airport and after a picnic lunch they attended a showing of "Cinerama." The eighth grade pupils toured the historical sites in the Boston area. The Commercial Club of East Bridgewater sponsored the entire sixth grade trip and the local P.T.A. sponsored the eighth grade trip.

In the extra curricular activities pupils are offered the opportunity to participate in essay contests, science and art contests and exhibitions, basketball, intramural track meets, baseball and dancing.

The following special events took place this past year: Education Week, Visiting Day, Parent Conference Night, Christmas Pageants, Thanksgiving Assembly, Memorial Day Assembly, and Eighth Grade Graduation.

I wish to express my sincere appreciation to my fine teaching staff, to the other administrators, school committee, local civic organizations, parents and friends for their help and suggestions for providing our pupils a good educational program.

Respectfully submitted,

JOHN A. GEOVANIS,
Principal, Intermediate School.

REPORT OF THE PRINCIPAL OF THE CENTRAL SCHOOL

Dear Mr. Goldman:

I am pleased to submit the following report of activities of the Central School for the year 1961.

Our enrollment of approximately 575 pupils has been distributed so that there are five rooms for each grade. We are still housing one fourth grade at the High School and a third grade in the Teachers' Room at the Central School.

There have been two changes in the teaching personnel. Miss Priscilla Morse is teaching a second grade replacing Miss Halpine. Mrs. Arsenault was secured on October 1 to replace Miss Lewis in the music department. The use of a music teacher solely for elementary grades is proving to be helpful since we are now able to offer weekly assistance to teachers and pupils and, also, to organize choral groups, rhythm bands, and similar valuable phases of the music program.

There have been a number of activities such as field trips that have served to present common understandings to the pupils as well as to give them enriching experiences. Many classroom projects have been developed in science, social studies, reading, and language.

Teachers are continuing to hold pupils to high standards in handwriting. We have been pleased with the splendid results by the pupils at each grade level. The use of manuscript writing at the Grade One level and continuance into Grade Two has launched the pupils early on the road to successful written composition in language.

Several consultants have been made available to teachers throughout the year. A discussion of phonics with Mrs. Metcalf of Lyons and Carna-

han Company brought forth worthwhile teaching ideas. Similarly, Miss Gaffney of Row, Peterson Company gave valuable suggestions to teachers relative to the use of reading materials presently used in the school. Miss Sharkey of Ginn & Company held a music workshop to better acquaint teachers with the music understanding incorporated in the music book series now being used in the elementary grades.

Miss Prince and Miss Braddock, student teachers from Bridgewater State College, were used to teach physical education during their period of student teaching in the spring.

We are grateful to Miss Sawyer and Mrs. Eastman of the Public Library for the splendid library program they have given to the school.

Curriculum study groups have met throughout the year to correlate the subject matter areas at various grade levels. Science teaching from the first grade through the fourth has been given impetus from project materials acquired through available federal funds.

Pupils and teachers have presented many outstanding assembly programs. These assembly programs have served to meet various worthwhile objectives in the school life of the pupils.

Readiness tests were administered to eligible pre-school children on May 31 and June 1.

Registration Day for children entering Grade One was held on June 8. Teachers of Grade One assisted in registering children. Medical and dental examinations were given by Dr. Bannerman and Dr. Fraser.

A Conference Day was again held on November 13. On that day teachers scheduled appointments with parents. Those parents unable to meet during the day had an opportunity to confer with teachers on the evening of November 14. These conferences help develop a clearer understanding of the tasks of parents and teachers in guiding the pupil.

Much absence occurred, especially in Grade One, during the month of December due to an epidemic of measles. Absence ran as high as 160 pupils.

In June the Parent Teachers Association presented the school with aquarium heaters, animal cages, and rhythm band instruments. They have, also, agreed to sponsor square dancing. We thank the members and leaders of the P.T.A. for their kindness to us.

To our teachers for their splendid co-operation and to all school personnel, parents, and other persons and organizations who have helped in many ways to develop a good educational program, I am grateful.

Respectfully submitted,

RALPH V. MURRAY,
Principal Central School.

REPORT OF THE MUSIC SUPERVISOR

Dear Mr. Goldman:

I submit herewith the annual Music Department Report for the year 1961.

INSTRUMENTAL PROGRAM

This program includes the following four departments:

1. Class lessons for the beginning musicians
2. The Elementary Band
3. The Junior High Band
4. The Senior High Band

ELEMENTARY BAND

All players who have started this year are receiving instruction in classes after school, and are allowed to attend one Band rehearsal per week. The Band has 58 members at present. Combined with the Junior Band they marched and played in the Civil War Centennial parade on October 12th.

JUNIOR BAND

The Junior Band has 30 members. This group rehearses every Tuesday from 11:35-12:20 at the Intermediate School. The Junior Band recently played at the Thanksgiving Day Assembly.

SENIOR HIGH BAND

The Senior High Band has 52 members and rehearses three periods each week. We had 4 members accepted in the District All State Concert and expect to have other representation in the New England and S.E.M.S.B.A. Festivals. One student is a member of the Greater Boston Youth Symphony, the Brockton Symphony Orchestra, and the Whitman Orchestral Club. The Band played at all of the home football games and made an excellent showing in the Civil War Centennial Parade.

JUNIOR HIGH MUSIC

Grades seven and eight take part in this general music program. Classes are held once each week and cover three general subjects: music reading, music appreciation and singing.

SENIOR HIGH MUSIC

There are 59 members in the Choraleers which is our Senior Chorus. We rehearse twice each week. We have been represented in the South Eastern District Festival, The New England Festival, and in S.E.M.S.B.A. The Freshman Chorus is made up of ninth grade pupils and serves as excellent experience for the future Choraleer members. East Bridgewater School Music has a splendid tradition, and certainly commands the respect of many Music Educators, throughout New England, for its fine representation over many years.

My personal thanks to Mr. James Goodwin and Mrs. Dorothy Arsenault for their fine help with the Vocal Music, also thanks to Mr. Goldman, Mr. Loud and Mr. Geovanis for their kindness.

Respectfully submitted,

DONALD F. LEACH,
Supervisor of Music.

REPORT OF THE ART SUPERVISOR

Dear Mr. Goldman:

It is with pleasure that I am able to report an expanding and active Art Program growing to an extent that now requires further consideration with respect to facilities and personnel.

On the High School level we find enrollment in the regular Art Program tripled over 1960-1961 figures. Our Cultural History course shows a 100% increase in enrollment over the previous year. Principal Loud reports that it was necessary for him to turn away fifteen students who desired to enroll in the Art Program this year but could not do so due to the fact that the High School Art Program — now on a two day a week basis — did not offer him sufficient number of days to take care of these students. This increased pressure represents not only a greater interest in cultural pursuits on the part of the student body, but shows that a well planned program with a continuity of effort from Elementary through Jr. High to High School can awaken and produce a meaningful and stimulating art experience for our children. Through our Cultural History and Art courses our boys and girls are discovering avenues of approach to vocational pursuits hitherto little explored. For these reasons it would seem proper to suggest that our High School Art Program be divided into two separate groups: one to meet the needs of the group who show interest in training for a possible vocational art future (either in commercial, Fine Arts, or the art teaching field) and a second or exploratory group with a more generally diversified interest. To adequately service these groups class meetings should be on a daily basis.

As a necessary adjunct to such a program, Jr. High School levels are entitled to more than the one day a week offering now available. Many of the students on the eighth grade level who elect art are disappointed in the lack of time available on a one day a week basis. To sustain a better program for them, I feel that these eighth graders should have their art offerings on a twice a week basis. The seventh grade should also be on such a program.

To adequately carry forward our Elementary Art Program, a full time art teacher should be employed under the direction of the Art Supervisor. This would enable us to schedule art on a weekly basis for

grades one through six, and assure a continued high level of art teaching program.

It would be my recommendation therefore, Mr. Goldman, to add an art teacher to our staff — this teacher to aid in the Elementary Program as well as any other of the art programs that may need assistance. This teacher should be a member of the Art Department, and under the guidance and direction of the Art Supervisor.

May I take this opportunity of thanking you, Mr. Goldman, as well as the School Board, Principals, teachers and all personnel for their fine cooperation and assistance during the past year.

Sincerely,

ALBERT H. STEVENS,
Art Supervisor.

REPORT OF THE DIRECTOR OF GUIDANCE—1961

To the Superintendent of Schools:

This report deals primarily with the work of the Guidance Department from the beginning of the academic year in September, 1961, when the present Director was appointed, until the end of December 1961.

All of us as townspeople, many as parents, others as educators have our special hopes for what Guidance may do for the youth of our town. We assigned specific funds which this year again were amplified by Federal money to serve better these young people . . . and the nation. Here is a brief glance at what is happening with a bit of the philosophy behind the activity.

Guidance services exist to provide help for all students with educational planning and therefore with vocational planning which cannot be divorced from the educational.

Freshmen students require an understanding of the courses of study available and an appraisal of their own potentials and desires. Mere review of past achievement as evident in grades and achievement tests, although of considerable value, is augmented by aptitude and interest testing. Thus consideration may be given not only to what a student has been doing but also to what he is capable of doing if sufficiently motivated.

The Guidance program in the past has tested achievement and mental aptitude in the last half of the eighth grade. The present program will add additional aptitude testing for indications of aptitudes in certain areas such as clerical, mechanical, spatial, etc., to help students better assess potentials in specific directions. It is planned also to continue with meetings with parents in the spring of the students' eighth year as in the past to discuss with parents the courses available and considerations regarding individual student needs.

During the first year of high school, as during the subsequent three years, Guidance is available to new students for any individual problems that may arise relative to specific subjects, career information, or further educational and vocational planning.

College preparatory students often need additional attention because they must be extremely careful that they are fulfilling the course requirements for college admission. High degree of reading skill, efficiency and speed, are desirable for all students but to the college-bound student an absolute necessity, as is proficiency in written and oral use of the English language.

Because of the vast number of career possibilities today students often concern themselves early with decisions regarding occupational choice and schooling in and beyond high school. They come for information bewildered by the enormity of possibilities and the demands of our contemporary world for years of post high school training. A wealth of current up-to-date information is readily available to the student in the Guidance Library. Career briefs and publications of various industries provide general information; college catalogues and technical school pamphlets and catalogues supply details on specific schools. Students are explained the use of this available information and are urged to take advantage of these resources to help them make decisions based on knowledge of their field of interest together with better understanding of their own potential. Films and tapes (Northeastern University provides excellent ones) are available from time to time.

Again in the spring of their Sophomore year students are tested not only for comparison of achievement with national norms but to assess their potentials. Early in the fall of the Junior year an opportunity to determine fitness for college is presented in the College Entrance Examination Board's Preliminary Scholastic Aptitude Test. This is a two-hour version of the College Entrance Examination Board three-hour Scholastic Aptitude Test which the majority of colleges, teacher training institutions, and many technical schools require for consideration for admission. This year 44 Juniors and 23 Seniors (for practice or Scholarship considerations) took the PSAT on Saturday, October 16, 1961. In the spring of their Junior year students definitely interested in college take the National Merit Scholarship Qualifying Test. Top students who qualify as semi-finalists take the SAT in their Senior year to become eligible for a large number of scholarships awarded by the National Merit for a long list of industries who supply funds to be distributed. This exam was given last March to 26 Juniors.

In the fall of the Senior year the Massachusetts Employment Service tests Seniors expecting to enter the labor market directly from high school. This year 22 Seniors were examined and later interviewed by counselors from the Employment Service.

To reach all students a planned interview is scheduled. At this time an opportunity is presented to discuss plans, problems, credits, test results or any matter with which the student may be involved. Students, if not already familiar with informational resources, are acquainted with material available and methods for securing additional knowledge.

Work experience is a most valuable aid in occupational choice. Several students have been placed in part-time jobs. Summer work is most desirable. The Guidance Department is very willing to be useful to employers in this regard.

Follow-up studies of 1961 graduates reveals the following information:

4 year degree colleges	13	Business Schools	4
2 year junior colleges	1	Technical	6
Nursing schools	5	Total Continuing	
Labor	24	Education	29
Homemaking	6	Armed Services	4
		Total Graduates	63

These are some of the objective details that can be reported. A great deal of what transpires is beyond the realm of "reporting", for we deal with potentials and hopes and visions, with youth's ideals and the urge to self-fulfillment.

Assignment of funds to Guidance is truly an investment in the future. Time will reveal its worth.

The Guidance Director wishes to express gratitude to members of the faculty, administration, office personnel and the School Committee for cooperation with Guidance to better serve our individual students. Together with parents we all unite in our common goal not only to identify talented youth but to identify youth's talents, to train him to utilize his talents and skills to better serve himself, his country, and the world.

Respectfully submitted,

PHYLLIS R. BRIGGS,
Director of Guidance.

REPORT OF THE DIRECTOR OF ATHLETICS AND PHYSICAL EDUCATION

Dear Mr. Goldman:

I am pleased to submit my report for the year 1961.

PHYSICAL EDUCATION

Our physical education program continues to meet the needs of the individual students.

The opening of our new High School enabled all students to take part in a flexible program including such a variety of activities as individual and team sports, recreational activities, stunts and interscholastic contests.

This year a student instructor program proved of great value and allowed an opportunity for individual instruction in the basic fundamentals of each activity.

With a renewed national interest in physical fitness stimulated by reports of many tests given by the American Association for Health, Physical Education and Recreation, the department increased their emphasis on physical fitness. At the Intermediate and High School a program was started where each boy or girl was tested as to his or her degree of physical fitness. Periodically these results are being sent home to each parent. The students will be tested again at the close of the school year to determine the degree of improvement one has made in physical fitness since the initial test.

The big drawback continues to be at that time when weather conditions allow us to shift the program from the best indoor facilities in the district to limited outdoor facilities. The area behind the high school is in critical need of development to accommodate the large enrollment. I have submitted a plan whereby the development of this area would serve the needs of the community and the school. Such an area would allow the town to have a well balanced recreational program. Meanwhile, the school would utilize the area to expand a seasonal physical education program and a much needed area for the students during their recess periods would be provided.

The coaching staff has been strengthened with the appointments of Mr. Allen, Mr. Agganis and Mr. Benoit.

Our athletic teams continue to compete as a member of the South Shore League and the May-Shore Football League.

This year's cross-country team is to be commended for their success in the Catholic Memorial Invitational Meet in Boston where they defeated sixteen Class "E" schools. The winning of this trophy highlighted the season for Coach Agganis and his squad.

The girls athletic teams, coached by Mrs. Lovering, through their enthusiasm and the large number of participants prove the importance of such a program.

"When the trend throughout the country, including all of the surrounding communities is for better recreational programs, it is wise that East Bridgewater should maintain as high a standard as possible. The youth in our community are with us altogether too short a time. We should do whatever possible to make those years pleasant as well as profitable ones." This statement is as true to-day as when written in my report of 1954.

In conclusion, I wish to express my appreciation to all who have assisted in the physical education and athletic programs of the schools.

Respectfully submitted,

VINCENT J. MALEWICZ,
Director of Athletics and
Physical Education.

REPORT OF THE SCHOOL NURSE

Dear Mr. Goldman:

I submit herewith the annual report of the school nurse for the year ending December 31, 1961:

School visits	548
Special attention to	1,636
First aid care to	1,328
School injuries requiring immediate surgical attention	9
Pupils recommended for exclusion	238
Ill and injured pupils transported	88
Pupils referred to the school physician	27
Pupils referred to their family physician	32
Interviews with parents	607
Massachusetts Vision Test (School year 1960-1961)	
Pupils tested	1,500
Pupils retested	124
Old defects — 52	New defects — 54
Pupils wearing glasses	249
Notices sent to parents	81
Pure-Tone Audiometer Test (School year 1960-1961)	
Pupils given the group test	1,504
Pupils given an individual test	205
Old defects — 29	New defects — 8
Notices sent to parents	15
Physical Examinations	
Pupils examined by the school physician	681
Pupils examined by their family physician	52
Pupils referred by the school physician for further diagnosis and treatment	115
Pupils who completed referral by visiting family physician or clinic	73
Registration for Entering Grade One	
Registration list	154
Social histories returned	151
Medical forms returned	150
Family physician	130
School Physician	20
Vaccination certificates	154
Birth certificates	154
Communicable Diseases	
Chickenpox	124
German measles	15
Measles	178
Mumps	17
Scarlet fever	3
Contagious skin diseases	24

Immunization Program

Pupils given complete series (diphtheria, whooping cough, tetanus)	4
Pupils given booster inoculations (diphtheria, tetanus)	70

Special activities

All pupils weighed and measured.
 Classroom inspections made.
 Conferences with principals, teachers, and others regarding defects.
 School nurses meetings attended.
 Workshop for school nurses attended June 26-30, 1961 at Simmons College.

Respectfully submitted,

BARBARA A. LIGHTFOOT, R.N.
 School Nurse.

REPORT OF DENTAL HYGIENIST

Dear Mr. Goldman:

I herewith submit the annual report of the School Dental Department.

The pre-school dental examinations in June 1961 by Dr. Fraser showed the following:

Thirty-eight dental examinations were made
 Eleven children showed no defects
 Twenty-seven needed dental work
 Twenty of the above would go to their family dentist
 Seven intended to wait for the school clinic in September.

In September 1961, 1561 pupils in grades 1-12 were examined by Dr. Fraser, using type four method (dental mirror, explorer with adequate illumination).

These reports were sent home and also recorded in the dental department records.

The results of these examinations were as follows:

Mouths in good condition, grades 1-6 — 317
 Mouths in good condition, grades 7-12 — 236
 821 Prophylaxis were done in grades 1-6 and 8th
 1364 Sodium Fluoride treatments given in grades 2, 5, and 8.

Classes in dental health and tooth care have been given in the elementary grades with educational material provided for class participation.

The Thursday morning dental clinic for first and second grade pupils has been conducted by Dr. Fraser and a monthly report of the work accomplished each week has been given to Mr. Goldman.

The following dental meetings and lectures were attended: Boston Dental Convention in May, New England District Meeting American Dental Hygienist Association in September, South Shore Dental Hygienists Association evening meetings with four lectures in October and November.

May I at this time thank Dr. Fraser and all school personnel for their co-operation with the School Dental Program.

Respectfully submitted,

BLANCHE H. FLINT, R.N., R.D.H.

REPORT OF THE SUPERVISOR OF CAFETERIAS

To the Superintendent of Schools:

I submit herewith my report for the year 1961.

The School Lunch Program is growing with our increased enrollment in the three schools. The Central School and Intermediate School Cafeterias are more handicapped than a year ago from lack of working space, cooking equipment and dining hall space. The Central School is serving over 400 plates most every day and uses approximately 600 cartons of milk each day. The Intermediate School serves about 360 plates most days and uses approximately 475 cartons of milk each day. The High School serves approximately 350 plates most every day and uses approximately 575 cartons of milk daily as well as selling a la carte items.

The School Lunch Program is operated on a non-profit basis. We have a contract with the State School Lunch Program Office in Boston and have to meet certain specifications for the "A" plate for which we receive 9c for every "A" plate that is served to a student and under the Special Milk Program we receive 4c for every carton of milk that is sold in addition to the carton that is sold with the "A" plate. This money comes from Federal and State Funds and there is no reimbursement for plates or milk sold to adults. We also receive surplus commodities which help to defray the cost of the "A" plate. This differs from year to year depending on what surplus commodities the Department of Agriculture sets aside for the School Lunch Program.

To meet the requirements of the National School Lunch Program, the Type "A" lunch must contain as a minimum: **Whole Milk:** ½ pt. fluid whole milk served as a beverage. **Protein-Rich Foods:** 2 ounces of cooked or canned lean meat, poultry, or fish; or 2 ounces of cheese; or 1 egg; or ½ cup of cooked dry beans or peas; or 4 tablespoons of peanut

butter; or an equivalent quantity of any combination of these foods served in the main dish or in the main dish and one other menu item. **Vegetables and Fruits:** a $\frac{3}{4}$ cup serving consisting of 2 or more vegetables or fruits or both in raw or cooked form. A serving of full strength vegetable or fruit juice may be counted to meet not more than $\frac{1}{4}$ cup of this requirement. **Bread:** one slice of whole-grain or enriched bread; or a serving of cornbread, biscuits, rolls, muffins, etc. made of whole-grain or enriched meal or flour. **Butter or Fortified Margarine:** 2 teaspoons of butter or fortified margarine. This may be used as a spread on bread or in the preparation of other foods in the lunch. We are also required to serve fruits and vegetables twice a week containing Vitamin A and every day fruits or vegetables containing Vitamin C.

In September we replaced dishes, silverware and kettles where needed. The woodworking class under Mr. Eastman made us a new laminated worktop table with cabinets for the Central School Cafeteria and a change table for the High School Cafeteria. An adding machine from Government Surplus was purchased for the Cafeteria Department to assist in the bookkeeping.

We took in over \$45,000.00 in sales for the last school year and received \$17,000.00 in subsidy from State and Federal Funds. We opened our books in September with a balance of \$1,998.17, which gave us a good start in replenishing our stock-rooms and other incidentals. We are still charging only 20c in grades one to four and 25c in grades five through twelve. Most towns are charging 30c for the "A" plate.

Mrs. Grace Carl, Manager of the Intermediate School Cafeteria, attended the Annual School Lunch Spring Workshop in Boston last April.

Mrs. Mildred Siscoe, Manager of the High School Cafeteria, and two members of her staff, Mrs. Perkins and Mrs. Bruni, and I attended the School Lunch Section Meeting, October 27th, at the Apponequet Regional High School in East Freetown.

I feel that the Lunch Program had a good year and that the Managers and their staffs should be commended for their cooperation, planning and economy — this all helps to make the program a success.

Respectfully submitted,

BARBARA M. MATTHEWS,
Supervisor of Cafeterias.

ANNUAL TOWN MEETING

March 5, 1962—Monday evening

A legal meeting of the inhabitants of the Town of East Bridgewater, qualified to vote in election and town affairs, was held in the Michael J. McCarthy Auditorium at the East Bridgewater High School, March 5, 1962, Monday evening at 7 p.m. o'clock. Under warrant issued by the Selectmen and dated February 19, 1962.

The meeting was called to order by the Moderator, Forest W. Cousins. The Warrant and Constables return was read with the exception of the articles by Town Clerk, George J. Frahar.

The following action was taken upon the articles in the Warrant:—

Article 1. Voted to accept the reports of the Town Officers and Committees as printed in the Annual Town Report and verbal report.

Article 2. Voted to adopt the same method for the collection of taxes as used in the year 1961.

Article 3. Voted to raise and appropriate the following sums of money for the purposes named, and that pay raises be from January 1, 1962:—

Article 6. Voted to raise and appropriate the sum of \$15,000.00 for the Reserve Fund to be administered during the fiscal year by the Finance Committee, and that to meet said appropriation, a transfer of \$12,000.00 from the Surplus Revenue Account and \$3,000.00 from Overlay Surplus Account is authorized.

Article 7. Voted to authorize the Board of Selectmen to enter into a contract with the Department of Public Works and the County Commissioners for the construction and maintenance of public highways for the ensuing year.

Article 8. Voted to raise and appropriate the sum of \$6,000.00 of which the sum of \$2,000.00 shall be raised in the tax levy of the current year, and is authorized that the balance of \$4,000.00 be transferred from available funds in the Treasury, to be spent under the provisions of Chapter 90 Highway Maintenance in conjunction with funds provided by the State and County, and upon receipt of reimbursement, to be returned to the Treasury.

Article 9. Voted to transfer from Surplus Revenue the sum of \$20,000.00 to be applied against the current year's tax levy.

Article 10. Voted to transfer the sum of \$15,000.00 from Surplus Revenue Account to the Stabilization Fund.

Article 11. Voted to raise and appropriate the sum of \$2,200.00 to purchase a new ambulance type police cruiser, and the Board of Selectmen is authorized to trade in the 1960 cruiser as part of the purchaser price, or take any action relative thereto.

Article 12. Voted to raise and appropriate the sum of \$3,500.00 to purchase 2½ inch and 1½ inch double jacket dacron hose, for use of the Fire Department.

Article 13. Voted to raise and appropriate the sum of \$2,800.00 to purchase a 750 gallon per minute, front mount pump to be installed on the 1959 Dodge Power Wagon now used by the Fire Department.

Article 14. Voted to raise and appropriate the sum of \$4,900.00 to resurface Walnut Street by mix-in-place method.

Article 15. Voted to raise and appropriate the sum of \$8,900.00 to resurface Union Street by mix-in-place method.

Article 16. Voted to raise and appropriate the sum of \$7,000.00 to resurface West Union Street from the Railroad Tracks to the West Bridgewater line, by mix-in-place method.

Article 17. Voted to raise and appropriate the sum of \$12,000.00 to purchase a new Tractor Loader for the Highway Department; to use available funds from the Machinery Rental Account and authorize the Highway Surveyor to trade in the old tractor as part of the purchase price.

Article 18. Voted in the negative to raise and appropriate the sum of \$1,600.00 to build a parking area on the old Town Hall site, build a suitable curb around the Spanish American War Memorial, and construct a black top walk from the parking area to the Town Office Building.

Article 18. Motion lost to reconsider Article 18.

Article 19. Voted to raise and appropriate the sum of \$2,800.00 to install catch basins and drain pipes on various streets as follows, viz:

- Elm Street, 2 catch basins and 300' 10" pipe;
- Pond Street, 2 catch basins and 300' 12" pipe;
- Cross Street, 1 catch basin and 40' 10" pipe;
- Central Street, 1 catch basin and 40' 10" pipe;
- Summer Street, 1 catch basin and 200' 12" pipe.

Article 20. Voted to raise and appropriate the sum of \$2,000.00 to purchase and install two-way radios for use of the Highway Department, providing matching funds are available under the Civil Defense Program.

Vote taken by show of hands. Yes 172 No 127

Article 21. Voted to raise and appropriate the sum of \$4,000.00 to resurface Central Street, from St. John's Church to corner of Chestnut Street and Central Street, with Type I — Dense Type Mix.

Article 22. Voted to raise and appropriate the sum of \$3,400.00 to drain, gravel, oil and seal coat Harvard Street from No. Bedford Street to Highland Street.

Article 23. Voted to choose Mr. Robert A. Leland, Town Director, Plymouth County Aid to Agriculture, as provided in Section 41, Chapter 128, General Laws.

Article 24. Voted to raise and appropriate the sum of \$136.00 to install the following street lights: one light at corner of Cross Street and Ashley Drive; one light on West Street; one light on Plymouth Street; one light on Bridge Street; one light at corner of Prospect Street and Maple Avenue; one light on No. Water Street, one light on Harvard Street, and one light on Batti Avenue.

Article 25. Voted to rescind all previous votes regarding the election of the Tree Warden, and to substitute the following: that the Tree Warden shall be elected for a term of three years beginning with the Annual Election of 1963.

Article 26. Voted to create a special unpaid committee to be known as the Regional Vocational School District Planning Committee, to consist of three members, including one member of the School Committee, all to be appointed by the Moderator, which committee may join with a comparable committee or committees, from one or more neighboring Towns and/or City, to form a Regional Vocational School District Planning Board for the purpose of studying the advisability of establishing a Regional Vocational School District, and making recommendations, relative thereto, pursuant to Chapter 71, of the General Laws, Section 14 to 161 inclusive.

Article 27. To see if the Town will vote to raise and appropriate the sum of \$31,160.00 for the laying of 6,100' of 8" asbestos-cement lined water pipe from the intersection of Thatcher Street and Summer Street along Summer Street to Winter Street, southerly on Winter Street to the Whitman line and Northerly on Winter Street to the Brockton line, said work to be done by contract.

Motion lost to take up Article 27.

Article 28. Voted to raise and appropriate the sum of \$13,800.00 to lay 3,000' of 8" asbestos-cement lined water pipe on North Bedford Street from D. W. Clark Foundry to the Whitman line; said work to be done by contract.

Article 28. Motion lost to reconsider Article 28.

Article 29. Voted to raise and appropriate the sum of \$1,500.00 to clean the water main on Whitman Street from the Carver Cotton Gin Co. to Bedford Street; said work to be done by contract.

Article 30. Voted to raise and appropriate the sum of \$8,125.00 to lay 1,900' of 6" asbestos-cement lined water pipe from the corner of Spring and West Streets, along West Street to Laurel Street; said work to be done by contract.

Article 31. Voted to raise and appropriate the sum of \$10,000.00 for Test Well Investigation for the purpose of locating a ground water source of supply; said work to be done by contract.

Article 32. Voted to authorize the Board of Health to file in behalf of the Town, an application (in form and manner required by the United States, and in conformity with P.L. 560, 83rd Congress) and do whatever else may be required to obtain an advance, not to exceed \$25,000.00 to be made by the United States to the Town of East Bridgewater to defray the cost of engineering investigation, report and preliminary for sewerage and sewage treatment facilities for the Town of East Bridgewater, and authorize the Moderator to appoint a Public Sewerage System Study Committee to consist of nine members to include, one member of the Board of Selectmen, one from the Water Commissioners, one from the Planning Board, one from the Industrial Development Commission, three from the Board of Health, and two other citizens of the Town.

Article 33. Voted in the negative to raise and appropriate the sum of \$1,000.00 to lay out an attractive park on the grounds of the former Town Hall, to grade with loam and seed for grass, to plant necessary trees, evergreens and perennials adjacent to the Spanish War Memorial Plot which is now located at the front of the lot, and wherever else on this Civic Center Plot, that a committee of three to be named by the Town Moderator deem appropriate and necessary, to place at least four seats for the rest and comfort of all citizens of the Town, this committee to work in conjunction with our three Park Commissioners so as to beautify and create a living memorial; said funds to be spent under the jurisdiction of the Park Commissioners.

Article 34. Voted to accept Ashley Drive from the end of the 1956 Selectmen's layout, a distance of 250 ft. for highway purposes.

Article 35. Voted to accept Oakwood Terrace from Winter Street, a distance of 379.57 ft. on the northerly side, and 418.04 ft. on the southerly side, for highway purposes.

Article 36. Voted to accept the way now known as Main Street from the easterly side of Plymouth Street to the water line of Robins Pond, for highway purposes, and that the street as laid out be named "Robins Street".

Article 37. Voted to accept Kingman Circle from the beginning of Batti Avenue to its termination on Batti Avenue, for highway purposes.

Article 38. Voted to accept Hillside Avenue from Pond Street to Old Plymouth Street, for highway purposes.

Article 39. Voted to adopt a Building Code for the Town of East Bridgewater as published in the 1961 Town Report, and raise and appropriate the sum of \$500.00 for the salary and expenses of the Building Inspector.

Vote taken by show of hands. Yes 191 No 106

Article 40. Voted to authorize the Town Moderator to appoint a Committee of not less than five people who are residents of different sections of the town to work with the Board of Health, Board of Selectmen and Planning Board to resolve the dump disposal area problem, and to further authorize the above stated committee and Boards to study a long range proposal of a cooperative plan with other communities in the area, and that such proposals and plans be reported at a future Town Meeting not later than the next Annual Town Meeting with their specific recommendations.

Article 41. Voted to bring in their votes on one ballot for the following Town Officers, viz: Moderator for one year, Town Clerk for one year, one Selectman for three years, Treasurer for one year, one member of the Board of Public Welfare for three years, one Assessor for three years, Auditor for one year, Town Collector for three years, Highway Surveyor for one year, two members of the School Committee for three years, one member of the Board of Health for three years, five constables for three years, one Park Commissioner for three years, two Trustees of the Public Library for three years, Tree Warden for one year, one Water Commissioner for three years, three members of the Planning Board for three years, Question No. 1—Life Tenure for Walter A. Benoit, Chief of Police, and Question No. 2—Tenure for regular or permanent members of the Police Department.

Tellers were sworn to the faithful performance of the duties by Town Clerk, George J. Frahar. Tellers appointed by the Moderator as follows:

Robert Hall, Francis Hall, Arnold Swanson, Elmer Hayes, Ernest Philbrick, Donald Whiting, Robert Alexander.

Voted to adjourn at 9:25 p.m.

A true copy . Attest:

GEORGE J. FRAHAR, Town Clerk

Total budget and articles appropriated for 1962 — \$1,225,717.89.

Voted under Article 39, Building Code for the Town of East Bridgewater as follows:

TOWN OF EAST BRIDGEWATER

Building Code

ARTICLE I — GENERAL PROVISIONS

Section 1. Title. These regulations shall be known and cited as the Building Code of the Town of East Bridgewater, Commonwealth of Massachusetts, and shall be construed to insure safety and the protection of property from accident or fire insofar as they are dependent upon building construction.

Section 2. Conformity Required. No building, structure or part thereof shall hereafter be erected, repaired, moved, added to, demolished, or changed in type of use or occupancy except in conformity with the provisions of this code.

Section 3. Demolition or Removal of Building. Whenever a building or structure is removed or demolished, the lot shall, without delay, be leveled to grade by proper sanitary fill, to cover any cellar or foundation hole and any rubble not removed.

Section 4. Grades. The finished grade line of all dwellings and customary accessory buildings shall not be less than six (6) inches above the highest point in the established grade of adjacent way or ways, nor less than three (3) inches above the established sidewalk line. On Town ways the Selectmen shall furnish such lines and grades, without charge, upon application. In such cases as it may appear impractical to the Building Inspector to require compliance, he may, with the approval of the Board of Selectmen, grant a variance and establish necessary alternate requirements to safeguard proposed structures from damage by waters from adjacent ways.

Section 5. Height of Buildings. No building of frame construction shall exceed forty (40) feet or three (3) stories in height.

Section 6. Light and Ventilation. Every building or structure hereinafter erected or altered to be used for residential purposes shall comply with section 115 of the rules and regulations of the Board of Standards, Department of Public Safety, Commonwealth of Massachusetts.

Section 7. Temporary Toilets. During all alterations or building construction such temporary toilet facilities shall be provided and maintained in such forms and at such times as may be required by the Building Inspector.

Section 8. Alternate Construction. This Code shall be deemed to present minimum requirements for frame type construction. In the case of other types of construction, the Building Inspector shall make such requirements, in addition to these regulations, as may be deemed necessary to the public safety.

Section 9. Laws of Commonwealth. The laws of the Commonwealth of Massachusetts affecting buildings or structures shall be as fully complied with as if herein written. Except as herein otherwise specified, the minimum requirements under this Code shall not be less than the Basic Standards of Building Construction promulgated by the Board of Standards, Department of Public Safety, Commonwealth of Massachusetts.

Section 10. Zoning Laws and other By-Laws. No provision of the zoning law or other legal statute pertaining to the location, use or construction of buildings shall be nullified by the provisions of this code.

Section 11. Definitions. In the interpretation of this code, all words, other than the terms specifically defined under Section 101.0 of the rules and regulations promulgated by the Board of Standards, Department of Public Safety, shall have their ordinarily accepted meanings as implied by the context, or as customarily used in the construction industry.

ARTICLE 2 — EXCEPTIONS

The following shall be excepted from the provisions of this Code:

Section 1. Buildings owned or occupied by the United States, the Commonwealth of Massachusetts, or any County therein.

Section 2. Bridges.

Section 3. Buildings less than ten (10) feet in length or breadth and nine (9) feet in height, measured to the extremes in all diameters, provided that the location of such building conform with the zoning By-Law.

Section 4. Temporary structures erected for storage or offices during construction operations, provided, however, such structures shall be removed at completion of such operations.

Section 5. ORDINARY REPAIRS, replacements, shingling of roofs and such alterations as do not include or require changes in structural members or supports, means of egress, chimney, pier or foundation that would tend to weaken the structure, providing, however, that such repairs, replacements or alterations do not violate any provision of this Code or of the general laws of the Commonwealth.

Section 6. Farm Buildings. The application of this Code to Farm buildings and other non-residential buildings located more than fifty (50) feet from a dwelling, except garages permitted under the Zoning By-law in residential areas, shall be left to the discretion of the Building Inspector.

ARTICLE 3 — INSPECTOR OF BUILDINGS

Section 1. The Board of Selectmen shall annually, following their organizational meeting, appoint a Building Inspector who shall hold office for one year, or until his successor shall take office. His salary or compensation shall be determined by the Board of Selectmen.

Section 2. Qualifications. He shall be a man qualified by thorough training and experience in the supervision or execution of building opera-

tions, and shall not be interested, either directly or indirectly, in any building contract in the town, or have any interest in the furnishing of materials, labor or plans for the construction or alteration of any building other than his own; provided, however, that he may, with the written approval of the Board of Selectmen, have such an interest if he wholly refrain from acting as Inspector in the given case. In each such case, the Board of Selectmen shall appoint a disinterested substitute to act therein with all the powers and duties of the regular Inspector; and the compensation paid to such substitute shall be deducted from the salary or compensation that would otherwise be paid to the regular Building Inspector. He may be removed from office by the Board of Selectmen, for proper cause, after a public hearing of which at least five (5) days written notice has been given to all interested parties.

Section 3. Assistant Inspectors. When necessary, the Board of Selectmen may appoint such Assistant Inspectors as they and the Building Inspector may deem necessary. No person shall be employed who is not qualified by experience or training to fulfill the duties required by the work involved. The compensation of Assistant Inspectors shall be regulated by the Board of Selectmen.

ARTICLE 4 — DUTIES OF THE BUILDING INSPECTOR

Section 1. The Building Inspector shall be charged with the survey and inspection of all buildings and the enforcement of all ordinances relating to the erection, alteration, repair, removal, demolition, or the safety of buildings within the limits of East Bridgewater. He shall pass on questions relating to the strength of structures and materials. He shall examine all plans and applications for permits, inspect all buildings or structures under application to be removed, razed, enlarged, altered or built upon; making his recommendations regarding same, in writing, to the Board of Selectmen, who shall constitute the Issuing Authority. The records of the Building Inspector and the Issuing Authority shall be available to and open to public inspection.

Section 2. Inspection. He shall inspect all buildings in the course of erection, alteration or repair as often as necessary and for this purpose shall have the right of entry at reasonable hours. He shall require that all workmanship and all building materials be of good quality, and that the types and methods of construction shall be in accordance with generally accepted standards of engineering practise and not inconsistent with law.

Section 3. Violations. He shall keep a record of any violation of this Code, and shall give immediate written notice of such violation to the party responsible for the proper execution of the work. He shall order and compel the suspension of any work being done in violation of the provisions of this Code and no person shall continue the work, or use any forbidden material in or about any building after the Building Inspector has forbidden in writing the continuance of such work, or the use of said material. Any material used in the erection of the building in violation of the Code must be taken down and replaced with material as called for

by this Code. Such removal and replacement must be approved by the Building Inspector before any additional work may be started.

Section 4. Dangerous Structures. He shall report to the Department of Public Safety any violation of the regulations of the Commonwealth of Massachusetts in relation to the construction of buildings, and perform such other duties as may be incumbent upon him under the laws of the State. He shall examine all buildings reported dangerous or damaged by fire or accident, and if it appears to him that such structures would be unsafe or dangerous to life or limb in the case of fire, or otherwise, it shall be deemed dangerous within the meaning thereof, and the Building Inspector shall affix in a conspicuous place upon its exterior walls a notice of its dangerous condition, which shall not be removed without authority from him. (G.L. Chap. 143, Section 6, et seq.). He shall promptly notify the owner, owners or agent of said building or structure to put such unsafe building, or structure, or portion thereof, in a safe condition or cause same to be razed. The Building Inspector, with the approval of the Board of Selectmen, may order any building, which is in his opinion unsafe, or not provided with sufficient means of egress in case of fire, to be vacated forthwith.

Section 5. No oversight or neglect of duty on the part of the Building Inspector shall legalize the erection, construction, alteration or repair of any building in a manner not in conformity with the provisions of this Code, or any State law or regulation.

Section 6. Relief from Personal Responsibility. The building official, officer or employee charged with the enforcement of this Code shall not be personally liable while acting for the municipality, and he is hereby relieved from all personal liability for any damage that may accrue to persons or property as a result of any act required or permitted in the discharge of his official duties.

Section 7. Records and Reports. The Building Inspector shall keep careful records of his department, making such reports to the Board of Selectmen as they require, and shall make an annual report of his department, to be published in the Annual Town Report.

ARTICLE 5 — REQUIREMENTS FOR PERMITS

Section 1. Before erecting, altering, moving, demolishing, adding to or making any changes in use or type of occupancy of any building or structure, or any work incidental thereto, including excavation for a cellar, basement or foundation, the owner, lessee or representative of either, except for ordinary repairs as heretofore defined shall file with the Building Inspector, on application blanks to be furnished by him, a detailed description of the location, purpose and construction of the proposed work and the costs thereof, with full and complete copies of plans of such work, together with such structural detail and plot plan as the Building Inspector may require. Such plans and detailed drawings shall be furnished in duplicate, and if such plans are approved and endorsed by the Issuing Authority, one set shall be kept at the building during the

progress of the work and open to the inspection of the Building Inspector. The other shall be kept on file in the office of the Issuing Authority.

Section 2. Permits for Portion. Nothing in this section shall be construed to prevent the Issuing Authority from granting approval of the erection of any part of a building or structure, where the general plans and detailed descriptions have been filed for same, before the entire detailed plans have been submitted and/or approved. Such approval in part shall not be construed to guarantee final approval, and the holder of such permit in part shall proceed at his own risk.

Section 3. Permit to Enclose. No building shall be lathed, plastered or sheathed, nor shall any wiring, plumbing, heating pipes or ducts, chimneys, fireplaces or fire stops be enclosed until the Building, Wiring or Plumbing Inspector, as the work may require, has been notified by the builder in charge of construction, or the owner of the premise, that the building is ready for inspection. The Inspector, upon receipt of such notice, shall, within 48 hours, inspect the premise, but shall not give final approval of any building until all requirements of this Code have been fully complied with. No building shall be occupied until accepted by the Building Inspector. The Building Inspector shall also require that all permanent piers or columns needed under girders, trimmers, etc., shall be in place before the building is lathed and plastered or otherwise enclosed.

Section 4. Time for Approval. It shall be the duty of the Issuing Authority to grant or refuse any requested permit within fifteen (15) days of presentation. If the Issuing Authority fails to grant or refuse said permit within fifteen days after presentation, the person making such application therefor may appeal to the Board of Appeals, as hereinafter provided, as if said permit had been expressly refused.

Section 5. Time Limit of Permits. Permits shall become void one year after date of issue unless construction thereunder shall have commenced and continued with reasonable diligence.

Section 6. Perjury. This application shall be made under the penalty of perjury, and must conform with all Zoning, Building and Board of Health By-Laws.

Section 7. Fees. For each permit issued, there shall be collected by the Issuing Authority, to be paid into the Town Treasury, a fee (as established by the Board of Selectmen).

ARTICLE 6 — GENERAL BUILDING REQUIREMENTS

Section 1. It is not the intent of this Code to prohibit new or unconventional methods of construction which are not detrimental to the public safety, and in keeping with the general appearance of other buildings in a locality. Such alternate construction shall comply with all provisions of Section 105 of the "Basic Principles of Building Construction" promulgated by the Board of Standards, Department of Public Safety, Commonwealth of Massachusetts. All dwellings shall have at least two (2) outside doors or egresses located as far apart as practicable.

Section 2. Excavation. All excavations for buildings shall be properly guarded and protected so as to prevent same from becoming dangerous to life or limb and shall be sheath-piled, by the persons causing the excavation to be made, when necessary to prevent the adjoining earth from caving in. In cases where an excavation is being made which affects adjoining structures, the owner shall, at his expense, preserve such structures in as safe a condition as they were before the excavation was commenced and shall, when necessary, underpin and support the same by proper foundations.

Section 3. Foundations.

A. No dwelling and its customary accessory buildings shall hereafter be erected, moved or placed upon any lot within the Town without continuous foundation walls on all sides.

B. All foundations shall extend at least three feet and six inches (3 ft. 6 in.) below any adjoining surfaces exposed to frost unless they rest on solid ledge. They shall extend in all cases to solid soil.

C. No foundation or footing shall be constructed on frozen ground, or shall be laid when the temperature is below twenty-nine degrees (29 deg. f), except that precaution satisfactory to the Building Inspector to prevent settlement or failure are taken.

D. With the exception of footings, no concrete foundation shall be poured without the use of forms for all sides. Excavations for foundation shall be made at least six to eight inches (6 in. to 8 in.) beyond the outside face of the walls and no backfilling shall be done until approved by the Building Inspector. All foundation walls other than poured concrete shall rest on footings not less than eight inches (8 in.) thick and be at least eight inches (8 in.) wider than said foundation wall. Poured concrete wall less than ten inches (10 in.) thick shall require footings.

E. Supports for girders in basement of any building shall be lally columns, brick, masonry, or concrete piers approved by the Building Inspector, and shall rest on footings not less than twenty inches (20 in.) square and twelve inches (12 in.) thick. (Wood posts shall not be allowed.)

Section 4. A. Soil Tests. If the Building Inspector is in doubt as to the safe sustaining power of the soil upon which a building or structure is to be erected, or it is desired to exceed the presumptive capacity, the Building Inspector may direct that borings or tests be made, by and at the expense of the owner of the proposed building or structure, to determine the sustaining power of the soil. Whenever such a test is made the Building Inspector shall be notified so that he may be present in person or by representative. A complete record of the test shall be filed with the Building Inspector.

B. Filled Ground. No foundation of a building or structure shall be placed on filled ground until the Building Inspector has fixed, by test or inspection, the safe sustaining power that may be assumed.

C. Bearing Value. When no tests are required the area of footings shall be proportioned so that the load per square foot on the respective soils shall not exceed those given in the following table:

Presumptive Surface Bearing Values in Tons per Sq. Ft.

Hard Sound Rock	60
Medium Hard Rock	40
Soft or Broken Bed Rock	8
Compacted Sand and Gravel	6
Compacted Course Sand and Hard Dry Clay	4
Loose Course Sand (Confined)	3
Loose Medium Sand (Confined)	2
Firm or Stiff Clay	1.5
Soft Broken Shale or Soft Clay	1

D. Wherever the safe sustaining power of the soil upon which a building is to be erected does not conform to the requirements of this Code, the Building Inspector shall require the proper foundation, of a type satisfactory to him and sufficient to support the proposed building.

Section 5. A. Foundation walls of detached garages, or similar accessory buildings or structures, of six hundred fifty (650) square feet or less in area and not over one story high need not be carried more than one (1) foot below an adjoining surface exposed to freezing if the underlying soil to a depth of at least four (4) feet beneath the surface is solid soil.

B. Foundation and underpinning walls for one and one and one-half story dwellings shall be at least eight (8) inches thick if of poured concrete or brick, concrete or cinder blocks when not over six and one-half (6½) feet below finished grade. When stone masonry is used the thickness shall be twenty (20) inches up to finished grades, and not less than twelve (12) inches from finished grade to the sill. The top of all foundation walls shall extend at least eight (8) inches above the finished grade.

C. Concrete Block Construction. Where concrete or cinder blocks are used, all joints must be thoroughly filled and joined outside as well as inside. Mortar for all masonry shall not be poorer than one part Portland cement, one part lime putty and three (3) parts sand; for footings and poured concrete no poorer than one part Portland cement, three (3) parts sand and five (5) parts coarse aggregate not exceeding one and one-half (1½) inches. All material shall meet the Building Inspector's approval. It shall be thoroughly mixed and properly placed and tamped.

Section 6. Lally columns or piers supporting building shall not be more than eight (8) feet apart on centers where a 6 in. x 8 in. girder is used; seven (7) feet where a 6 in. x 6 in. girder is used and six (6) feet apart where a 4 in. x 6 in. girder is used.

Section 7. A. Crawl Spaces. All loam under dwellings must be removed and at least twenty (20) inches of space left between the remaining earth and the under side of the first floor timbers. Under all buildings with continuous foundations there must be at least two (2) screened openings for ventilation of not less than two hundred and forty (240) square inches per opening.

B. Porch Foundations. All piazzas, porches and bay windows supported from the ground shall have suitable foundations of stone, brick or concrete, or be supported by iron columns or masonry piers built upon a solid bottom not less than three feet six inches (3 ft. 6 in.) below the grade. If columns are used they shall rest on a footing of stone or concrete not less than twelve (12) inches square and eight (8) inches thick.

Section 8. A. Chimneys, Flues and Fireplaces. Every chimney shall rest on a proper footing of approved masonry. Concrete footings shall be at least six (6) inches wider than the chimney on all sides, and shall be at least twelve (12) inches thick. All chimneys shall be built up of brick or other incombustible material, laid up with the best lime or cement mortar.

B. All brick chimneys, except chimneys eight (8) inches or more thick, shall have terra-cotta flue linings starting not less than eight (8) inches below the inlet of the smokepipe or the throat of a fireplace, except as provided in Section 113.34 of the Basic Principles of Building Construction as promulgated by the Board of Standards, Dept. of Public Safety, Commonwealth of Massachusetts, and shall extend to the top of the chimney. The ends of such lining pipes shall be made to fit close together, the joints shall be filled with cement mortar and the lining shall be built in as the flue or flues are carried up.

Every chimney shall have a clean-out door at the base of the chimney.

C. The sectional area of each chimney must be at least equal to the combined area of all smoke flues entering it. Every chimney shall be topped out or capped with brick, terra-cotta, stone, iron or cement. Every chimney shall extend at least two (2) feet above the highest point at which it comes in contact with a roof of the building and at least two feet higher than any roof surface within ten (10) feet in a horizontal line.

If any chimney, flue or heating apparatus shall, in the opinion of the Building Inspector, be unsafe, he shall at once notify in writing the owner, who, upon receiving said notice, shall make same safe to the satisfaction of the Building Inspector.

D. The jambs and backs of all fireplaces shall be of masonry, not less than eight (8) inches thick (including both the rough and the finished work, the latter being of firebrick) if of brick, and not less than twelve (12) inches if wholly or partly of stone.

Brickwork or stonework over fireplace or similar openings shall be supported by proper iron bars or by brick or stone arches. All portions of chimneys or fireplaces so constructed as to receive a lateral thrust, not taken care of by iron members thoroughly anchored to the masonry, shall be at least eight (8) inches thick.

E. No fireplace flue shall be less than eight inches by twelve inches (8 in. x 12 in.), and in all cases the area of the flue shall be at least 1/10 the area of the fireplace opening. All fireplaces shall have proper dampers.

The interior of all fireplace throats shall be thoroughly covered with a coat of cement mortar, carried up to a solid connection with the flue

lining, and every rake in the chimney shall be plastered with a good thick coat of cement mortar on both the outside and the inside.

All hearths shall be laid on masonry trimmer arches, or on bars of iron supporting a proper bed of masonry.

Section 9. Heating and Ventilating.

All heating, ventilating, air conditioning and blower and exhaust systems, hereinafter installed, or altered, shall conform to the rules and regulations of the Board of Standards, Dept. of Public Safety, governing same, and of the National Board of Fire Underwriters.

Section 10. Oil and Gas Burning Equipment.

No one shall install or materially alter oil or gas burning equipment without first making application for and obtaining a permit. No one shall store fuel oil or liquid petroleum gas without first obtaining a permit.

The installation of all oil and gas burning equipment must conform with the requirements of the Board of Standards, Dept. of Public Safety, and be approved by the Chief of the Fire Dept. and/or the Building Inspector.

ARTICLE 7

Section 1. Wood Frame Construction.

Exterior walls and interior partitions of wood frame structures which are constructed of either balloon, braced or platform types shall consist of sills, posts, girts and ribbon strips to develop the required strength and rigidity in compliance with the requirements of this section and as specified in Tables 12 and 13 of the regulations of the Board of Standards, Department of Public Safety, Commonwealth of Massachusetts. The frame shall be braced at all angles or adequately sheathed, and the floor, attic and roof framing of wood joists, beams and rafters shall be secured by nailing, or by any other approved connecting devices of equal strength. The exterior walls shall be designed and constructed to resist a longitudinal, horizontal force of one hundred (100) pounds per lineal foot acting along the upper edge with a maximum horizontal displacement of one-eighth ($\frac{1}{8}$ th) inches.

Section 2. Grades and Sizes.

All lumber and timber used in load bearing members shall be sound, free from rot and large or loose knots, and damaging diagonal or spiral grain; and shall be at least equal in quality to the following commercial grades: studs, posts, planks, beams, joists and rafters, construction and standard grades; and girders and timbers construction grade. All lumber sizes herein specified are nominal sizes. Second hand structural materials shall not be used without the approval of the Building Inspector.

Section 3. Floor Joists and Rafters.

For ordinary conditions of use and live loads, the spans of joist and beams shall be limited by Tables 1 and 2, section 39 of this code.

Section 4. Bridging.

In all floor, attic, and flat roof joist framing there shall be not less than one line of bridging for each eight (8) feet span, and the bridging shall be of not less than one by three (1 x 3) inch lumber, double-nailed at each end, or of equivalent metal lateral bracing of equal rigidity secured at the intersection. A line of bridging shall also be required to support where adequate lateral stiffness is not otherwise provided.

Section 5. Cutting and Notching.

In girders, beams or joists, cuts and bore holes shall not be deeper than one-fifth ($\frac{1}{5}$ th) the beam or girder depth or more than two (2) inches in diameter; and shall not be located nearer to the end of the span than (3) times the beam depth not within the center third of the span, unless reinforced to meet stress calculations. In studs of bearing walls or partitions, notches made to receive piping or duct work or for other fabrication purposes shall be cut not more than one-third ($\frac{1}{3}$ rd) the depth of the stud or the required studs shall be doubled or otherwise reinforced.

Section 6. Connections and Fastenings.

All structural members shall be connected and fastened at their junction with connectors, bolts, lag screws, spikes, straps or other approved devices.

Section 7. Plates and Ribbon or Ledger Boards.

Plates which are used in exterior walls to support joists or rafters shall be double, of the same width as the supporting studs and each not less than two (2) inches thick. In non-bearing partitions, at least one (1) top and bottom plate shall be provided of the same width as the studs, and the partitions shall be firestopped as required in section 35 of this code. Ribbon or ledger-boards which support floor or roof joists shall be not less than one by six (1 x 6) inches in sizes and shall be cut into the studs and nailed. Joists or rafters supported on ribbon boards shall frame in adjacent to the studs and shall be nailed thereto as required by the nailing schedule.

Section 8. Roof Rafters.

Roof rafters shall be vertically supported at the ridge or shall be adequately trussed or tied together with not less than one by six (1 x 6) inch collar beams spaced not less than five (5) feet on centers, and each rafter shall be fastened to the wall plate or wall studs.

Section 9. Multiple Joists and Rafters.

Floor joists under bearing partitions shall be doubled or formed of built-up sections or may be replaced by a solid section of adequate strength to support the load. Dormer windows and other openings in roofs shall be framed with double rafters and headers. Valley rafters on spans over twelve (12) feet measured horizontally shall be doubled, or increased to size required by the Building Inspector.

Section 10. Bearing and Anchorage on Girders.

Floor beams framing into girders shall be anchored, tied or nailed to secure continuity. The ends of all beams or joists resting on girders

shall bear not less than four (4) inches or shall be supported in approved metal stirrups or on wood clips or wooden strips not less than two by three (2 x 3) inches in size. Beams or joists framing from opposite sides shall either lap not less than three (3) inches and shall be securely bolted or spiked together or, when framing end to end, all joists, beams and girders shall be secured together by approved ties, straps or dogs.

Section 11. Joints in Girders.

The joints of solid or built-up beams or girders shall be made over column or pier supports when constructed as simple spans. When constructed of multiple joists as continuous girders, the joints shall be broken in adjoining joists over pier or column supports, and shall be securely nailed or otherwise bolted together in an approved manner.

Section 12. A. Spacing of Verticle Studs. Studding for exterior walls and bearing partitions shall not be less than two by four (2 x 4) inches spaced not over sixteen (16) inches on centers with double plates at the top, each at least two (2) inches thick and of the same width as the stud. The studs shall either rest on a sole plate or run down between the floor timbers and rest on the top plate or girder below. Studs for non-bearing partitions shall not be less than two by three (2 x 3) inches, spaced not over sixteen (16) inches on centers and shall have at least one two (2) inch plate on top and one two (2) inch sole plate on the bottom of the same width as the stud.

B. Floor joists shall not be less than two (2) inches in thickness nor spaced over twenty-four (24) inches on centers.

C. Rafters shall not be less than two (2) inches in thickness nor spaced over twenty-four (24) inches on centers.

D. Deflection shall be limited to $1/360$ of the span.

E. Sills shall not be less than four by six (4 x 6) inches.

F. Ceiling joist shall not be less than two by six (2 x 6) inches.

Section 14. Headers and Trimmers.

All headers more than four (4) feet in length and their trimmers shall be doubled. Headers with four (4) or more tail beams or six (6) feet or more in length shall be supported on approved metal joist hangers. When nailing is permitted, the tail and header beams shall be securely nailed. All tail beams or joists which are twelve (12) feet or more in length shall be hung in approved joist or beam hangers. All trimmer beams supported on walls or partitions of frame construction shall be spiked together.

Section 16. Walls, Partitions and Posts.

The load-bearing value of isolated posts or struts shall be limited by Table 12 and framed walls and partitions by Table 13 of the regulations of the Board of Standards, Dept. of Public Safety, Commonwealth of Massachusetts.

Section 17. Multiple Stories.

When the frame is more than one story in height and studs or posts are not continuous from sill to roof, the members shall be secured together

with approved clips, splices or other connections to insure continuity and a well-integrated structure. Sheet metal clamps, ties, or clips shall be formed of galvanized steel or other corrosion-resistive materials equivalent to No. 20 U. S. gage for two (2) inch framing members and not less than No. 18 U. S. gage in thickness for three (3) inch members. For four (4) inch and larger members, column splices and beam and girder supports shall be effected with approved post caps of metal for reinforced concrete or with through-bolted corbel blocks or side bolsters.

Section 18. Bracing.

All corner posts shall be the equivalent of not less than three (3) two by four (2 x 4) inch studs braced by not less than one (1) one by four (1 x 4) inch diagonal braces cut into the studs or by equivalent construction. The diagonal bracing may be omitted when approved diagonal sheathing or plywood is provided in accordance with Section 20 of this code.

Section 19. Framing Over Opening.

Lintels over openings in bearing walls or partitions of one and two family dwellings shall consist of double joists not less than herein specified or trussed construction bearing on jack studs, or other approved construction affording adequate strength:

Spans less than four (4) feet	Two 2 x 4
Spans four (4) feet to six (6) feet	Two 2 x 6
Spans six (6) feet to eight (8) feet	Two 2 x 8
Spans eight (8) feet to ten (10) feet	Two 2 x 10

Section 20. Wall Sheathing and Roof Decking.

Exterior walls shall be sheathed with plywood or diagonal wood sheathing, or shall be otherwise braced with approved equivalent construction to furnish rigidity as required in Section 1 and Section 18 of this code.

Section 21. Types of Sheathing.

Except when approved stucco construction is used with a wrapping of No. 18 gage wire attached horizontally on the studs at six (6) inch intervals, the sheathing of all exterior frame walls shall consist of one of

the following materials or any other approved material of equal strength and durability approved by the Building Inspector.

- 1-inch reinforced cement mortar
- 1-inch wood sheathing
- ½-inch gypsum boards
- ½-inch plywood
- ½-inch fibre boards
- No. 26 gage non-corrosive metal siding.

Section 22. Nailing.

Wood sheathing boards shall be securely nailed to each stud and to the top and bottom plates and sills.

Section 23. Types of Roof Decking.

Roof deck sheathing shall consist of not less than one (1) inch boards or approved plywood of the thickness specified herein or other approved materials of equivalent strength and rigidity. If open deck sheathing is used on pitched roofs, it shall consist of not less than one by four (1 x 4) roofers spaced not more than six (6) inches on centers.

Section 24. Roof Covering.

The roofs of all buildings located less than fifty (50) feet apart shall be covered with fire resistant material. In repairing the roof of any building now covered with non-fire resistant material, if more than twenty-five percent is recovered in any one year it shall be done with fire resistant material as specified for new construction.

Section 25. Framing of Openings.

All window and door openings shall have double studs for the full height of the opening at jambs, with double headers or trussed construction over the opening as provided in Section 19 of this code.

Section 26. Exterior Weatherboarding and Veneers.

All exterior wall coverings shall be of approved moisture and weather-resisting materials of sufficient stiffness and properly attached to resist rain and wind.

Section 27. Types of Weather Wall Coverings.

The following materials shall be accepted as approved weather coverings of the nominal thickness specified:

Stucco or Exterior Plaster	$\frac{3}{4}$ inches
Wood Siding	$\frac{1}{2}$ inches
Protected Combustible Siding	$\frac{1}{2}$ inches
Wood Shingles	$\frac{3}{8}$ inches
Exterior Plywood	$\frac{5}{8}$ inches
Asbestos Shingles	$\frac{5}{8}$ inches
Asbestos Cement Boards	$\frac{1}{8}$ inches
Brick Masonry Veneers	4 inches
Stone Veneers	2 inches
Vitreous Tile	2 inches
Aluminum Clapboard Siding	0.025 inches
Preformed Metal Siding	26 gage

Section 28. Nailing Weather Boarding, Wall and Roof Coverings.

All weather boarding and wall and roof coverings shall be securely nailed with aluminum, copper, zinc, zinc coated or other approved corrosion-resistive nails into the supporting structure in accordance with the recommended nailing schedule or the manufacturer's standards. Shingles and other weather coverings attached directly to sheathing not less than one (1) inch thick shall be secured with barbed or other mechanically bonding nails of an approved type; or by common nails on furring strips attached to the studs.

Section 29. Exterior Stucco.

When applied over sheathing, an approved covering of fifteen (15) pound waterproof felt or paper shall first be attached to the sheathing. Reinforcement shall consist of expanded metal fabric weighing not less than one and eight tenths (1.8) pounds per square yard or wire fabric of not less than No. 16 U. S. gage with openings not more than two (2) inches in largest dimension nor less than No. 18 gage with openings not more than one (1) inch in greatest dimension. When applied without solid sheathing, expanded metal fabric shall weigh not less than 3.4 (three and four tenths) pounds per square yard and wire fabric shall be not less than No. 16 U. S. gage with openings not more than two (2) inches in largest dimension. All reinforcement shall be zinc coated or shall be manufactured of approved corrosion-resistive metals. In back-plastered stucco with the stucco extending not less than five-eighths ($\frac{5}{8}$ ths) inches back between the studs, the waterproof paper backing may be omitted. All metal reinforcement shall be furred away from sheathing or building paper not less than one-fourth ($\frac{1}{4}$ th) inches with self-furring lathe, metal strips or approved furring nails. Approved paper-backed wire fabric may be used consisting of welded fabric of not less than No. 16 gage galvanized wire with a two by two (2 x 2) inch mesh and stiffening ribs not more than five (5) inches on centers, to which is attached a double layer of approved fibrous, waterproof backing.

Section 30. Masonry Veneers.

Veneers of unit masonry on wood framing shall not be less than four (4) inches in thickness securely attached to the wood frame with corrosive-resistive anchors at vertical intervals of not more than sixteen (16) inches and horizontal intervals of not more than twenty (20) inches, except when bonded to a one (1) inch reinforced cement mortar base. Veneers of natural or artificial stone shall not be less than two (2) inches in thickness. Fifteen (15) pound waterproof felt or paper shall be attached securely to the frame back of the veneer, and flashing as required in Section 33 of this code shall be provided where necessary to prevent moisture penetration behind the veneers. The average height of four-inch brick veneer construction shall be not more than twenty-five (25) feet above its supports on the foundation wall or on corbels of masonry or steel and two (2) inch stone veneers shall not exceed a height of eighteen (18) feet. The corbel shall project not more than two (2) inches from the face of the foundation wall as specified in Section 110.6 of the Basic

Principles of Building Construction as promulgated by the Board of Standards, Dept. of Public Safety, Commonwealth of Massachusetts.

Section 31. Metal Veneers.

Veneers of metal shall be fabricated from approved corrosion-resistive materials or shall be protected front and back with porcelain enamel or shall be enamelled or otherwise treated to render the metal resistant to corrosion. Such veneers shall not be less than No. 26 U. S. gage in thickness mounted on wood or metal furring strips or approved sheathing on the frame construction.

Section 32. Plywood Construction.

All plywood shall be identified as to veneer-grade and glue-type by the manufacturer's identification marks. Plywood for exterior use shall be of the exterior waterproof type.

Section 33. Flashing.

All exterior openings shall be constructed with approved corrosion-resistive flashings at top and sides or by other approved method to be leakproof. Similar flashings shall be installed at the intersection of chimneys or other masonry construction with frame or stucco walls. Such flashing shall be provided with projecting lips on both sides under stucco copings; under and at the ends of masonry, wood or metal copings and sills; at wall and roof intersections; under built-in gutters; at junction of chimneys and roofs and around all roof openings.

Section 34. Moisture Condensation and Water Leakage.

To secure weather-tightness and moisture resistance in framed walls and other hollow unoccupied spaces, the exterior wall shall be faced with approved weather-resisting covering as specified in Section 27 of this code, and when required by the Building Inspector interior non-corrodible vapor-tight barriers shall be installed at or near the veneer faces of walls; or other means shall be provided to avoid water leakage and moisture condensation.

Interior Surfaces.

In all habitable spaces, interior exposed wall and partition surfaces shall consist of materials which are not more combustible than wood and which are capable of resisting a horizontal force of not less than five (5) pounds per square foot.

Section 35. Fire Stopping.

Fire stoppings shall be designed and installed to close all concealed draft openings and to form effective fire barriers against the spread of fire in all sub-divisions of any one story and between all stories of the building; and all open spaces in the structural frame, including among others the location herein specified, and all other openings that would permit the free travel of flame shall be effectively fire stopped.

In wooden buildings, the spaces between the studs of bearing partitions in the first story; between the studs at each exterior wall in the first story; and between the studs of such exterior walls above the first story as carry the ends of floor joists, shall severally be stopped by solid filling brought up to at least the level of the finished floor; also all spaces between floor joists directly above a bearing partition, in whatever story constructed, shall be stopped with such filling—in all cases so as to check effectively any draught from one story to another, or from the horizontal spaces between floor joists to the vertical spaces in walls and partitions.

When such spaces are required to be ventilated as prescribed in Sections 111.8 and 115.3 of the regulations of the Board of Standards, Dept. of Public Safety, Commonwealth of Massachusetts, the details of firestopping shall be approved by the Building Inspector.

Furred Spaces: All furred spaces or frame walls and studded-off pieces of masonry walls shall be firestopped at maximum intervals of eight (8) feet both horizontally and vertically.

Sliding Doors: Where sliding doors are pocketed in partitions, such pockets shall be completely fire stopped on all sides.

Chimneys: The spaces around chimneys, inside of studding, or furring making air ducts are to be thoroughly fire-stopped with suitable incombustible materials.

No insulation or insulating material shall be installed before fire-stopping has been approved by the inspector.

Section 36. Protection of Woodwork.

No smoke pipe shall be projected through any external wall, window or roof.

No smoke pipe shall pass through any wooden partition without a safety thimble of fireproof materials of the thickness of the partition.

No metal pipe used to convey heated air shall be placed within one inch of any woodwork unless it is enclosed in a metal pipe with air space between, or otherwise shielded with metal or asbestos, in a manner satisfactory to the inspector.

Ducts for warm air shall be constructed entirely of metal and no cold air ducts shall be carried from a garage to a dwelling.

Section 37. Attic Access.

When not provided with stairways, all attic spaces shall be provided with means of access by scuttle. Access trapdoors shall not be less than two (2) feet by two (2) feet in area.

Section 38. New Materials and Methods.

All new materials, methods of construction, devices and equipment, may be approved by the building official for use in buildings, when they are proved to be the equal of those specifically required by this code, or he shall adopt the recommendations promulgated by the Board of Standards in the Massachusetts Department of Public Safety.

Section 39, Table 1

MAXIMUM SPANS FOR FLOOR JOISTS

Assumed live load, 40 pounder per square foot; dead load,
10 pounds per square foot.

Section 39, Table 2

MAXIMUM CLEAR SPANS OF RAFTERS

For Wood and Asphalt Shingle Roofs

(Rafters for slate, tile, or asbestos-cement (rigid) shingle roofs shall be of sufficient size to carry the load)

Assumed Total Live and Dead Load—40 lbs. per sq. ft.

(Clear span shall mean the distance measured horizontally from plate to a point directly beneath the ridge. The actual rafter length will depend on the roof slope and must be determined accordingly)

For Roof with a Minimum Slope of 5 to 12

Section 40 Right of Appeal.

A. If the owner of any building or structure, or an applicant for a permit to erect or alter a building or structure whose application has been refused, or a person dissatisfied with the decision of the building inspector, or matter left to his approval or discretion may, within ten (10) days from date of such refusal, order, or decision, file an application for a hearing with the Town Clerk and the matter shall be referred to the Board of Appeals, who shall hold a Public Hearing of which, due notice shall be given, whereupon all parties shall be heard.

B. The decision of the Board of Appeals shall be in writing and shall require the assent of a majority of the members of the Board and shall be filed in the office of the Town Clerk.

C. All appeals to the Board of Appeals shall be accompanied by a deposit of \$10.00 to cover cost of advertising such hearing.

D. The Board of Appeals under this By-Law shall be the existing Board of Appeals, heretofore established and appointed by the Board of Selectmen.

Section 41. Penalty for Violation.

Whosoever violates or causes the violation of any provisions of this Code shall be subject to a fine, for each violation, of not less than twenty dollars (\$20.00) nor more than one hundred dollars (\$100.00).

Section 42. Effective Date.

This Code shall take effect upon adoption by the town, the approval of the Attorney-General of the Commonwealth of Massachusetts and publication as provided by law.

TOWN ELECTION

March 10, 1962

Saturday:

A legal meeting of the Town of East Bridgewater was held at the East Bridgewater High School Cafeteria on Saturday, March 10, 1962, under the Warrant issued by the Selectmen and dated February 19, 1962, to bring in their votes for the election of Town Officers.

Specimen ballots, penalty and instruction cards were posted, all requirements of the law were observed. The polls were declared open by the Moderator, Forest W. Cousins at 10:00 a.m.

Two sealed cases containing ballots were delivered to the Ballot Clerk, Margaret M. McCarthy, and receipts for same obtained. Ballot boxes were inspected by the checkers, warden and constable and found to be empty and to register zero. The keys to the Ballot Boxes were turned over to the Constable, John B. Cormier.

The following were sworn to the faithful performance of their duty by the Town Clerk, George J. Frahar:

Warden, Evelyn M. Pittsley

Constable, John B. Cormier

Master Sheets: Ralph H. Keith and Philip McNally, Republicans and Edward Matthews and Leonard Perce, Democrats.

Wallin, 162 West Street, East Bridgewater; Philip Bailey, 343 Harvard Street, East Bridgewater; Robert Lundberg, 1904 Washington Street, East Bridgewater; Herbert J. Butler, 622 Plymouth Street, East Bridgewater; Michael J. Peppe, 633 Elm Street, East Bridgewater.

The following were appointed by the Moderator under Article 32 for the Public Sewerage System Study Committee:

Putnam Steele, Donald B. Bannerman, Robert H. Hall, Board of Health members. Arthur Ash, one member of Water Commissioners. Elmer Hayes, one member of the Planning Board. Richard S. Mansfield, one member of Industrial Development Commission. William E. Velsor, 102 Pleasant Street; Robert P. Garron, 80 Hobart Street, two other citizens.

SPECIAL TOWN MEETING

June 25, 1962

A legal meeting was held in the Michael J. McCarthy Auditorium of the East Bridgewater High School on June 25, 1962 at 8 p.m. under a warrant issued by the Selectmen and dated June 15, 1962. The meeting was called to order by the Moderator, Phillip E. Carey. The warrant was read with the exception of the articles by Town Clerk, George J. Frahar. The following action was taken upon the articles in the warrant:—

Article 1. Voted to raise and appropriate the sum of \$200.00 for expenses of the Public Sewerage System Study Committee appointed under Article No. 32 at the Annual Town Meeting on March 5, 1962, and a transfer of \$200.00 from available funds is authorized.

Article 2. Voted to raise and appropriate the sum of \$200.00 for the Committee appointed under Article No. 40 at the Annual Town Meeting on March 5, 1962, to be used in making their survey of the Dump Problem, and a transfer of \$200.00 from available funds in the Treasury is authorized.

Article 3. Voted to raise and appropriate the sum of \$1,500.00 for the hire and maintenance of the disposal area on Bridge Street, said sum to be transferred from available funds and that the Board of Health be authorized to enter into a contract with H. Lillian Resnick for the use, maintenance and care of the disposal area on Bridge Street for a term not to exceed five years including any renewal option for the sum of \$500.00 per month for the first year with an option increase not to exceed 10% on operating costs.

Article 4. Voted to raise and appropriate the sum of \$400.00 to purchase a resuscitator for use of the Police Department, and the transfer of \$400.00 from the New Police Cruiser Account is authorized.

Article 5. Voted to transfer the sum of \$1,225.25 from available funds in the Treasury, to be used to purchase and install two-way radios for use of the Highway Dept. under the Civil Defense Program, and upon receipt of reimbursement, to be returned to the Treasury; these funds to be used in conjunction with funds appropriated under Article No. 20 at the Annual Town Meeting March 5, 1962.

Article 6. Voted to raise and appropriate the sum of \$600.00 to purchase a snow plow for the new Tractor Loader, and the transfer of \$600.00 from the Machinery Rental Account is authorized.

Article 7. Voted to raise and appropriate the sum of \$600.00 to repair Hillside Avenue with mix-in-place, and a transfer of \$600.00 from available funds in the Treasury is authorized.

Article 8. Voted to raise and appropriate the sum of \$2,500.00 for drainage and resurfacing 500 ft. on Belmont Street by mix-in-place method, and a transfer of \$2,500.00 from available funds in the Treasury is authorized.

Article 9. Voted to raise and appropriate the sum of \$4000.00 to lay 900 ft. of 6 inch asbestos-cement lined water pipe from the first hydrant on South Street to the residence of Harold Doherty, and a transfer of \$4,000.00 from available funds in the Treasury is authorized.

Article 10. Voted to amend the wording of Article No. 28 passed at the Annual Town Meeting on March 5, 1962 to read "a distance of 2600 feet" instead of 3,000 ft.

Article 11. Voted to authorize a committee to investigate the need for a Wage and Personnel Board and a Wage Classification Plan of Town Employees, said Committee to consist of five members appointed by the Moderator as follows: one member of the Board of Selectmen, two members of the Finance Committee, and two other citizens of the Town, and bring in recommendations at the next Annual Town Meeting.

Article 12. Voted to amend the Zoning By-Law as follows:

To amend Section 6A, RA-1 Residence District, minimum lot width from 110 ft. to 125 ft.

To amend Section 6A, RA-2 Residence District, from a minimum lot area of 10,000 sq. ft. to 20,000 sq. ft. and minimum lot width from 90 ft. to 110 ft. Minimum side yard from 15 ft. to 20 ft. Minimum front yard from 30 ft. to 35 ft.

Yes 150

No 2

Article 13. Voted that the town raise and appropriate \$80,000.00 in addition to the \$300,000.00 raised and appropriated under Article 34 at the 1960 Annual Town Meeting, as amended by vote under Article 4 at the Special Town Meeting held November 27, 1961, for the purpose of constructing, originally equipping and furnishing a 9 classroom addition to the Central Grade School Building, and that to meet such appropriation the treasurer with the approval of the selectmen is authorized to borrow \$80,000.00 under Chapter 645 of the Acts of 1948, as amended.

Yes 164

No 4

All registered voters were checked before entering the Auditorium and the following checkers were sworn to the faithful performance of their duties by Elaine S. Powers, Justice of the Peace:

Margaret McCarthy-R

Virginia Clarity-D

Beverly Fanning-R

Mary Mansfield-D

Cecil Knight-R

Helen Thorndike-D

Elaine S. Powers-R

Helen McCarthy-D

Tellers were appointed by the Moderator, Phillip E. Carey and sworn to their faithful performance of their duties by Town Clerk, George J. Frahar:— Robert Ritchie, William Tibert, Ralph Murray, David Sullivan, and Ellis Fanning.

A total of 177 voters were present at the meeting, 107 men and 70 women.

Voted to adjourn at 9:15 p.m.

The ballot boxes were opened by the Constable, Thomas E. O'Brien at 2:15 p.m. and 5:45 p.m. in the presence of the warden and George J. Frahar, Town Clerk. The ballots were removed from the ballot boxes due to a malfunction and the ballots were immediately placed in a container which was promptly sealed in open meeting. The woman's ballot box registered one less ballot than was actually case, due to the malfunction.

There were 2425 ballots cast which included 22 men's and 18 women's absentee ballots. 1303 unused and 1 spoiled ballot was returned to the Town Clerk. All ballots used and unused, records and tally sheets were sealed in open meeting.

Adjourned at 2:15 p.m.

A true record. Attest:

RECOUNT

A re-count for the office of Governor was held November 28, 1962 in the Office of the Town Clerk at 6 p.m. by the Board of Registrars, Richard F. Bartlett, Chairman, Mary A. Shea, L. Norris Luddy and Elaine S. Powers, Assistant Registrar. The re-count was held under the supervision of the Town Clerk, George J. Frahar.

The following appointments of agents and counsels were present to witness the re-count and inspection of the ballots as case in the State Election held on November 6, 1962:

DEMOCRAT FOR ENDICOTT PEABODY: Att'y. Harry P. Dunn, Thomas A. Wilkinson, Kenneth R. Jenkins, Thomas J. O'Brien, Joseph Meaney.

REPUBLICAN FOR JOHN A. VOLPE: Att'y. John Clark Wheatley, Att'y. Richard E. Bachman, Philip E. Carey, Charles W. Williams.

On completion of the re-count the tally showed a loss of two votes of John A. Volpe, a gain of one vote for Endicott Peabody and a gain of one blank. There were seven protested ballots, four being protested by Att'y. John Clark Wheatley and three being protested by Att'y. Harry P. Dunn.

The following are the results:

John A. Volpe	1571
Endicott Peabody	835
Henning Blomen	4
Guy S. Williams	3
Blanks	12
Total vote	<hr/> 2425

All records were unsealed and again sealed in the open meeting.

A true record. Attest:

GEORGE J. FRAHAR, Town Clerk

SPECIAL TOWN MEETING

December 3, 1962

A legal meeting was held in the Central School Auditorium on December 3, 1962 at 8 p.m. under a Warrant issued by the Selectmen and dated November 19, 1962. The meeting was called to order by the Moderator, Philip E. Carey. The Warrant was read by Town Clerk, George J. Frahar. The Moderator appointed Robert Gissonna and William Tibert to count the number of registered voters, to see if a quorum was present. After taking count, Mr. Gissonna and Mr. Tibert reported that only 123 voters were present. A second count was taken after a thirty minute delay with the tellers reporting 154 registered voters present. Moderator, Philip E. Carey asked for a moment of silence for the late Leonard Roach, who was a member of the Planning Board and of the Industrial Committee.

The following action was taken upon the articles as follows:

Article 1. Voted that the Town raise and appropriate \$75,000.00 in addition to the \$380,000.00 raised and appropriated under Article 34 at the 1960 Annual Town Meeting as amended by Vote under Article 4 at the Special Town Meeting held November 27, 1961 and by vote under Article 3 at the Special Town Meeting held June 25, 1962, for the purpose of constructing, originally equipping and furnishing an addition to the Central Grade School Building, and that to meet such appropriation \$30,000.00 shall be transferred from available funds and the Treasurer with the approval of the Selectmen is authorized to borrow \$45,000.00 under Chapter 645 of the Acts of 1948, as amended.

Yes 147 No 3

Article 2. Voted to transfer the sum of \$1,000.00 from Patrolmen Account to Special Officers Account.

Article 3. To see if the Town will vote to raise and appropriate the sum of \$3,225.25 to purchase and install two-way radios for use of the Highway Department, and to meet said appropriation a transfer of \$3,225.25 from available funds in the Treasury be authorized. Disapproved by the Finance Committee. No action taken.

Article 4. To see if the Town will vote to raise and appropriate the sum of \$3,000.00 to purchase radios, equipment, etc. for the Civil Defense, and to meet said appropriation a transfer of \$3,000.00 from available funds in the Treasury be authorized. Disapproved by the Finance Committee. No action taken.

Voted to adjourn at 8:40 p.m.

A true record. Attest:

GEORGE J. FRAHAR, Town Clerk

YOUR ATTENTION IS CALLED TO THE FOLLOWING

All persons are respectfully requested to examine the following reports of births, marriages and deaths and report to the Town Clerk any errors or omissions that may be discerned therein, so that the records may be corrected. An error in the record, other than a mistake in copying a certificate or return, can be corrected only in accordance with a deposition under oath made by one who is required by law to furnish the information for the original record or by one or more creditable persons having knowledge of the case. (See General Laws, Chapter 46, Section 13, as amended.)

Births occurring late in the year are sometimes returned without the Christian name. In such cases parents should return the name to the Town Clerk as soon as selected, as incompleteness of the record may occasion trouble in the future.

Attention is particularly called to the following extracts from the General Laws:

GENERAL LAWS, CHAPTER 46

Section 1. East city and town clerk shall receive or obtain and record . . . facts relative to the births . . . in his city or town.

Section 3. Every physician or medical officer registered shall keep a record of the birth of every child in cases of which he was in charge and . . . shall, within fifteen days after such birth, mail or deliver to the clerk or registrar of the town where such birth occurred, a report . . . if the child is illegitimate, the name and other facts relating to the father shall not be stated except at the request in writing of both father and mother filed . . . A physician or any such officer violating any provision of this section shall forfeit not more than twenty-five dollars.

Section 4. Any member or servant of a family in which a child is born, having knowledge of the facts required . . . shall furnish the same upon request of the clerk of the town . . . or of any person authorized by him. (Penalty for refusing, not more than ten dollars.)

Section 6. Parents within forty days after the birth of a child, and every householder within forty days after a birth in his house shall cause notice thereof to be given to the clerk of the town where such a child is born.

GENERAL LAWS, CHAPTER 207

Section 36. If a marriage is solemnized in another state between parties living in this Commonwealth, who return to dwell here, they shall within seven days after their return, file with the clerk or registrar of the town where either of them lived at the time of their marriage, a certificate or declaration of their marriage including the facts required in a notice of intention of marriage.

Section 55. Whoever violates Section 36 shall forfeit ten dollars.

The Town Clerk hereby gives notice that he is prepared to furnish parents, householders, physicians and registered hospital medical officers applying therefor, with blanks for return of birth as required by law.

GEORGE J. FRAHAR, Town Clerk.

OFFICE OF TOWN CLERK

The attention of owners and keepers of dogs is called to the following extracts from Chapter 140 of the General Laws as amended:

Definition: "Licensed period," the time between April first and the following March thirty-first, both dates inclusive.

Section 137. A person who at the commencement of a license period is, or who during any license period becomes the owner or keeper of a dog when it becomes three months old during a license period, shall cause it to be registered, numbered, described and licensed until the end of such license period, and the owner or keeper of a dog so registered, numbered, described and licensed during any license period, in order to own or keep such dog after the beginning of the succeeding license period, shall, before the beginning thereof, cause it to be registered, numbered, described and licensed for such period.

The license shall be in a form prescribed by the director, upon a blank to be furnished — by the county in which the town is located, and shall be subject to the conditions expressed therein that the dog which is the subject of the license shall be controlled and restrained from killing, chasing or harrassing live stock or fowls. The owner or keeper

of a licensed dog shall cause it to wear around its neck or body a collar or harness of leather or other suitable material, to which shall be securely attached a tag in a form prescribed by the director, and upon which shall appear the license number, the name of the town issuing such license and the year of issue. Such tags shall be furnished in the same manner as the license blanks, and if such tag be lost the owner or keeper of such dog shall forthwith secure a substitute tag from the town clerk.

Section 139. Fees for licenses. The fee for every license shall, except as otherwise provided, be two dollars for a male dog and five dollars for a female dog, unless a certificate of a registered veterinarian who performed the operation that said female dog has been spayed and has thereby been deprived of the power of propagation has been filed with the town clerk, in which case the fee shall be two dollars. A certified copy of such certificate on file in the office of any town clerk within the Commonwealth may be accepted as evidence that the said operation has been performed.

GEORGE J. FRAHAR, Town Clerk.

THE COMMONWEALTH OF MASSACHUSETTS
DEPARTMENT OF CORPORATIONS AND TAXATION
BUREAU OF ACCOUNTS
State House, Boston 33

April 6, 1962

To the Board of Selectmen
Mr. George A. Ridder, Chairman
East Bridgewater, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of East Bridgewater for the period from August 23, 1959 to July 25, 1961, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. William Schwartz, Assistant Director of Accounts.

Very truly yours,

ARTHUR H. MACKINNON,

Director of Accounts.

AHM:MDG

Mr. Arthur H. MacKinnon
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of East Bridgewater for the period from August 23, 1959, the date of the previous examination, to July 25, 1961, the following report being submitted thereon:

The records of financial transactions of the several departments receiving or disbursing money for the town or com-

mitting bills for collection were examined, checked, and verified by comparison with the books of the town treasurer and the town auditor.

The books and accounts kept by the town auditor were examined and checked in detail. The recorded receipts were compared with the treasurer's books and with the records of departmental payments to the treasurer. The appropriations, loan authorizations, and transfers, as entered on the ledgers, were checked with the town clerk's records of financial votes passed by town meetings and with the finance committee's authorizations of transfers from the reserve fund.

An analysis was made of the general and appropriation ledger accounts, a trial balance was drawn off proving the accounts to be in balance, the necessary adjusting entries resulting from the audit were made, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on July 25, 1961.

Attention is called to Section 43, Chapter 44, General Laws, which provides that all accounting and other officials and custodians of public money of cities and town shall fill out properly and return promptly to the Director of Accounts all schedules transmitted by him to them. A schedule providing for a return giving a detailed statement of all receipts classified by sources and of all payments classified by objects was mailed at the close of each year to the town, but no return has been made thereon for the years 1959 and 1960.

The books and accounts of the town treasurer were examined and checked. The receipts were analyzed and compared with the records of the several departments collecting money for the town and with other sources from which money was paid into the town treasury, while the payments were checked with the warrants of the selectmen authorizing the disbursement of town funds. The cash balance on July 25, 1961 was proved by actual count of the cash in the office, by reconciliation of the bank balances with statements furnished by the banks of deposit, and by examination of the savings bank books.

Considerable difficulty was encountered in reconciling the treasurer's cash, and it is recommended that all receipts be entered in the cash book when received, that deposits in the banks be made to correspond with the aggregate receipts for a given period, that the cash balance as called for by the cash book be properly reconciled with the cash in the office and in the banks as often as once a week, and that a permanent record be kept of these cash reconciliations.

The transactions of the trust and investment funds in the custody of the town treasurer and the trustees were verified, and the savings bank books and securities representing the investments of these funds were personally examined and listed.

The records of payroll deductions for Federal and State taxes, and the county retirement system were examined and checked. The deductions were compared with the treasurer's receipts, and the payments to the proper agencies were verified.

The reported payments on account of maturing debt and interest were verified by comparison with the amounts falling due and were checked with the cancelled securities on file. The outstanding coupons were listed and reconciled with a statement furnished by the banks of deposit.

The records of tax titles held by the town were examined and checked. The amounts transferred to the tax title account were compared with the collector's records; the recorded redemptions and disclaimers were checked; and the tax titles on hand were listed, proved, and compared with the records at the Registry of Deeds.

It is recommended that proceedings be started by the town treasurer to foreclose the right of redemption on all tax titles held over two years, as required by law.

In connection with the sales of real estate, attention is called to the provisions of Section 63A, Chapter 44, General Laws, relative to payments to the town in lieu of taxes on sales of real estate by a municipality.

The books and accounts of the town collector were examined and checked. The taxes, excise, and water liens out-

standing at the time of the previous examination, as well as all subsequent commitment lists, were audited and checked with the warrants issued by the assessors for their collection. The recorded collections were compared with the payments to the treasurer, the recorded abatements were checked with the assessors' records of abatements granted, the transfers to the tax title account were checked with the records of tax titles held by the town, and the outstanding accounts were listed and reconciled with the controlling accounts in the town auditor's ledger.

The commitments of departmental and water accounts receivable were examined and checked. The recorded receipts were checked with the payments to the treasurer; the abatements, as entered, were compared with the records in the departments authorized to grant such credits; and the outstanding accounts were listed and reconciled with the town auditor's ledger accounts.

In order to verify the outstanding accounts, notices were mailed to a number of persons whose names appeared on the books as owing money to the town, the replies were received thereto indicating that the accounts, as listed, are correct.

The financial records of the town clerk were examined and checked. The recorded collections on account of dog and sporting licenses issued, as well as from miscellaneous receipts, were verified and compared with the payments to the town treasurer and to the Division of Fisheries and Game.

The surety bonds furnished by the town treasurer, the collector of taxes, and the town clerk, for the faithful performance of their duties, were examined and found to be in proper form.

The records of departmental cash collections by the selectmen and the sealer of weights and measures, as well as by the police, health, and school departments, were examined and checked, the payments to the treasurer being checked with the treasurer's recorded receipts.

There are appended to this report, in addition to the balance sheet, tables showing reconciliations of the treasurer's

and the collector's cash, summaries of the tax, excise, tax title, departmental, and water accounts, together with schedules showing the condition and transactions of the trust and investment funds.

For the cooperation extended by the town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

WILLIAM SCHWARTZ,

Assistant Director of Accounts.

WS:MDG

Report of the Board of Selectmen

To the Citizens of the Town of East Bridgewater:

We respectfully submit our report for the year ending Dec. 31, 1962.

The year 1962 produced another heavy workload for your Selectmen. Meetings were held every Monday evening at 7:30 P.M. at the Town Office Building, except in the case of holidays when our meetings were held the following morning.

This year at the request of the townspeople, we held a Pre-Town Meeting on March 1, 1962, at which time everyone was given an opportunity to ask questions so as to be better informed regarding the Articles which were to be taken up at the Annual Town Meeting on March 5, 1962. We believe it proved very helpful and will be pleased to arrange such meetings in the future if the townspeople so desire.

With the combined allotment of Chapter 90 Construction funds for the years 1961 and 1962, we were able to construct a new road on a portion of Highland Street, also involved was a wider entrance from North Bedford Street. We are anticipating to continue work on Highland Street with our Chapter 90 funds to be allotted in 1963. Through funds made available to the Town under Chapter 782, Acts of 1962, Section 4, we will use a portion of this grant as the Town's share of Chapter 90 Construction, and therefore will not have to raise funds for this purpose in 1963.

Along with our routine work, we have continued with renovating the interior of the Town Office Building and have a building of which we can justly be proud. We have again this year placed 32 new metal street signs throughout the town and will continue this project in the coming year; also "Slow Children" signs have been posted as requested by the townspeople. We have tried to keep the "Old Cemetery" in better condition, having same mowed periodically throughout the summer months.

With the view of reactivating our By-Law Committee, after receiving several resignations, the Board of Selectmen appointed the following to serve, viz: Ralph T. Davidson, William A. Luddy, Edward W. O'Neil, S. Edward Tarantino and John C. Wheatley. They have held several meetings and are working on bringing our By-Laws up to date. It is hoped they will be able to make a report to the townspeople of their recommendations some time in 1963.

Our Building Code which was approved at the Annual Town Meeting in March 1962, was accepted by the Attorney General and went into effect on July 25, 1962; subsequently on October 29, 1962, Mr. N. Edward Lundberg was appointed Building Inspector, and Mr. Basis F. Goss was appointed Assistant Building Inspector. Building applications may be processed at the Selectmen's Office, but Permits are issued by the Building Inspector.

At the request of our Fire Chief, Manuel T. Silva, an Article has been placed in the Warrant for the Annual Town Meeting to have the townspeople consider the building of a new Fire Station, as the present

station is outdated and does not have facilities for permanent men; it is inevitable that we shall need them in the near future.

The year 1962 showed a marked increase in building, as 116 permits were issued for the construction of new homes, and 66 other permits were issued for additions, garages, etc. This means added revenue to the treasury, but as our town grows, so also does the cost of running Town Government.

Summary of fees collected by the Selectmen's office during 1962:

3 Club Licenses — All alcoholic @ \$300.00	\$900.00
3 Package Store Licenses — All alcoholic @ \$200.00	600.00
1 Package Store License — Malt and wine @ \$200.00	200.00
3 Common Victualer and all alcoholic license @ \$300.00	900.00
7 Class 2 — Used Car Dealer's License @ \$10.00	70.00
2 Class 3 — Motor Vehicle Junk License @ \$10.00	20.00
12 Common Victualer's Licenses @ \$2.00	24.00
10 Sunday Licenses @ \$5.00	50.00
2 Slaughter Licenses @ \$1.00	2.00
176 Building Permits @ \$1.00	\$176.00
6 Other Building Permits	65.00
	<hr/>
	241.00
90 Gas Permits @ \$2.00	180.00
7 Special Licenses @ \$2.00	14.00
48 Sunday Entertainment Licenses @ \$2.00	96.00
16 Sunday Dancing Licenses @ \$2.00	32.00
2 Sunday Juke Box Licenses for 1 yr. @ \$50.00	100.00
1 Taxi License @ \$6.00	6.00
Refund advertising fees paid for Public Hearings, etc.	91.40
Received from sale of wood from George Washington Bicentennial Forest	26.60
Adjustment fire insurance premium	13.48
	<hr/>
Amount remitted to Town Treasurer	\$3,566.48

The Board of Selectmen wish to extend a warm welcome to all the new citizens of the Town. The Board meets every Monday evening at 7:30 P. M. at the Town Office Building, and will be pleased to meet with the townspeople to discuss certain problems.

The Selectmen wish to express their sincere appreciation for the friendly cooperation which they have received from all Town Officials, employees and townspeople during the past year.

Respectfully submitted,

GEORGE A. RIDDER

CHARLES L. LELAND

JAMES E. O'BRIEN

Board of Selectmen.

Report of the Chief of Police

To the Honorable Board of Selectmen:

The following is the report of the activities of the Police Department for the year ending December 31, 1962:

Crime Against Person:

Rape	1
Lewdness	1

Crime Against Property:

Breaking and Entering during the Night-Time	15
Breaking and Entering during the Day-Time	8
Larceny (Money)	5
Larceny — Motor Vehicles (In Town)	5
Larceny by Check	15
Stolen cars recovered	5
Malicious damage to property	9

Crime Against Public Order:

Disturbing the Peace	34
Drunkenness	12

Violation of Motor Vehicle Law:

Speeding and operating to endanger	227
Operating under the Influence of liquor	12
Operator not being licensed	8
Accidents investigated	100
Accidents not investigated (reports submitted)	40

Miscellaneous:

Warrants Served	12
Summons Served	160
Complaints investigated	411
Dog Complaints received and investigated	75
Ambulance calls received for the following:	
Boston Hospitals	16
Foxboro Hospital	6
Brockton Hospital	57

79

I wish to take this opportunity to express my appreciation to the townspeople for electing me to permanent tenure as Police Chief for the Town of East Bridgewater; I consider this an honor and will do my utmost to continue to carry out the duties of my office.

During the year, two permanent Police Officers resigned and they were replaced by Officer Walter B. Damon and Officer Gordon A. Douglass; also Officer William D. Tardie who has been a permanent police officer for six years, was promoted to the office of Sergeant of the Police Department.

I have brought to the attention of the Board of Selectmen that there has been a tremendous increase in crime between the hours of 12 midnight and 4 A.M. and I feel our Department needs two additional police officers, which will give our town a 24 hour patrol. From the crime and accident reports in the newspapers, I believe all the townspeople can appreciate this request, and I am only asking for these additional men to give the Town better protection during the hours referred to above.

We are again requesting a new police cruiser this year to replace one that is two years old, and hope the citizens will approve such an Article at the Annual Town Meeting in March 1963.

During the past year, we issued over 100 Pistol Permits to carry firearms. This is a large increase over previous years, and resulted in returns to the Town Treasury of over \$100.00; also this has been one of our biggest years in court fines. Our Department also issues permits for BB guns — according to law a person must be at least 14 years of age and present his parent's written consent, to enable him to obtain such a permit; then in order for him to use the BB gun, he must be accompanied by an adult (18 yrs. or older) at all times.

I wish to thank the officers and members of the Civil Defense unit for the many hours they voluntarily served the Town on traffic duty, and also at other times when I requested their assistance.

In closing, I wish to thank all members of my Department, Board of Selectmen, Town Officials and townspeople, for the courtesy and cooperation extended to me during the past year.

Respectfully submitted,

WALTER A. BENOIT,

Chief of Police.

Report of the Moth Superintendent

To the Board of Selectmen and the Residents of East Bridgewater:

The Moth Department uses insecticides and/or herbicides in one form or another in the performance of all its usual duties. During the past year there has been much controversy, in magazine and newspaper articles, and books, about the use and misuse of insecticides and herbicides. Much of this information about the use and misuse of these materials is greatly exaggerated and based on hearsay rather than facts. I feel that insecticides, herbicides, and fungicides must be used with knowledge, caution, and respect, and as little as possible; however, they must be used as our greatest assets, at this time, in the fight against insects and diseases. The department has always kept the safety and well-being of the townspeople and the town in mind in the use of these materials and will continue to do so in the future for the good of all concerned.

The foliage spraying of trees was done at various times during the summer, upon request in different parts of town. A new insecticide was used with excellent results. This material has been tested and proven to be very safe, yet effective, in the control of many insects. The department hopes to use this insecticide to a greater advantage in the coming year for tree spraying.

The Plymouth County Mosquito Control Project performed its usual duties of aerial and truck spraying, cleaning ditches and brooks, and dusting swamps. This organization working with the Moth Department undertook the undesirable task, for the second time in two years, of unblocking the Matfield River of debris at a point near the corners of Cross and West Union Streets. The completion of this work again relieved a situation that would have grown worse in time. The fine co-operation of this project with the Moth Department has been of great benefit to the town.

The spraying of poison ivy became a large part of our operation, as in the past. This spraying has been done during the summer months for the past several years and has produced very good results; however, this nuisance is still prevalent. There is such a large territory to be covered, including all the roadsides and much private property, that the complete control of poison ivy will entail an annual spraying program for many years to come, which the department hopes to carry out during the future years.

Many thanks are due my workmen, town officials, and the townspeople for their support and understanding in my work during the past year.

Respectfully submitted,

AUGUST J. DUBE, JR.,

Moth Superintendent.

Report of the Tree Warden

To the Residents of East Bridgewater:

The Tree Department, having a normal year, performed its usual duties. During the year of 1962 a greater effort was put into, (1) the saving of the town's older and larger trees by endeavoring to cure some of their ills, and, (2) into a larger tree planting program. Many larger trees were cabled and bolted, cavity work was done when needed, and pruning carried out when necessary. The department hopes to start a tree feeding program in the coming year in an effort to lengthen the life of the town's older and larger trees.

There were 124 trees planted along the town streets during the spring and fall. Many of these trees were planted in front of new homes which were completely void of trees. Approximately 35% of the trees planted

were taken from the town nursery and the remainder were purchased from reputable nurseries. The varieties planted were: Sugar, Norway, and Crimson King Maple, Imperial Locust, Littleleaf Linden, Weeping Willow, and Flowering Crab. It is worthy to note that the number of trees planted during 1962 was over twice as many as the trees removed during the year. All the trees planted along the town streets within the last seven years were fertilized during the spring season of the year.

A total of 59 trees were removed during the year because of various necessary reasons. Over 50% of the trees removed were Elms claimed by the Dutch Elm Disease. The very fine co-operation of the Brockton Edison Company during the year as in the past, in assisting the Tree Department in the mechanical removal of some of these trees, has been of great benefit to the town.

The Dutch Elm Disease although still prevalent is decreasing, but this decrease is not entirely due to quick removal, pruning, and spraying. The large number of Elms removed over the past several years has decreased the town's Elm population thus confining the disease to smaller more spread out groups of Elms. One of the greatest problems seems to be the tremendous number of wild Elms in our swamp lands far from the roadside which contact and spread this disease and which are impossible to control. Many so called "sure cures" for the Dutch Elm Disease have been introduced but none have been approved by the United States Department of Agriculture and have been found to be useless. Much research is being done by private and federal agencies in an endeavor to find a cure for this ravenous disease.

The Town Nursery was maintained during the summer months with pruning, cultivation, and fertilizing done when necessary. There were 200 trees of various sizes and varieties planted in the nursery to systematically replenish those which were removed to be planted along the town streets. There are 665 trees on this site at the present time.

There was another plot of approximately 2 acres in the Town Forest cleared of underbrush and systematically thinned under the supervision of the State Forester during the winter months. In the coming year work will again progress in the Town Forest toward the goal of opening this site, in the future, for recreational purposes.

The pruning, cabling, bolting, surgery, and removal of trees, stump removal, planting of new trees, maintaining the Town Nursery and Town Forest, and the cutting of brush along the roadsides are the main functions, among other miscellaneous duties, which keep the Tree Department on an active schedule throughout the year.

It is again with sincerity that I wish to thank my employees, other town officials and departments, and the townspeople for their understanding, co-operation, and assistance in my work during the past year.

Respectfully submitted,

AUGUST J. DUBE, JR.,

Tree Warden.

Report of the Dog Officer

To the Honorable Board of Selectmen

Gentlemen:

I hereby submit my report as Dog Officer for the year ending December 31, 1962:

Complaints received and investigated	112
People bitten by dogs	25
Dogs destructing property	11
Stray and lost dogs	36
Dogs killed on the highway	33
Lost dogs returned to owners	16

I wish to express my appreciation to the Honorable Board of Selectmen, the Police Department and to Anna Benoit for their support in this work.

Respectfully submitted,

EDWARD D. KENNEALLY,

Dog Officer.

Report of the Board of Water Commissioners

To the Honorable Board of Selectmen

Gentlemen:

One hundred eighteen new services were installed and thirty-one renewals were made.

Under contract 2600 feet of 8 inch pipe was laid on North Bedford Street, 1150 feet of 6 inch pipe on West Street and 900 feet of 6 inch pipe on South Street.

Our test well investigation program has at this time failed to locate a source of water large enough for our needs. Seventy-five per cent of the likely spots in town have been tested. We are asking for a \$2,000.00 appropriation to complete the survey hoping that the effort will be fruitful.

The department deeply regrets the retirement of one of our most valuable employees, Mr. Edward Hennessey, who spent thirty-five years in the employ of the town.

Sincerely,

ARTHUR ASH, Chairman
WILLIAM F. HENNESSEY,
JOHN J. CLARITY, Clerk

Board of Water Commissioners

Study Committee for Refuse Disposal Problem

Report of a Special Committee to Study the Refuse Disposal Problem of East Bridgewater and to Work with Neighboring Towns for its Solution.

1. In April of 1962 a special committee was appointed by the town moderator . . . "to work with the Board of Health, Board of Selectmen and Planning Board" . . . to study a long range proposal of a cooperative plan with other communities" . . . "To resolve the dump disposal problem."

2. This committee has had six meetings to date, the first three to assess our own problem and resources, and the last three to obtain consultation in exploring possible solutions to the problem.

3. This committee invited participation from the Board of Health or other appropriate agency in the towns and city of: Abington, Bridgewater, Brockton, Halifax, Hanson, Rockland, West Bridgewater, and Whitman.

4. Representation has been present from: Halifax, Hanson, West Bridgewater, and Whitman. This communication is to bring you up to date on the committee's activity and to invite your participation in the solution of a mutual problem.

5. Mr. Paul Anderson, area representative of the Mass. Dept. of Public Health, and Mr. Frank L. Heaney, consulting engineer of Camp, Dresser and McKee, have met with the committee recently and the following facts were developed:

(a) the State Department of Public Health is actively working toward the abolition of open dumps and refuse burning in open dumps,

(b) the three methods of refuse disposal which are approved by the health authorities are composting, sanitary land fill, and incineration,

(c) composting has been tried in various parts of the United States with little success because of the problem of adequately grinding metal cans and other metal objects,

(d) incineration, when properly carried out, is acceptable for all types of refuse except tree stumps and large metal pieces. Washing of the smoke residue to reduce fly-ash is required to prevent air pollution. A place to dump ashes and non-combustible material is needed with incineration.

(e) a sanitary land fill is acceptable and is adaptable to changing populations and disposal needs. It requires an acre a year for each 10,000 population. Finding a suitable area to meet future needs of a community or a number of communities, is a problem. It costs about $\frac{1}{2}$ or $\frac{2}{3}$ of what incineration costs. It consists of digging a trench eight feet deep, dumping refuse in the trench, compacting the refuse with a heavy bulldozer and covering each day's fill with 6 inches of dirt cover and then next day adding 18 inches of dirt cover. Auto bodies and tree stumps usually require special sites because they are not compacted easily.

(f) none of the municipalities listed in paragraph 3 have refuse disposal sites that meet the requirements of the State Department of Public Health.

6. Mr. Anderson recommended that the municipalities listed in paragraph 3 join to finance an engineering study to determine:

- (a) how many tons of refuse are disposed of per day,
- (b) how much industrial waste is disposed of per day,
- (c) where are available sites for incineration and sanitary land fill,
- (d) the comparative costs for incineration and sanitary land fill,
- (e) how to best finance and apportion the costs of each,
- (f) the best ways to collect refuse. Note: Such a study is now being conducted by Camp, Dresser and McKee for the towns of Avon, Stoughton, Canton, Randolph and Holbrook. The total cost of the study for these five towns was \$4000, which was shared.

7. The East Bridgewater committee meets the second Thursday of each month at 8 P. M. in the town offices at 175 Central Street.

8. Representatives of other towns are invited to attend these meetings and may call the secretary for more information. At present, Hanson, Abington, Whitman, Halifax, West Bridgewater and Bridgewater have indicated interest. Two of these towns have immediate problems of dump relocation while the others do not anticipate problems in the next five years.

9. At the December 13, 1962 meeting the committee voted:
 "To recommend that an article be inserted in the next town meeting warrant to have an engineering study made to determine the best methods of collection and disposal of refuse, and that the sum of \$1000.00 be appropriated for this study."

10. The committee appreciates the guidance and counsel received from the Selectmen, the Board of Health and the Planning Board.

Respectfully submitted,

ROBERT CARRON, Chairman

MICHAEL PEPPE, V. Chairman

PHILLIP BAILEY

HERBERT J. BUTLER, Secretary

ROBERT LUNDBERG

ERIC WALLIN

Report of Public Sewerage System Study Committee

To the Honorable Board of Selectmen and Citizens of East Bridgewater:

The following report represents the evaluated efforts of the members of the Public Sewer System Study Committee, from the time of its inauguration on May 2, up to the close of the year 1962. Regular meetings were held the third Thursday of the month, also many special meetings were called. These special meetings were necessary because of the advisability of selecting an engineer before the first of the new year. Many engineers were interrogated and interviewed; their financial status investigated; and trips were made to sanitary installations of towns within a 50 to 70 mile radius of East Bridgewater.

At the last regular meeting held on November 28, the firm of Camp Dresser & McKee was selected to represent the committee to make an engineering study and report on a Town sewerage system.

A conference between these engineers and the committee was held on December 20, wherein details of application for Federal funds were discussed and approved by the Committee.

The pathway is now open for an obtaining of a government cash grant; to be applied to a study of the entire Town; outlining topographic conditions, population and need for sewers, general design of sewers, basic sewer district, type of treatment, suggested program of construction, along with suggested methods of financing and the approximate cost to property owners.

The members of this committee are ever mindful and deeply appreciate the guidance offered by our Selectmen and our Moderator as well as the cooperation of the Town Clerk and staff, also all town departments for their cooperation in giving us documentary evidence and advice.

DR. DONALD B. BANNERMAN,
Chairman of Board of Health.
PUTNAM STEELE,
Clerk of Board of Health.
ROBERT H. HALL,
Member of Board of Health.
CHARLES L. LELAND,
Clerk of Board of Selectmen.
ARTHUR W. ASH,
Chairman of Water Commission.
ELMER HAYES,
Chairman of Planning Board.
FOREST W. COUSINS,
Member of Industrial Development
Committee.
ROBERT P. GARRON,
Clerk.
WILLIAM E. VELSOR,
Chairman.

Report of the Town Planning Board

To the Board of Selectmen and the Citizens
of the Town of East Bridgewater:

Once again your Planning Board is very glad to render an annual report of its activities for the preceding year.

At the annual March election, two members were elected to the Board, namely: James E. Johnson and Edward W. O'Neil.

In March our organizational meeting was held with the following officers being elected: Elmer B. Hayes, Chairman; Alden E. Hanson, Vice-Chairman, and Thomas J. O'Brien, Clerk.

Jack Stengel resigned from the Board on March 19, 1962. At a joint meeting of the Selectmen and the Planning Board on April 23, 1962, Leonard A. Roache was elected to fill the vacancy.

Regular meetings have been held on the second and fourth Mondays of each month with the exception of the months of July and August, and one special meeting was held in May.

The Planning Board proposed, and the following changes were voted by the town, in the Zoning By-Law:

ZONING BY-LAW:

A public hearing was held May 31, 1962 regarding the following proposed changes in the Zoning By-Law.
To Amend Section 6A

RA-1, minimum lot width from 110 feet to 125 feet, RA-2, minimum lot area from 10,000 square feet to 20,000 square feet; minimum lot width from 90 feet to 110 feet, minimum side yard from 15 feet to 20 feet, minimum front yard from 30 feet to 35 feet.

The foregoing amendment to the Zoning By-Law was adopted by the Town at a special meeting held on June 25, 1962, and approved by the Attorney General on July 26, 1962.

SUBDIVISIONS SUBMITTED TO THE PLANNING BOARD:

The Village Green Development owned by Leslie and Louise Holbrook, formerly the Troutman Farm, on North Central Street consisting of 40 lots and three streets.

The preliminary plan of land located on the North side of Belmont Street, owned by Arnold S. Dane, for lots 7-8-9-10 known as Holmes Acres was not approved for home building as a result of soil structure and a high water table.

A preliminary plan for a subdivision entitled "Pleasant Village" consisting of 35 lots located off Pleasant Street. This subdivision was disapproved by the Board of Health because of high ground water table.

A definitive plan was filed for the "Glen Acres" subdivision owned by Commercial Trading, Inc. consisting of 21 lots on Union Street. The Board of Health disapproved this subdivision because of high ground water table. The owners have appealed to the State Board of Health for further tests this fall.

A definitive plan for a subdivision entitled "Butler Park" consisting of 82 lots, total area 52 acres, located off Belmont St. was submitted by Mr. Richard Butler. This subdivision is held up by the Board of Health because of lack of information as to the suitability of the land in question.

The Board wishes to have noted its continuing action on bills that have been submitted to the local Planning Board by Representative Edward A. Kirby, asking for our opinions as to their effectiveness and usefulness to our town's Planning and Zoning Board, as these have been proposed for passage in the State Legislature in the current session.

One hundred-fifteen building permits for dwellings have been signed by the Selectmen under the "subdivision approval not required" clause and only 6 building permits were issued in Subdivisions.

Building permits for 176 constructions, received to November 1, 1962, as issued by the Board of Selectmen, are in the following classifications:

Dwellings	121
Garages	15
Additions to existing buildings	40
Miscellaneous buildings	12

In closing, may we extend our thanks to the Board of Selectmen, all other departments of the Town and the townspeople for their co-operation, so that our Planning Board may assist our town to grow, financially and economically.

Respectfully submitted,

ELMER B. HAYES, Chairman

ALDEN E. HANSON, Vice-Chairman

THOMAS J. O'BRIEN, Clerk

ERNEST C. PHILBRICK

JAMES E. JOHNSON

EDWARD W. O'NEIL

LEONARD A. ROACHE

Plymouth County Mosquito Control Project

In reporting on the project's activities and accomplishments in 1962, there have been successful advances made toward the program's main objectives.

We are always happy to report that no single case of equine encephalitis was recorded in the county. There was considerable concern in mid-July by the project and the U. S. Public Health surveys indicated a heavy population of vector species mosquitoes and virus in bird life.

Again, this condition centered in and adjacent to the "Hockomock Swamp" and with adequate project funds always established for that area, we tripled our aerial spray efforts in the swamp over the previous seasons. This was a pre-hatch treatment the first week in August and all later surveys showed good control.

The co-ordinated efforts of the programs in Bristol, Norfolk and Plymouth counties have certainly reduced our hazard of an outbreak of this disease.

In all other areas our residual spray control and pre-hatch treatment of breeding wetlands was most successful this year, several factors contributed to this effectiveness. 1: We did not have the frequent showers this summer to void the results of spray efforts. 2: In each town we have continued on our drainage program to eliminate stagnant breeding wetlands, while this is a slow and expensive method, it is positive mosquito control and the most economical in the long run. 3: The experience of our personnel and their added knowledge each season of mosquito problems in their district is very apparent.

With the increasing concern on the possible hazards of carelessness in the use of insecticides, your superintendent has just completed forty years of experience in the using of all pesticides and you may be assured that all of the project personnel have been thoroughly schooled in the proper and safe use of each insecticide involved in our program.

We appreciate and want to thank all town officials and personnel who have continued to cooperate with us in our program.

Respectfully submitted,

WARREN G. HARDING,

Superintendent.

Plymouth County Aid to Agriculture

(PLYMOUTH COUNTY EXTENSION SERVICE)

By Robert B. Ewing, County Agent-Manager

A review of last year's report would show that an attempt was made to answer the question — "What is the Extension Service?" The report stated that in 1914 Congress passed the Smith-Lever Law which clearly stated, that the Extension Service shall "aid in diffusing among the people of the United States useful and practical information on subjects relating to Agriculture and Home Economics, and to encourage the application of the same".

The Extension Service has always been known as "the educational arm" of the United States Department of Agriculture and the title "Co-operative Extension Service" is used because Federal, State and County Governments cooperate in furnishing this service to the citizens of Plymouth County. Each year agreements are written between the United States Department of Agriculture, the University of Massachusetts, and Plymouth County.

Since 1915, when the Plymouth County Extension Service was organized and established, educational information pertaining to Agriculture, Home Economics and 4-H Club Work has been given free to citizens of Plymouth County.

Although methods may change with the times, the basic job of the Extension Service remains the same, and that is, as the 1914 Law states, "to aid in diffusing among the people of the United States useful and practical information on the subjects relating to Agriculture and Home Economics and to encourage the application of the same".

The Extension Service office is located in the Court House, Brockton, Mass. and is staffed by agents who conduct programs in Agriculture, Home Economics and 4-H Club Work by furnishing educational information, through farm and home visits, letters, newspaper articles, radio talks, meetings, office visits and telephone calls.

Federal, State and County government funds are used for conducting the Extension Service programs. Along with these funds, most towns in Plymouth County make an annual appropriation which is used for the general expenditures of the Plymouth County Extension Service. Town Directors are appointed in those towns where an appropriation is made. These Town Directors are unpaid volunteer leaders who serve as the Extension Service representative in their respective town.

All citizens should make full use of their Extension Service as it is supported by the Federal, State and County Governments. It should be remembered that while the Extension Service furnishes the information it is up to the individual citizen who receives this information to decide how it can be used to best advantage.

Requests for information can be directed to the Plymouth County Extension Service, Court House, Brockton, Massachusetts.

The Board of Trustees, appointed by the Plymouth County Commissioners, administer the Plymouth County Extension Service program and is composed of the following members:

MR. JOHN PRENTICE, Plymouth, Chairman
 MRS. ELVA BENT SWARTZ, Brockton
 MR. LEWIS BILLINGS, Plympton
 MRS. MABEL CHANDLER, Duxbury
 MR. JOHN DUFFY, Halifax
 MRS. GLADYS GIBBS, Hanover
 MR. ROBERT HAMMOND, Wareham
 MR. JOHN HOWE, West Bridgewater
 MR. JOHN W. LITTLE, Marshfield

Report of the Town Collector

To the Honorable Board of Selectmen and the
 Citizens of the Town of East Bridgewater, Mass.
 Dear Sirs:

Rendered herewith for your attention is a condensed report of the
 Town Collector's Department for the calendar year of 1962.

Respectfully submitted,

H. W. COLLAMORE,

Town Collector.

Recapitulation	Total Receipts
Real Estate Taxes	\$755,128.05
Personal Property Taxes	93,615.95
Farm Animal Excise Taxes	619.42
Motor Vehicle Excise Taxes	127,163.93
Poll Taxes	3,060.00
Interest and Fees and Advertising	1,908.93
Water Rates	50,729.50
Water Services	4,304.38
Water Rates added to Taxes	8,301.52
Lien Certificates	189.00
Old Age Assistance	9,931.38
Disability Assistance	2,802.77
Welfare	2,711.90
Trailer Court Rentals	656.00
Veterans Services	9,843.02
Rent of Hobart Property	480.00
Board of Health Fees	306.84
Aid to Dependent Children	2,282.42
Recovery Accts.	1,547.62
Medical Aid for Aged	11,370.07
Administration	2,579.84

Total

Report of the Inspector of Wires

To the Honorable Board of Selectmen

Town of East Bridgewater, Mass.

I hereby submit my report for the year ending 1962.

Inspections	325
Edison Permits	247
Services	184
Locked Premises	2
Rough Wiring	70
Added Wiring	43
Not Accepted	0
Oil Burners	117
Electric Dryers	28
Electric Water Heaters	36
Electric Ranges	18
Fire Calls	1
Storm Damage	0
Signs	0
Power	2
Trailers	6
Carnivals	3

All inspections were based on the latest edition of the National Electrical Code as adopted by the Commonwealth of Massachusetts, with no special rules.

Since the revision of the electrical fee system for the town it is evident that enough monies will be collected to make this office self supporting.

I wish to thank the Honorable Board of Selectmen and the Town Clerk's Office at this time for the valuable assistance in issuing permits and aid to this department.

Respectfully submitted,

ALBERT M. GREINER,

Inspector of Wires, East Bridgewater, Mass.

Report of the Librarian

The 78th annual report of the East Bridgewater Public Library for the year ending December 31, 1962 is herewith presented.

To consider the work of the library in East Bridgewater is to consider as one, two distinct fields of library work. One, that of the public library; the other, that of the school library. The economy and efficiency of this system as employed here continues to be demonstrated. The school library work administered by the public library continues to give to the children of East Bridgewater superior library opportunities without diminishing the effectiveness of the public library to the community. The active cooperation of administrators, staffs both professional and custodial plus the recognition by the townspeople in appropriating sufficient money to support both services and the willingness of the library trustees to assume the added responsibilities are major factors in the success of the program.

Reviewing briefly the activities of the past year we can indicate only the variety of services offered and statistical gains made. The qualitative gains that a library makes to a better community can not be measured statistically. The fulfillment of a library is not in the number of books circulated but in the ability of the individual patron to select and have available books for his individual needs.

The need of the public library to appeal to all interests was achieved in part through the willingness of individuals and organizations to sponsor exhibits which created great interest in the reading of books on allied subjects. Exhibits of antique glass, dried flower arrangements, notable people in the art world, rugs, and historical memorabilia did much to reveal the riches of the library collection in those areas.

The re-registration now in its second year shows roughly 23 per cent of the adult population are registered patrons of the library. The American Library Association states that between 20 and 40% of the population should be registered and while we are slightly above the minimum our figure does reveal that too many adults are not making available to themselves the resources they have in their library. By contrast, the children under fifteen years have an 85% registration. These figures are representative of a trend throughout the country and are a strong motivation for improved adult services.

The great development of the paper backed book industry maintains its effect on the policy of book purchases within the library. Library patronage shows that more and more the need to use a large proportion of public funds for ephemeral reading is decreasing as people purchase much of this type of reading from paper backed stock. This is a consideration in the ability of the library to spend more heavily for permanent additions to its collection.

Although our weeding program is maintained on schedule and we endeavor to meet the figure of discarding 5% of the collection, the pressures of too many books and too little space continues to harass both the staff and patron alike. It is virtually impossible to inventory the adult collection while as many as 600 books are in storage at the town barn and in the room over the Herrick Room at the main building. As a result the accuracy of the card catalogue is questionable and this condition reflects on its efficiency. The addition of a balcony over the present stack area would do much toward correcting this situation. It would give to the casual reader and the earnest student equal opportunity to find their material easily accessible. An increased use of materials in the historical room in the tower make the creation of a larger better organized historical room a definite need. A balcony would allow the use of the room over the Herrick Room for such purpose.

Your library staff in its affiliation with local, state, and national library groups keeps in constant awareness of new ideas and opportunities. The trustees and librarian are in touch with progress relating to regional library planning at the state level. In areas where needful local autonomy is not invaded and where participation in regional services adds to existing opportunities of service to the community, there is every reason to believe that local libraries will reap much benefit.

The children's room was the recipient of valued volunteer assistance during the year. The Sachem Young Woman's Club cleaned over 200 books which aided the library not only in longer life for the books but in encouraging children to keep books clean. The success of the pre-school series of story hours was due in large part to the enthusiasm of Mrs. Robert Cooper who requested the series and then proceeded to assist at each session.

During the summer the non-fiction in the children's department was inventoried. As a result the fall season opened with the assurance that the card catalog was a true catalog of juvenile non-fiction possessions. The small number of books unaccounted for by the inventory is indicative of the respect shown the library by its young borrowers. The summer reading program was planned to stimulate and encourage good reading. Two groups met one morning a week for 8 weeks.

The school library work is handled by a full time high school librarian and the children's librarian who devotes twenty hours of her week to school work.

The branch library located in the East Bridgewater High School was again the scene of an extremely busy year. Thirty-one student assistants practiced many library skills, including book circulation, filing, reference, and classification. The aides also planned book lists, arranged attractive displays, and completed many handicraft projects for the school and town groups. During National Library Week the annual library assembly recognized the senior assistants and awarded them library pins. Sylvia Gepp, an Austrian exchange student, was program speaker and guest of honor at a library reception. A new innovation was the opening during school vacations, and the student body found this service helpful in com-

pleting term papers and other reference assignments. The vacation daily attendance ranged from fifty-eight to eighty-one, an indication that young people appreciate the importance of the library as a tool of education. The increase in daily circulation and student attendance appear to indicate that the student needs are being met, and thus the library feels closer to its goal — to be the center of an intellectually-activated school.

At the Central School and Intermediate School the teaching program in grades three to eight prior to the opening of school library work proved its effectiveness. The children's improvement in independent use of the card catalogue and reference books is most noticeable. The gift of 50 new books to the Central School Library by the Parent Teachers Association was greatly appreciated. The Intermediate School Library program which because of crowded conditions at school is carried on at the public library is of such volume and variety that it is possibly only through the training of pupil library assistants. These young people perform a service to their school as they acquire a beginners knowledge of librarianship. During Children's Book Week, the first of what promises to be an annual affair, a Book Fair, was held in the school auditorium.

Building and materials mean little compared with the staff member who knows books and likes people. In East Bridgewater we are indeed fortunate to have an entire staff of such members. It was with regret that the trustees in October accepted the resignation of Miss Joan Sawyer, children's librarian. As of November 1, the library welcomed Miss Rosemary Coleman to the staff. Miss Coleman has had two years experience in public library children's work in Milton. In December the staff and trustees with the assistance of Mr. Donald Leach and Mrs. Betsey Green of the school music department, the high school library assistants and many interested patrons were hosts at a Christmas open house which welcomed all to share in the library's Christmas program.

Each friendly gesture made by the townspeople in gifts of books, flowers, periodicals, pictures, records, money, and furnishings stimulates the library to greater effort.

The policy of the trustees to allow the use of the library building by small community groups is pursuant to the thinking that the more the building is used the more the image of the library is strengthened in the town. A librarian cannot but recognize how fortunate she and her community are to have the guidance and support of such capable people.

Respectfully submitted,

GRACE EASTMAN, Librarian.

FRANK M. ADAMS, Chairman.

Report of Regional Vocational-Technical Planning Committee

At the March 1962 Town Meeting Article 26 was voted authorizing the Moderator to appoint a Regional Vocational School District Planning Committee consisting of three members. The Moderator appointed Mr. Robert B. Ewing, Mr. Brewster W. Fuller and Mr. Charles W. Williams to this committee with Supt. of Schools Stanley B. Goldman appointed as Educational Consultant.

Your committee is charged with the responsibility of studying the need for establishing a Regional Vocational-Technical School with one or more neighboring communities and making a report together with recommendations to the voters of East Bridgewater.

We have attended monthly meetings in Canton together with representatives from sixteen other towns comprising the Southeastern Central Regional Vocational-Technical School Survey Committee. Each of us has served on a sub-committee: i.e. Finance, Visitation and Site Selection. In addition, we have held fact finding meetings with faculty, and administra-

tion personnel of the East Bridgewater School Department on the Secondary level.

Some of the towns involved in the survey have been studying the problems for at least three years. Other towns, like East Bridgewater have been organized locally for less than one year.

At the regular monthly meeting in Canton on January 8, 1963 it was voted to divide the Committee into two sections, thus allowing those towns that have completed their study phase to proceed with drawing up an agreement and forming a Regional Vocational-Technical School District in the very near future.

Commencing with a meeting to be held in Brockton on January 29, 1963, East Bridgewater will be continuing the study with the City of Brockton and Towns of West Bridgewater, Easton, Stoughton, Sharon and Foxboro.

At this time it is not expected that any final report or recommendations will be submitted to the voters of East Bridgewater until at least 1964, and the above report is intended only as an interim progress report by your committee.

Anyone interested in obtaining further information or having an opinion on the subject of Vocational-Technical Training is invited to contact any member of this committee.

BREWSTER W. FULLER, Chairman

CHARLES W. WILLIAMS, Vice Chairman

ROBERT B. EWING, Secretary

Report of Public Health Nurse

Miss L. Gladys Farren, R.N. — Public Health Nurse

Mrs. George Maher, R.N. — Assistant

Office — Town Office Building

Hours — 9-9:30 A.M. 4-5 P.M.

Phone: DRake 8-2391

To the Board of Selectmen:

The report of the public health nurse for 1962 follows

Home Visits — 2,272 to 434 people.

Nursing Visits	988
Health Education Visits	1,218

Clinics —

D.P.T. Antigen Clinics for pre-school children	4
Total attending	130
D.T. Antigen Clinics	2
Assisting with school immunizations	

Polio Vaccine Clinics	4
Type I Oral Vaccine	3,578
Type III Oral Vaccine	3,652

1962 has been a very busy year. Boston University continues to send their professional nursing students to our agency for field training in public health nursing. Our nursing case load is about normal but our health education services need to be expanded to meet the needs of a growing community.

This is the first year oral vaccine of any type has been available for mass immunizations. Type I and Type III Sabine Oral Polio Vaccine was made available to everyone in Town. More than half of the Townspeople took advantage of this service.

A Mass Tuberculosis Case Finding Program was resumed this year. All school children were tested for sensitivity to tuberculosis germs by the new Heaf Test. This is a fast, painless, accurate method of finding unsuspected sources of tuberculosis. It will be continued as part of the school health program.

The following women have served on the 1962 Board of Directors of the East Bridgewater Nursing Association:

Mrs. Harwood Mosher — President
 Mrs. Edwin Whitmore — Vice-President
 Mrs. Elwood Siscoe — Secretary
 Mrs. Leo Trudeau — Treasurer

Mrs. George Barney
 Mrs. Horace W. Collamore
 Mrs. Willard DeChambeau
 Mrs. Henry Fraser
 Mrs. Allan Fuller
 Mrs. Edward Hurd

Mrs. Robert E. McCarthy
 Mrs. George McKenzie
 Mrs. Edmund W. Nutter
 Mrs. George A. Ridder
 Mrs. Arnold C. Swanson
 Mrs. John B. Thorndike

Mrs. George Wadsworth

Respectfully submitted,

L. GLADYS FARREN, R. N.

Public Health Nurse.

Report of the Building Inspector

To the Honorable Board of Selectmen and the
 Citizens of East Bridgewater:

I hereby submit my report as Building Inspector for the town of East Bridgewater covering the period from November 1, 1962 when I was appointed and took my oath of office to December 31, 1962:

INSPECTIONS

- 15 New Homes
- 2 Garages
- 1 Commercial Building addition

As Building Inspector I wish to thank all other Town Departments and the townspeople for the courtesy and co-operation extended to me during this period, and I will look forward to serving you to the best of my ability in the ensuing year.

Respectfully submitted,

N. EDWARD LUNDBERG,

Building Inspector.

Report of Fire Department

To the Board of Selectmen

Gentlemen:

Herewith is my report for the year ending December 31, 1962. During the year the department responded to 141 calls, of which 41 were still alarms, seven false, three resuscitator calls, and four aid calls.

Practice drills were held twice a month throughout the year. These drills consisted of instruction on the operation and use of all firefighting equipment, laying of hose lines, different types of hydrant hook-ups and all phases of fighting fires.

Edward Hennessey has retired after forty-four years of faithful service.

At the Central Station there is:

1 — 1956 Maxim Triple Combination Truck capable of pumping 1000 gallons a minute and a water capacity of 300 gallons.

1 — 1959 Combination Dodge Power Wagon capable of pumping 750 gallons a minute from a front mount pump, and water capacity of 600 gallons.

1 — 1937 Buffalo Triple Combination Ladder Truck carrying 200 feet of ladders and capable of pumping 250 gallons per minute with a water carrying capacity of 110 gallons.

1 — 1947 Dodge Forest Fire Truck capable of pumping 200 gallons a minute and a water carrying capacity of 300 gallons.

1 — Evinrude Sportwin, 10 HP, one Duratech Aluminum Boat, Model S-16, and one 1960 Cox Trailer, Model CT-165C.

At the Elmwood Station there is:

1 — 1941 Seagraves Triple Combination Truck, capable of pumping 500 gallons per minute and water carrying capacity of 350 gallons.

The Department has 6200 feet of 2½ inch double jacket hose, 4750 feet of 1½ inch double jacket hose and 1900 feet of 1 inch forestry hose.

Hundreds of permits were given for outdoor fires, about 800.

I would like to extend my gratitude to the Honorable Board of Selectmen and the Finance Committee for their co-operation in the past year.

Respectfully submitted

MANUEL T. SILVA,

Chief of Fire Department.

Report of Highway Surveyor

To the Citizens of East Bridgewater:

I hereby submit my report for 1962:

GENERAL MAINTENANCE

The expense of rebuilding the Railroad Crossing on North Central Street was shared by the Highway Department and the New York, New Haven & Hartford R. R. Company. The usual cleaning of streets and catch basins has been done; also patching, cutting brush, new street signs, mowing, repairing fences and guard rails, and necessary painting.

We now have installed in the Highway Department Garage, a Diesel Powered Generator which is in excellent condition; this unit is tied in with our system so that in case of power failure, we can still operate under any conditions.

SIDEWALKS

Pleasant Street from Summer St. to the West Bridgewater town line was resurfaced with Type I Hot Mix. Bedford Street in front of the Intermediate School was resurfaced; numerous other places were patched — some sidewalks have been cut back and cleaned. There is need for considerable more resurfacing in the future as well as new construction.

Street Oiling included Belmont Street from West Bridgewater line to Summer Street, North Central Street from Vinton's corner to West Union Street, Bennett Lane, Chestnut Street, Church Street, Cottage Street, Crescent Street, Cross Street, Grove Street, Hobart Street, King Place, Laurel Street, Old Bedford Road, Park Avenue, Pearl Street, Wildwood Avenue, Willow Ave., Robins Street and West Street.

Chapter 90 Maintenance work consisted of primarily Dense Type I mix resurfacing. No. Central Street has been completed and 4200 ft. of Pleasant Street; the remaining 900 ft. on Pleasant Street will be finished this coming year. Washington Street from Crescent Street toward the Whitman line, a distance of 4400 ft., was seal coated. Shoulders were cut and bushes trimmed where needed.

Work has been completed on the Articles voted at the Annual Town Meeting in March 1962 as follows:

Article No. 14 — Walnut Street

Article No. 15 — Union Street

Article No. 16 — West Union Street

These streets were resurfaced by mixed in place method.

Article No. 17 — A new Trojan Loader, Model No. 134 was purchased and has already proven to be a valuable acquisition to the Department.

Article No. 19 — Two catch basins on Pond Street and one catch basin on Central Street, were installed this year; the others will be done next year.

Article No. 21 — The resurfacing of Central Street from St. John's Church to corner of Chestnut and Central Streets, with Type I — Dense Type Mix, was done by contract in conjunction with Chapter 90 work. The results were good and I feel more of this should be done in 1963.

Article No. 22 — To drain, gravel, oil and seal coat Harvard Street from No. Bedford Street to Highland Street; all drainage work has been completed — gravel has been applied and graded and rolled. Due to weather conditions, I could not seal and penetrate this road, but will complete this project next spring.

I wish to extend my thanks to all Departments for their cooperation during this past year, also I want to thank the citizens of East Bridge-water for their consideration while highway work is being done.

Respectfully submitted,

RICHARD M. HENNESSEY,

Highway Surveyor.

January 1, 1963

INVENTORY — HIGHWAY DEPARTMENT

- 1 — 1959 ½ ton Chev. pick-up truck

- 2 — Red flags

Report of the Board of Public Welfare

We herewith submit the following report of the Board of Public Welfare and the Bureau of Old Age Assistance for the year 1962.

During the year the town was saddened by the loss of Harry W. Waite, a Board member for the past three years. His faithful services were greatly missed by the Department of Public Welfare. At a convention with the Selectmen, Charles F. Thomas was appointed to fill the vacancy until the next town election.

The Board of Public Welfare administers assistance in the categories of Medical Assistance for the Aged, Aid to Dependent Children, Disability Assistance and General Relief. The Old Age Assistance program is administered by the Bureau of Old Age Assistance. Financial assistance is received from the Federal Government in the categories of Old Age Assistance, Medical Assistance for the Aged, Aid to Dependent Children and Disability Assistance programs. The Commonwealth and the Town are responsible for Assistance granted under the category of the General Relief program.

OLD AGE ASSISTANCE

January 1, 1962, we carried a caseload of 50 cases. During the year we had 6 applications, all of which were approved for assistance, making a total of 56 persons aided during the year. 7 cases were closed either by death or transfer, leaving 49 active cases at the end of the year. There was paid out in behalf of these 56 cases \$50,765.85, of which \$39,553.92 was in cash grants. \$11,211.93 for vendor payments for medical assistance; \$485.00 was paid to other towns. During the year, the town received from the Federal Government \$31,059.30 and from the Commonwealth, \$22,078.41. \$1,656.91 was received from other towns and \$1,041.26 from liens.

MEDICAL ASSISTANCE FOR THE AGED

We were aiding 14 cases on January 1, 1962. We received 24 applications for assistance under this program. Of these 18 were accepted and placed on our rolls. 6 applications were withdrawn as being ineligible and 11 cases were closed. In these 32 cases there was expended \$33,602.72. \$32,305.22 was paid out for medical assistance and \$1,297.50 for cash grants. We were reimbursed \$16,337.63 in Federal funds and \$11,370.07 by the Commonwealth.

DISABILITY ASSISTANCE

We received 10 applications for assistance during the year, of which 6 were approved and 4 denied. This made a total of 9 cases aided during the year, as there were 3 cases on the rolls as of January 1, 1962. Four cases were closed leaving 5 active cases as of December 31, 1962. The total expenditure for these cases was \$4,859.75. \$1,958.80 as cash grants and \$2,900.95 for medical assistance. Reimbursement from the Federal Government was \$1,174.80 and we received from the Commonwealth \$2,968.68.

AID TO DEPENDENT CHILDREN

Under the Aid to Dependent Children program, there were 12 applications in this category received during the year, of which 6 were approved and 6 denied for various reasons, making 10 active cases during the year, as we had 4 cases January 1, 1962. Four cases were closed during the year leaving 6 active cases on December 31, 1962. \$9,882.38 was expended in behalf of the 10 active cases; \$8,665.30 for regular cash aid and \$1,217.18 for medical assistance. We received \$4,180.00 from the Federal Government and \$3,064.09 from the Commonwealth.

GENERAL RELIEF

Ten new cases applied for assistance under the General Relief program, 8 of these cases were accepted and one was denied and one withdrew application. We had 5 cases at the beginning of the year and with the 8 new applications, 13 cases were aided. 9 cases closed during the year and 4 cases continued as active at the close of the year. \$3,246.30 was paid out in assistance, \$730.31 of this was to other cities and towns. We received from the Commonwealth \$2,605.16. \$106.66 was received from other towns and \$506.31 from individuals.

Respectfully submitted,

HAROLD F. DOHERTY, Chairman

RICHARD B. LELAND, Clerk

CHARLES F. THOMAS, 3rd Member

Report of the Inspector of Animals

Board of Selectmen:
East Bridgewater

Gentlemen:

Since my appointment as Inspector of Animals for the Town of East Bridgewater on November 19, 1962, I have checked 4 interstate shipments totalling 40 head of dairy cattle into the town and found everything satisfactory.

I have also inspected one dairy farm from which a Brucellosis positive animal was removed. I found the premises to be adequately disinfected.

Respectfully submitted,

WILLIAM B. WOOD, V.M.D.,

Inspector of Animals.

Report of Board of Assessors

Report of Central School Planning and Building Committee

The Central School Planning and Building Committee started the year by choosing Korslund, LeNormand and Quann of Norwood, Mass. as the architects for the Central School addition.

Preliminary sketches for a twelve room addition were prepared and a bill was filed in the state legislature for reimbursement of state aid to the town on the proposed addition, as we had not secured the approval of the State School Building Assistance Commission.

Members of the committee and other interested citizens attended the hearing on this bill (#1241) at the State House on February 5, 1962. Speaking for the committee were Chairman Karl S. Nordin, Supt. Stanley B. Goldman, Robert B. Alexander, Atty. Edmund W. Nutter, Ralph H. Keith, Principal Ralph Murray, Principal John Geovanis, Senator James Burke and Representative Edward Kirby.

The bill was held in committee and a compromise was directed. Through the efforts of Senator Burke and Representative Kirby, the committee secured an offer of approval for a nine room addition from Mr. Domas of the State Building Assistance Commission.

Reluctantly the committee accepted this and after many more weeks of negotiating details with the state, presented an article to the Town at a Special Town Meeting on June 25, 1962. In this article the committee asked for an additional \$80,000.00 to add to the \$300,000.00 already appropriated. This article was approved 164-4.

General bids were opened on November 1, 1962 and the bid was awarded on December 3, 1962 to the contracting firm of LaPlante and Mastropieri, Inc. of Medfield, Mass. at a figure of \$383,824.00. This includes alternate #1, which is alterations to provide a larger and more adequate library.

At a Special Town Meeting on December 3, 1962 an article was passed, 147-3, adding another \$75,000.00 to the sums previously appropriated. Both of the additional appropriations were made necessary by rising costs during the delay, particularly labor costs.

The committee has filed a bill in the legislature for accelerated state aid. If this is granted, the cost of the addition will add on average of approximately 61c (sixty-one cents) per thousand to the local tax rate over the life of the bonds.

The contractor started work immediately and is aiming for a completion date of September 15, 1963. Work at present is proceeding according to schedule.

KARL S. NORDIN, Chairman
EDMUND W. NUTTER,

Vice-Chairman

Report of the Board of Appeals

To the Honorable Board of Selectmen:

Gentlemen:

We submit herewith the report of the Board of Appeals for the year 1962:

We have conducted hearings on nine cases as follows:

4 petitions approved.

4 petitions disapproved.

1 petition dismissed as applicant failed to appear.

We wish to take this opportunity to thank all Town Departments for their cooperation during the past year.

We also wish to thank Mr. Karl S. Nordin and Mr. Robert Gissonna, associate members, who have so ably substituted when a regular could not attend.

Respectfully submitted,

EDMUND W. NUTTER, Chairman
EDWARD S. MATTHEWS, Clerk
ROBERT A. LELAND,

Board of Appeals.

Report of the Board of Health

Board of Selectmen,
East Bridgewater, Mass.

Gentlemen:

Regular business and responsibilities of the Board are increasing due to the growth in the population and the additional State Dept. of Health regulations and laws.

As voted in Article 32 at the Annual Meeting the "Public Sewerage Study Committee" was appointed by the Moderator. Many meetings were held during the year and on December 31 applications were signed for Federal assistance to defray the cost of an engineering study by the firm of Camp, Dresser & McKee. Under Article 40 the Moderator appointed a Committee to attempt to resolve the rubbish disposal problem. Many meetings were held, some with representatives of the Boards of Health from adjoining towns and an article is being inserted in the Town Warrant for an appropriation for a preliminary study with nearby towns for a regional disposal area.

Early in the year the Board was faced with a serious "dump" problem. It was finally resolved by making arrangements with the owner of the present location on Bridge St. for a one year lease with an option for renewal up to five years.

Four Polio Clinics were held in cooperation with the Visiting Nurse Association. Oral Vaccine types 1 and 3 were administered to 3578 and 3652 persons respectively.

At the "HEAF" skin-test Clinic held in December, 1437 children were tested. This is approximately 97% of the school population.

More than 110 sub-surface sewage disposal permits were issued and the income from these permits was almost sufficient to pay the Agents salary. The income received from Plumbing permits was very nearly enough to defray the cost of the Plumbing Code.

Regular inspections, laboratory analysis, complaints and routine operations of the Board have been conducted as usual.

The Board appreciates the cooperation of the Board of Selectmen, Visiting Nurse, Welfare Board, Water Department, Town Clerk, Highway Dept., Tree Warden, Police and Fire Departments in helping solve many of the various problems with which the Board has been confronted.

Respectfully submitted,

DR. DONALD BANNERMAN,
Chairman
PUTNAM STEELE, Clerk
ROBERT H. HALL, Member

Report of Inspector of Plumbing

To the Board of Health
East Bridgewater, Mass.

Gentlemen:

I herewith submit my report on inspections of plumbing for the year of 1962.

Number of single and final inspections	142
Number of rough plumbing inspections	93
Number of range, gas and electric hot water tanks inspected	44
Number of tankless hot water heaters inspected	61
Number of fixtures inspected	683
Number of calls made to give information	26

Respectfully submitted,
FREDERICK CANDUCCI,
Inspector of Plumbing.

Report of Park Department

To the Board of Selectmen and the Citizens of East Bridgewater:

We hereby submit our report for the year ending December 31, 1962.

The Park Department was hard pressed for money this year to maintain the facilities at Strong Field and The Little League Field.

Strong Field is now in constant use from April until Thanksgiving.

The High school athletic department starts out in April with a track and baseball schedule. Fourteen Little League teams commence practice at Strong Field and the Little League Field at this time. Babe Ruth League with thirty players practice and play at Strong Field, and the Legion team practice at the Strong Field. These programs continue pretty well through the summer up until school starts at which time the High school squad, as well as some Intermediate teams start football practice.

Strong Field is noted for its ability to drain quickly after wet weather and be ready for play. Quicker than most fields in the area. However with this much traffic, more and more money is required to maintain, mow, clean and fertilize these grounds.

Little League field is showing improvement each year but it too is used hard during the baseball season.

Considerable pressure is taken off these fields by the Little League being allowed to use the field at the Central Playground and by the use of part of the Roach field.

This past season two hundred Little Leaguers on fourteen teams made use of these fields.

It is only by full co-operation of the various team managers and directors that practice and game schedules can be worked out, all facilities are taxed to the utmost.

Under the supervision of the Park Department we had Miss Pamela Fisher take care of the playground summer activities which were once again conducted at the Central School playground. A regular daily attendance was observed during the months of July and August. Miss Fisher attends Ithaca College of New York majoring in Physical Education.

The Park Department would like to commend Mr. John Kingman for the devotion and interest he displayed in keeping Little League Field and Strong Field in top shape for this past season.

We also feel Mr. John Hornstra should be acknowledged in this report as entitled to a public spirited citizen recognition. For the past eight years, he has sent a tractor and two men up to Strong Field in the spring to spread fertilizer on the entire playing surface. He has consistently refused to bill the town for service rendered and when questioned as to his reason, merely states, "I only wish I had more time so I could do more for my town."

Respectfully submitted,

RALPH E. CONNORS
THOMAS E. O'BRIEN
MAXWELL J. PEARSON

Report of the Department of Veterans' Services

To the Honorable Board of Selectmen and the
Citizens of East Bridgewater:

The office of Veterans' Services has been called upon during 1962 to serve an ever increasing number of veterans and their dependents. This has been due to the continued population growth of the town and other factors such as age etc.

We have again been fortunate in placing our veterans in V.A. Hospitals when ever the need arises. This is done at a substantial savings to the town. Claims successfully processed with the Veterans Administration during 1962 amounted to over \$26,000 to our veterans and their dependents.

There were over 674 contracts made with our department by veterans and their dependents during 1962. Expenditures for hospitals, doctors, and medications were \$4,219.34 — the balance of the expenditures were for subsistence allowances for veterans and their dependents who were in need during 1962 with a total expenditure of \$19,451.99 — leaving an unexpended balance of \$3,548.01 — 50% of the total expenditures are re-embursed by the state which leaves a net cost to the town of approximately \$9,725.99. Also re-embursed to the town through legal assignment was approximately \$1,600. to reduce the net cost to the Town to \$8,125.99.

The office of Veterans' Services is open during the day from 9:00 a.m. to 4:30 p.m. and on Wednesday from 7:00 p.m. to 10:00 p.m. Telephone DRake 8-2581 or at my home at DRake 8-3168.

Respectfully submitted,

PHILIP E. CAREY,

Veterans Agent

Burial Agent

Graves Registration Officer

Report of Town Treasurer

To the Board of Selectmen and the Citizens of the
Town of East Bridgewater:

Respectfully submitted,

MARJORIE L. EATON,

Town Treasurer.

Report of the Industrial Development Commission

To the Honorable Board of Selectmen and Citizens of
of East Bridgewater

Gentlemen:

During the spring of the year of 1962 the Industrial Development Commission was reactivated with two new members being appointed to fill vacancies caused by the resignation of members.

One of the first acts of the Commission was to have signs made to advertise the desirable qualities of this community to interested businesses. These signs were completed and, through the efforts of the Highway Surveyor and Tree Warden, located at both ends of Routes 18, 106, and 27.

Further studies were made by the Commission in an effort to prepare a booklet outlining the various Industrial Zoned Land, its access to major highways, school and banking facilities, power and water sources, present industries located in the town, and all other aspects of the community which might tend to make it attractive to interested industries. It is hoped that this work may be completed in the ensuing year and the booklet published.

It was further unanimously agreed by the committee that steps must be taken in the nature of Urban Redevelopment so that our shopping facilities may be further enhanced.

We wish to say in closing that the commission lost one of its prime movers with the passing of the late Leonard A. Roache and he will be greatly missed. I would also like to thank the Honorable Board of Selectmen for the fine cooperation we have received from them the past year.

Respectfully submitted,

WILLIAM COPELAND, Clerk

GEO. D. LEAVITT

RICHARD MANSFIELD

LAWRENCE HOWARD

SCHOOL CALENDAR 1962 - 63

Fall Term	September 5 — December 21
Winter Term	January 2 — February 15
Spring Term	February 25 — April 11
Summer Term	April 22 — June 21

NO SCHOOL SIGNAL

- (1) 7:00 a.m. Whistle at Edison Plant. No school, all schools, all day.
- (2) Notices regarding "no school" will also be given over Brockton Radio Stations WBET and WOKW, Boston Radio Station WBZ and TV Channel 4.

SCHOOL ADMISSION AGE

Any child who becomes six years of age on or before September 1 will be eligible to enter the first grade without any test. Those children who will become six years of age between September 1 and January 1 of that year may take a readiness test which will be given approximately the first week in June. Parents will be given ample notice regarding the time and place of this test.

MEETINGS OF THE SCHOOL COMMITTEE

Regular meetings of the School Committee are held in the High School Building the second and fourth Mondays of each month at 7:30 p.m.

REPORT OF THE TREASURER OF THE SCHOOL BOARD

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and citizens of East Bridgewater:

I am pleased to submit for your consideration my report for 1962, also the reports of the principals and supervisors.

The East Bridgewater School Committee has spent many hours the past year searching into the details of curriculum, salary schedules, policies, and custodial evaluations as well as routine matters and budgetary allotments and expenditures.

The Superintendent is ever alert to the new and experimental in education. Where it has seemed advisable, East Bridgewater has inaugurated courses in certain of these areas, such as modern mathematics and sciences. Techniques still in the laboratory stage were considered as not having a sufficiently broad base of acceptance to warrant adoption at the present time, such as teaching machines and programed learning.

With the introduction of a modern mathematics program in our schools, resulting from the advances in the space age, the School Committee sponsored courses during 1962 to acquaint the teachers with the new program. The courses, offered by the Department of Special Education of Northeastern University, consider the various aspects of the modern mathematics programs with particular reference to the School Mathematics Study Group (MSG). This program has been introduced into our system in Grade Six and extends through the high school mathematics curriculum.

In compliance with the law and in keeping with the times, we have been working during the year with local and area civil defense agencies in developing plans to care for our pupils in case of disaster. These plans call for evacuation to the homes if disaster should strike.

For the sixth successive year the teaching staff was enlarged due to increased pupil enrollment. Teachers not retained, resignations and retirements were also responsible for changes in personnel, as may be seen in the School Department Directory.

For the benefit of the many new families in East Bridgewater I wish to repeat my views on homework.

I urge parents to see that their children do their homework. Interest and encouragement by parents build understanding, morale and security in their children. There should be homework in grades 6 through 12. Those pupils in grades 9 through 12 who are preparing for college should average a minimum of 180 minutes daily home study.

Also I wish to clarify our "no school" policy for stormy days.

The Superintendent is authorized by the School Committee to cancel school sessions when he thinks conditions are bad enough to warrant such closing. Several factors are taken into consideration including the safety and health of the children, travel conditions and the State requirements for the minimum of 180 days of school during the year. The decision must be made by 6:30 a.m. During stormy weather when schools are in session it is the responsibility of the parents whether or not to send their children. Pupils will not be penalized for absence on such days.

Approximately \$25,000. worth of government surplus materials were obtained for the School Department through the Department of Education Surplus Agency, the only charge being for transportation.

Included in the surplus equipment were heavy duty shop machines, hand tools, electronic and science equipment, school furniture, etc.

In the face of difficult competition for college admissions East Bridgewater graduates continue to gain admission to the leading colleges and universities in the country.

The library staff provides excellent service to our three schools.

In every office there is someone who helps to carry the details of the total job involved. With the multitude of important projects that must be a part of the system, such as personnel records, State and Federal claims and reports, bids, salary studies and payrolls, supply orders, transcripts, registrations, pupil records, heavy correspondence and so many other details that demand responsible integrity, I should not close without bringing to the attention of the School Committee and other representative citizens the able performance of all the school secretaries.

I wish to thank the members of the School Committee, the various town departments and committees, the school personnel, the many civic organizations and the public in general for their continued cooperation and interest which has helped to earn for East Bridgewater the good reputation that its schools enjoy.

Respectfully submitted,

STANLEY B. GOLDMAN,

Superintendent of Schools.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of East Bridgewater:

The year 1962 has been one of educational expansion in our school system. Your School Committee has held many extra meetings in order to handle the ever increasing task of a growing community.

Through close contact with our administrators, and through their monthly reports, a clearer overall view of our teaching personnel has been established. The support of the staff has increased our effectiveness as a committee, as noted by the relatively few teachers that left our system the past year.

As our town continues to grow, school building needs are of utmost concern. The Central School Planning and Building Committee has been diligently working toward completion of immediate building needs. The School Committee is grateful to this group of civic minded citizens for their tireless efforts in the cause of education. We must, as conscientious townspeople, be ever mindful of school building needs, and think seriously of acquiring land for development as future school sites.

The physical properties of the three school buildings in operation were inspected by your committee on August 27, September 10, and September 24. Many repairs have been required in order to keep our buildings in good functional condition. Much of this maintenance has been accomplished during the summer by our own janitorial staff at a substantial saving to the town. This year at the Central School many desks were refinished; venetian blinds were installed in several classrooms; and needed additional telephone extensions were obtained for the nurse's office and cafeteria. The Intermediate School, which is the oldest building and requires the most attention, has undergone waterproofing of the north wall in conjunction with recommendations and specifications of a consulting engineering firm. This building has also received other attention; installation of outside aluminum-glass doors, repainting and tiling of several classrooms, plastering of badly damaged walls caused by water seepage, and the refinishing of many desks. The High School, which has required less attention by way of repairs, has nevertheless been kept in fine condition by its janitorial staff, with stairways repainted, black-out shades for the art room installed, and various extra maintenance duties performed.

The school committee and teacher's salary committee have been in conference in order to adjust our salary schedule to meet the standards of other towns. This year we feel our system has benefited by the better bargaining position we now hold in the field of salaries. The increase in the budget will in part be caused by the adjustment necessary to meet the state minimum requirement. The school committee feels that our salary schedule is not one of meaningless increase, but of purposeful increments promoting educational advancement of our teachers. This factor alone has made it necessary for us to add horizontally to our schedule, with two extra achievement columns beyond a masters degree.

The transportation of our pupils continues to be a difficult problem and one of great concern to our citizens. As in the past, we are faced with

a deluge of requests for extended transportation. Your school committee follows the recommendations of the State Department of Education regarding transportation of pupils and has established rules and regulations which are more lenient than the minimum coverage required. In accordance with our policy, we find it inadvisable to veer from our present regulation. Any concession on our part would let down the floodgates, and assure a substantial cost to the town.

Many of the long hours and extra sessions have been spent bringing our policy up to date, and we hope that, for the first time in over two decades, we will be able to refer to a printed policy as a guide, based on present, as well as past decisions.

The citizens of East Bridgewater are fortunate in having the able guidance of Supt. Stanley Goldman and his administrative staff. The growth in population which at this time averages six students per week, has been capably handled by their relentless efforts.

Again this year, may the members of the School Committee extend their heartfelt appreciation for the aid, suggestions and donations, so generously given by the American Legion, Post No. 91 and Auxiliary, Boosters Club, Commercial Club, Kiwanis Club, Parent-Teacher Association, Sachem Young Woman's Club, Senior Woman's Club, and other civic organizations and citizens of the town, and remind all residents that our meetings are open to the public on the second and fourth Mondays of each month.

Respectfully submitted,

The School Committee:

Paul B. Snow, Chairman
 Marla E. Fisher, Vice-Chairman
 Robert B. Alexander, Secretary
 Brewster W. Fuller
 Leslie H. Gould
 William E. Curley

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL

To the Superintendent of Schools:

The annual report of your high school principal is as follows:

The high school continues to grow in size and activity. The pupil enrollment on January 1, 1962, grades 9-12 was 432 and we closed the year with 472, a growth of about 10 per cent. In addition we housed and provided some facilities for two fifth grades and one fourth grade due to lack of space in the other schools. Our total facilities, however, will permit an additional enrollment of over 100 students and with the completion of the addition to the Central School and the removal of the elementary pupils we can accommodate still 100 more in grades 9-12.

Each year sees certain improvements to our physical plant. A mobile science demonstration bench for general science classes was built in the woodworking shop and placed in Mr. Magner's room. New opaque curtains are being installed in the art room to improve conditions for showing slides and film strips. The curtains were made by Mrs. Farrar's sewing classes and the special hangers were installed by the Industrial Arts department under the supervision of Mr. Eastman and Mr. Menard.

The art department activities at the high school have been expanded this year to provide two talented and interested groups in a full-time art program. These young people have made outstanding progress this year under art supervisor Mr. Stevens. Several students entered exhibits in the Boston Globe Art Contest. It is recommended that with the completion of the elementary school addition and the subsequent freeing of several high school classrooms that a new room be set aside exclusively for art work. The one room is now used by art classes and some 78 Mechanical Drawing students and its facilities are getting overtaxed.

A number of assembly programs have been presented during the past year. Outstanding presentations included "History and Life of Israel", speaker Amihud I. Ben Porath; "The Voice of Tomorrow", Dorothy Dale's radio program for schools sponsored by WBET; "Law Day" with Bridgewater lawyers Messrs. Harry Dunn and John Daley as the speakers. A special assembly for girls was held with a representative from the John R. Powers school in Boston who discussed good grooming. The musical organizations presented an instrumental assembly in the spring and an outstanding Christmas choral production including the cantata "The Song of Christmas" by Roy Ringwald.

Members of our musical groups have participated in district, New England and SEMSBA concerts. Their efforts have reflected great credit upon the school.

Special student activities sponsored by staff members include field trips to the Museum of Fine Arts in Boston which included members of the Cultural History, Art and Latin classes under the direction of Miss Sullivan and Mr. Stevens. The members of the Biology classes had a most interesting field trip at the Veterans Administration Hospital in Brockton. Mr. McGowan, biology instructor, was in charge. Other interesting and profitable activities include the East Coast Model United Nations conference at Montclair, New Jersey with Mr. McGowan and Mr. Goodwin of the faculty and participation in the State wide Student Exchange Program under the direction of Mr. Robinson. The Junior Classical League and the French Choral and Art groups had several interesting programs. These groups are sponsored by Miss Sullivan of the Department of Languages. The senior class gave an outstanding production of "A Connecticut Yankee in King Arthur's Court" under the direction of Mrs. Malloy. The Student Council included in their many activities the Book Fair and the presentation of two scholarships to members of the graduating class. The Student Council is under the direction of Mrs. Briggs, director of Guidance.

Teachers in the school have participated in language and mathematics workshops and have served as judges in area science fairs. Many

of our teachers have enrolled in courses for advanced study during the school year and also during the summer in order to improve our academic program. Also during this past year, our librarian, Mrs. Hynes, has instituted the practice of having the library open on special days during school vacations. Student use of the library on these occasions has been most gratifying.

I would like on this occasion to pay tribute to Mr. Arthur Goldman who had served as chief custodian of the high school since it opened. His many services and congenial personality have been missed since he left the high school to work for the postal department.

My thanks to the Boosters Club and the Parent Teachers Association for their continued good work in the presentation of various awards and gifts to the students and to the school. I also wish to express my appreciation to the Commercial Club, the Kiwanis Club, the Fred Bates Morse American Legion Post 91, the East Bridgewater Teachers Club, Sachem Young Womans Club, the Police Wives Auxiliary and Fernandes Super Markets for their scholarship gifts to our graduates.

The financial report of the Athletic Association is as follows:

REPORT OF THE PRINCIPAL OF THE INTERMEDIATE SCHOOL

Dear Mr. Goldman:

It is a pleasure to submit my report as principal of the Intermediate School.

The Intermediate School, as of December 10, is experiencing the largest enrollment of its short history. About 560 pupils reported on opening day and since then the enrollment has increased to 578 pupils. All indications are that the enrollment will continue to increase for the remainder of the year.

Two educational programs are being conducted in the Intermediate School. Grades seven and eight follow a junior high program and grades five and six have an upper elementary program. The large enrollment has made it necessary to move two sixth grade classes to the second floor and two junior high classes to the basement floor. The changes have allowed the junior high grades to maintain the flexibility required for classroom scheduling. The elementary classes are self-contained and little moving is practiced. Also, the programs are on separate time schedules which allow for greater utilization of the school's facilities.

During the past year extensive improvements were made on the building. The exterior of the building was painted and waterproofed. The old bushes which were becoming hazardous were removed and replaced with new ones. Steel doors were installed on all the entrances and a light fixture was installed in the front entrance. The ceilings and walls of the three basement rooms were painted. Two classroom floors were tiled and new desks and chairs were purchased for one of these rooms. Many minor repairs and improvements were completed by the building custodians.

Arithmetic in grades five through eight is in the process of being revised to meet the current standards being placed on these grade levels. The new mathematics being adopted is the S.M.S.G. program which is currently being taught in the high school. The junior high grades have received the new texts and the teachers have received instructions for two semesters. The elementary teachers are enrolled to take the course this coming semester. Coordinating the instruction and the introduction of the new mathematics is being administered by Superintendent Goldman.

Physical education, art and music subjects have been extended from one to two periods a week. The additional period provides for a more comprehensive and enriching course of study. The physical education course has been revised to enable our school to use the gym equipment from the high school.

The Junior High Science Club under the direction of Mrs. Ring has a record membership. The club members participate in exhibits, lectures, and field trips to points of scientific interest. Highlighting the club's activities is the Annual Science Fair in which members exhibit projects for evaluation. The members display excellent spirit in their attendance and their participation in activities.

The school newspaper, "The Opinion," is in its second year and has shown growth in circulation and quality. The newspaper is published by eighth graders under the direction of Mrs. Leach. In addition to the newspaper, members of the seventh grade have formed a Literary Club under the direction of Mrs. Springer.

The annual educational trips for the sixth and eighth grades were again made possible by local associations. The sixth grade visited Logan Airport and attended "Cinerama." Their trip was sponsored by the Commercial Club and Oakdale Packing Company. The eighth grade toured historical sites in the Boston area and their trip was sponsored by the local P.T.A.

In addition to the activities mentioned, our pupils have the opportunity to participate in other extra-curricular activities, such as elementary and junior high band, chorus, essay contests, science and art contests, assemblies, dances, and intramural basketball.

The following special events took place this year: Education Week, Parent Conference Days, Thanksgiving Assembly, Christmas Program, Memorial Day Assembly, and Eighth Grade Graduation.

I am very grateful to my teachers, to the other administrators, to the parents and friends for their assistance in helping to provide our pupils with a fine education.

Respectfully submitted,

JOHN A. GEOVANIS,

Principal, Intermediate School.

REPORT OF THE PRINCIPAL OF THE CENTRAL SCHOOL

Dear Mr. Goldman:

I am pleased to submit the following report of activities of the Central School for the year 1962.

Our enrollment has continued to show normal growth as is shown by the following September enrollment figures:

Sept., 1959=548 Sept., 1960=558 Sept., 1961=575 Sept., 1962=590
We are still maintaining five classrooms for each grade level. One of our fourth grades under the guidance of Mrs. Forbush is located at the High School. At the third grade level Mrs. Gray is still using a small Teachers Room for a classroom. This arrangement has been necessary because of limited space.

Changes have come in our teaching staff during the year. (Mrs.) Barbara Keith and (Mrs.) Idora Merrill both retired from teaching. We have been fortunate to have such capable teachers on our faculty. Our best wishes, and I know those of the many pupils who have been privileged to have the guidance of these teachers, go out to both of them in the years ahead.

We were unfortunate to lose Mrs. Dorothy Arsenault who moved to Pennsylvania with her husband. Much progress was made in the elementary music program under her direction.

Several teachers were added to the teaching staff in September. Mrs. Helen Curley was placed in a first grade and Mrs. Edna Whitmore in a fourth grade. Mrs. Mary Green was elected as music teacher. Miss Bonnie Clewes became our new elementary art teacher. We look forward to a successful year with our new teachers.

Our teachers have continued to participate in courses designed for professional development. Several teachers have carried out worthwhile projects as a result of graduate study.

Curriculum study and development has progressed slowly but effectively. A course of study in science was realized after many hours of

careful committee work. A nucleus is now available to the teachers on which we may build a strong science program.

Several consultants from publishing houses have been of service to the teachers during the year. Miss Janet Gomez, reading consultant for Houghton Mifflin Company, talked to the teachers about "Getting Ready to Read." Miss Thuma of the Row, Peterson and Company gave demonstration lessons in Grade Four. A reading workshop sponsored by the American Book Company was attended by Mrs. Forbush and Mr. Murray. A review of present reading methods and of newer reading methods was presented.

Our lunch program under the leadership of Mrs. Eleanor Ellis has run smoothly throughout the year. The kitchen staff has done a splendid job in serving so many lunches under such cramped working space and with limited facilities. Three new portable tables have helped tremendously with the seating of pupils. The use of lunch envelopes for Grade One pupils has reduced problems at this grade level to a minimum. Fewer problems would exist if parents would be certain that their children purchase weekly lunch tickets on Monday of each week.

There was a decided increase in the number of parents participating in the National Lunch Program Week, October 15-19, over those who visited last year. This year 135 parents visited the cafeteria to eat with their children.

Throughout the year there has been always the search for ways to meet the needs of every pupil in the classrooms. Teachers have followed many diagnostic testing procedures both formal and informal. A testing program which helped teachers with many instructional problems has covered mental maturity, readiness, and achievement in subject matter areas in language, reading, science, arithmetic, and social studies. In addition, Mr. Murray administered Binet tests to pupils whenever individual testing proved valuable.

Mrs. Nordin and Mrs. Horsley have served as home teachers to pupils needing such instruction. These teachers have met with our regular teachers to co-ordinate the work of the classroom with that done in the home.

A number of splendid assembly programs have been presented by pupils under the guidance of committees of teachers at each grade level. Pupils have been given numerous opportunities to participate in audience situations in addition to active participation as performers in order to develop many worthwhile attitudes and skills through these assembly programs.

Home-school co-operation has been encouraged at all times. Midterm letters to parents of pupils doing failing work in their classrooms as well as the regular report card have helped to keep parents informed of the progress of their child. To further develop a closer contact with parents, a Conference Day was held on November 13. Teachers were busy the entire day with closely scheduled meetings with parents. An opportunity for working parents to discuss problems with teachers was given on the evening of November 14. These conferences were highly regarded by both parents and teachers as an excellent approach to a

clearer understanding of the roles of parents and teachers in guiding the pupil.

We are grateful to the Parent Teachers Association for making square dancing classes available to pupils of Grades 3 and 4 from February 2 through March 30. These classes were held from seven to eight on Friday nights with Mr. Howard Hogue instructing. Money has again been set aside for new square dance classes beginning early in 1963. The P.T.A. has, also, donated one hundred dollars for the purchase of a new phonograph and aquarium pumps. We thank the members and leaders of the P.T.A. for their generosity in making these activities and gifts available.

Teachers and pupils have taken advantage of local educational experiences by trips to the post office, library, and fire stations. Mrs. Hogue's third grade held a book character parade during Book Week. An outgrowth of their social studies led Miss Querzoli's third graders to the making of butter with the school's butter churn. Fire Prevention Week again enlisted many pupils into the ranks of the Junior Fire Marshals.

Approximately seventy per cent of our pupils use the school buses. To help reduce bus loads another bus was added on October 1 to handle two bus trips.

Mrs. Phyllis Briggs, Guidance Director at the High School, assisted Mr. Murray in giving readiness tests to eligible pre-school pupils on May 28, 29, and 31.

Registration Day for pupils entering Grade One was held on June 7. First grade teachers registered 116 children.

Teachers attended the Plymouth County Convention on October 26. Teachers participated in discussions at their respective grade levels.

The school building has been used on many occasions by the Kiwanis Club, Brownies, P.T.A., Woman's Clubs, and other organizations.

On November 5 Miss Rosemary Coleman replaced Miss Joan Sawyer as the Central School librarian. Miss Sawyer and Mrs. Grace Eastman have been of great help to our pupils and teachers. We thank them for their co-operation.

During November and December we had a large number of cases of chicken pox affecting the attendance of pupils of Grades One and Two.

On December 10 the Plymouth County Tuberculosis Association in co-operation with our health officials inoculated the pupils at the Central School using the Heaf skin test.

On December 13 the ground was finally broken and work begun on the addition to the present building. This nine classroom addition with a new cafeteria, kitchen, and other special rooms will give much needed space for classrooms. Not only that but we shall be able to expand our program in areas which were handicapped previously by the lack of suitable equipment and space. To date the loam has been removed and

foundation work started. This addition is being realized only after several years of committee work and many hours of preparing specifications and plans. We look forward to rapid completion of the addition if weather permits.

Parents are always welcome to visit classrooms to observe pupils at work and they may meet with teachers for conferences after school hours to discuss specific pupil problems. These conferences can be easily arranged through the school office if parents telephone the school or send a note requesting a time to talk to the teacher.

To our teachers for their splendid co-operation and to all school personnel, parents, and other persons and organizations who have helped in many ways to develop a good educational program, I am grateful.

Respectfully submitted,

RALPH V. MURRAY,

Principal Central School.

REPORT OF THE MUSIC SUPERVISOR

Dear Mr. Goldman:

I submit herewith the annual Music Department Report for the year 1962.

INSTRUMENTAL PROGRAM

This program includes the following four departments:

1. Class lessons for the beginning musicians
2. The Elementary Band
3. The Junior High Band
4. The Senior High Band

ELEMENTARY BAND

All players who have started this year are receiving instruction in classes after school, and are allowed to attend one Band rehearsal per week. The Band has 59 members at present. Combined with the Junior Band they marched and played in the Memorial Day Parade.

JUNIOR BAND

The Junior Band has 35 members. This group rehearses every Tuesday from 11:35-12:20 at the Intermediate School. The Junior Band played at the graduation exercises in June.

SENIOR HIGH BAND

The Senior High Band has 40 members and rehearses three periods each week. The Band played at all of the home football games, and at the Plymouth County Teachers Convention, held at Brockton, where they received a standing ovation, for an excellent performance. A Color Detail has been added to the Marching Band, and also received much

praise. One of the Band members was accepted as a member of the School Band of America, and made a trip to Europe last summer, playing concerts in several foreign countries. Several members have been accepted in the District State Concert and a good representation is expected in the New England Concert Festival, after the auditions held recently at Boston University, where eight members received ten medals.

JUNIOR HIGH MUSIC

Grades seven and eight take part in this general music program. Classes are held twice each week and cover three general subjects: music reading, music appreciation and singing.

SENIOR HIGH MUSIC

There are two groups in the Chorus, with a combined membership of 120. Each group rehearses twice a week. We have been well represented in the South Eastern District Festival, The New England Festival and in S.E.M.S.B.A. East Bridgewater continues to have good representation in all music fields and to command the respect of many music educators, throughout New England.

My personal thanks to Mr. Goodwin, Mrs. Green, all of the principals, and to the newly formed Band Parents Club, for their wonderful help.

Respectfully submitted,

DONALD F. LEACH,

Supervisor of Music.

REPORT OF THE ART SUPERVISOR

Dear Mr. Goldman:

The students' needs for an expanded Art Program in the school year 1962-1963 made necessary the following:

1. An increase in personnel.
2. A revised and expanded curriculum.
3. Better and enlarged facilities.

In the area of personnel we were fortunate in securing the services of Miss Bonney J. Clewes, a graduate of Beaver College and a student of Barton Spruence. With the addition of this artist-teacher to our staff, it has been possible to service grades one through six on a once a week basis, thereby upgrading this end of our art teaching comparing favorably with other towns of our size. On the elementary level, Miss Clewes in her capacity as art teacher releases the grade-room teacher from the necessity of art teaching, thereby giving her added time for greater emphasis on other facets of an accelerated aspect of the general elementary teaching program.

The Junior High level finds art offerings increased correspondingly, and the elective programs further expanded. Teaching on these levels is by Miss Clewes and Mr. Stevens.

In the High School we now offer a full time studio curriculum, meeting every day in the week as well as a part time program designed as an introductory or sampling course for those with an art interest and also for those who may wish to expand their efforts to a full time basis later on. Again this area is serviced by both Miss Clewes and Mr. Stevens.

Currently enlarged facilities is our greatest need. It is hoped that with the addition to the Central School some measure of assistance, art-wise, may be felt. What is needed most in both the Central School and the Intermediate School is a full time Art Room, adequately equipped to meet the needs for permanent student work area and permanent student storage area. The High School facility is at present adequate, although filled to capacity. Further program expansion here will also require study.

Progress has been made and we look forward to an ever expanding and interesting future servicing the art needs of our school community. The Art Department wishes to take this opportunity to thank you, Mr. Goldman, as well as the School Committee, and all other personnel for their splendid help and cooperation this year.

Sincerely,

ALBERT H. STEVENS,

Art Supervisor.

REPORT OF THE DIRECTOR OF GUIDANCE—1962

Dear Mr. Goldman:

I herewith submit a report of the activities of the Guidance Department for the past year.

Guidance continues to assist all phases of our educational system to facilitate its goal in more effectively reaching every pupil. Whenever stress develops—friction that impairs maximum learning—guidance services are called upon.

Inefficient methods of study, lack of motivation or goals, as well as undeveloped self-discipline, are difficulties often encountered. Counseling may help a student arrive at clearer, more realistic insights, but qualities that have not developed slowly over a period of years are difficult to stimulate and require long hours of consultation. Often consideration of occupational goals as well as appraisal of individual assets and liabilities will lead the student to better self understanding and provide needed motivation.

For the purpose of achieving better self-evaluation, testing is carried on. Test scores, when carefully interpreted, provide objective information regarding a student's potential useful to teachers and parents as well as the student himself. This year, in addition to the usual 8th Grade achievement tests in reading, arithmetic and language skills, an aptitude battery was employed to measure potential in certain specific areas. The Differential Aptitude Tests provided estimates of verbal, numerical, scholastic, abstract, mechanical and spatial aptitudes as well as language. Testing was followed by interpretation through printed material, with further explanations supplied by teachers and in group meetings with students and with parents. This was preliminary to High School course selection for the eighth graders entering High School. Individual interviews were arranged when necessary. The Differential Aptitude Battery was used with the 10th Grade as well as the incoming 8th. New reading tests were given to present Juniors and Seniors. Additional standardized testing of achievement is being seriously considered in certain subject areas where no such standardized testing program has been employed.

There is need for an improved and coordinated testing program and test-recording of grades 1-12. Cumulative records have been improved to provide a continuous educational history. As part of this educational record, improved and continuous testing data should be included. Test scores provide useful information for teachers, students and parents when they are not merely put into the record and there permitted to lie dormant. They are comparisons with others which require explanation or interpretation to convey meaning, however, and such interpretation demands TIME—heavy demands on present limited personnel.

As our industrial world becomes more complex many jobs require more specialized preparation. The student needs then to consider his capabilities in relation to the demands of a variety of careers. Occupational information is another service provided by the Guidance Department. There a student may find up-to-date information concerning educational and vocational requirements of specific occupations as well as offerings of institutions providing training beyond High School in recent catalogs of schools and colleges. Other means of providing such information are speakers, tapes, films, etc. Consultation with students, individually and in groups, regarding selection of proper subjects for specific subsequent training consumes a considerable portion of the time of Guidance, as do also the problems of college selection and admission.

The Guidance Director continues to serve as Sponsor of the Student Council, the group representative of the entire student body democratically elected to consider problems that arise relative to student affairs. This past year the Council instituted a paperback sale, valuable to the students and profitable to the organization. They presented two scholarships to stimulate interest in further study beyond High School.

As Sponsor of the National Honor Society, the Director is involved in revision of present requirements for election to membership in that organization and efforts to provide more activities for its members.

Follow-up of the 1962 graduates revealed the following:

Four-year Colleges	17
Three-year Nursing Programs	2
Two-year or Junior College	3
Technical Schools	17
Business Education	11
<hr/>	
Total Continuing Education	40
<hr/>	
Labor Force	29
Service	9
Homemaking	3
Other	1
<hr/>	
	42

Teachers, parents, all citizens of our community must not lose sight of their common goal: to work cooperatively in making ours the best educational system for all our students, to promote maximum learning for each according to his potential to learn. In accord with our democratic ideals we must strengthen our resolve to respect individual differences and to strive to find improved means of stimulating excitement in learning. We must dare to experiment with new methods that hold promise of reaching more students.

Guidance continues to serve a most democratic function of a democratic institution for the purpose of maintaining and cultivating our democratic ideals. I conclude with a salute and expression of gratitude to all co-workers this past year in the furtherance of similar and worthwhile goals: teachers, administrators, school committee and clerical staff.

Respectfully submitted,

PHYLLIS R. BRIGGS,

Director of Guidance.

REPORT OF THE DIRECTOR OF ATHLETICS AND PHYSICAL EDUCATION

Dear Mr. Goldman:

I submit herewith my report for the year 1962.

PHYSICAL EDUCATION

The past year has seen a gradual change in the high school program since the opening of our new school. It still seems advisable to attempt a compromise between the formal and informal type of program incorporating as many of the beneficial parts of both as possible. Interest in and cooperation with this type of program by practically 100 percent of the girls and boys lead us to believe that it is the best for all concerned.

All students are required to take physical education with the exception of pupils who are excused for medical reasons. We have a total of about 470 taking part in our classes which meet twice per week. This indicates a steady increase of enrollment over the previous years. The opportunity provided to the Seniors to serve as student instructors has proven beneficial to the program.

At the Intermediate School double periods of physical education were introduced for the 7th and 8th grades allowing for a greatly expanded program. A unit of study in gymnastics and apparatus work was possible with the transfer of equipment from the high school.

In agreement that a school fitness program is a must, the activities included in the skills-fitness program were tabulated into specific points per student with these results being recorded and sent to the parents.

Meanwhile, individual teachers of the elementary grades proved valuable to the program by presenting physical activities to the students in their classes.

In conclusion, I wish to make the following recommendations for improving the physical education program:

1. That additional time be provided for counseling and assisting the elementary program as being introduced by the teachers.
2. The development of the present outdoor facilities which continues to be a drawback when the weather enables the program to be shifted from the best indoor facilities.
3. That the physical education classes within the high school be offered more than the present twice a week program.
4. A study be made for some type of a towel system for both physical education and athletics.

ATHLETICS

Our athletic teams are competing against various schools in the sports of Basketball, Baseball, Cross-Country, Field Hockey, Football, Softball and Track.

At the conclusion of our fall season another championship team was added to the list of our past champions. The Cross-Country team ended their undefeated season by winning the league title and the South Shore Class "B" Trophy.

The Football team concluded a successful season with a Thanksgiving Day victory and the permanent retirement of the second Boosters Club Trophy.

Throughout the winter season our Basketball teams continued to rank high among the best in the district.

EXTRACURRICULAR ACTIVITIES

This year's Cheerleading squad formed a "Pep Squad" made up of members from the student body. The participation of this group at the fall athletic events was warmly received by the spectators.

The tennis program, supervised by Mr. Norman McGowan, continues to interest a large segment of the student population.

New this year, was an intra-mural basketball league for both the girls and boys of the High School. The success of the boys program was made possible through the efforts of Mr. Kjellerstedt.

A similar program for the boys of the Intermediate School continues to prove valuable under the supervision of Mr. Donald Oakley.

Conclusion

"If the young people are to carry their burden of responsibilities they must be given the best possible tools with which to meet the challenge. We must provide those tools in order to give real meaning to the saying that education is not a means of life; education is life."

Again I wish to express my sincere appreciation to all members of the community—parents, school committee members, school personnel, and others—who faithfully and willingly serve the children of our schools in so many different ways.

Respectfully submitted,

VINCENT J. MALEWICZ,

Director of Athletics and Physical Education.

REPORT OF THE SCHOOL NURSE

Dear Mr. Goldman:

I herewith submit the annual report of the school nurse for the year ending December 31, 1962:

School visits	540
Special attention to	1992
First aid care to	1200
School injuries requiring immediate surgical attention	15
Pupils recommended for exclusion	346
Ill and injured pupils transported	110
Pupils referred to the school physician	28
Pupils referred to their family physician	56
Interviews with parents	702
Massachusetts Vision Test (School year 1961-1962)	
Pupils tested	1565
Pupils retested	106
Old defects 58	New defects 43
Pupils wearing glasses	275
Notices sent to parents	77

Pure-Tone Audiometer Test (School year 1961-1962)			
Pupils given the group test			1528
Pupils given an individual test			173
Old defects	21	New defects	18
Notices sent to parents			18
Physical Examinations			
Pupils examined by the school physician			704
Pupils examined by their family physician			48
Pupils referred by the school physician for further diagnosis and treatment			55
Registration for entering grade one			
Registration list			150
Social histories returned			145
Medical forms returned			147
Family physician	139		
School physician	8		
Vaccination certificates			150
Birth certificates			150
Communicable diseases			
Chickenpox			51
German measles			170
Measles			42
Mumps			35
Scarlet fever			5
Contagious skin diseases			4
Immunization program			
Booster inoculations (diphtheria, tetanus)			
Elementary pupils			70
High school pupils			178
Sabin oral polio vaccine			
Grade one pupils given Type I			132
Public clinics			
Pupils given Type I			1266
Pupils given Type III			1325
"Heaf" Testing program (tuberculosis)			
Total number of pupils			1635
Pupils given test	1437		
Pupils refusing test	58		
Pupils absent	140		
Pupils who showed a positive reaction			48
Other activities			
All pupils weighed and measured			
Classroom inspections made			
Assistance given Miss Farren with polio clinics and with Christmas donations			
South Shore School Nurses meeting held on September 12, 1962 at East Bridgewater High School			
Meetings and conferences attended			

May I express my sincere appreciation to the School Committee, administrators, teachers and all school personnel, parents, and other persons who participated and cooperated in carrying out the school health program.

Respectfully submitted,

BARBARA A. LIGHTFOOT, R.N.,

School Nurse.

REPORT OF DENTAL HYGIENIST

Dear Mr. Goldman:

I herewith submit the following annual report of the School Dental Department.

The pre-school dental examinations conducted in June, 1962 were as follows:

Fifty-five examinations
 Fifteen showed no defects
 Forty needed dental work
 Seventeen of the above would visit their family dentist
 Fourteen intended to wait for school clinic in September
 Nine had no plan

In September, 1694 pupils in grades 1-12 were examined by Dr. Fraser, using type four method (dental mirror, explorer with adequate illumination). These reports were sent home for parents' information and signature. They were also recorded in the dental department health records.

The results of these examinations were as follows:

Mouths in good condition, grades 1-8 — 385
 Mouths in good condition, grades 9-12 — 174

842 Prophylaxes were done in grades 1-6 and 8th. 1424 Sodium Fluoride treatments given in grades 2, 5, 8.

Instructions in dental health and tooth care have been given at the dental chair and in the classrooms, with health education material provided by the dental department.

The Thursday morning dental clinic has been very busy, but it was possible to complete all requests for Dr. Fraser's services in the first and second grades.

A monthly report of each week's work has been given to Mr. Goldman.

All fees due for dental work have been paid in the Central School Office.

This year's study by the Dental Hygienist has included:

The Annual Mid-Winter Education Course by the Mass. Dental Society

Boston Dental Convention in May

Monthly meetings of South Shore Dental Hygienist Society

International Dental Congress in Cologne, Germany—July 7 - 14, 1962

I wish to thank Dr. Fraser and all school personnel for their co-operation with the School Dental Program.

Respectfully submitted,

BLANCHE H. FLINT, R.N., R.D.H.

REPORT OF THE SUPERVISOR OF CAFETERIAS

Dear Mr. Goldman:

I submit herewith my report for the year 1962.

This school year we are serving an average of 980 "A" plates a day in the three schools. This is approximately fifty more than a year ago. This does not include a la carte items served at the High School Cafeteria which has also increased over the previous school year. This school year we use an average daily of 1430 half pints of homogenized milk.

Each day the lunch served in the East Bridgewater Schools supplies at least one-third of the daily food needs. A typical 25-cent school lunch is hamburger in buttered roll, cabbage and pineapple salad, buttered corn, one-half pint of homogenized milk and a peanut butter cookie. This type of meal meets the menu pattern as set up by the National School Lunch Program. The same meal served at home would cost, without labor, approximately 40 cents per person. The School Lunch Program is able to do this because it works on a non-profit basis. The Federal and State Governments give money to help pay the cost of your youngsters' lunches. The Department of Agriculture also distributes surplus foods to the schools based on the number of "A" plates that we sell. Last school year the East Bridgewater schools received \$18,895.87 from the State and Federal Funds as subsidy on the sale of "A" plates and Special Milk Program (milk sold in addition to the eight ounces that is included with the "A" plate). Teachers and other adults employed by the School Department pay 35 cents for their meals as there is no subsidy given on adult meals; only meals sold to a student and this does not include a la carte items. The program received last school year foods valued at \$10,249.60. The program spent an additional amount of \$50,-457.23 for foods and we received for sales last school year \$53,842.53.

The over-crowded conditions at the Central School Cafeteria will be relieved with the addition to that school which will probably be ready for occupancy next fall. This will automatically relieve the situation at the Intermediate School Cafeteria as the pupil load in that school will be less and the two fifth grades at the High School will then be omitted and will relieve the situation at recess time as it has been necessary to feed them separately from High School students.

The purchase of a bakers oven for the Intermediate School has helped to take care of the increase in cooking and to make a more varied menu possible. A food disposal has been purchased for the High School kitchen this fall.

With the increased work this year it has been necessary to have a four hour a day worker at the High School kitchen in addition to the regular staff.

President Kennedy proclaimed the seven day period beginning on the second Sunday in October as National School Lunch Program Week. This fall it was held October 14th - 20th and the school cafeterias were open for visitation by parents that week.

Mrs. Grace Carl attended the spring work-shop in Boston during the April vacation period.

This October Mrs. Carl, Mrs. Siscoe, Mrs. Ellis and I attended the Convention of Cafeteria Workers at the Rehoboth Dighton Regional High School. We were given a fine demonstration on using Government Commodities and bread making.

I wish to commend my three managers and their staffs for their good work and cooperation.

Respectfully submitted,

BARBARA M. MATTHEWS,

Supervisor of Cafeterias.

AGE-GRADE TABLE — October 1, 1962

35th President of the United States

On November 22, 1963 America and the world was shocked and stunned beyond belief when the news was flashed that our beloved President, John Fitzgerald Kennedy, had been assassinated.

On this infamous day a part of the life of every American died. The events that followed this tragic day in our history surely taught millions of Americans the profound effect our young President had on the world scene. His long range vision and devotion to the problems of world peace placed him far ahead of his country-men and the world leaders of today.

No President in our history so appealed and inspired the youth of America with his example and devotion to the ideals and principles of a great nation—as in his inaugural address when he said: “Let the world go forth from this time and place to friend and foe alike, that the torch has been passed to a new generation of Americans born of this century, tempered by war, disciplined by a hard and bitter peace, proud of their ancient heritage and human rights to which this nation has always been committed today at home and around the world. Let every nation know whether it wishes us well or ill, that we shall pay any price, bear any burden, meet any hardship, support any friend, oppose any foe to assure the survival and success of liberty and ask not what your country can do for you, ask what you can do for your country.”

Historians have predicted that his words of wisdom and leadership will ever live in our glorious history.

May the death of our beloved President, John F. Kennedy, cause a rededication in our people throughout the land for those principles and ideals he so nobly served and inspired in all of us—If so he will not have died in vain.

PHILIP E. CAREY, Moderator

John Fitzgerald Kennedy

ANNUAL TOWN MEETING

Monday Evening—March 4, 1963

A legal meeting of the inhabitants of the Town of East Bridgewater qualified to vote in elections and town affairs was held in the Michael J. McCarthy Auditorium of the East Bridgewater High School, March 4, 1963 at 7:00 P.M. O'clock, under warrant issued by the Selectmen and dated February 18, 1963.

Moderator Philip E. Carey called the meeting to order at 7:00 o'clock p.m. There were 374 voters present (253 men and 121 women).

Colors were presented by the Drill Team of Fred Bates Morse American Legion Post No. 91. A rendition of the "Star-Spangled Banner" was played on the organ by an East Bridgewater High School Senior, Miss Thelma Brown. Invocation was given by Rev. Thomas Delaney of St. John's Church.

Voters were checked at the entrance of the Auditorium by the following checkers:

Elaine S. Powers (R)	Beverly Fanning (R)
Dorothy Sullivan (D)	Myrtle Waite (D)
Pauline Singleton (R)	Margaret McCarthy (R)
Rose Rodricks (D)	Virginia Clarity (D)

Town Clerk George J. Frahar read the Warrant and Constable's return with the following action being taken upon the articles in the Warrant:

Article 1. Voted to accept the reports of the Town Officers and Committees as printed in the Annual Town Report and verbal report.

Article 2. Voted to adopt the same method for the collection of taxes as used in the year 1962.

Article 3. Voted to raise and appropriate the following sums of money for the purposes named, and that pay raises be from January 1, 1963.

Article 45. Voted to raise and appropriate the sum of \$500.00 to investigate the suitability of Town owned land for building purposes, also to plot same: said investigation to be carried out jointly by the Board of Selectmen, Finance Committee and the Planning Board.

Article 46. Voted to choose Mr. Robert A. Leland, Town Director, Plymouth County Aid to Agriculture, as provided in Section 41, Chapter 128, General Laws.

Article 47. Voted to raise and appropriate the sum of \$25,000.00 for an addition to the second floor mezzanine to the Public Library of which the sum of \$12,500.00 shall be raised from the tax levy of the current year and authorize that \$12,500.00 be transferred from available funds in the Treasury in anticipation of a Federal Grant and that upon receipt of the Federal Grant be restored to available funds in the Treasury.

Article 48. Voted to bring their votes on one ballot for the following Town Officers, viz: Moderator for one year, vote for one; Town Clerk for one year, vote for one; Selectmen for three years, vote for one; Town Treasurer for one year, vote for one; Board of Public Welfare for three years, vote for one; Board of Public Welfare for two years to fill vacancy, vote for one; Assessor for three years, vote for one; Auditor for one year, vote for one; Highway Surveyor for one year, vote for one; School Committee for three years, vote for two; Board of Health for three years, vote for one; Park Commissioner for three years, vote for one; Library Trustees for three years, vote for two; Tree Warden for three years, vote for one; Water Commissioner for three years, vote for one; Planning Board for three years, vote for two; Planning Board for one year to fill a vacancy, vote for one; Question No. 1—"Shall Chapter thirty-two B of the General Laws, authorizing any county, city, town or district to provide a plan of group life insurance, group accidental death and dismemberment insurance, and group general or blanket hospital, surgical and medical insurance for certain persons in the service of such county, city, town or district and their dependents, be accepted by this town?" If a majority of the voters voting on the question shall vote in the affirmative, this chapter shall take effect in such town.

Tellers appointed by the Moderator for the evening and sworn to the faithful performance of their duties by the Town Clerk: Robert H. Hall, Bruce H. Edson, Laurence Meyerowitz, Elmer B. Hayes, L. Robert Fisher, Arthur W. Ash.

Meeting voted to adjourn at 10:35 P.M. to meet Saturday, March 9, 1963 at the East Bridgewater High School Cafeteria at 10 A.M. o'clock for the Town Election.

A true record, attest:

GEORGE J. FRAHAR, Town Clerk.

TOWN ELECTION

March 9, 1963

Saturday:

A legal meeting of the Town of East Bridgewater was held at the East Bridgewater High School Cafeteria on Saturday, March 9, 1963, under the Warrant issued by the Selectmen and dated February 18, 1963, to bring in their votes for the election of Town Officers.

Specimen ballots, penalty and instruction cards were posted, all requirements of the law were observed. The polls were declared open by Town Clerk George J. Frahar at 10 A.M.

Two sealed cases said to contain 3,450 ballots were delivered to the Ballot Clerk, Margaret M. McCarthy, and receipt for same obtained. Ballot boxes were inspected by the checkers, warden and constable and found to be empty and to register zero. The keys to the Ballot Boxes were turned over to the Constable, John B. Cormier.

The following were sworn to the faithful performance of their duty by the Town Clerk: Warden, Evelyn M. Pittsley (D), Constable, John B. Cormier; Master Sheets: Allison Stinchfield (R), Philip McNally (R), Edward Matthews (D), Leonard Pierce (D).

GEORGE J. FRAHAR, Town Clerk

SPECIAL TOWN MEETING

Monday Evening, December 23, 1963

A legal meeting of the inhabitants of the Town of East Bridgewater qualified to vote in elections and town affairs was held in the Selectmen's Office of the Town Office Building, December 23, 1963 at 8:00 P.M. O'clock, under warrant issued by the Selectmen and dated December 13, 1963.

Moderator Philip E. Carey called the meeting to order at 8:00 o'clock P.M. Town Clerk George J. Frahar read the Warrant and Constable's return with the following action being taken upon the articles in the Warrant.

Article 1. Voted to raise and appropriate the sum of \$600.00 to be used by the Regional Vocational School District Planning Committee, and to meet said appropriation, a transfer of \$600.00 from available funds in the Treasury is authorized.

Article 2. Voted to raise and appropriate the sum of \$2,300.00 to purchase a six cubic yard sand spreader for the Highway Department, and to meet said appropriation, a transfer of \$1,100.00 from the Machinery Rental Account, a transfer of \$374.14 from the New Dump Truck Account, and \$825.86 be transferred from available funds in the Treasury is authorized.

Voted to adjourn at 8:04 P.M. O'Clock.

A true copy of Record. Attest:

GEORGE J. FRAHAR, Town Clerk

YOUR ATTENTION IS CALLED TO THE FOLLOWING

All persons are respectfully requested to examine the following reports of births, marriages and deaths and report to the Town Clerk any errors or omissions that may be discerned therein, so that the records may be corrected. An error in the record, other than a mistake in copying a certificate or return, can be corrected only in accordance with a deposition under oath made by one who is required by law to furnish the information for the original record or by one or more creditable persons having knowledge of the case. (See General Laws, Chapter 46, Section 13, as amended.)

Births occurring late in the year are sometimes returned without the Christian name. In such cases parents should return the name to the Town Clerk as soon as selected, as incompleteness of the record may occasion trouble in the future.

Attention is particularly called to the following extracts from the General Laws:

GENERAL LAWS, CHAPTER 46

Section 1. Each city and town clerk shall receive or obtain and record . . . facts relative to the births . . . in his city or town.

Section 3. Every physician or medical officer registered shall keep a record of the birth of every child in cases of which he was in charge and . . . shall, within fifteen days after such birth, mail or deliver to the clerk or registrar of the town where such birth occurred, a report . . . if the child is illegitimate, the name and other facts relating to the father shall not be stated except at the request in writing of both father and mother filed . . . A physician or any such officer violating any provision of this section shall forfeit not more than twenty-five dollars.

Section 4. Any member or servant of a family in which a child is born, having knowledge of the facts required . . . shall furnish the same upon request of the clerk of the town . . . or of any person authorized by him. (Penalty for refusing, not more than ten dollars.)

Section 6. Parents within forty days after the birth of a child, and every householder within forty days after a birth in his house shall cause notice thereof to be given to the clerk of the town where such a child is born.

GENERAL LAWS, CHAPTER 207

Section 36. If a marriage is solemnized in another state between parties living in this Commonwealth, who return to dwell here, they shall within seven days after their return, file with the clerk or registrar of the town where either of them lived at the time of their marriage, a certificate or declaration of their marriage including the facts required in a notice of intention of marriage.

Section 55. Whoever violates Section 36 shall forfeit ten dollars.

The Town Clerk hereby gives notice that he is prepared to furnish parents, householders, physicians and registered hospital medical officers applying therefor, with blanks for return of birth as required by law.

GEORGE J. FRAHAR, Town Clerk.

OFFICE OF TOWN CLERK

The attention of owners and keepers of dogs is called to the following extracts from Chapter 140 of the General Laws as amended:

Definition: "Licensed period," the time between April first and the following March thirty-first, both dates inclusive.

Section 137. A person who at the commencement of a license period is, or who during any license period becomes the owner or keeper of a dog when it becomes three months old during a license period, shall cause it to be registered, numbered, described and licensed until the end of such license period, and the owner or keeper of a dog so registered, numbered, described and licensed during any license period, in order to own or keep such dog after the beginning of the succeeding license period,

shall, before the beginning thereof, cause it to be registered, numbered, described and licensed for such period.

The license shall be in a form prescribed by the director, upon a blank to be furnished — by the county in which the town is located, and shall be subject to the conditions expressed therein that the dog which is the subject of the license shall be controlled and restrained from killing, chasing or harrassing live stock or fowls. The owner or keeper of a licensed dog shall cause it to wear around its neck or body a collar or harness of leather or other suitable material, to which shall be securely attached a tag in a form prescribed by the director, and upon which shall appear the license number, the name of the town issuing such license and the year of issue. Such tags shall be furnished in the same manner as the license blanks, and if such tag be lost the owner or keeper of such dog shall forthwith secure a substitute tag from the town clerk.

Section 139. Fees for licenses. The fee for every license shall, except as otherwise provided, be two dollars for a male dog and five dollars for a female dog, unless a certificate of a registered veterinarian who performed the operation that said female dog has been spayed and has thereby been deprived of the power of propagation has been filed with the town clerk, in which case the fee shall be two dollars. A certified copy of such certificate on file in the office of any town clerk within the Commonwealth may be accepted as evidence that the said operation has been performed.

GEORGE J. FRAHAR, Town Clerk.

THE COMMONWEALTH OF MASSACHUSETTS
DEPARTMENT OF CORPORATIONS AND TAXATION
BUREAU OF ACCOUNTS
80 Mason Street, Boston 11

September 10, 1963

To the Board of Selectmen
Mr. Charles L. Leland, Chairman
East Bridgewater, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of East Bridgewater for the period from July 26, 1961 to June 8, 1963, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. William Schwartz, Assistant Director of Accounts.

Very truly yours,

ARTHUR H. MACKINNON,

AHM:CSG

Director of Accounts

Mr. Arthur H. MacKinnon
Director of Accounts
Department of Corporations and Taxation
Boston, Massachusetts

Sir:

As directed by you, I have made an audit of the books and accounts of the town of East Bridgewater for the period from July 26, 1961, the date of the previous audit, to June 8, 1963, and report thereon as follows:

An examination and verification was made of the recorded financial transactions of the town, as shown on the books of the departments receiving or disbursing money or committing bills for collection.

The town auditor's ledgers were analyzed and checked in detail. The receipts, as recorded, were checked with the town treasurer's books, the recorded payments were compared with the treasury warrants and the treasurer's cash book, while the appropriations and transfers were checked with the town clerk's record of financial votes passed at town meetings and with the authorizations of the finance committee. A trial balance was taken off, and a balance sheet showing the financial condition of the town on June 8, 1963 was prepared and is appended to this report.

The books and accounts of the town treasurer were examined and checked. The receipts, as recorded, were analyzed and compared with the records of payments to the treasurer by the several departments and with

other sources from which the town received money, while the payments were checked with the approval warrants authorizing the treasurer to disburse town funds.

The cash book was footed throughout for the period of the audit, and the cash balance on June 8, 1963 was proved by actual count of the cash in the office, by reconciliation of the bank balances with statements received from the depositories, and by examination of the savings bank books.

The records of payroll deductions on account of Federal and State taxes, the county retirement system, and Blue Cross and Blue Shield were examined, checked, and reconciled with the town auditor's ledger controls.

The payments of maturing debt and interest were proved with the amounts falling due and were checked with the cancelled securities and coupons on file. The amount of interest unpaid was listed and reconciled with a statement furnished by the bank in which funds are deposited for this purpose.

The savings bank books and securities representing the investment of the trust and investment funds in the custody of the town treasurer and the trustees were examined and listed. The transfers to the town were verified, the income was proved, and other reported transactions were checked with the treasurer's and the auditor's books.

The records of tax titles held by the town were examined and checked. The taxes, water liens, interest, and costs transferred to the tax title account were compared with the tax collector's records. The recorded redemptions were checked with the treasurer's cash book, and the tax titles on hand were listed, reconciled with the auditor's ledger, and compared with the records at the Registry of Deeds.

The books and accounts of the town collector were examined and checked in detail. The tax, excise, departmental, and water accounts outstanding at the time of the previous examination, as well as all subsequent commitments, were audited and proved. The cash books were analyzed, the payments to the treasurer were verified, the abatements were checked with the assessors' and other departmental records of abatements granted, the amounts transferred to the tax title account were compared with the records of tax titles held by the town, and the outstanding accounts were proved and reconciled with the town auditor's ledger accounts.

Verification of the outstanding accounts was made by mailing notices to a number of persons whose names appeared on the books as owing money to the town, and from the replies received thereto it appears that the accounts, as listed, are correct.

The records of receipts from licenses and permits issued by the selectmen, the town clerk, the plumbing inspector, and the police and health departments were examined and checked, and the payments to the State and to the town treasurer were verified.

The surety bonds furnished by the several town officials required by law to furnish such surety were examined and found to be in proper form.

Considerable cash is received by the school department from the lunch program, athletic activities, and miscellaneous receipts, and it is recommended that surety bonds be filed on behalf of the persons responsible for such collections. All receipts of the department should be paid over to the town treasurer promptly upon receipt of same in accordance with the provisions of Section 53, Chapter 44, General Laws.

In this connection attention is called to a cash shortage of \$210.29 in the athletic activities account. Collections aggregating \$1,001.00 from 11 basketball games during the period from December 26, 1962 to February 19, 1963 were recorded, and only one payment of \$790.71 was made to the town treasurer on April 9, 1963.

In addition to the departments mentioned, the available records of all other departments collecting money for the town were examined and checked. The payments to the town treasurer were verified by comparison with the treasurer's and the auditor's books, and the cash balances in the departments were proved.

There are appended to this report, in addition to the balance sheet, tables showing reconciliations of the several cash accounts, summaries of the tax, excise, tax title, departmental, and water accounts, as well as schedules showing the condition and transactions of the trust and investment funds.

While engaged in making the audit cooperation was received from the officials of the town, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

WILLIAM SCHWARTZ,

Assistant Director of Accounts.

Report of the Board of Selectmen

To the Citizens of the Town of East Bridgewater:

We hereby submit our report for the year ending December 31, 1963.

The Board held meetings every Monday evening at 7:30 P.M. except in the case of holidays, and all matters of general routine and other recurring duties have, as in the past, been handled by the Board in the best interest of the Town.

Chapter 32B of the General Laws, as amended, authorizing any county, city, town or district to provide a plan of group life insurance, group accidental death and dismemberment insurance, and group general or blanket hospital, surgical and medical insurance for certain persons in the service of such county, city, town or district and their dependents, was accepted by the townspeople at our Annual Election on March 9, 1963.

Plans were made to put this Chapter into effect immediately so that all town employees may be entitled to the benefits offered as soon as possible. Bids were advertised for May 13, 1963, at which time they were opened at the Selectmen's office and turned over to the Advisory Committee, viz: Mrs. Marjorie L. Eaton, Chairman, Miss Lela V. Canelli, Clerk, Miss Isabelle R. Odabashian, Richard M. Hennessey, and August J. Dube, Jr., in order that they may make recommendations to the Board of Selectmen. The Advisory Committee recommended that the Board accept the bids of the Boston Mutual Life Insurance Co. and the Blue Cross-Blue Shield to cover the town employees as provided under Chapter 32B, also suggested signing a three year contract with the Boston Mutual Life Insurance Company. The Board of Selectmen voted unanimously to accept the recommendations of the Advisory Committee, and plans were made so that the program went into effect on July 1, 1963.

Our Chapter 90 Highway Construction work on Highland Street was started late in 1963 so only the drainage part could be done, and therefore the resurfacing will be completed sometime the early part of 1964. The \$6,000.00 allowed for Chapter 90 Highway Maintenance was spent on the following roads, viz: Spring Street, Washington Street, and Old Plymouth Street, under the supervision of Mr. Richard M. Hennessey, Highway Surveyor. These funds can only be used on roads which were constructed with Chapter 90 funds.

Because of additional funds appropriated this year for the care and maintenance of the Old Central Cemetery, we were able to have the grass mowed during the summer months, also the flagpole was repaired and painted so the American Flag was flown regularly. Through the efforts of the American Legion Post No. 91, the flags on the veterans' graves were replaced twice during the year, also the Civil War Centennial Committee replaced the depleted Veteran Grave Markers in all cemeteries throughout the town. The Board is very grateful for the

keen interest shown in the condition of the Cemetery, and are sure the townspeople appreciate the efforts of those responsible.

We have continued to have new street lighting installed as the town grows, also have ordered nineteen metal street signs to be posted next spring to replace those broken and in poor condition. Through the co-operation of Mr. Stanley B. Goldman, we were able to purchase a Civil Defense surplus generator to serve the needs of the Town Office Building, and are now in the process of having same installed and put in running condition. We also had some painting done on the interior of the building and an enclosure was built on the front entrance.

The year 1963 has proved to be a busy year in building new homes, etc., and the value of construction came to over \$2,000,000.00 While the number of Building Permits issued was less than those issued last year, the valuation is greater; this is due in part to The Foxboro Company erection of an addition at an estimated cost of \$700,000.00 and the Central School Addition with an estimated cost of \$383,824.00.

The Civil Defense Program for the Town of East Bridgewater is now under the direction of Mr. Arthur H. Horte, Jr., Civil Defense Director, who was appointed on June 17, 1963. The Headquarters is located on the second floor of the Elmwood Fire Station with meetings being held regularly; Mr. Horte will be glad to supply information and literature upon request.

Summary of fees collected by the Selectmen's Office during 1963:

5 Club Licenses—All alcoholic @ \$300.00	\$1,500.00
3 Package Store Licenses—All alcoholic @ \$200.00	600.00
1 Package Store License—Malt and Wine @ \$200.00	200.00
3 Common Victualer, all alcoholic license @ \$300.00	900.00
1 Class 1—Agent's and Seller's License @ \$25.00	25.00
8 Class 2—Used Car Dealer's License @ \$10.00	80.00
6 Class 3—Motor Vehicle June License @ \$10.00	60.00
12 Common Victualer's Licenses @ \$2.00	24.00
9 Sunday Licenses @ \$5.00	45.00
2 Slaughter Licenses @ \$1.00	2.00
86 Gas Permits @ \$3.00	258.00
17 Special Licenses @ \$2.00	34.00
66 Sunday Entertainment Licenses @ \$2.00	132.00
55 Sunday Dancing Licenses @ \$2.00	110.00
2 Sunday Juke Box Licenses for 1 year @ \$50.00	100.00
1 Taxi License @ \$6.00	6.00
Building Permit Fees:	REWRITE COPY
For 1962 \$ 15.00	
For 1963 \$1,584.00	1,599.90
Refund advertising fees paid for Public Hearings, etc.	28.20
	<hr/>
	\$5,703.20

The Board of Selectmen wish to extend a cordial welcome to all the new citizens of the Town. The Board meets every Monday evening at

7:30 P.M. at the Town Office Building, and will be pleased to meet with the townspeople regarding inquiries, suggestions and complaints.

The Selectmen wish to express their sincere appreciation for the friendly cooperation which they have received from all Town Officials, employees and townspeople during the past year.

Respectfully submitted,

CHARLES L. LELAND

JAMES E. O'BRIEN

ROBERT S. PHILBRICK

Board of Selectmen.

Report of the Chief of Police

To the Honorable Board of Selectmen:

The following is the report of the activities of the Police Department for the year ending December 31, 1963:

Crime Against Property:

Breaking and Entering during the Night-time	12
Breaking and Entering during the Daytime	5
Larceny	32
Malicious Damage to Property	26
Stolen Cars	6
Stolen Cars Recovered	9

Violation of Motor Vehicle Law:

Traffic Violations	111
--------------------	-----

Miscellaneous:

Accidents investigated	101
Accidents not investigated	21
Aid calls	77

Ambulance calls received for the following:

Brockton Hospital	144
Goddard Hospital	9
Phaneuf Hospital	15

Foxboro Hospital	4	
Boston Hospitals	15	
	<hr/>	187
Arrest		34
Complaints investigated		624
Court Cases		40
Dog complaints received and investigated		153
Emergency calls		110
Fire calls answered		45
Persons notified		61
Resuscitator calls		22
Summonses served		145
Telephone calls answered		9,115
Telephone calls responded to		1,412
Total fines received		\$1,305

As you will note from the above record, during the eight years I have been Chief of Police in East Bridgewater, the year 1963 has proved to be one of the busiest. Through the efforts of two additional Police Officers, which the townspeople voted for at our Annual Town Meeting on March 4, 1963, we were able to give 24 hours of coverage daily, as well as to cope with the extra work load.

New members joining the Police Department this year are as follows: Roy Anderson and Norman Salvas started working April 1, 1963; Ralph Swartz came on in July 1963, and Harold Marland in September 1963. Sgt. Tardie, Officers Douglass, Anderson, Salvas, and Swartz are taking courses at Northeastern University which covers "Law Enforcement Procedures" in police work. Officer Marland comes to us with six years experience as a Police Guard at the Watertown Arsenal, a World War II Navy veteran and resident of our town for over 13 years.

I wish to thank the officers and members of the Civil Defense unit for their assistance with traffic duty, and on behalf of the town and the Police Department, I express my gratitude to these men who contributed their time to this worthy cause.

In closing, I wish to take this opportunity to publicly thank the Board of Selectmen, Town Officials, neighboring Police Departments, state and county officers, for their assistance and cooperation during the past year. I also wish to express my sincere appreciation to the members of the Police Department for their fine work during the year.

Respectfully submitted,

WALTER A. BENOIT,

Chief of Police

Report of the Moth Superintendent

To the Board of Selectmen and the Residents
of East Bridgewater:

The Moth Department is a functional part of the Tree Department and operates chiefly during the spring and summer months. The Conflict of Interest Law that affected the Tree Department also hampered the Moth Department greatly in the performance of its duties during the summer season.

The foliage spraying of town trees which is usually done in June was made impossible because of the condition stated above. However, the department plans to carry out an extensive tree spraying program during the coming year. A new insecticide was used for this purpose during the summer of 1962 with excellent results. This material has been tested and proven to be very safe, yet effective, in the control of many insects. The department will use this insecticide in the coming year in its foliage tree spraying program.

The spraying of poison ivy became a large part of our operation, as in the past. This spraying has been done during the months of June, July, and August for the past several years and has produced good results; however, this nuisance is still prevalent. There is such a large area to be covered, including all the roadsides and much private property, that the complete control of poison ivy will entail an annual spraying program for many years to come. The department hopes to carry out this program during the future years.

There has been much controversy, during the past two years, about the use and misuse of pesticides. Insecticides, which are chemicals used to control insects; and herbicides, which are chemicals used to control the growth of brush and weeds, come under the heading of pesticides and are used by the Moth Department. The controversy on pesticides, which has become nation-wide, has caused the Massachusetts legislature to pass a Pesticide Law. This law, in brief, governs the use of Pesticides on other person property, amounts allowed on foodstuffs, the disposal of containers, and makes it mandatory that all persons using and/or spraying pesticides on the land of others be licensed. Your Moth Superintendent has, over the past several years, kept abreast with the safe use of pesticides, through organizational meetings, conferences, short courses, and reading. During the past four months I have attended several meetings and a short course, preparing for the pesticide licensing examination which will be given sometime during the first half of 1964. The department has always kept the safety and well being of the townspeople and the town in mind in the use of these materials and will continue to do so in the future for the good of all concerned.

In closing, I wish to express my thanks to my capable workmen, other town departments and officials, and the townspeople for their support and understanding in my work during the past year.

Respectfully submitted,

AUGUST J. DUBE, JR.,

Moth Superintendent

Report of the Tree Warden

To the Residents of East Bridgewater:

The Tree Department was hampered in its normal duties during the months of May, June, and July, during the year 1963, because of the lack of trucks. The department had been renting trucks, at a low fee, as a normal procedure for several years, but the Conflict of Interest Law passed by the Massachusetts legislature which became effective May 1, 1963 prevented the rental of these trucks from certain persons. The town was forced to purchase trucks for the use of the Tree Department. Therefore, during the process of appropriating money, advertising and awarding bids, and waiting for the delivery of these vehicles, a period of three months had passed in which time the department did as much as possible under such conditions. The department now has one ½ ton pickup truck and one 2½ ton platform dump winch truck which have been found to be very satisfactory.

A major function of the department is the removal of dead, diseased, and badly damaged trees. There were 40 Elms, 6 Maples, 6 Ash, 2 Hickory, 2 Poplar, 2 Spruce, 1 Chestnut, 1 Oak, and 1 Hawthorn removed for the above reasons, making a total of 61 trees removed during the year. The Dutch Elm Disease was the cause of all the Elms removed which constituted about 66% of the total number of trees taken down.

There has been an increasing effort by the department to replant more trees than have been removed. A total of 132 trees were planted along the town streets during the spring and fall of 1963. The varieties planted were Sugar, Norway, and Red Maples, Littleleaf Linden, and Imperial Locust. These trees were planted where others had been removed and in front of new homes and open spaces which had been void of trees. It is worthy of note that for the past two years there have been over twice as many trees planted as removed and the department hopes to continue this practice in the future.

The Town Nursery, now operating in its sixth year, was maintained during the summer months with pruning, cultivating, and fertilizing done when necessary. The addition of two "healing-in beds" of wood chips for the purpose of holding trees purchased from other nurseries and/or dug from the town nursery has been an asset in this phase of our work.

The department performed its other usual duties of pruning, cabling, surgery, stump removal, and the cutting of brush along the roadsides throughout the year. A special effort was given to the cutting of brush along the roadsides, during the winter months, with several streets being cleared of brush. This work will continue in the future with the hope of ridding the roadsides of this sometimes hazardous nuisance.

A private tree company operating for the Brockton Edison Company and under the jurisdiction of the Tree Department did trimming on all town trees involving Edison Company utility lines. The town was

completely trimmed of interfering, broken, and/or dead limbs wherever these utility wires were involved. This trimming was done, at no cost to the town, with standard procedures during the months of February, March, April, and May.

The Tree Department is asking for an appropriation in an article at the coming annual town meeting to purchase a new brush chipper. This new chipper is to replace the old chipper which was used when purchased three years ago and which has been a great asset to the department in its work. The above requested equipment, the department feels, is in keeping with the steady growth of the town which requires an increase in services from the Tree Department.

I wish to express my sincere thanks to my employees, other town departments, and the townspeople for their understanding, co-operation, and assistance during the past year.

Respectfully submitted,

AUGUST J. DUBE, JR.,

Tree Warden

Report of the Dog Officer

To the Honorable Board of Selectmen
East Bridgewater, Massachusetts

Gentlemen:

I hereby submit my report as Dog Officer for the year ending December 31, 1963:

Incidents or cases brought to my attention:	
By telephone	189
By personal contact	57
Total	<u>246</u>

Results of investigations:

Resolved complaints of dogs creating nuisances	42
Picked up dogs killed on roadways	33
Picked up stray dogs	71
Returned dogs to owners	54
Disposed of animals	14
Dogs destroyed	3
Persons bitten by dogs	17
Property destroyed by dogs included:	
5 sheep	1 fawn
10 hens	

I wish to express my great appreciation to the Honorable Board of Selectmen, to the Police Department and Mrs. Anna Benoit, and to the townspeople for their support in this work.

Respectfully submitted,

EDWARD D. KENNEALLY

Report of the Board of Water Commissioners

Honorable Board of Selectmen

Dear Sirs:

The year 1963 has been a busy one for the Water Department.

450 ft. of 6 in. pipe was laid on King Place
 4055 ft. of 6 in. pipe was laid on Summer Street
 259 ft. of 6 in. pipe was laid on Ashley Drive
 950 ft. of 6 in. pipe was laid on Batti Avenue

The Department made 86 new services and 29 renewals.

We were unable to use an appropriation of \$1,000.00 for a forced flushing of our main lines due to an extended dry spell, and the City of Brockton discouraged our performing this task.

It was a year of frustration in our Test Well Investigation program. Ninety-five test holes were drilled in all likely spots in town with negative results except in two localities. One location is on Pond Street directly across from the Kirkwood property. The other point is in the rear of the A. R. Parker estate. It is the considered opinion of the Whitman and Howard Engineering Corp. that these locations warrant further Test Well development.

Nine new hydrants were put in by contract and six by the Department.

The Water Department thanks all departments for their cooperation during the past year.

ARTHUR W. ASH, Chairman

JOHN J. CLARITY, Clerk

WILLIAM F. HENNESSEY

Board of Water Commissioners

Report of the Study Committee For Refuse Disposal Problem

At the last annual town meeting, the citizens of this town, under Article 41, voted this committee the sum of one thousand dollars, to cover the town of East Bridgewater's share of the cost of a proposed study of refuse disposal methods on a regional basis. As of the present time, no expenditures have been made from this account.

After several open discussions at our invitation, only two towns, namely Hanson and Whitman, were found to be interested in exploring this matter further.

An article placed in the Whitman town warrant for their share in the cost of the proposed study was disapproved. However, the Public Works Department is still interested in this problem.

The Hanson Board of Health failed to put in an article in order to secure funds for this study. Their opinion being that the voters would not approve of the financial expenditure at that time.

Without the participation of the town of Hanson, the sum of one thousand dollars, plus Whitman's share, would not be enough for the town of East Bridgewater to conduct their own engineering study.

This committee felt that discussions should still continue with these towns in order to bring about a regional solution for refuse disposal.

In April of 1963, we were informed by the Hanson Board of Health that an article was being placed before a special town meeting to establish a refuse disposal committee. In May we were told that this committee was formed. Due to a legal technicality the refuse disposal committee could not become effective until August. After further communications, we were able to meet on a tri-town basis at the convenience of all concerned in November.

This meeting was held in Hanson. Mr. Cole, a Public Works Engineer from Hingham, was invited to speak on the details of refuse disposal pertaining to Sanitary Land Fill which the town of Hingham used as their solution. Many issues were discussed and many helpful ideas learned.

Prior to this meeting, Mr. Robert Hall from the Board of Health and members of this committee went to view the Hingham Sanitary Land Fill procedure. An outstanding job was being done to alleviate the problems encountered in refuse disposal.

On November 29, correspondence was received from the Hanson disposal committee regretting to inform us that at the present time the committee was not in favor of a Tri-Town disposal site. Although, they would still be available for any information if we so desired.

After receiving this information, we promptly communicated with the above mentioned committee to find out reason for decision. It was

noted that another proposal was put before them that they wished to consider.

This committee is still working on the problem and every effort is being made to resolve it.

We wish to thank the Board of Health, especially Mr. Robert Hall, who has been very helpful and has given much of his time to this problem.

Respectfully submitted,

ROBERT GARRON, Chairman

MICHAEL PEPPE, Vice-Chairman

HERBERT BUTLER, Secretary

ROBERT LUNDBERG

PHILLIP BAILEY

Report of Public Sewerage System Study Committee

To the Board of Selectmen and the Citizens of the
Town of East Bridgewater

Gentlemen:

The results of our studies are herewith submitted in brief as far as this report is concerned, as an exhaustive study was made by Camp, Dresser & McKee, our Engineers, who in turn compiled all of their findings in a very detailed manuscript. This manuscript is on file in the office of the Town Clerk, also with the Selectmen, and a copy has been placed in the East Bridgewater Public Library for the convenience of the home owners of the Town. This manuscript contains an engineering investigation and also a developed comprehensive plan for the collection and disposal of sanitary sewage waste from the populated areas of East Bridgewater and is summarized as follows:

SUMMARY

The present population of the Town of East Bridgewater is approximately 6,300 persons, and the total estimated population up to the year 2010 is projected to be about 14,800 persons. Of this future population of about 14,800 persons, it is estimated that about 11,200 persons will be living in areas served by the present water system and tributary to

proposed sewerage system. The remaining future population is expected to reside in areas which cannot economically be connected to the proposed sewerage system. The sewerage facilities proposed for initial construction will serve about 4,000 persons and can be expanded to serve the proposed future population of 11,200.

Although the municipal water system serves most of the present population of East Bridgewater, no municipal sewerage system has been constructed within the Town. There are two separate centers of population within the Town which need sewerage facilities. The principal area is located in the center of the Town and the secondary area is located near Robbins Pond. Our studies indicate that the cost to provide a system common to both population areas would not be economically feasible. Accordingly, it is recommended that two separate treatment works be constructed. Studies have been made of alternate methods of sewage treatment and, as a result of these studies, it is recommended that sewage stabilization ponds be constructed as part of the initial construction near Elmwood to treat the sewage from the central portion of the Town and that sewage stabilization ponds be constructed later near Robbins Pond to serve the latter area. The locations recommended for sewage stabilization ponds are in undeveloped areas of the Town. Both are located in areas subject to flooding but each would be protected by constructing the top of the dikes above high water level. In both cases, sewage tributary to the stabilization ponds would require pumping.

Sewage stabilization ponds are shallow (3-5 feet in depth) in which the sewage is "stabilized" by the action of micro-organisms growing in the ponds. Such ponds provide a high degree of sewage treatment and are simple to operate and maintain inasmuch as mechanical equipment is not required. Because of the high dilution provided by proper design of the pond, the liquid is not recognized as sewage. This high degree of dilution, together with natural purification processes which provide an abundance of oxygen, allows the stabilization of sewage under aerobic conditions and therefore prevents the occurrence of odors due to septic conditions. There are many of these stabilization ponds in New England which have been operating satisfactorily for many years.

An initial construction program is recommended which would include stabilization ponds at the Elmwood site, a pumping station at the intersection of Whitman Street and the Matfield River, a 20-in. force main between the pumping station and the stabilization ponds, the Matfield River interceptor from the center of the Town, down to the pumping station and the collection system of sewers.

The total cost of the proposed initial construction program is approximately \$1,676,000. Public Law 660 provides for federal grants-in-aid to a municipality in the amount of 30 per cent of the cost of the intercepting sewers, pumping stations and treatment works, or \$600,000, whichever is smaller. It is estimated that about \$331,000 in federal grants will be available for the initial construction program. The remaining cost to East Bridgewater would then be \$1,345,000. This cost includes allowances for engineering and contingencies and is based on estimated construction costs in 1964. The total cost of land takings and easements is not included but has been estimated to be about \$67,000.

It is recommended that this amount be financed by thirty-year bonds which would be repaid partly by an increase in the general tax and partly by a sewer assessment. The general tax rate would have to be increased by about \$4.10 per \$1,000 to provide about \$1,060,000. The sewer assessment would amount to about \$6.30 a front foot to provide a total of about \$285,000.

Inasmuch as the Matfield River is expected to be classified in the near future and in view of the present need for a sewerage system within the Town, East Bridgewater will probably be required to construct sewage treatment facilities soon. Considering the present availability of federal aid for this project and in view of the fact that construction costs are increasing at the average rate of 5 per cent per year, we recommend that the Town give consideration to starting this project as soon as possible. In any event, we strongly advise the Town to take the necessary steps promptly, to acquire the proposed stabilization pond sites to insure their continued availability.

The possibility of regional treatment was considered in the course of preparing the report, and it was found not to be economically feasible. In this study, the possibility of treating waste waters from Abington, Rockland and Whitman at a regional treatment plant in East Bridgewater was considered. Intercepting sewers would have to be constructed to intercept waste waters from the towns and carry the waste to the treatment facilities. The cost of constructing interceptors of sufficient size and length for this purpose would be prohibitive. With the expected quantity of waste water that would require treatment at a regional plant, there would not be sufficient land available in East Bridgewater to utilize stabilization ponds. A more elaborate type of treatment facility would have to be constructed, imposing an increased burden on all concerned.

The need for more industry in East Bridgewater to expand the tax base has been pointed out in a recent comprehensive planning report to the Town. Visits made to various industrial plants in the Town in connection with the sewer report indicated that there was a keen interest in a sewerage system for the Town and a desire to be connected to any future sewerage system. On this basis, the presence of a sewerage system in the Town will most definitely attract new industry.

The committee has tried hard to make a comprehensive study of the sewerage requirements of the Town of East Bridgewater and we are exceedingly indebted for the co-operation of the many departments which contributed time and effort in order that we could prepare factual information and also documentary evidence and advice.

Respectfully submitted,

Chairman

As the preparation of this report was made at an early date (in December) to comply with the mechanics of town procedure, further study has been made of the possibilities of decreasing the size of the effected area and in conjunction serious thought to the theory of an activated sludge plant more adjacent to the central area.

Report of the Town Planning Board

To the Board of Selectmen and the Citizens of the
Town of East Bridgewater:

We respectfully submit our report for the year ending December 31, 1963.

At the annual March election, three members were elected to the Board; namely: John Alexander, John C. Wheatley and Thomas J. O'Brien.

In March our organizational meeting was held with the following officers being elected: Elmer B. Hayes, Chairman; Thomas J. O'Brien, Vice-Chairman, and Edward W. O'Neil, Clerk.

Regular meetings have been held on the second and fourth Mondays of each month with the exception of the months of February, November and July, when one meeting was held in each month, and one special meeting in July.

SUBDIVISIONS SUBMITTED TO THE PLANNING BOARD:

The Preliminary Plan of land off Harvard Street, owned by Arthur Brusseau, containing 12 lots, known as Harvard Acres, was not approved for home building until there is public sewerage.

The Definitive Plan of land off Washington Street, owned by Bellevue Construction Co., Inc., containing 77 lots, known as Bellevue Acres, was approved upon the posting of a performance bond, to insure the completion of the ways and necessary services in compliance with the East Bridgewater Subdivision Control Regulation.

The Definitive Plan of land off Central Street, owned by Paul Morris, containing four lots, known as Lynn-Lee Terrace, was approved.

The Definitive Plan of land off Allen Street, owned by Frances Caland, containing two lots, was approved.

Building permits for 150 constructions, received to December 31, 1963, as issued by Building Inspector, are in the following classifications:

Dwellings	76
Garages	22
Additions to existing buildings	18
Miscellaneous buildings	27

Sixty-nine building permits for dwellings have been signed by the Building Inspector under the "Subdivision Approval not required" clause and only seven building permits were issued in Subdivisions.

In closing, may we extend our thanks to the Board of Selectmen, all other departments of the Town and the Townspeople, for their cooperation with us in our program.

Respectfully submitted,

ELMER B. HAYES, Chairman

THOMAS J. O'BRIEN, Vice-Chairman

EDWARD W. O'NEIL, Clerk

ERNEST C. PHILBRICK

JOHN C. WHEATLEY

Plymouth County Mosquito Control Project

In reporting on the project's activities and accomplishments in 1963, there have been several advances made toward the project's number one objective: Namely, the drainage of infected wetlands known to contain species capable of transmitting encephalitis or other virus.

The Eastern equine encephalitis continues to be vital to southeastern Massachusetts, as research in this area shows virus activity is yet present in wild birdlife. We hope we have been instrumental in the fact that there have been no human cases of this virus reported during the last six years. We will continue to emphasize the locating and treating of breeding sites of the vector species of mosquitoes.

The ditch reclaiming phase of control continues to be the best investment in a long range control program. It not only eliminates sources of breeding, but gradually reduces the repeated costly applications of insecticides. Our power-trencher has been concentrating on inland town problems during the warm weather months. I feel we can accomplish more in our coastal salt marshes during the cold weather periods, utilizing the frost in the ground for greater buoyancy in these areas. Weather permitting, our power unit will be operating the year round.

Aerial spraying for adult mosquitoes is important where a serious nuisance develops and immediate results are necessary. Control of this type is temporary and costly. The project was not designed to expend large sums on this type of control, yet we find it a valuable supplement to our long range efforts. The increasing trend toward outdoor living during the vacation season has added tremendous pressure on the project for temporary control with our five truck-mounted units. We are finding it impossible to satisfy each individual property owner, as we are not set up financially for this type of operation. Our weekly larval inspections and treatment of filter systems, sewage areas, dumps, public parks, ball fields and public gatherings were seriously hampered by increased requests for back yard spraying this past season.

We are cooperating with the newly organized Pesticide Board and adhere to all State and Federal rules and recommendations as regards pesticides.

Our sincere thanks to your town officials, and your Tree, Health and Highway Departments for their splendid cooperation.

Respectfully submitted,

M. CURRIE BEATON, JR.

Superintendent

Plymouth County Aid to Agriculture

(PLYMOUTH COUNTY EXTENSION SERVICE)

by

Robert B. Ewing, County Agent-Manager

The primary responsibility of the Extension Service is as the 1914 law states "to aid in diffusing among the **people** of the United States useful and practical information on the subjects relating to Agriculture and Home Economics and to encourage the application of same."

Resources of the University of Massachusetts and the United States Department of Agriculture are available to the Staff of the Plymouth County Extension Service because of a mutual assistance agreement.

To make this service available to you funds are provided by the Federal, State and County governments. Thus the name — Cooperative Extension Service.

Since 1915, when the Plymouth County Extension Service was organized and established, educational information pertaining to Agriculture, Home Economics and 4-H Club Work has been given free to citizens of Plymouth County.

The Extension Service office is located in the Court House, Brockton, Mass., and is staffed by agents who conduct programs in Agriculture, Home Economics and 4-H Club Work by furnishing educational information through farm and home visits, letters, newspaper articles, radio talks, meetings, office visits and telephone calls.

You are invited to make full use of the services provided by the Extension Service but should remember that although the Extension Service furnishes the information, it is you who makes the decision as to how the information may be used to best advantage.

Requests for information can be directed to the Plymouth County Extension Service, Court House, Brockton, Massachusetts.

The Board of Trustees, appointed by the Plymouth County Commissioners, administer the Plymouth County Extension Service program and and is composed of the following members:

MR. JOHN PRENTICE, Plymouth, Chairman
 MRS. ELVA BENT SWARTZ, Brockton
 MR. LEWIS BILLINGS, Plympton
 MRS. MABEL CHANDLER, Duxbury
 MR. JOHN DUFFY, Halifax
 MRS. GLADYS GIBBS, Hanover
 MR. ROBERT HAMMOND, Wareham
 MR. JOHN HOWE, West Bridgewater
 MR. GILBERT BLACKLEDGE, Whitman

Report of the Town Collector

To the Honorable Board of Selectmen and the
Citizens of the Town of East Bridgewater, Mass.

Dear Sirs:

Rendered herewith for your attention is a condensed report of the
Town Collector's Department for the calendar year of 1963.

<i>Recapitulation</i>	<i>Total Receipts</i>
Real Estate Taxes	\$773,918.50

Report of the Inspector of Wires

To the Honorable Board of Selectmen,

Town of East Bridgewater, Mass.

I hereby submit my report for the year ending 1963.

Edison Permits	245
Services	169
Locked Premises	17
Rough Wiring	82
Added Wiring	32
Not Accepted	12
Oil Burners	107
Electric Dryers	44
Electric Water Heaters	45
Electric Ranges	23
Fire Calls	3
Signs	3
Carnivals	2

All inspections were based on the latest edition of the National Electrical Code, with no special rules.

Again it is evident that this office has been self-supporting through the fee system.

I wish at this time to thank the honorable Board of Selectmen and the Town Clerk's Office for the valuable assistance in issuing permits and aid to this department.

Respectfully submitted,

ALBERT M. GREINER,

Inspector of Wires

East Bridgewater, Mass.

Report of the Librarian

The 79th annual report of the East Bridgewater Public Library for the year ending December 31, 1963 is herewith presented.

In appraising the activities of the past year, the growth of the library role in the community is happily the outstanding factor. One of the last strongholds to stimulate and encourage individual tastes and selection, the library strives to have meaning for as many people as is possible.

From the beginning of National Library Week on Sunday, April 14 with the radio broadcast from the main library of Miss Freddie Seymour's interview of Mr. Dale Peterson on the *Image of the United States in the U.S.S.R.* and the tea which followed, to the assembly program and reception sponsored by the high school library assistants, to the final day's wonderfully successful *Books On Parade*, the program was one of wide community participation.

Further affirmation of the town's interest and belief in the merit of the library was evidenced at the annual town meeting which voted funds to erect a balcony addition over the present stack room areas. The approval of the project by the Federal Housing and Finance Agency's Accelerated Work Program, which was not received until September 13th of this year, delayed construction until January 1964. However, the acceptance of the grant by the trustees assured the return to the town of matching funds for the cost of construction work. The project has, also, been approved by Robert Robichaud, town building inspector. The time table, as prepared by the government agency, set January 3rd as the date for opening the bids of the general contractor, with work to start on the 20th of January. With much attention given to expanding facilities and services, consideration was given to maintaining the excellent condition of the main building. Copper valleys were renewed on both the north and south roofs and tiles were tightened and replaced on the tower evidence of a carefully planned program of building maintenance.

The action of the trustees in allowing the library to open its doors to small groups desiring meeting space is proving a wise one. Many new patrons have become aware of the library through this policy. The more the library can impinge upon the public consciousness, the greater the contribution it can make. Our adult registered borrowers number 31% of the population, which is an increase of 8% over last year's and places the figure well within the 20-40% recommended by the American Library Association.

In the larger community outside, the library was able to aid in the project *Books for Jamaica*; be represented on the South Metropolitan area board studying the proposed Eastern Massachusetts Regional Library System, attend the Pioneer Library Group, Massachusetts Library Association, New England Library Association and Old Colony Library Club meetings; accept an invitation to become a member of the Cana-

dian Film Circuit; be a participating member of the Eastern Massachusetts Book Review Committee and, in general, maintain those contacts valuable in keeping abreast of current library problems.

With ever increasing amounts of legislative action affecting libraries, local libraries have cause to be grateful for the newsletters and memoranda issued by the Division of Library Extension. The new amendment to the State Aid Bill which now is truly an aid bill was one of the recent successes of the leadership of this group. From 1964 on, the state aid money will come to the town as new money from the General Fund. The statistics used by the trustees in preparing the proposed annual budget were furnished by the Division.

The school library program assumes more and more space both in time and money as the enrollment and demands of the town's educational system increase. The high school library continues offering the best in books, reading guidance, ideas and ideals. It is an extremely exciting branch of our library service for the young people are keen and eager to be the intelligent citizens of tomorrow. The thirty student assistants do not limit their training and accomplishments to the high school alone. With care they prepare, under the librarian's supervision, displays and book lists for the main library, children's department, and town clubs. The circulation figures at the high school branch do show growth. But there are other areas in which service can advance. Nothing is as essential as complete faculty-student-library cooperation. We experienced full cooperation from retired Principal Emery S. Loud and are fortunate to find in his successor, Raymond A. Hamilton, a man alert to the needs of the student in the library.

This has been a productive year for the high school library. But it is only the last step in the progressive school library program which starts with the Central School Library. Here full expansion of library service is now possible using the room in the new addition. In the new library, service can be extended to include Grades 1 and 2, hitherto served only by book deposits. With 27 classes in the school and a population of roughly 900, the need for a full time elementary school librarian is self evident. We have asked that a fully qualified person be employed to serve as Central School Librarian. To quote Charles Adams, Director of School Libraries in the Division of Library Extension, "Our elementary school children are not provided with enough library materials or the required training in the use of them. Because of this they are being placed under a handicap as they progress through their formal education and out into the world." The people of East Bridgewater should be proud that this can no longer be said of their children in grades 1-5 and 9-12.

Deprivation is still part of the library picture in grades 6-8, due to crowded conditions in the Intermediate School building. However, the children's librarian can now add an additional 1½ hours daily to the 1½ hours already available to these grades thus greatly improving the situation. These grades will now have 15 hours a week of supervised library service using a good basic collection.

The activities in the children's department crowd the room daily from 9 a.m. until 5 p.m., serving all children from pre-school age through

the eighth grade. Statistics reveal the amount of work encompassed but do little to illustrate the rewards of pleasure and stimulation that comes when the right child and the right book meet at the right moment. Miss Rosemary Coleman, completing her first full year with us deserves recognition for her professional competence.

To acknowledge by name the many individuals, groups and organizations who have supported the ideals of good library service with gifts of their creative talents, money, volunteer work, memorial gift books and flowers would lengthen this report beyond reason. One is only conscious that, without the good will of all, the work of the library would not be possible.

To the library personnel and trustees I extend my sincere thanks for their enthusiastic and capable performance of their duties.

Respectfully submitted,

GRACE EASTMAN, Librarian.

Report of the Civil War Centennial Committee

To the Honorable Board of Selectmen

Dear Sirs:

The fourth annual report of the East Bridgewater Civil War Centennial Committee is herewith presented.

At the first meeting of the year, the following officers were all re-elected: Frank M. Adams, Chairman; Allen Howland, Vice Chairman; Margaret O. Alexander, Secretary; Margaret E. McCarthy, James E. O'Brien, Stanley B. Goldman, Grace Eastman, James Goodwin and Philip Carey completed the committee membership. There were eight meetings held during the year

It was decided early in the year of 1962 that the committee would keep expenditures at a minimum for the following three years to assure sufficient funds for a special occasion in April of 1965. The present plans are to sponsor a parade and pageant on April 19, 1965. A Committee has been working on a draft for the pageant to be presented at that time.

One project that was of considerable size and importance was the listing of all veterans' graves in the town of East Bridgewater and the proper marking of each. Mr. Allen Howland is to be commended for the amount of time and work he put into this project. All markers were replaced in the Old Cemetery on Central Street, new markers were placed in the Central Cemetery and Mr. Howland repainted and repaired others so that to the best of the committee's knowledge, every veteran's grave in East Bridgewater is properly marked (i. e. Civil War, Revolutionary War, World War I, etc.)

In November, a meeting open to the public was held at the Library. Mr. James Goodwin showed slides that had been purchased by the committee.

Two associate members were added to the committee during the year. They are Mr. Wayne Johnson and Mr. Edward S. Whitmarsh.

Respectfully submitted,

FRANK M. ADAMS,

Chairman

Report of the Gas Inspector

To the Honorable Board of Selectmen and the
Citizens of East Bridgewater:

I hereby submit my report as Gas Inspector for the Town of East Bridgewater for the year ending December 31, 1963:

Number of Permits issued	93
Number of Inspections made	117

I wish to thank the Board of Selectmen for their cooperation during the past year and am looking forward to continuing the same type of relationship in the future.

Respectfully submitted,

FRANCIS E. HALL,

Gas Inspector.

Report of Regional Vocational-Technical School Planning Committee

On January 29, 1963, a meeting was held in Brockton for the purpose of organizing a new Vocational Regional School District Planning Board comprised of the City of Brockton and the towns of East Bridgewater, Easton, Foxborough, Mansfield, Norton, Sharon, Stoughton and West Bridgewater.

Your Committee has attended regular monthly meetings. The members have actively participated in sub-committee work relative to site selection, finance, curriculum, and preparation of a brochure to be distributed to each household prior to the annual Town Meeting in 1964.

In November 1963 the City of Brockton voted to accept the provisions of Chapter 489 of the Acts of 1963. If two or more of the above mentioned towns also vote to accept Chapter 489, then a Regional Vocational School District will be formed.

There is, of course, no guarantee that all eight towns will vote to join the District; however, there are at least two additional towns which have indicated a desire to join the District in the future.

At the present time, boys from East Bridgewater attend vocational schools in Taunton, Hanover, Brockton and Quincy, on a tuition basis. It is the feeling of this Committee that more boys would take advantage of a vocational education if we could offer them a school in which the town had a direct interest as a contributing and administering member.

After two years of intensive study, it is the unanimous decision of this Committee that a need does exist for the establishment of a Vocational Regional School and we recommend that the voters of East Bridgewater be given an opportunity to join such a District, by placing the question on the ballot at the Annual Town Meeting in March 1964.

BREWSTER W. FULLER, Chairman

CHARLES W. WILLIAMS, Vice-Chairman

ROBERT B. EWING, Secretary

Report of Public Health Nurse

Miss L. Gladys Farren, R.N. — Public Health Nurse

Mrs. George Mahar, R. N. — Staff Nurse

Office — Town Office Building

Hours: 9 A.M. - 5 P.M., Monday thru Friday

Phone: DR 8-2391

To the Board of Selectmen:

Total Home visits	3,122
Total People served	668
Total Nursing service	1,302
Total Health promotion	1,820

These visits were paid for as follows:

590 were paid to the East Bridgewater Nursing Association:
 356 by the patients @1.50 each
 234 by American Cancer Society or Blue Cross

2,269 were credited to the town appropriation:
 546 Nursing service to people needing financial help
 1,723 Health education visits

Clinics of the Board of Health Services:

Immunization clinics are held yearly in March, April and May.

These are:

Sabin Polio Vaccine Clinics	9
Oral Polio Vaccine Type I	244
Oral Polio Vaccine Type II	3,062
Oral Polio Vaccine Type III	206

D. P. T. Antigin & D. T. Antigin Clinics:

D. P. Antigin

Total 186

D. T. Antigin

Total 250

Well baby clinics are held on the first Thursday of every month. 128 infants and children under 6 yrs. old were examined this year.

Chest x-ray clinic — 665 Townspeople were x-rayed by mobile unit x-rays including tuberculosis contacts and food handlers. This service was arranged by the Board of Health and the Plymouth County Health Association to provide a valuable service to the community.

Boston University School of Nursing sent us four graduate nurse students for field training in Public Health nursing.

The year 1963 has been the busiest year in the history of the Public Health Nursing Service. This additional work made necessary the addition of a full time staff nurse. Many meetings were attended so that the nurses would be fully informed on the many phases of new medical developments. The nursing service makes every effort to cooperate with the Board of Health and all other state and local agencies to meet the needs of the families it serves.

Respectfully submitted,

L. GLADYS FARREN, R. N.

Public Health Nurse.

Report of the Building Inspector

Honorable Board of Selectmen:
Dear Sirs:

I hereby submit my report as Building Inspector for the year 1963.

Number of building permits issued	150
Industrial permits	16
New home permits	85
Remodeling and additions	48
Addition to Central School	1
Total amount paid to Town Treasurer for permits	\$ 1,584.00
Total estimated value Industrial permits	1,153,074.00
Total estimated value residential permits	960,295.00
	<hr/>
	\$2,113,369.00

I would like at this time to thank all the Town Departments and the citizens of East Bridgewater for their cooperation given me during the past year.

Respectfully submitted

ROBERT J. ROBICHAUD

Building Inspector.

Report of the Fire Department

To the Board of Selectmen

Gentlemen:

Herewith is my report for the year ending December 31, 1963. During the year the department responded to 173 calls, of which 58 were still alarms and investigations, 4 false, 4 aid, 68 woods and grass, 33 building and cars, and 62 calls to the dump.

Practice drills were held twice a month throughout the year. These drills consisted of instruction on the operation and use of all firefighting equipment, laying of hose lines, different types of hydrant hook-ups and all phases of fighting fires.

Six hundred and sixty-four permits were given for outdoor fires.

Two males lost their lives due to asphyxiation caused by superheated air.

At the Central Station, there is:

1 — 1956 Maxim Triple Combination Truck capable of pumping 1000 gallons a minute and a water capacity of 300 gallons.

1 — 1959 Combination Dodge Power Wagon capable of pumping 750 gallons a minute from a front mount pump, and water capacity of 600 gallons.

1 — 1937 Buffalo Triple Combination Ladder Truck carrying 200 feet of ladders and capable of pumping 250 gallons per minute with a water carrying capacity of 110 gallons.

1 — 1947 Dodge Forest Fire Truck capable of pumping 200 gallons a minute and a water carrying capacity of 300 gallons.

1 — Evinrude Sportwin, 10 HP, one Duratech Aluminum Boat, Model S-16, and one 1960 Cox Trailer, Model CT-165C.

At the Elmwood Station there is:

1 — 1941 Seagraves Triple Combination Truck, capable of pumping 500 gallons per minute and water carrying capacity of 350 gallons.

The Department has 6200 feet of 2½ inch double jacket hose, 4750 feet of 1½ inch double jacket hose and 1900 feet of 1 inch forestry hose.

Specifications are completed and bids are being received on the proposed new Aerial Ladder Truck.

I would like to extend by gratitude to the Honorable Board of Selectmen and the Finance Committee for their co-operation in the past year.

Respectfully submitted,

MANUEL T. SILVA,

Chief of Fire Department.

Report of Highway Surveyor

To the Citizens of the Town of East Bridgewater:

I hereby submit my report for 1963:

GENERAL MAINTENANCE

The usual maintenance work has been done which consisted of sweeping the roads and all intersections, patching, cutting brush, mowing the road sides and traffic islands, repairing fences and guard rails and painting of same. All signs purchased by the Board of Selectmen were put up

and painted as requested. All catch basins are cleaned periodically and all culverts and drains have been checked and cleaned.

SIDEWALKS

The sidewalks on Bedford Street and North Bedford Street were cut back to line, cleaned and patched. Approximately 500 feet of sidewalk was resurfaced on Plymouth Street; driveway approaches and berms were also done in conjunction with this work. About 200 feet of sidewalk was resurfaced on Elm Street, and the corner of North Central Street and West Union Street was also done. Patching was done in numerous areas where necessary.

Streets sealed in 1963 are as follows: Winter Street from Summer Street to the Whitman line, East Street, Crescent Street from Washington Street to Cedar Street, Shawnee Avenue, Leland Street, Waterman Street, Emerald Street, Central Street from Bridge Street to Lynch's pit, Hudson Street, Pond Street from Washington Street to the Halifax line, Ashley Drive, Maple Avenue, Harvard Street, Pleasant Avenue, Old Oak Street, and the Town Office parking lots and driveways.

Chapter 90 Maintenance work consisted of sealing Washington Street from Plymouth Street to Crescent Street, and Old Plymouth Street, a total for both streets of 10,268 ft. Spring Street was resurfaced with Dense Type I a distance of 6,600 ft. and cement guard posts were set on Washington Street near the cement bridge.

Work has been completed on the Articles voted at the Annual Town Meeting in March 1963 as follows:

Article 16—Elm Street from the residence of Mr. M. F. Foley to Highland Street

Article 17—Belmont Street from the West Bridgewater line to Summer Street

Article 18—North Central Street from Vinton's corner to West Union Street

Article 19—Pond Street from Plymouth Street to Washington Street

Article 20—Thayer Avenue

These streets were resurfaced by mixed-in-place method.

Article 21—Central Street. From the residence of Mr. Howard West to Chestnut Street was capped with 1½ in. of Dense Type I, and from Chestnut Street to Bridge Street, a leveling course of mix-in-place was laid.

Article 24—Oakwood Terrace. Gravel and oil penetration.

Article 30—Prospect Street has been constructed to proper grade and will be completed by penetrating and sealing this spring. The drive from the end of Prospect Street to the Intermediate School is under construction.

Article 15—Plymouth Street Drainage.

Article 26—Drainage for Kingman Circle and Batti Avenue. Due to difficulty in obtaining easements, this work had to be postponed until 1964.

Article 25—Ashley Drive.

Article 27—Spring Street sidewalk.

These two projects will be started as early as possible in 1964.

Article 13—A new Dump Truck was purchased and delivered May 10, 1963

Article 14—Addition to Highway Garage. This work was done by the Highway Department men; it was completed May 31, 1963.

Article 22—Two-way Radios. Civil Defense funds were approved April 29, 1963, and the radios were installed July 15, 1963.

I wish to extend my thanks to all Departments for their cooperation during the past year; also I want to thank the men of my Department for their efficient work and cooperation. A word of thanks too for the men I hire for plowing snow.

Respectfully submitted,

RICHARD M. HENNESSEY,

Highway Surveyor

Report of the Board of Public Welfare

We herewith submit the following report of the Board of Public Welfare and the Bureau of Old Age Assistance for the year 1963.

Due to new legislation there were several changes in the assistance program during the year. On September 1, 1963, assistance grants in all categories were increased by 5.1%. This increase was made because of an increase in the cost of living and applied to all cases except those in boarding and nursing homes. On October 1, 1963 the allowance for transportation was increased from \$4.00 to \$5.00 per month and this was allowed to all persons receiving Old Age Assistance.

OLD AGE ASSISTANCE

During 1963, we received 6 applications for assistance under this program. These 6 cases were approved for payment and added to our rolls. This made 55 active cases aided during the year. There were 10 cases closed, 5 by death and 5 transferred during the year leaving 45 active cases December 31, 1963. The 55 cases received \$45,610.73 of which \$37,-

338.95 was in cash grants and \$8,271.78 as vendor payments for medical assistances. \$112.90 was paid to other towns. We received Federal grants of \$28,742.79 and from the Commonwealth \$11,129.04. We received from other towns \$1,635.43. The town also received reimbursements of \$500.00 from an individual, and from liens \$6,462.50.

MEDICAL ASSISTANCE FOR THE AGED

Under the Medical Assistance for the Aged program, we were aiding 21 cases January 1, 1963. We received 29 applications during the year, 3 were found ineligible and 26 were added to the rolls. There were 15 cases closed during the year and we had 35 active cases which were carried into 1964. \$1,140.00 was paid out as cash payments and \$36,743.30 for medical vendor payments. Federal grants received were \$18,374.72 and the Commonwealth's grants were \$12,796.46.

AID TO FAMILIES WITH DEPENDENT CHILDREN

We had 5 cases on the Aid to Families with Dependent Children program January 1, 1963. We had 14 applications during the year, 11 were approved, making a total of 16 cases. Under this program we aided 12 adults and 36 children. 3 cases were closed during the year leaving at the end of the year 13 cases. \$11,506.49 was paid out in cash grants and \$3,442.95 for medical expenses. We received \$5,674.00 from the Federal Government and \$4,568.99 from the Commonwealth.

DISABILITY ASSISTANCE

On January 1, 1963, we had 4 cases, we received 4 applications of which 3 were approved, making a total of 7 persons aided during the year. 1 case was closed, therefore we had 6 active cases as of December 31, 1963. Cash grants for Disability Assistance was \$3,329.65 and medical payments were \$2,272.05. We received \$2,823.00 from Federal grants and from the Commonwealth we received \$1,298.49.

GENERAL RELIEF

On January 1, 1963, we had 4 cases on General Relief, and during the year we received 11 applications of which 8 were approved and 2 cases denied, one case was withdrawn, making a total of 12 cases aided during the year. 11 cases were closed leaving 1 active case at the end of the year. \$4,187.99 was paid out in assistance including \$1,592.64 for hospitalization and drugs. We received \$2,001.64 from the Commonwealth, and from other towns \$331.81.

Respectfully submitted,

HAROLD F. DOHERTY, Chairman

RICHARD B. LELAND, Clerk

EDWARD S. WHITMARSH, JR., 3rd Member

Report of the Inspector of Animals

Board of Selectmen
East Bridgewater, Massachusetts

Gentlemen:

I herewith submit my annual report as animal inspector.

All Cattle brought into the town by interstate shipment have been inspected.

All cattle in the town have been tuberculin tested with no reactors.

Brucellosis testing has revealed fewer reactor cattle than in previous years indicating that the disease is well under control. Premises having Brucellosis reactors were inspected after removal of reactor cattle and were found to be adequately disinfected.

On my annual barn inspection I found conditions satisfactory. The total number of cattle showed a decrease from the previous year.

On request from the Board of Health one dog was quarantined for the required period of time and found free from clinical signs of rabies at the end of the quarantine period.

Respectfully submitted,

WILLIAM B. WOOD, V.M.D.

Inspector of Animals.

Report of Central School Planning and Building Committee

1963

The Central School Planning and Building Committee started 1963 with the nine room addition under construction.

The architectural firm of Korslund, Le Normand and Quann and the contracting firm of La Plante and Mastropieri, Inc. have both proved to be most reliable and cooperative.

The committee, also, feels that the clerk of the works, Mr. Reginald Conrad, has been most important to the success of our building program. His forty years of experience in construction work, his integrity and diligence have been invaluable.

A bill for accelerated state aid for East Bridgewater on this project was filed in the legislature by Rep. Edward Kirby, and, later on, acted upon favorably.

There have been delays due to circumstances no one could anticipate. The extreme heat for a prolonged period in the summer forced the contractor to lose some time. Also, he has encountered shortages in certain categories of workmen.

Meeting jointly with the school committee, furnishings for the addition were selected.

The pupils are to be moved into the new building following the Christmas vacation. They will find a large, completely equipped kitchen and cafeteria, a spacious library with greatly increased facilities, an enlarged clinic, an audio-visual room and an enlarged black-top area, as well as the nine additional classrooms.

The committee tried to build twelve classrooms, as directed by the town. But as the State Building Assistance Commission refused to approve this, we feel that the present addition of nine classrooms will contribute immeasurably in solving the ever-increasing enrollment problem in the town.

The Planning and Building Committee wishes to thank the townspeople for their patience and support, the School Committee for its cooperation, and Principal Ralph Murray for his great service as a consultant to the committee.

Report of the Board of Appeals

To the Honorable Board of Selectmen:

Gentlemen:

We submit herewith the report of the Board of Appeals for the year 1963.

We have conducted hearings on fourteen cases as follows:

10 petitions approved.

4 petitions disapproved.

We wish to take this opportunity to thank all Town Departments for their cooperation during the past year.

We also wish to thank Mr. Karl S. Nordin and Mr. Robert Gisonna, associate members, who have so ably substituted when a regular member could not attend.

Respectfully submitted,

EDMUND W. NUTTER, Chairman

EDWARD S. MATTHEWS, Clerk

ROBERT A. LELAND

Board of Appeals

Report of the Board of Health

To the Board of Selectmen and
Citizens of East Bridgewater

The past few years the responsibilities of this Board have increased measurably. During the current year your Board has attended many meetings of the Public Sewerage Study Committee, the Rubbish Disposal Committee and the Health Seminar at Wheaton College conducted by the Department of Public Health.

As a result of the "Conflict of Interest" Law, Putnam Steele, who has ably served the Town as a Board of Health member for many years, had to resign. At a joint meeting with the Board of Selectmen, Glen Churchill, who had previously served on the Board of Selectmen and Board of Public Welfare, was elected to fill the vacancy until March 1964.

Many Clinics have been conducted in the Schools with the able assistance of Dr. Bannerman, Miss Gladys Farren, Public Health Nurse and Visiting Nurse Association.

Tuberculosis Skin Testing was completed on all persons in the entire school system.

Early in the year the Board adopted a Food Handler's program for all persons associated in any way with the handling of food. This program requires chest X-rays of each individual and Food Handlers Certificates for those employed in *all* facets of food handling.

A letter of complaint, signed by many residents in the vicinity of the Bridge Street Disposal Area was sent to Mr. Worthen Taylor of the Department of Public Health during the spring. It was necessary for Mr. Robert Garron, chairman of the Rubbish Disposal Committee and a member of this Board to confer with Mr. Taylor explaining the problem and the efforts being made to set up a Regional Disposal program with the Towns of Whitman and Hanson both of whom have a situation similar to ours.

A member of the Board has met with members of the Visiting Nurse Association and a member of the Selectmen to explore the possibilities of interesting General Practitioners of the Medical Profession to locate in East Bridgewater.

Appreciation is extended to all Boards and individuals who have assisted in many ways to resolve the problems facing all Boards within the Town.

DR. DONALD B. BANNERMAN, Chairman

GLEN CHURCHILL, Clerk

Inspector of Plumbing

Report of Park Department

To the Board of Selectmen and the Citizens of East Bridgewater:

We submit our report for the year ending December 31, 1963.

Gentlemen:

The Park Department has endeavored to maintain and improve the various facilities and functions entrusted to it. They are as follows:

Maintenance, mowing and cleaning, Memorial Park, Strong Field, Little League Field.

Flowers for Memorial Day at Memorial Park, care of flags at the Memorial Park and Strong Field, Christmas display at Memorial Park. The 1963 Christmas display at the Memorial Park was of a religious theme. The Madonna and child painting was done by Frank Wonson and loaned to the town through the courtesy of Mary Crompton.

A summer playground program is also operated for the benefit of the town children during July and August. We are pleased to report our facilities are being used and stretched to the breaking point. This past year found the High School starting their track and baseball programs in April at Strongs followed by two Babe Ruth teams of 34 boys, 4 teams of 80 Pony League boys, plus a Junior Legion Team during the summer months. The field has little time to recover from this blitz krieg when the fall football program commences.

The High School squad plus a Peewee football and Midget football league steps in and approximately 30 boys on each team take part.

Little League Field absorbs the brunt of two hundred boys. Twelve teams are playing on it from Spring to Labor Day.

Michael Roach allows the use of the Polo Field for Little League baseball and the school department allows the use of the grounds at the Central School. These do not come under the jurisdiction of the Park De-

partment. We mention these two fields, as without them, the Little League could not complete a full schedule. Acknowledgement and thanks are duly proffered for their use.

Once again the department wishes to thank Mr. John Kingman for his interest and devotion to the maintenance work above and beyond his remuneration, Miss Pamela Fisher for her interest and enthusiasm with the Playground Project, Jim Foley for his interest and efforts in scheduling and coordinating the different Leagues and existing facilities and the unseen and unsung fathers and friends who willingly, whenever asked to, facilitate, expedite and generally help these various programs to be successful.

Respectfully submitted,

THOMAS O'BRIEN

RALPH CONNORS

MAXWELL J. PEARSON

Park Commissioners.

Veterans' Services

To The Honorable Board of Selectmen and the Citizens
of East Bridgewater:

The year of 1963 has been one of historical achievements in our Country and yet one of tragedy in the loss of our beloved President, John Fitzgerald Kennedy. Our late President was one of the outstanding veterans of WWII.

Substantial increases for various services to our veterans and their dependents has been shown during 1963. Several factors are responsible for the demand for increased services. The continued growth of our Town, age, illness and deaths. A large savings to the tax payers of East Bridgewater has been made by the continued use of the facilities of the Veterans Administration Hospitals when ever possible. This service has been used by all of our veterans when needed. Again there has been a marked increase in the various types of social problems due to illness, unemployment and financial worries.

I am happy to report that in view of the large demand for increased services, we have been able to complete the year within our budget. In fact, we have made a substantial return of our budget to the Town. This has been possible due to money recovered by legal liens and assignments that amounted to over \$4,000.00.

During 1963 we have had 833 individual requests for various types of services in our department. This is due to many factors as stated but mainly to the increased population growth of the Town.

Substantially the same budget has been requested for 1964 though it is doubtful that it will be sufficient due to many factors, the chief of which is the recent increase in hospital rates and the expected increase in Nursing Home and Rest Home rates in 1964.

Our office stands ready to aid all of our veterans, and their dependents acquire their rights and benefits under the laws. You may contact our Department of Veterans Services during the day by a visit to the office or on Wednesday evenings between the hours of 7 p.m. and 10 p.m. or by calling DRake 8-2581 or my home at DRake 8-3168.

Respectfully submitted,

PHILIP E. CAREY

Director of Veterans Services
Veterans' Agent
Burial Agent
Graves Registration Officer

The Duties of Board of Health Agent

Determine the suitability of soil and area for subsurface sewage disposal system on each and every proposed building lot when application made for permit.

Layout required system as to location, elevation and specifications of size and material used.

Inspection before backfill to insure sewage disposal system properly constructed. Progress inspections are required in many cases and corrections when specifications not followed.

Complaints are investigated as well as requests for advice and sanitary engineering detail furnished to correct unsatisfactory conditions which have occurred at older homes built prior to permits being issued or any direct control by Board of Health—this dates back many years. All complaints to the Board of Health shall be in writing.

Proposed subdivisions are investigated by Agent for suitability of soil for proper subsurface sewage disposal systems within 30 days of receipt of Preliminary Plan from Planning Board. The result of deep trench soil investigation and percolation tests as well as contour of area are the determining factors. The findings and decision of Board of Health and Agent are contained in letter sent to Planning Board and Town Clerk. The subdivision is either approved or disapproved, if the latter, the reasons are so stated. If a subdivision is approved it is not

a blanket approval of all lots. Each lot is determined on individual merit and same system as detail contained in above first paragraph.

All sanitary inspections and duties of Board of Health constitute work of Agent as required or as planned program.

The presence of water in house cellars, low spots on property, defects in construction of cellars or houses are not the responsibility of Board of Health or its Agent. The proper installation of sewage disposal systems constitutes responsibility of Board of Health Agent.

SEPTIC TANKS SHOULD RECEIVE ANNUAL INSPECTION AND PUMPED OUT IF FOUND NECESSARY. ANNUAL PUMPING IS GOOD INSURANCE OF TROUBLE FREE SERVICE AND LONG LIFE OF SYSTEM.

DR. DONALD B. BANNERMAN, Chairman

GLEN CHURCHILL, Clerk

ROBERT H. HALL, Member

Board of Health

Civil Defense Report

To the Citizens of East Bridgewater:

It is a popular belief that if this country underwent a nuclear attack there would be nothing worth returning to when survivors came out of shelters. Available information does not support this pessimism. As for effects on agriculture, they apparently would be limited to the first year following the attack. The effect on domestic, wild animals, and insects would not upset the ecological balance of nature. The food problem during that period could be solved through the use of stockpiled supplies.

There is no question that a full scale attack would do enormous damage and take many, many lives. However, there is no reason for living with the delusion that all is lost if an attack comes. Just sticking our heads in the sand will only leave us fatally exposed.

I have attended special classes on Civil Defense administration at Bridgewater and Framingham, and I am convinced that a Civil Defense program oriented on fallout protection can reduce the number of fatalities resulting from a nuclear attack by millions. Civil Defense at the present time is an integral part of our over-all defense.

The present location of the Civil Defense Office and Control Center is at the Elmwood fire station. Because it does not have any protective factors necessary in case of a nuclear attack, these quarters should be changed within the next year.

Your Civil Defense Agency has started different programs that will offer some protection in case of a nuclear attack or national disaster. The program plans for the year 1964 have been approved by Area Headquarters and they will offer many more protective factors to our present status. Some of these are as follows: Medical self-help classes will be given to those citizens who are interested in First-Aid and Shelter Living. A Rescue Squad and a Radiological team will be inaugurated, adding much strength to our shelter program.

There are many openings for volunteers to work in the following fields:

- Shelter Management
- Rescue Squad
- Auxiliary Police
- Radiological Monitoring
- Radio Communications
- Medical Self-Help

For those who wish to attend classes and become specialists in any particular field, special Civil Defense classes are held in Topsfield, Natick, and Framingham. Volunteers should contact your local director.

I wish to thank the town officials, department heads, and all the townspeople who have assisted in the Civil Defense program, and for their continued support for the coming year.

Respectfully submitted,

ARTHUR H. HORTE, JR.,

Civil Defense Director.

Report of the Permanent School Building Needs Committee

To the Citizens of East Bridgewater:

This Committee was appointed pursuant to the vote of the Town of East Bridgewater under Article 42 of the 1963 Annual Town meeting, "for the purpose of determining present and future School Housing needs of the Town and to report its findings at least annually to the Town."

In carrying out this mission the Committee has continually been mindful of the long range economic, social and educational requirements of the Town of East Bridgewater, and its approach to the problem has been on the basis of deciding what might be best for the Town over the years rather than attempting to find a temporary expedient which is false economy and wasteful in the long run.

As a result of its research the Committee came to certain basic conclusions, and its recommendations to the Town are founded on these conclusions:

1. The Committee feels it has a duty to see that proper facilities are available to maintain high standards of education for the good of the Town.
2. We feel, after careful study, that the Town urgently needs to provide a Junior High School Program commensurate with the offerings at the Elementary and High School levels.
3. Provision must be made in the future for the procurement of land for "School Building Needs" as the Town is entering a phase of rapid growth which is likely to continue for many years. Suitable sites for school buildings are difficult to obtain and the Town should consider now, an acquisition program for future expansion.

After several meetings of our committee, including a tour of the available school facilities, and two meetings with the Massachusetts School Building Assistance Commission, we prepared an article to be included in the Warrant for the Annual Town Meeting in 1964.

The Committee urges your careful consideration of this article, as school building needs are constantly becoming more acute. With a pupil enrollment of over 1700, as of October 1, 1963, projected figures have had to be recomputed, and cannot be considered an accurate measure of the future population expansion likely to occur. We would like to stress the importance of the Town's approval of our article in order to keep pace with the growth, and avoid the future possibility of double sessions. It is our feeling that sound planning now can avoid an unsound educational future for East Bridgewater.

Respectfully submitted,

PAUL B. SNOW, Chairman

MARLA E. FISHER, Secretary-Treasurer

JOHN H. ALEXANDER

MICHAEL GUARINO

JAMES E. O'BRIEN

ENGINEERS' SURVEY

February 1, 1964

As directed by a vote of the Town on Article 45 in the Warrant of the Annual Town Meeting of March 4, 1963, a survey of the Town owned property has been completed by the staff of Hayward & Boynton of Brockton. (A plan of which accompanies this report.)

This survey was made at the request of the Finance Committee and in conjunction with the Board of Selectmen and Planning Board, who concurred on its need, with a view toward future building.

Permanent bounds have been established and the topography has been outlined. The cost of future building will be less the cost of this work, as it is a necessary part of all building.

The writer has been assured by the engineers that with draining and/or filling, most of the property is suitable for building. With the relatively high cost of land today, this property can save the Town thousands of dollars in future building.

Respectfully,

KARL S. NORDIN, Chairman

Finance Committee

Report of Health Agent for Year 1963

Inspection, percolation test and sewage disposal layout was made on each Lot when application made for permit for sewage disposal. Also inspection before backfill and progress inspections in many cases.

Complaints and requests for advice were promptly answered and corrected as soon as possible.

Money collected for septic tank permits and committed to Town — \$890.00 for 89 permits.

Inspection of eating and drinking establishments and markets were made on quarterly basis. Bacteria swab counts of eating and drinking utensils were made at time of inspection and recheck inspections as found necessary. School cafeterias are included in this program.

Laboratory analysis of milk and cream sold in town was made on quarterly basis. Analysis consists of butterfat, total solids, standard plate count, coliform count and Antibiotic residue assay.

Bacteriological water analysis of town supply was made and also Robins Pond swimming facilities and pond on West Street used for bathing during season.

Bacteriological analysis was also made of drainage water at certain points to determine if any sewage leaching involved.

Proposed subdivisions were investigated as to soil conditions and drainage to determine if Lots would be suitable for subsurface sewage disposal systems. Deep trench examination at 6 - 7 ft. depth is made as well as percolation tests.

Respectfully submitted,

PUTNAM STEELE, R. S., Agent.

Report of Town Treasurer

To the Board of Selectmen and the Citizens of the
Town of East Bridgewater:

The detailed list of receipts and disbursements are itemized in the Auditor's Report.

Respectfully submitted,

MARJORIE L. EATON,

Town Treasurer.

Report of the Industrial Development Commission

Honorable Board of Selectmen
East Bridgewater, Mass.

Gentlemen:

The members of the Industrial Development Commission have met throughout the year relative to the many Industrial sites available in the town and means of inducing industries to locate here.

Several companies have been contacted and some have shown varying degrees of interest but at the present time we seem to be lacking in some qualities which would make us desirable to the larger concerns.

Efforts have continued in preparation of a booklet describing the attributes of the community and will be published some time this summer. It is hoped that this publication will convince new industry to at least give us an opportunity to show them what we have to offer.

This Commission deeply needs the aid of all the townspeople if we are to be of any significant value to the community.

Once again may we pledge to do all in our power to project Industrial Progress to the community for the coming year.

Respectfully submitted,

WILLIAM COPELAND, Chairman

FOREST W. COUSINS

LAWRENCE W. HOWARD

GEORGE D. LEAVITT

RICHARD S. MANSFIELD

SCHOOL CALENDAR 1963 - 64

Fall Term	September 4 — December 20
Winter Term	January 2 — February 21
Spring Term	March 2 — April 17
Summer Term	April 27 — June 19

NO SCHOOL SIGNAL

- (1) 7:00 a.m. Whistle at Edison Plant. No school, all schools, all day.
- (2) Notices regarding "no school" will also be given over Brockton Radio Stations WBET and WOKW, Boston Radio Station WBZ and TV Channel 4.

SCHOOL ADMISSION AGE

A child who is six years of age on or before October 1 of the school year in which he is enrolled, may be admitted to grade 1. A birth certificate, giving satisfactory proof of age, must be presented before admission is complete.

MEETINGS OF THE SCHOOL COMMITTEE

Regular meetings of the School Committee are held in the High School Building the second and fourth Mondays of each month at 7:30 p.m.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of East Bridgewater:

I respectfully submit my seventh annual report as your Superintendent of Public Schools.

During 1963 school department personnel devoted their energies and talents in a cooperative effort to improve the quality of instruction and special services offered in the East Bridgewater Public Schools.

Problems of previous years remained with us during 1963. Improvement of instruction, rapidly growing school population, teacher turnover, building program, discipline, and the perennial "dropouts" enumerate just a few of these problems which are my concern today.

The past year found twenty-five new teachers, supervisors, and principals being hired — five of whom were needed to care for the increase in pupil enrollment. Teachers not retained, resignations, and retirement were also responsible for changes in personnel, as may be seen in the School Department Directory.

I believe we have been exceptionally fortunate this year in securing new teachers who are highly qualified by personality and recommendation to work with the young people of East Bridgewater. The Superintendent visited many colleges and schools and interviewed countless numbers of candidates for our teaching vacancies, and he feels that the new teachers represent some of the best teaching talent available anywhere.

During 1963 the School Committee adopted a new policy relative to school entrance age. In the 1962 Massachusetts Association of School Superintendent's Constitution and Reports on page 14 section 3 is stated the following: Entrance Age — "The entrance age for grade 1 should be six years of age in September and where grade 1 programs are supported by kindergartens, the entrance age for kindergarten should be five years in September." The East Bridgewater policy will accept pupils who are six by October 1 for grade 1 entrance.

Parents are urged to visit the schools at regular intervals or as often as necessary, to talk with the principal, the guidance director, or the teacher, as the case may be, about their children. We must always remember that the responsibility to educate the child to the optimum of his potential is the joint trust of both the parent and the school.

One of the most important undertakings of the school year is the self-evaluation of our high school in preparation for next year's evaluation by a visiting committee sponsored by the New England Association of Secondary Schools and Colleges. This self-evaluation and next year's evaluation should be an invaluable aid to the staff for future curriculum revision for growth and enrichment of our school in terms of its objectives.

In the pages immediately following will be found the detailed reports of the principals and supervisors.

I wish to express by personal thanks to the School Committee for their cooperation in matters of policy.

To all school personnel, the public library staff, civic organizations, and any others who have helped in our schools and for our children, may I say that I am truly grateful for your cooperation and dedicated service in our common cause.

Respectfully submitted,

STANLEY B. GOLDMAN,

Superintendent of Schools.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of East Bridgewater:

With the knowledge that the future of our town, of our state, and of our nation depends in the largest measure upon the quality of education provided in our schools, your school committee met in frequent session during the year to make such arrangements as would accomplish this goal.

In recognizing the fact that the primary duty of a school committee is to establish the policies by which the schools are administered, the members of the board worked diligently to revise and amend the long outdated policy that had been in effect. As a result of many hours spent in regular and special session, a policy was adopted in July of this year. Copies of this policy have been placed in all the schools and in the Public Library as a matter of record and reference.

Again this year we were faced with a pupil enrollment much larger than any projected figures or school census had indicated. The continuous, but unpredictable, growth of the population in our town constrains the committee to make only a reasonable estimate. The growth in pupil enrollment in Grade 1 alone was $33\frac{1}{3}\%$ greater than in 1962. Similar increases have taken place in other classes. The total increase in enrollment as of October 1 was 130. As a result, the budget items for teachers, supplies and bus transportation were greatly increased.

Transportation of pupils has been, and will continue to be, one of the difficult problems that your committee must resolve. It is the policy of our system that children in grades 1-6 inclusive, living one mile or more from the school which they attend and children in grades 7-12 inclusive, living one and one-half miles or more from the schools which they attend are eligible for transportation. Since many of the new homes are built beyond these limits, there has been a large increase in the number of pupils entitled to this service. Mr. William A. Luddy has worked with the Superintendent of Schools and the committee to keep this growing item of expense at the lowest possible figure.

The physical properties of the school department have been inspected by the members of the board and the administrative staff. The new addition to the Central School will be ready for occupancy in January, thus providing classrooms for all grades 1-5 in the same building. The replacement of panels and the painting of the trim at the High School was completed under the direction of Mr. Robert Allen, head custodian.

The walls at the Intermediate School have been repaired and it is planned that the stage and auditorium will be painted by the janitors in that building. The cooperation of the custodial staff in working on such large projects has reduced the cost of maintenance to a minimum. The committee would also like to recognize the saving in new equipment made possible by the work of Mr. Robert Eastman of the woodworking department and Mr. Roy Menard of the metal shop. The efforts of these two instructors have resulted in the acquisition of many more necessary items than the committee would have been able to purchase.

The teachers in the foreign language department have spent many hours visiting neighboring schools and colleges where language laboratories were being used. After evaluating the many systems available they recommended that the Thompson, Ramo, Wooridge Language Laboratory was the one best suited to the needs of the pupils in the High School. This system was installed in December and should prove of great value to the students and the members of the teaching staff.

Teachers in all departments and grades have continued to enrich and broaden the curriculum. Many of the instructors have conducted early morning, special afternoon or evening classes. These classes are held at the request of students seeking additional information, extra help, or assistance in the preparation for College Entrance Board Examinations.

It is sometimes possible to operate a school system with over-crowded classrooms or with a lack of sufficient equipment. The committee is fortunate in that the people of the town have provided adequate funds to satisfy these two needs. It is not at all possible to operate any system of education without an excellent administrative and teaching force. In an attempt to retain our present personnel and to attract new members whose qualifications are of merit, the committee has adopted a new salary schedule effective September 1, 1964 to September 1, 1966. This new schedule is a result of conferences with the Superintendent of Schools, the Teachers Salary Committee, and a survey of salary schedules in this area. Our town must be more than a training ground for the novice teacher; it must be a place where the children are provided with the best teaching personnel obtainable. The committee must be in a position where it can offer a salary schedule that will meet the standards of towns of similar size. To provide an inadequate salary schedule is, in effect, a waste of all other monies spent in the education of your children.

The school committee wishes to express its appreciation for the invaluable assistance given to the pupils and teachers in all grades by the Public Library. The task of providing proper reading material, research information and instruction in library procedure is great, but the importance of this work to all the children whether they are just learning to read or whether they are preparing for higher education is of inestimable value.

As the school system grows larger the number of problems increase in number and variety. The committee wishes to acknowledge the assistance given to them in the solution of these problems by Superintendent Stanley B. Goldman, the administrative staff, and the teaching personnel.

In June of 1963, Mr. Emery Loud resigned as principal of the High School. He had been in our system as teacher, vice-principal and principal for twenty-six years. Mr. Loud's keen interest in many areas will make certain his years of retirement will be pleasant ones.

Mr. Raymond A. Hamilton of Bradford, Vermont was elected by the committee as the new principal of the High School. His experience in administrative work and in teaching have contributed to the educational growth of our system.

Mr. John A. Geovanis, principal of the Intermediate School resigned in December to accept a position in the State Department of Education. He had been both teacher and principal for seven years. The committee extends their congratulations on his appointment as Supervisor of Education (Junior High).

The people of East Bridgewater are noted for their generous contributions of time, effort, money, and equipment for the education and entertainment of their school children. The committee is appreciative of the evidences of interest by the many organizations and individuals in our town.

The school committee meets each second and fourth Monday of the month in the committee room at the High School. These meetings may be attended by any citizen of the town. We welcome any constructive criticism and value suggestions that will help to provide the children with the best education possible.

Respectfully submitted,

William E. Curley, Chairman

Paul B. Snow, Vice-Chairman

Robert B. Alexander, Secretary

Marla E. Fisher

Brewster W. Fuller

Leslie H. Gould

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL

To the Superintendent of Schools:

There are 89 seniors at East Bridgewater High School this year. It is expected that about 156 incoming freshmen will replace them next September. This will necessitate two new teachers. Another teacher is needed presently in the mathematics and science area. One class now totals 43 students, down from 47 earlier in the year, and several other classes have more than 30 students. Most classes over 25 in number are to large for good teaching in daily classroom situations.

It is my hope that in the near future we may set up a special class within the high school which will operate concurrently with high school classes. This special class to operate both independently and with a work-

study program designed for those students who would normally drop out of school because high school offerings do not meet their needs. This will require another new teacher.

It is also my hope that we may be able to secure and organize Developmental Reading facilities and classes which would include the entire student population.

I would like to see a sum of money appropriated each year for the next few years for adequate development of the forty acres at the rear of the high school. Outdoor athletic and physical education facilities should be expanded for spring, fall and winter use to include tennis, archery, volley ball, baseball, football, track, basketball, swimming, field hockey, softball, skating and golf.

Meetings have been and are being held with various faculty groups with curriculum the main topic of discussion. Out of this, I expect a few changes to materialize in various areas of the curriculum.

Colleges are being more and more selective with each new year. East Bridgewater High School hopes to continue to meet college educational requirements and needs. College entrance scores continue to be vital as one indication of a student's potential in college, and nearly all major colleges require their applicants to take these tests previous to their acceptance into college.

It should be noted that past performance (the high school record) is the most reliable college indicator available and that it is very difficult to obtain favorable college recommendations from high school unless a student has earned at least a (B) average. Since this is a minimum, favorable recommendations to some major colleges require a much better academic average.

A few material changes occurred during the year when one third, one fourth and three fifth grade classes moved into the newly constructed addition at the Central School. A visual aids room was set up in room 104 next to the library. A 30 unit language laboratory was installed in room 206 and the language department moved into that area. The freshmen were then reassigned into the vacated rooms.

With the enrollment expected to exceed well over 500 students for the next high school year, it is hoped that department head appointments, authorized last year, will be completed in the near future. These department heads will be jointly responsible with the principal for a coordinated curriculum.

The shop department has been very cooperative in providing appropriate facilities and repairs for the school system. Over the years, thousands of dollars have been saved in this manner. During the past year, equipment for each school has been completed including athletic equipment, library shelves, bookcases, cabinets and the rebuilding and repairing of various items.

EVALUATION

The high school faculty has devoted one afternoon a week, since September, to organize self evaluation of the high school in accordance with the New England Association of Colleges and Secondary Schools accrediting plan. An evaluation of this nature requires a long (1-2 years) detailed and meticulous look at the whole high school program. It involves philosophy, facilities, curriculum, Guidance, library activities — all that goes on or is connected with the school. During each faculty meeting each committee has an opportunity to study a little more in detail about a particular area of the school. When all of the areas have been thoroughly studied, a visiting committee, composed of 10-20 educators will be assigned to come into the school and restudy the same areas. They will stay three days and make an extensive study of all phases of the high school. They then report their findings in writing in the form of commendations and recommendations. These findings are the basis for reference on continued improvement of the school. A satisfactory visiting committee report insures accreditation of East Bridgewater High School for ten more years. Two-year and five-year reports are required following the initial visiting committee report to insure satisfactory progress of the school. It is hoped that the East Bridgewater High School faculty will complete its self evaluation early next year and be ready for study by the visiting evaluation committee during 1964-65.

Various faculty members have improved their education by attending summer school, extension courses or workshops. They have also attended various conventions and professional meetings for self improvement.

My thanks to the many organizations and individuals who continue to favor education with awards and scholarships.

Parents of all students are invited to visit school at any time to discuss problems or situations in which they are interested.

REPORT OF THE PRINCIPAL OF THE INTERMEDIATE SCHOOL

Dear Mr. Goldman:

I am pleased to submit my final report as principal of the Intermediate School.

The Intermediate School currently has its largest enrollment and as of December 10, 1963 there are 619 pupils enrolled. A study of the steady enrollment growth indicates that increases are being experienced each year at all grade levels and it can be attributed to the steady expansion of home construction. To accommodate our pupils it was necessary to create an additional eighth grade class and to move a third fifth grade class to the high school building. At the first of the year the two remaining fifth grade classes will move to the new wing of the Central School. The moving of the fifth grade will allow a gain of one large room and a small room in the basement which can be used as a storage room.

With the exception of physical education which was reduced from two to one period a week, our pupils continue to receive the educational services essential to their education. New texts and educational aids are continually being purchased to keep our curriculum up to date. Our teach-

ers, although confronted with large classes, continue to expand and improve their courses of study and their methods of teaching. The modern mathematics program is in its second year and the pupils are responding favorably to the new approach to mathematics.

The teachers are available after school to provide pupils the opportunity for additional help, make-up work, and for parent conferences. Pupils who are deficient in a subject are encouraged to attend at least one afternoon session each week for additional instruction. Bus pupils are provided with elementary bus permission slips whenever the pupil remains after school for help.

Maintenance improvements on the physical appearance of the building have been made during the past year. Extensive plastering was completed in the auditorium stage and ante-room. The teachers room was painted and the floor was tiled. Three rooms of pupils' desks were purchased along with several teachers' desks. Minor maintenance projects were conducted by our custodians along with their general work. Although many improvements were made in the past five years, much has to be done before the building is completely brought up to date.

The annual sixth and eighth grade trips were conducted and our pupils appeared to have enjoyed these educational trips. The sixth grade pupils attended a showing of "Cinerama," and a tour of Logan Airport. The eighth grade toured the historical sites of Boston. The Commercial Club of East Bridgewater sponsored the sixth grade trip, and the local P. T. A. sponsored the eighth grade tour. In addition to our annual trips, the Science Club sponsored by Mrs. Ring, conducted many field trips in our area and to the Museum of Science in Boston.

Our pupils are offered the opportunity to participate in organized extra-curricular activities such as Science Club, Mathematics Club, Model Club, band, chorus, and intramural sports.

May I take this opportunity to express my sincere appreciation to you, to the other administrators, to the school committee, and to my building staff for the support and assistance extended to me not only for this year but for the past five years as well.

Respectfully submitted,

JOHN A. GEOVANIS,

Principal, Intermediate School.

EIGHTH GRADE GRADUATION

Intermediate School

June 17, 1963

PROCESSIONAL — Pomp and Circumstance Elgar
Intermediate School Band

SCRIPTURE READING — Psalm 90

REPORT OF THE PRINCIPAL OF THE CENTRAL SCHOOL

Dear Mr. Goldman:

I am pleased to submit the following report of activities of the Central School for the year 1963:

Enrollment totals remained fairly constant from January through June varying from 600 pupils in January to 608 in June. September enrollment showed a marked increase over former years with a total of 666 pupils on opening day. This increase was in the Grade One level — an increase of approximately 60 pupils over the previous year. This large enrollment in Grade One necessitated having two new first grade classes, thus making a total of seven first grade rooms. There have been five classrooms at each of the other levels. From September through December there has been a steady increase at each grade level so that our December total enrollment was 692 pupils. In order to meet the need for classrooms for Grade One in the Central School building, it was necessary to have a third grade class as well as the existing fourth grade class at the High School. Pending the completion of the addition to the Central School building, Mrs. Belknap's third grade has been located in the Auditorium and Mrs. Gray's third grade in the new library room.

There have been several new teachers added to our staff. In Grade One Mrs. Bette Murphy, Miss Carol Tusen, and Mrs. Sheila Katz have been added. Miss Wendy Hyman in Grade Four and Mr. Paul Laincz, art teacher, also joined our faculty. Unfortunately, Mrs. Sutcliffe, music teacher, resigned for health reasons in October. Mrs. Helen Curley also resigned her position. We regretted the loss of her services in Grade One.

Many adjustments have had to be made to meet construction needs as the Addition has progressed. The first concrete was poured on January 4, 1963. Although there has been considerable interest observing the construction work, there have, also, been the accompanying sounds and noises that have been annoying. Plaster and concrete dust, odors, re-routing of lines, etc. have all been tolerated very admirably by pupils, teachers, and other personnel. There have been many conferences concerning different phases of the construction and relative to equipment, furniture, and supplies.

Beginning early in January and extending through May, the teachers of Grades Three and Four along with several teachers of Grades One and Two attending a course in modern mathematics each Wednesday at Bridgewater State College. Curriculum study in mathematics has been carried on with various committees of teachers and administrators during the year. An arithmetic committee for the purpose of co-ordinating arithmetic in Grades One through Twelve was organized in November.

During the year when our Auditorium was not being used as a classroom, many splendid assembly programs were presented at each grade level for the enjoyment of both pupils and parents. All pupils have

the experiences of being good listeners in the audiences as well as active participants in the assemblies.

In co-operation with the training programs of the State Colleges, students were given opportunities to do practice teaching at the Central School. Miss Nancy Driscoll from Boston State College was a student teacher in Grade Three under the direction of Mrs. Marion Hogue from February 5 to April 3, 1963. Miss Driscoll taught, also, in Grade 4 from April 3 to June 5 with Mrs. Yvonne Forbush. From September 16 until November 15 Miss Ann Liimatainen from Bridgewater State College was a student teacher in Grade Three under the guidance of Mrs. Ruth Gray.

The Parent Teachers Association donated a phonograph and aquarium supplies and pumps to the school for classroom use. The P.T.A., also, sponsored square dancing classes each Friday evening beginning in March for the pupils of Grades Three and Four. We appreciated the generosity and co-operation of the members of the P.T.A.

Individual pupil needs have required many conferences, special periods of instruction, testing, and specific guidance by parents, teachers, and administrators. Binet and speech tests have been given to several pupils by Mrs. Gray and Mr. Murray. Miss Bond of the State Department has given physical therapy. Mr. Anthony DeLeo, State Special Education Supervisor, has been helpful with special instructional needs of certain pupils. It has been our objective to meet the needs of all our pupils through the services of all available sources.

There have been numerous special trips and activities by various classes throughout the year. Several groups have visited the Public Library for instruction and stories by Miss Rosemary Coleman. Miss Coleman has visited classrooms to tell stories on several occasions.

Subject matter areas have constantly been studied and revised. More emphasis has been given to the development of the science and reading programs. Teachers have given much thought to the presentation of science concepts and accompanying activities at each grade level. Ways to improve our reading program have been discussed with consultants. Teachers have reviewed many of the new texts available to study the strengths and weaknesses in each book. Weekly staff meetings have contributed to the general policy understandings in these areas. Plans have been discussed for a suitable physical education program since the present cafeteria has been designated as a future play area.

Registration Day was held on June 5, 1963. Grade One teachers registered 162 children on that day.

A smoother and happier adjustment to first grade was made possible by the dismissal of Grade One pupils at noon through September 27. Also, our new first grade teachers had an opportunity to become better oriented to the program and to discuss problems at meetings held during the afternoons.

Mrs. Eleanor Ellis and her staff have worked diligently to provide a Type "A" lunch program since September. Because the cafeteria was used as a classroom, it was necessary to arrange a temporary kitchen in the

Art Room. Bag lunches have been prepared under these makeshift conditions in order to serve lunches to the pupils. Pupils have had to eat their lunches in the classrooms except when there was satisfactory outside eating weather in the early fall months. The kitchen staff, teachers, and pupils have co-operated creditably and should be commended.

Conference Day and Night were observed on November 19 and 20. Again teachers were busy the entire day with closely scheduled meetings with parents. These conferences, along with mid-term letters have been designed to keep parents and teachers in contact with the accomplishments and needs of the individual pupil so that a joint effort could be made by home and school for the best interests of the child. Throughout the year many parent-teacher conferences have been arranged at 3:15 P.M. so that parents could talk to teachers if they desired to discuss a child's progress.

To our teachers for their splendid co-operation and to all school personnel, parents, and other persons and organizations who have helped in many ways to develop a good educational program, I am grateful.

Respectfully submitted,

RALPH V. MURRAY,

Principal Central School.

REPORT OF THE MUSIC SUPERVISOR

To the Superintendent of Schools:

It is my pleasure to submit the following report of musical activities for the period in which I have been Supervisor of Music, September 1, 1963 to December 31, 1963.

The music program has three basic parts: Instrumental, Vocal, and General Classroom Music.

INSTRUMENTAL MUSIC

The foundation of any high school band program begins with elementary school student development. Class lessons for beginner students in grades four, five and six take place on Saturday morning. There are now 55 pupils enrolled in classes and four more studying with private teachers. This is a very promising program.

The Elementary Band is composed of fifth and sixth graders who have had at least a year of experience on their instruments and are able to play band music more advanced than the beginners could be expected to learn. This group numbers 24 and meets once a week. This should be increased but the present staff has no further time available.

The Junior Band has 33 members meeting twice a week. One rehearsal is after school on the students own time. This group is making rapid progress. The instrumentation is being improved by the conversion of several players to instruments not presently in the band and by recruiting students with previous experience who have resigned over the last few years.

The School Committee has made available a sum of money to repair the necessary school-owned instruments to improve band balance. This will benefit the Junior Band immediately, and as these students advance to the high school, our musical growth will be quite significant.

The Senior Band is composed of senior high students only. This 36 member unit meets three times a week as a scheduled class. All the members are participating in small ensembles as well as the full band program. The band has been very active playing for football games, rallies, the American Legion sponsored Essay Contest, and the Christmas Concert; all with new music. Their musical growth over the last four months of 1963 was most rewarding. Four students from this band were selected, after auditions, for the Southeastern District Festival of the Massachusetts Music Educators Association. Two of the four were recommended for Massachusetts All-State Festival.

The Majorettes are now under the supervision of the band director. These nine girls contributed a considerable amount of time preparing sparkling performances for football game half-time and street marching shows.

VOCAL MUSIC

At the present time there are only four vocal groups in the Music Department. This is rather inadequate but only an increase in the music staff can provide more opportunity.

At the Intermediate School there is a boys chorus and a girls chorus, each meeting twice a week before school in the morning. This limits the groups considerably due to the early hour and transportation problems.

In the High School, I direct the Choraleers which is a selective mixed choral group of sophomores, juniors, and seniors. There are 49 students participating and they rehearse twice a week. The Chorus is open to all high school grades and is under the direction of Mr. James Goodwin. There are 100 voices in this group which meets twice a week. The work done by Mr. Goodwin is especially appreciated when one considers that he teaches this group in addition to a full teaching schedule in the history department. The group could not exist except for his efforts.

Four students were selected by auditions for the chorus of the Southeastern District Festival of the Massachusetts Music Educators Association and three were recommended for All-State.

GENERAL CLASSROOM MUSIC

The Music Department regrets the resignation, due to ill health, of Mrs. Marion Sutcliffe, who was employed for the elementary general music classes. Now 32 classes in grades one through six have no music specialist for a weekly visit to their classroom. Every effort is being made by the administration to find a replacement for this important position.

At the Intermediate School seventh and eighth grade general music classes meet twice a week. Five divisions for each grade make this a very demanding class schedule. Each class studies music history, sings, and participates in listening activities in order to give each student a chance at something he can do well. Success will be the gateway to enjoyment and perhaps valuable leisure time pursuits in the future.

Student interest in music activities at all grade levels is encouraging and student general ability is rather high. High School students have participated vocally and instrumentally in S.E.M.S.B.A., District, All-State, and New England Festivals. Brockton and Whitman Orchestral Societies and the Boston Youth Symphony have counted East Bridge-water students among their members in the past year.

The custodians of the High School and the Intermediate School have moved many pieces of equipment and staging for the Music Department and its programs and this assistance is very much appreciated. Of particular note is the inventive genius of Mr. John Curley who has provided several unusual items for this past year.

I wish to express my sincere appreciation to you, Mr. Goldman, and to the principals of each school for their countless hours of advice and assistance in helping shape a substantial music program for our students.

Respectfully submitted,

JOHN L. SCHULLER, JR.

Music Supervisor.

REPORT OF THE ART SUPERVISOR

Dear Mr. Goldman:

We are pleased to report a continuing growth and development in the Art Department. Our student enrollment is on the increase, and our expanding service to the young people of the community continues to match their ever broadening desire for fulfillment and enrichment in art and the cultural pursuits. That segment of our school population whose desire and needs for fulfillment requiring a broad enrichment program must be expanded. The need of our school population requiring preparation for entrance into schools of higher learning—both in Art and in other fields—accentuate the ever increasing need for professional and vocational secondary training by the teaching staff of the Art Department.

In keeping with these needs, Mr. Goldman, we feel that the immediate future requires prompt attention to certain items within the Art Department.

At the High School level, graded classes are a must. Such commonly accepted procedure has the consent of our Board of Education, and we feel confident that the next academic year, with the full cooperation of the Guidance and Administrative Staffs, will see this a reality. Our High School facilities have reached capacity, and pressure from the student body for increased enrollment presents a serious problem. Service, storage, teaching, studio, and audio-visual areas must be increased.

Our Junior High School level finds the same pressure for expanded service. We have increased our storage space in our Junior High Art Room, but this same room now needs to be devoted strictly to art purposes, and under no circumstances should be used as an overflow classroom. The program for Junior High—to bring it up to comparable current practices—should be offered on a five day per week basis. In addition to this there should be offered—perhaps on a part-time basis to start—Mechanical Drawing as well as Art Appreciation. Both such courses at this level are on a full-time basis in other systems. We sincerely feel that these are necessary in order to give our young people a further broadening and experience prior to high school enrollment.

Art for our Elementary System should further undergo additional changes. Offerings of Art by a trained professional on a thirty minute per class per week basis are most inadequate. Doubling the time would be more nearly correct.

In conclusion, we look forward to the happy solution in the immediate future of these problems by our always competent Board of Education, and wish to thank them and yourself, Mr. Goldman, for your fine cooperation and support this past year. We also wish to commend the efforts of the newest member to our Art Department, Mr. Paul C. Laincz, whose expert teaching and fine efforts have been sincerely appreciated this year.

Sincerely,

ALBERT H. STEVENS,

Art Supervisor.

REPORT OF THE DIRECTOR OF GUIDANCE—1963

Dear Mr. Goldman:

I would like to submit to you the Guidance Report covering the period of September 1963 — December 1963.

The future is of great interest to all of us. In view of today's pressure and tensions careful planning is essential. For example, not everyone should plan for four years of college. College is for those students who wish to pursue knowledge and derive satisfaction from learning. Some students prefer to work with their hands and vocational school is the answer for them. Whatever their choice, it is evident that some type of training beyond high school is becoming increasingly important. Therefore high school programs must be chosen with concern on the part of the student and his parents.

The record of a student's years in citizenship, academic achievement and out-of-class activities remains a permanent one and a reference for the years ahead. The record is always available when schools, colleges, the Armed Services, the professions and the business world look for information concerning a high school career.

Guidance, therefore, is concerned with the students choice of studies, and how these studies most satisfactorily meet his own interests and abilities. With correct basic decisions made, a student may earn a good high school record which will serve him well in the future.

In October of this year the Work-Study program was initiated. The main purpose of this program is to provide an opportunity for students over sixteen years of age to continue their education and, at the same time, gain work experience under guidance. Students participating in this program attend school in the morning and in the afternoon they are employed in the community at not less than current minimum wages. To qualify for credit, a student must have his type of work approved by the school and must have a minimum of twenty hours per week on the job. Work-Study grades are recorded on the report cards in the same manner as any other course. No credit will be given if an employer reports that the student's work is unsatisfactory, or if the program is not carried through the entire year.

The testing program has been re-evaluated and the following tests have been given this school year.

Seniors:

Massachusetts Employment Service Test
College Entrance Examinations

Juniors:

Preliminary Scholastic Aptitude Test
National Merit Scholarship Examination

Sophomores:

Differential Aptitude Test

Freshmen:

National Educational Development Tests

Grade Eight:

The Science Research Associate Placement Test, which covers the areas of science, math, and Language abilities. These tests are standardized on local norms, thus they will assist the students, teachers, and parents in the selection of high school courses.

Our follow-up study of the Class of 1963 shows the following results:

Attending four-year colleges	23
Junior Colleges	9
Preparatory Schools	6
Nurses Training	7
Business Schools	3
Post Graduate, E. Bridgewater High School	1
Labor Market	19
Armed Services	8
Marriage	4

This year the results of the follow-up study of our graduates show that 55% of our graduates are continuing their education beyond high school.

There are several areas that require consideration in the new year:

1. A high school class for students of limited abilities whose needs are not met in the current curriculum.
2. A Reading program to cover two areas; Remedial reading and Development reading.
3. More trained guidance personnel to aid all levels in the school.

As I conclude this report I cannot but be grateful for the experience and privilege of working with a truly professional and dedicated teaching staff and administration. I sincerely thank them all for their cooperation.

Respectfully submitted,

MARY C. ANDERSON

REPORT OF THE DIRECTOR OF ATHLETICS AND PHYSICAL EDUCATION

Dear Mr. Goldman:

It is with pleasure that I submit the following report for the year of 1963.

PHYSICAL EDUCATION

Throughout the year the department was directed toward the attainment of a high level of physiological development by all participants.

The lack of critical concern for the average and sub-average student has been one of the major shortcomings of too many physical education programs.

The East Bridgewater Physical Education Program is attempting to meet this and other objectives. One of our most important aims is the all-out pursuit of physical excellence by all students. Another goal is the appropriate recognition of the attainment of this excellence through the use of a unique uniform color system with a high degree of development in the basic areas of strength, endurance, power, agility, flexibility and balance.

Intense training for peak performance in these areas is a fundamental principle of the program. Training techniques which promote the ability to sustain under physical pressure is another important factor of this program. Development of desirable aggressive response patterns and skills in a wide variety of specialized units (tumbling, apparatus work, gymnastics, trampoline, wrestling) form another phase of this program.

The development of the land at the rear of the high school should be an immediate objective. The lack of such outside facilities has placed a limitation on our fall and spring activities.

Increased enrollment at the Intermediate School is showing its effect by reducing our indoor facilities because of the great number of students in each class. An addition of two instructors of physical education would alleviate this problem and would allow us to expand the program to the Central School.

The "highlight" of 1963 in the Athletic Department was the achievement by the cross-country team who became the Class "C" South Shore Champions. This team was coached by Edward Meaney.

Our interscholastic activities include the following athletic teams: Fall season — girls — field hockey, boys — cross country - football. Winter season — girls — basketball — boys varsity and freshman basketball. Spring season — girls — softball — boys — track and baseball.

The new coaching appointments were as follows: John Collins, assistant coach of football and basketball, Albert Kjellerstedt, coach of

freshman basketball, Vincent Malewicz, coach of baseball, Edward Meaney, coach of cross country and track, William Troy, assistant coach of football.

CONCLUSION

Again we wish to express our sincere appreciation to all members of the community, parents, school committee, superintendent of schools, principals, teachers, school personnel and others who faithfully and willingly serve the children of our schools.

Sincerely yours,

VINCENT J. MALEWICZ,

Director of Physical Education and Athletics.

REPORT OF THE SCHOOL NURSE

Dear Mr. Goldman:

I submit, herewith, the annual report of the school nurse for the year ending December 31, 1963

School visits	537
Special attention to	1911
First aid care to	1316
School injuries requiring surgical attention	17
Pupils recommended for exclusion	303
Ill and injured pupils transported	54
Pupils referred to the school physician	55
Pupils referred to their family physician	75
Interviews with parents	737
Massachusetts Vision Test (School year 1962-1963)	
Pupils tested	1642
Pupils retested	102
Old defects 49 New defects 38	
Pupils wearing glasses	445
Notices sent to parents	68
Pure-Tone Audiometer Test (School year 1962-1963)	
Pupils given the group test	1144
Pupils given an individual test	206
Old defects 17 New defects 5	
Notices sent to parents	7

Physical Examinations	
Pupils examined by the school physician	422
Pupils examined by their family physician	37
Pupils referred by the school physician for further diagnosis and treatment	33
Registration for entering Grade One	
Registration list	206
Social histories returned	198
Medical forms returned	194
Family Physician	175
School Physician	19
Vaccination certificates	206
Birth certificates	206
Communicable Diseases	
Chickenpox	38
German Measles	29
Measles	3
Mumps	36
Scarlet fever	85
Whooping cough	6
Immunization Program	
Diphtheria-Whooping cough tetanus series	1
Diphtheria-tetanus booster inoculations	337
Sabin oral polio vaccine (make-up clinic)	
Pupils given Type I	193
Pupils given Type II	91
Pupils given Type III	150
Tuberculin Test Follow-up	
Pupils who had positive reactions to Heaf Test	51
Positive reactors x-rayed at mobile unit	41
Positive reactors X-rayed privately	10
Essentially negative for TBC	51
Other activities	
All pupils weighed and measured	
Meetings and conferences attended	
Future Nurses Club of East Bridgewater High School organized un- der the direction of Mrs. Robert Alexander.	
Assistance given Miss Farren at polio clinics and with Christmas donations.	
Classroom inspections made	

My sincere thanks for the assistance and cooperation I received in carrying out the school health program.

Respectfully submitted,

BARBARA A. LIGHTFOOT, R.N.

School Nurse.

REPORT OF DENTAL HYGIENIST

Dear Mr. Goldman:

I herewith submit the following annual report of the School Dental Department.

The pre-school dental examinations conducted in June, 1963 were as follows:

Fifty-nine examinations
 Thirty showed no defects
 Twenty-five needed dental work
 Four had dental work started.

In September, 1963, 1294 pupils in grades 1-8 were examined by Dr. Fraser, using type four method (dental mirror, explorer and adequate illumination). These reports were sent home for parents' information and signature. They were returned to the dental office to be recorded in the dental health department records.

The results of these examinations were as follows:

Mouths in good condition, grades 1 - 8 — 397
 884 Prophylaxis were done in grades 1 - 6 and 8
 814 Sodium Fluoride treatments given.

Instructions in dental health and tooth care have been given at the dental chair and in the classrooms, with dental health education material provided by the dental department.

All requested dental work in the Thursday morning clinic was completed for first and second grade pupils.

A monthly report of dental clinic work was given to Mr. Goldman.

The fees for dental clinic work by Dr. Fraser were paid in the Central School Office.

This year's study by the Dental Hygienist has included:

The Annual mid-winter Education Course by the Mass. Dental Society
 Boston Dental Convention in May
 Monthly meetings of South Shore Dental Hygienist Society
 Refresher course at Forsyth Dental Inf. Boston, during the month of July, 1963.

I wish to thank Dr. Fraser and all school personnel for their co-operation with the School Dental Program.

Respectfully submitted,

BLANCHE H. FLINT, R.N., R.D.H.

REPORT OF THE SUPERVISOR OF CAFETERIAS

Dear Mr. Goldman:

I submit herewith my report for the year 1963, that is, from September 1963 as Mrs. Matthews left the Program at the end of August.

We have been working under difficulties in all schools since September. By New Year's we hope everything will be in order. Personnel have been shifted to accommodate each school, part-time workers have been employed. The pupils at the Central School have been serving bag lunches with as balanced a menu as possible. The work has been done in a temporary "kitchen". The workers have been most cooperative; Mrs. Ellis is to be congratulated.

We plan on serving at least 700 "A" plates per day from the new kitchen. I will set up menus planned to serve the same type of food in each school every day, which will simplify meal planning at home for families with a student in more than one school. Menus at the High School may vary at times.

Our balanced meal is called the "A" plate which consists of two ounces of protein, $\frac{3}{4}$ cup serving of two or more vegetables or fruits, or both, one slice enriched bread, two teaspoons butter and $\frac{1}{2}$ pint whole, unflavored milk. A Vitamin C food should be included daily and a Vitamin A food twice a week. This meal will provide $\frac{1}{3}$ of the daily requirements for good nutrition.

The price of the meal is 20c in the Central School and 25c in the Intermediate and High Schools. Adults have the privilege of participating in the program but must pay a price that includes the rate of reimbursement over the student charge. Our rate of reimbursement is 9c for each "A" plate and 4c for each carton of milk in the Special Milk Program. Cost of milk only, to student, is 3c and to adults 8c.

Each month we receive government commodities. Typical allowances per child are $\frac{1}{2}$ lb. butter per month, $\frac{1}{3}$ lb. processed cheese, $\frac{1}{4}$ lb. natural cheese, $2\frac{1}{2}$ oz. dried eggs, $\frac{1}{4}$ lb. dried milk, 2 lb. flour, $\frac{1}{4}$ lb. rice, $\frac{1}{2}$ lb. corn meal, etc. Some months we are offered turkeys, chickens, ground beef, also canned commodities such as peaches, tomatoes, sweet potatoes, green beans, and corn. Our November order was exceptionally large and was valued at \$1,750. Commodities are controlled by inventory and pupil participation. Our participation average has been 60% so far this year, this will rise when we start serving hot lunches at the Central School. For the month of November we served an average daily of 1057 hot plates and 548 in the Special Milk program. This involved a purchase of 25,000 $\frac{1}{2}$ pints of milk for this short month of 16 days.

Several managers and workers attended the Conference of Cafeteria Workers at Mattapoisett with me on October 25th. Among those

going were Mrs. Eleanor Ellis, manager of the Central School, Mrs. Grace Carl, manager of the Intermediate School. Workers attending were Mrs. Helen Bruni, Mrs. Lucille Cruz, Mrs. Eileen Dodge, Mrs. Jennie Mayer and Mrs. Pauline Wood.

I did not urge the observance of School Lunch Week in October due to the crowded conditions as we would not have been able to accommodate parents. We observed United Nations' Day and Hallowe'en with special menus. Our annual Thanksgiving Dinner was served in the Intermediate and High Schools.

I wish to thank my staff for their cooperation and understanding during my first few months as their Supervisor.

Respectfully submitted,

MILDRED SISCOE,

Supervisor of Cafeterias.

AGE-GRADE TABLE—October 1, 1963
